Fleet Management Solution

Where we are today

- 133 buses including spares and activity
- 10,000 miles daily

Challenges

- Radio GPS is limited to line of site.
- Limited functionality of current tool.
- Collection of accurate data
- Knowing where buses are in emergencies
- Location of buses on trips out of BCS.

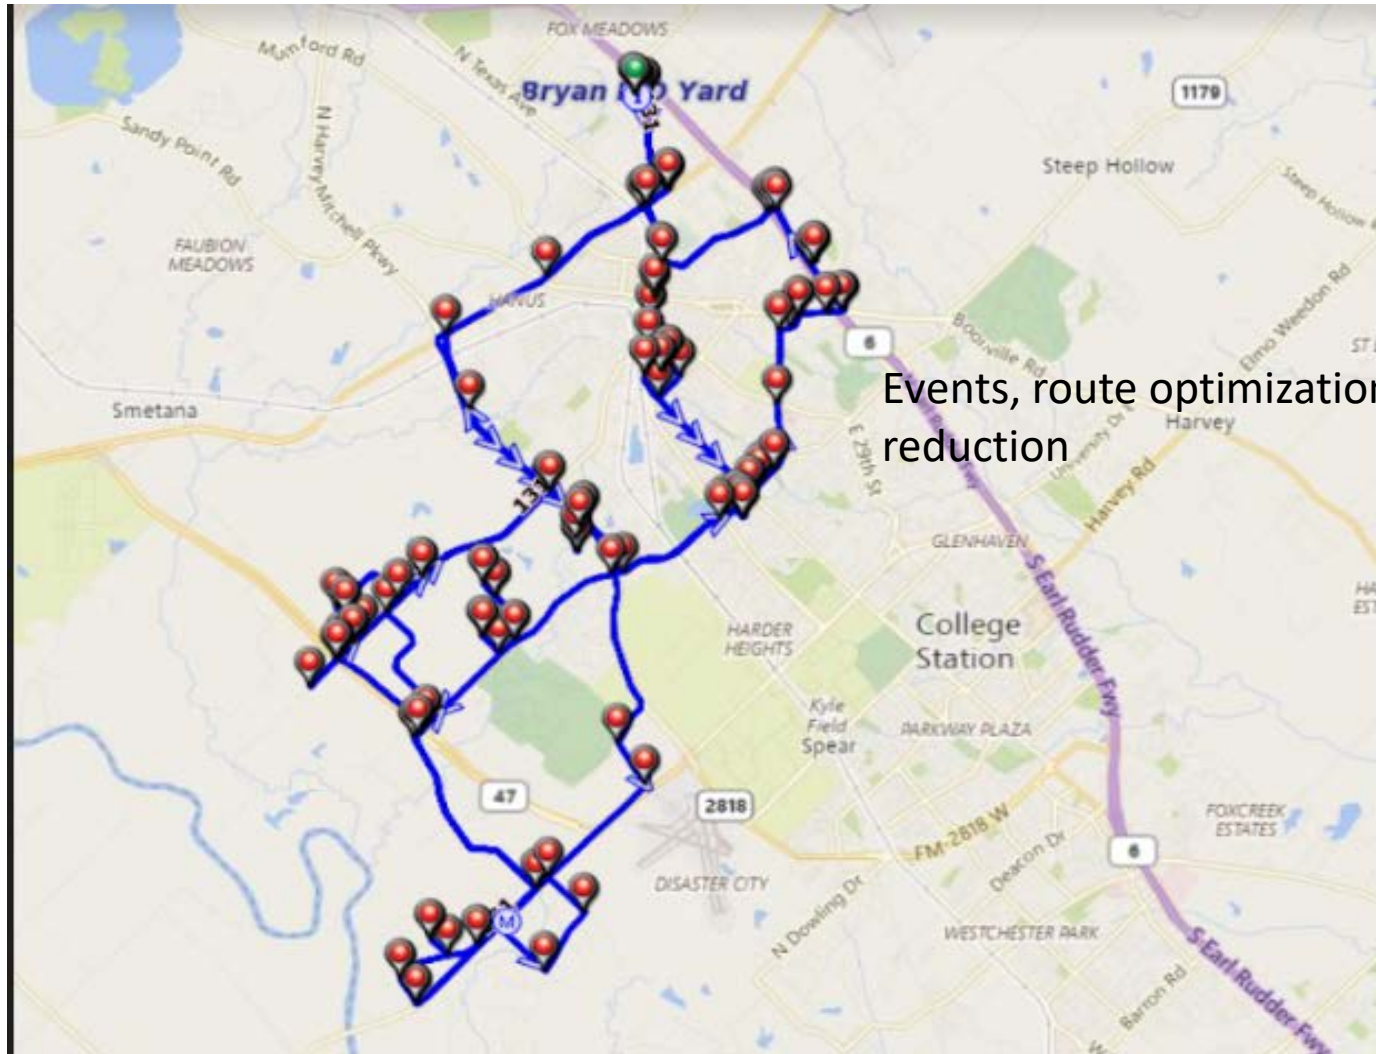

What We Gain with Zonar

- Ability to monitor telemetrics & make data driven decisions.
- Create and Improve Key Performance Indicators
- Driver Accountability
- Long term cost savings (idling & off route)
- Accurate routes (planned vs. actual)
- Peace of mind (find bus location anytime anywhere.)

CHILDREN FIRST. ALWAYS.

bryanisd.org

Events, route optimization, risk reduction

Potential Cost Savings

- Excessive idling currently between 40-50k yr.
- Matching route time to time clock to maximize operational efficiency.
- Risk/liability reduction

Customer Satisfaction with Safe Stop Mobile App

- Parents & campus personnel will know to the minute when the child's bus will arrive AM & PM.
- Mobile App Tool for parent notification.
- Mobile App will identify underused stops.

CHILDREN FIRST. ALWAYS.
