

# The Bryan ISD Virtual Academy

October 4, 2021

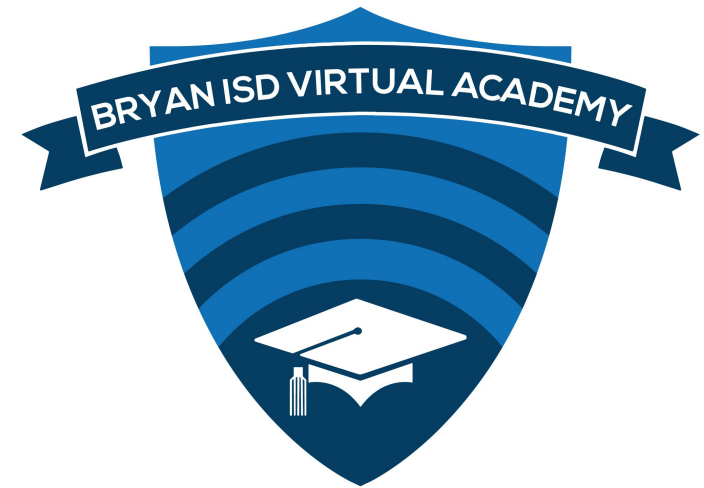

# Limitations

- State and National Teacher Shortage
  - Houston area schools reporting hundreds of vacancies.
- Limited student interest in a full-year commitment
- Current staff are fully engaged with learners during the school day - legislation does not permit simultaneous instruction
- Many current staff are working additional hours to hold tutorials to support students with unfinished learning.

# Re-evaluate for Potential Opening Fall 2022

- Maximize the efforts of current staff
- Allow current staff to be considered for virtual teaching positions
- Opportunity to explore partnerships with surrounding districts - much like CTEC
