

Consent Item 5d
Resolution to Execute
TXDOT AFA – Woodville Rd.

Construction of Roundabout at US190/SH6 overpass at Woodville
Including utility improvements along US190/SH6

June 11, 2019

Background

- Due to TXDOT Right of Way for the Woodville Road overpass with State Highway 6 being so large, the roundabout proposed with the Woodville Road improvements will fall within TXDOT jurisdiction.
- Additionally the utility work along SH 6 is covered by this agreement.
- This agreement covers the work within TXDOT's Right of Way.

Scope of Work

- Major roadway improvements include:
 - roadway profile adjustments
 - median work at the roundabout
 - curb and gutter, sidewalks, roadway drainage improvements
 - metal beam guard fence, pavement markers, and ancillary construction
- Utility work included in this project include:
 - replacing the sanitary sewer along US 190 West Frontage Road from the East By-Pass lift station to Woodville Road, then along Woodville Road to Old Hearne Road
 - replacing the water line from Laura Lane at US 190 West Frontage Road to Woodville Road and then from frontage road to Woody Lane

Estimated Costs

The AFA in this case does not include transfer of funds between TXDOT but merely authorizes the work to be done by the City within TXDOT Right of Way

- Right of Way - \$20,563
- Engineering - \$142,200
- Utility construction - \$1,493,745
- Roadway construction - \$2,439,195

Staff Recommendation

- Staff recommends passing the Resolution authorizing the Mayor to execute this Advanced Funding Agreement with TXDOT in order to have authorization to construct roundabouts and utility improvements proposed with the Woodville Road Project within TXDOT right of way.
- This AFA will need to be in place prior to starting construction on the project.
