Assessment Administration Changes for 2022-2023

- Transition to 100% online assessment by 2023 (HB 3906)
 - Bryan ISD has been testing online since 2021
- Change in the testing windows
 - This change will result in different STAAR/EOC assessment dates across the state

2023 State Assessment Testing Windows

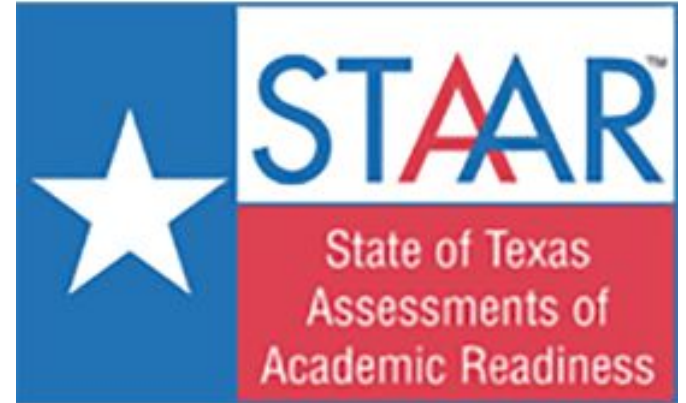

April 18 - 28	English I EOC English II EOC	3-8 Reading/Language Arts STAAR
April 25 - May 5	Biology EOC US History EOC	5 & 8 Science STAAR 8 Social Studies STAAR
May 2 - 12	Algebra I EOC	3-8 Math STAAR

Assessment Construction Changes for 2022-2023

STAAR redesign was authorized by HB 3906 in 2019 (86th Texas Legislature):

- Reading Language Arts (RLA) Redesign
 - Incorporate writing in every grade assessment
 - Include cross-curricular reading passages that cover content taught in other subjects
- Limit multiple choice questions at 75% of test questions
 - Beginning in 2023, STAAR assessments will include Technology Enhanced Items
 - Bryan ISD has been using these new item types for local assessments since 2021

Technology Enhanced Items

	Math	Science	Social Studies	Reading
Multipart - provide a response and a justification		✓	✓	✓
Multiselect - select more than one correct answer	✓	✓	✓	✓
Constructed Response - provide a written response	✓	✓	✓	✓
Drag & Drop - select and drag text/object to a different location	✓	✓	✓	
Hot Spot - select 1 or more areas from an image	✓	✓	✓	
Inline Choice - choose from a drop-down list of options	✓	✓	✓	
Text Entry - enter a numeric quantity, word, or phrase	✓	✓	✓	✓
Highlight text - highlight text from a given passage			✓	✓
Graphing - plot on coordinate plane or number line, create bar graph	✓			

Accountability System Changes for 2022-2023

- 2022-2023 has been designated as an accountability reset year by TEA
- All accountability system methodology will be reviewed and potentially revised by TEA
- Targets and cut points will be updated based on 2021 and 2022 data

Bottom line: These changes will make it impossible to compare next year to prior years with any reliability. Ratings may increase or decrease without any actual change in performance.
