

Notice
Public Meeting
BS 36J (S Day Street) Raised Medians
From West Stone Street to US 290
CSJ: 0187-01-054
Washington County, Texas

The Texas Department of Transportation (TxDOT) – Bryan District is developing plans to improve safety along BS 36J, also known as S Day Street, from W Stone Street to US 290 in Brenham, Washington County, Texas. This notice advises the public that TxDOT will be conducting a public meeting on the proposed project.

The meeting will be held on Thursday, Nov. 16, 2023, from 4:30 to 6:30 p.m. at Blinn College – Student Center, 1007 Walter Schwartz Way, Brenham, Texas 77833. Attendees will be able to come and go as they please to review project displays and ask questions of TxDOT staff in an open house format. The purpose of the meeting is to present the proposed project and receive public comment. On the day of the public meeting, the information presented will be made available online on the TxDOT website www.txdot.gov, keyword search “BS 36J Raised Medians”.

The proposed project along S Day Street would replace the existing center turn lane with raised medians and dedicated left-turn lanes at selected locations. The proposed raised median design would enhance safety by reducing vehicle conflicts between left-turning traffic and head-on traffic, as well as crossing traffic from adjacent properties and local side streets. In addition, U-turn locations would be constructed to accommodate turnaround movements allowing traffic to safely change direction of travel.

Additional right of way would be required for the proposed improvements; however, no residential or non-residential structures are anticipated to be displaced at this time. Information concerning services and benefits available to affected property owners and information about the tentative schedule for right-of-way acquisition and construction can be obtained from the TxDOT Bryan District Right of Way Office by calling (979) 218-2873.

Any environmental documentation or studies, maps and drawings showing the project location and design, tentative construction schedules, and other information regarding the proposed project are on file and available for inspection by appointment Monday through Friday between the hours of 8 a.m. and 5 p.m. at the TxDOT Bryan District Office, 2591 North Earl Rudder Freeway, Bryan, Texas 77803, (979) 778-9231. This information also will be available for inspection at the meeting.

The public meeting will be conducted in English. If you need an interpreter or document translator because English is not your primary language or you have difficulty communicating in English, one will be provided to you. If you have a disability and need assistance, special arrangements can be made to accommodate most needs. If you need interpretation or translation services or you are a person with a disability who requires an accommodation to attend and participate in the public meeting, please contact Bob Colwell, TxDOT Bryan District Public Information Officer, at (979) 778-9764 no later than 4 p.m. CT, Monday, November 13, 2023. Please be aware that advance notice is required as some services and accommodations may require time for the Texas Department of Transportation to arrange.

Notice of a Public Meeting

Written comments from the public regarding the proposed project are requested and may be presented at the meeting. Written comments may also be submitted by mail to the TxDOT Bryan District Office, Attn: Sydney Fox, 2591 North Earl Rudder Freeway, Bryan, Texas 77803 or by email to BRY_PublicComment@txdot.gov. All comments must be received on or before Monday, December 4, 2023. Responses to comments received will be on file and available for inspection at the TxDOT Bryan District Office once they have been prepared.

If you have any general questions or concerns regarding the proposed project or the public meeting, please contact Sydney Fox, TxDOT Bryan District Public Engagement Specialist at (979) 778-9231 or by email at Erin.Fox@txdot.gov.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019, and executed by FHWA and TxDOT.
