

We, the Speakers and Presidents of the Faculty Senates/Councils of the Texas A&M University System, collectively believe that compelling employees to share confidential health information protected by law under HIPAA with a third party, for-profit vendor, is fundamentally wrong and violates principles of protection of private information of the employees.

Be it RESOLVED, that Speakers and Presidents of the Faculty Senates/Councils of the Texas A&M University System call upon the Texas A&M University System Health Care Plan to remove the new requirement for completion of the MyEvive Health Assessment in order to receive credit for the Wellness Premium Incentive.

Approved on Friday, February 22, 2019 by the following Speakers/Presidents:

Julie Harlin, Texas A&M University

Beverly Copeland, Prairie View A&M University

Claire Angelique Nolasco Braaten, Texas A&M University-San Antonio

Elizabeth Janzen, Texas A&M University-Kingsville

Freddie Davis, West Texas A&M University

Richard Parsons, Texas A&M University-Texarkana

Stephen Starnes, Texas A&M University-Commerce

Pam Winn, Tarleton State University

Frank Spaniol, Texas A&M University-Corpus Christi
