Project Flagship

- Local biologics company conducting national site search for the location of new specialized therapeutics manufacturing facility
- Competitive site location process; Brazos Valley one of two locations under consideration
- Estimated timeline: Q4 2021
- BVEDC and community partners have been engaged with the company to position Brazos Valley as location for project
- Strong fit with community assets and talent pipeline

Vicinity Map

Proposed Project Location

Benefits to Our Community

- Creation of 150+ new jobs; average wage above the county average
- Expansion and diversification of the local tax base
- Additional life science career opportunities within the Brazos Valley to retain young talent
- Further reinforce the Brazos Valley's biotechnology cluster
- Increased opportunities for collaboration with other local life science companies in the Brazos Valley
- Strategic asset for the State of Texas
