# PROPOSED ANNUAL BUDGET

2024 - 2025

# **CITY OF COLLEGE STATION**

## FISCAL YEAR 2024-2025 PROPOSED BUDGET COVER PAGE AS PROPOSED ON JULY 8, 2024

In accordance with Texas Local Government Code, Sec. 102.005, a proposed municipal budget must contain a cover page that includes the following statement. The revenues described are calculated using the latest property value estimate received at the time of publication.

This budget will raise more total property taxes than last year's budget by \$5,212,000 or 7.4%, and of that amount \$1,486,000 is tax revenue to be raised from new property added to the tax roll this year.

The above amounts are estimated and will not be final until the approved document is prepared.

# HOWDY!

#### THIS BOOK IS INTERACTIVE!

If you see a QR Code Tag in this book you can scan it with your phone camera or click on it to discover interesting things our city government is doing for the people of College Station.

To scan with your phone: open your phone's camera app or QR code reading app and follow the prompts to open the link.

### **KEY PERFORMANCE INDICATORS**

In addition to the QR Code tags, we have enhanced the presentation of the city's Key Performance Indicators (KPIs). Clicking the links in the Service Level Adjustment tables will take you to that department's live KPI dashboard. There is also a copy of all KPIs in Appendix K.

SER	VICE LEVEL ADJUSTMENTS	ONE-TIME	RECURRING	TOTAL	STRATEGIC PLAN	<u>KPI</u>

# FY25 STRATEGIC PLAN

#### **CITY COUNCIL MISSION**

On behalf of the citizens of College Station, home of Texas A&M University, we will continue to promote and advance the community's quality of life.

#### **COMMUNITY VISION**

College Station, the proud home of Texas A&M University and the heart of Aggieland, will serve as an example of a vibrant, forward thinking, knowledge-based community, that promotes the highest quality of life.

#### **CORE VALUES**

- The health, safety, and general well-being of the community.
- Excellence in customer service.
- Fiscal responsibility.
- Citizen involvement and participation.
- Collaboration and cooperation.
- Regionalism as an active member of the Brazos Valley community and beyond.
- Activities that promote local autonomy.
- Plan and collaborate with Texas A&M University.

#### WHY HAVE A PLAN?

To maintain and enhance College Station's high quality of life and unique community character, the College Station City Council works closely with residents and the city's experienced management team to plan for current and future needs. The Strategic Plan identifies shared priorities and goals and provides a cohesive framework for the annual budget process.

The Strategic Plan's seven initiatives include specific objectives and actions designed to meet the initiatives' goals. The plan also outlines performance measures to mark each initiative's progress and the plan's overall success.

#### **GOOD GOVERNANCE**

GOAL

THE CITY IS GOVERNED IN A TRANSPARENT, EFFICIENT, ACCOUNTABLE, AND RESPONSIVE MANNER ON BEHALF OF ITS CITIZENS THAT ACTIVELY PROMOTES CITIZEN INVOLVEMENT.

#### **OBJECTIVES:** What does this mean for citizens?

- The city conducts business in an open and inclusive fashion.
- The city delivers services in an efficient, practical manner.
- The city actively pursues the aspirations, goals, and expectations of its citizens.
- Citizens are encouraged to serve on city boards, commissions, and other volunteer capacities.
- Citizens are satisfied with city services and facilities.

#### **ACTIONS:** How will we achieve success?

- The council will annually review and implement the Strategic Plan.
- The city will ensure all agreements with external entities are fair and beneficial to the citizens of College Station.
- The city will conduct regular citizen surveys about city services and priorities.
- The council will conduct regular internal audits of city services, practices and programs and report the results to the public.
- The city will televise, livestream, and record council meetings.
- Critical governance information such as plans, budgets, ordinances, expenditures, etc., will be available on the city's website and in city offices.
- The council will ensure its funding partners remain wise stewards of tax funds.
- The council will adopt and adhere to a series of practices for conducting its meetings.
- The city will ensure notices are posted and readily available to the public.
- The city will share information and communicate with citizens about city issues through owned, earned, and paid media.
- The city will implement strategies to engage with the public safely and effectively.

#### FINANCIAL SUSTAINABILITY

GOAL WISE STEWARDSHIP OF FINANCIAL RESOURCES RESULTS IN THE CITY'S ABILITY TO MEET SERVICE DEMANDS AND OBLIGATIONS WITHOUT COMPROMISING THE ABILITY OF FUTURE GENERATIONS TO DO THE SAME.

#### **OBJECTIVES:** What does this mean for citizens?

- The city maintains diverse sources of revenue and a comparable property tax rate for growing cities of comparable size.
- The city maintains adequate reserves to ease the impact of economic fluctuations.
- The city maintains economic competitiveness measured by comparable trends.
- Citizens know where city revenue comes from and how it is spent.
- Citizens are satisfied with city services and facilities.

#### **ACTIONS:** How will we achieve success?

- The city will have an annual balanced budget and a diversity of revenue sources.
- The city will endeavor to maintain or improve its bond ratings.
- Enterprise operation rates will be set to meet service demands.
- The city will seek grants and other outside funding.
- The city will strive to maintain and rehabilitate equipment, facilities, and infrastructure on a strategic schedule and establish reserve funds to enable replacement.
- The city will seek the efficient delivery of services and facilities.
- The city will maximize the transparency of expenditures, policies, and procedures.
- The city will conduct routine audits to ensure accountability and maximize efficiency.
- The city will set fees at appropriate levels to recover the costs of service delivery.

#### **CORE SERVICES & INFRASTRUCTURE**

GOAL THE CITY'S CORE SERVICES AND INFRASTRUCTURE ARE EFFICIENTLY, EFFECTIVELY AND STRATEGICALLY DELIVERED TO ENABLE ECONOMIC GROWTH AND DEVELOPMENT, AND TO MAINTAIN CITIZENS' HEALTH, SAFETY AND GENERAL WELFARE.

#### **OBJECTIVES:** What does this mean for citizens?

- The city has few utility failures and outages.
- The city reduces crime and fear of crime, including risk of injury or property damage.
- The city protects life and property.
- City services and facilities are adequate in size, location, and timing.
- City services and utilities are safe and efficient.
- The city assists at-risk and low-income residents.
- Citizens are satisfied with city services and facilities.

#### **ACTIONS:** How will we achieve success?

- The city will maintain program accreditations and certifications.
- The city will attract and retain professional staff and be an employer of choice.
- The city will guide private and public land use for business development.
- The city will plan for, maintain, and invest in the infrastructure, facilities, services, personnel, and equipment needed to meet projected needs and opportunities.
- The city will provide immersive learning experiences for citizens.
- The city will use technology to deliver services effectively and efficiently.
- The city will continue to support community development agencies that demonstrate good stewardship of public funds.
- The city will continue to support fair and workforce housing programs.
- The city will explore potential partnerships to enhance core services.

#### **NEIGHBORHOOD INTEGRITY**

GOAL THE CITY'S NEIGHBORHOODS ARE LONG-TERM, VIABLE, SAFE, AND APPEALING.

#### **OBJECTIVES:** What does this mean for citizens?

- The city has diverse housing choices, and property values are stable or increasing.
- The city strives to ensure citizens are satisfied with the quality of life in their neighborhoods.
- The city strives to mitigate the negative impacts of neglected properties.
- Citizens have numerous opportunities to actively engage in decisions affecting their neighborhoods.

#### **ACTIONS:** How will we achieve success?

- The city will strive to have proactive code enforcement.
- Federal and state funds will be used to help provide workforce housing and address community development needs and opportunities.
- The city will use a geographic-based approach to deliver police services.
- The Police Department's Community Enhancement Unit will provide proactive neighborhood support.
- The city will continue to invest in the maintenance and rehabilitation of neighborhood infrastructure and facilities.
- The city will continue its partnerships with Texas A&M University to educate renters.
- The city will expand mobile-ready technologies to inform citizens and engage them on city issues and concerns.
- The city will continue to plan with neighborhood residents to address concerns and capitalize on opportunities.
- The city will continue to support and partner with homeowner and neighborhood associations to proactively address their priorities and interests.

#### **DIVERSE & GROWING ECONOMY**

GOAL THE CITY'S DIVERSE ECONOMY GENERATES HIGH-QUALITY, STABLE JOBS THAT STRENGTHEN THE SALES AND PROPERTY TAX BASE AND CONTRIBUTE TO AN EXCEPTIONAL QUALITY OF LIFE.

#### **OBJECTIVES:** What does this mean for citizens?

- The city's annual taxable value increases.
- The city's annual sales tax and hotel occupancy tax receipts increase.
- The number of high-paying, full-time private sector jobs increases.
- Adequate, serviceable land is available for economic development opportunities.
- Opportunities are available for starting and operating businesses.
- The city will foster a culture of entrepreneurship.

#### **ACTIONS:** How will we achieve success?

- The city will support, expand, and diversify a consumer-oriented economy.
- The city will protect major economic assets from incompatible encroachments.
- The city will support efforts to expand and enhance broadband internet services.
- The city will support diverse, business-to-business services.
- The city will expand and diversify efforts to generate job growth.
- The city will plan and invest in infrastructure, facilities, services, personnel, and equipment needed to meet projected needs and opportunities.
- The city will ensure business impacts are considered in the development of regulations and standards.
- The city will ensure adequate, serviceable land is available for economic needs.
- The city will maintain and increase relationships with local, regional, and public/private economic partners.
- The city will promote the College Station brand through business recruitment and destination marketing efforts.
- The city will continue to develop and promote signature events, features, and venues for residents and visitors.

#### IMPROVING MOBILITY

GOAL THE CITY HAS A SAFE, EFFICIENT, SUSTAINABLE AND WELL-CONNECTED MULTIMODAL AND INNOVATIVE TRANSPORTATION SYSTEM WHICH CONTRIBUTES TO A HIGH OUALITY OF LIFE AND IS SENSITIVE TO SURROUNDING USES.

#### **OBJECTIVES:** What does this mean for citizens?

- The city increases the number of safe and complete ways to travel in town.
- The city increases the enforcement of traffic offenses in an effort to decrease vehicle accidents.
- City streets are not heavily congested for extended periods of time.
- City streets, sidewalks, bike lanes, and multi-modal paths are well-maintained and free of hazards.

#### **ACTIONS:** How will we achieve success?

- The city will provide streets which safely accommodate multimodal transportation.
- The city will ensure streets and sidewalks have features which promote pedestrian and bicycle safety.
- The city will seek transit opportunities through partnerships.
- The city will provide for land uses which support multimodal opportunities.
- The city will plan for infrastructure which meets projected growth and development.
- The city will seek federal and state funds to construct facilities.
- The city will make investments to help avoid long periods of traffic congestion.
- The city will promote a well-connected system of residential streets and collector avenues to ease the strain on expensive arterial boulevards.
- The city will identify and fund a multi-year capital improvements program.
- The city will maintain and rehabilitate the system to avoid costly replacement.
- The city will maximize the system's efficiency, including intersection improvements, traffic signal timing and signage.

#### SUSTAINABLE CITY

GOAL
THE CITY'S CONSERVATION AND ENVIRONMENTAL AWARENESS IS FISCALLY RESPONSIBLE AND RESULTS IN A REAL AND TANGIBLE RETURN ON INVESTMENT.

#### **OBJECTIVES:** What does this mean for citizens?

- The city utilizes and purchases power from renewable energy sources.
- The city reduces energy and water consumption.
- The city reduces the volume of waste generated.
- The city uses land efficiently, effectively, and equitably.
- The city protects vulnerable environmental features.
- The city reduces the risk associated with flooding and other natural hazards.

#### **ACTIONS:** How will we achieve success?

- The city will enhance its conservation and recycling efforts.
- The city will utilize renewable energy.
- The city will purchase renewable energy.
- The city will protect its potable water supply and its ability to meet projected demands.
- The city will conduct sound land use planning guided by its Comprehensive Plan.
- The city will increase participation in FEMA's Community Rating System program.
- The city will acquire flood-prone areas and their associated riparian areas through its Greenway Acquisition program.
- The city will seek grants and other sources of outside funding to support sustainability efforts.
- The city will encourage education about city conservation efforts and programs.
- The city will invest in co-production in service delivery where applicable.
- The city will identify strategies to utilize publicly owned land for future investments.

View the full City Council Strategic Plan at cstx.gov/CouncilStrategicPlan.

# **FY25 Strategies**

#### **GOOD GOVERNANCE**

- Increase transparency and improve the public's ability to participate in government through efforts such as continuing to offer virtual options for public meetings, providing a centralized calendar for public meetings and events, and allowing citizens to book city facilities from the city's website.
- Work with College Station ISD to form a joint legislative committee.
- Explore annexation opportunities.

#### FINANCIAL SUSTAINABILITY

- Explore and pursue methods of diversifying the city's sources of revenue.
- Consider alternative infrastructure funding opportunities.

#### CORE SERVICES & INFRASTRUCTURE

- Evaluate options for a community recreation center.
- Explore opportunities for a conference center or convention center.
- Increase and expand programming in our parks system.
- · Begin planning and design of Southwest Park.
- Consider opportunities for Southeast Park and options for expanded baseball fields.
- Make infrastructure improvements in aging areas.

#### NEIGHBORHOOD INTEGRITY

• Provide options for affordable, dense housing in Northgate, Wolf Pen Creek, and other targeted areas to relieve housing pressure in existing neighborhoods.

#### DIVERSE & GROWING ECONOMY

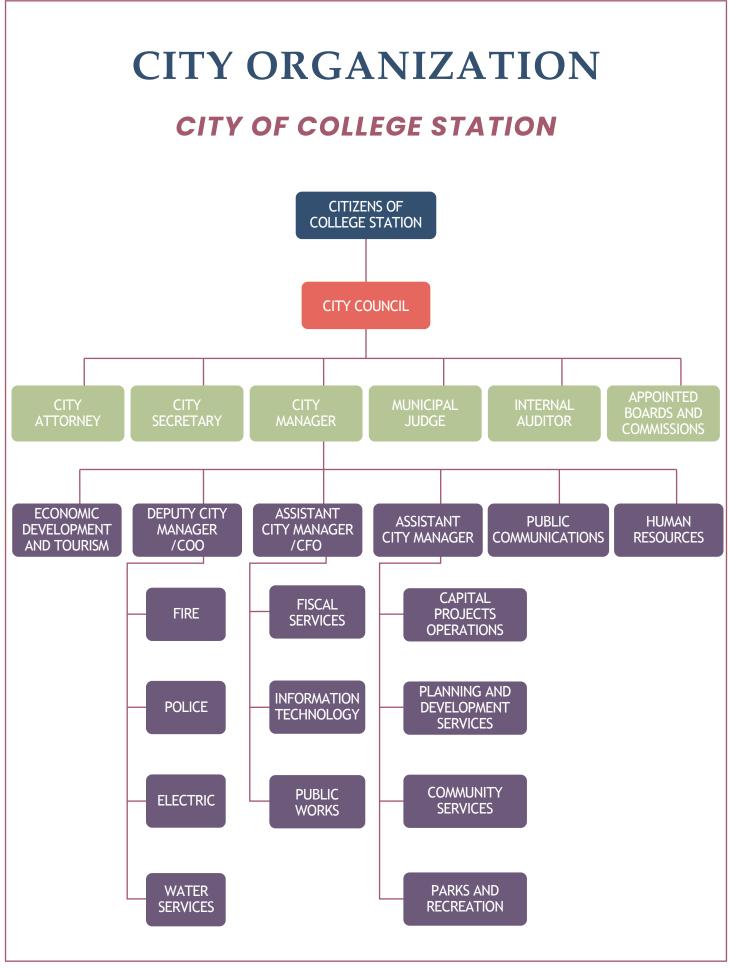

- Expand and diversify efforts to attract high-quality, stable jobs.
- Find opportunities to connect Century Square with Hensel Park.
- Pursue options for redevelopment of Wolf Pen Creek corridor and Post Oak Mall.
- Expand Christmas in College Station.
- Improve infrastructure, programming, and opportunities in the Northgate area.
- Add gateway signage at every major entrance to College Station.

#### IMPROVING MOBILITY

- Expand public transit options and increase multimodal infrastructure.
- Work with contractors to ensure multimodal infrastructure is included in project design.
- Develop a new, broader relationship with Brazos Transit based on federal direction, including the need for local representation.

#### SUSTAINABLE CITY

Examine ways to utilize co-production for service delivery.

#### **GOVERNMENT FINANCE OFFICERS ASSOCIATION**

# Distinguished Budget Presentation Award

PRESENTED TO

City of College Station Texas

For the Fiscal Year Beginning

October 01, 2023

**Executive Director** 

Christopher P. Morrill

July 8, 2024

Honorable Mayor and City Council:

I am pleased to present the Fiscal Year 2024-2025 Budget for the City of College Station.

The City of College Station is consistently among places named for its high quality of life, sound fiscal management and value to citizens. The Budget and this document reflect the strong foundation that has been established and the strategic outlook for the future of our community. This budget provides for continued investments in core services, critical infrastructure and quality of life while reducing the annual operations and maintenance spending when compared to inflation. Through a continuous process of strategic direction by the City Council, citizen feedback, and input from staff leadership and subject matter experts we have compiled what we believe to be a plan that will allow us to continue on a positive trajectory while meeting the short and long-term challenges ahead.

#### **BUDGET SUMMARY**

The Fiscal Year 2024-2025 Net Budget for the City of College Station totals \$540,511,673 for all funds. \$366,160,031 is included for the operations and maintenance budget, and \$174,351,642 is included for the capital budget. Compared to FY24, the operating and maintenance budget increased approximately 2.5% while the capital budget increased 29%. The Budget was prepared using policy direction from the City Council through the Strategic Plan, Fiscal and Budgetary Policies, and previous City Council policy direction.

#### **COUNCIL STRATEGIC INITIATIVES**

Council directed staff to develop the Budget to address the following strategic goals:

- A City governed in a transparent, efficient, accountable, and responsive manner on behalf of its citizens that actively promotes citizen involvement.
- Wise stewardship of financial resources so the City can meet services demands and obligations without compromising future generations' ability to do the same.
- The City's core services, and infrastructure are efficiently, effectively and consistently delivered to enable economic growth and development, and to maintain citizens health, safety, and general welfare.
- The City's neighborhoods are long-term, viable, safe, and appealing.
- The City's diverse economy generates high-quality, stable jobs that strengthen the sales and property tax base and contribute to an exceptional quality of life.
- Conservation and environmental awareness that is fiscally responsible and results in a real and tangible return on investment.

#### **FOCUSED ON THE FUTURE**

Significant changes and unique local demands on City services will impact the FY25 Budget. The Budget lays the foundation to address these challenges both in the short-term and into the future.

- **Public Safety Investments:** While we have consistently made investments in public safety above their proportionate amount of the budget, the expansion of fire services and the desire to reach a better proactive policing ratio necessitates significant investment beyond what future budgets can support without an additional revenue source.
- Partner & Outside Agency Funding: COCS provides substantial funding for both taxpayer supported governmental organizations and non-profits in the Brazos Valley. Annual examination of these relationships and the cost/benefit of each is critical.
- Water Supply & Demand: The demand for water in our area and the exporting to other regions continues to put pressure on our water supply. Substantial investments in infrastructure as well as strategic planning related to growth and conservation will be required to maintain our high quality of service and provide for our future water needs.
- City & University Growth: Texas A&M had a record Fall 2023 enrollment of 71,127 at the College Station campus and anticipates exceeding that enrollment in Fall 2024. As of April 2024, the estimated City population is 128,758. P&DS projects a population growth of 2,500 residents annually.
- State Legislative Impacts: Legislative changes related to local control, land use, and municipal financing impacts the Council's ability to provide critical decision-making for College Station.

#### **FUNDING REQUESTS**

- The Budget includes various funding requests related to new capital infrastructure, including a new Public Works Operations Center, relocated City baseball fields, the planned construction of Fire Station #7, and additional parks amenities and multi-use paths/trails.
- Additional operational staffing for Fire Station #7 will be considered in a future fiscal year, as well
  as additional Police officers above those that are added annually to keep up with organic growth.
- The Budget also includes pay adjustments for current staff while holding the cost of healthcare insurance steady to address workforce changes in the local marketplace. Also included is a TMRS adjustment for eligible retirees.
- The City must also consider increased operating costs due to events held at Texas A&M. These events
  rival the impact of football games and require additional or expanded City services.
- Other coordination and shared cost items in the Budget include Outside Agency funding and a library ILA with the City of Bryan. We have started receiving funding requests from other organizations outside of the traditional process; as a result, the City may incur additional recurring costs if these requests are granted by Council.

#### REVENUE SOURCES

- Our overall property tax rate as well as the operations and maintenance portion of the tax rate continue to be low when compared to our peers. Additional property tax revenue could help to fund future requests such as additional public safety investments.
- Sales tax is expected to see moderate and consistent growth in the near future but that growth is impacted by inflation and the rising costs of materials and services critical to basic governmental operations.
- Tourism and visitor spending in conjunction with the work done by Visit College Station, Texas A&M University and our private sector partners provides additional revenue to the COCS.

• The Water utility rate has not increased since 2020 but will require an increase in FY25 to address the cost of building new wells, rehabilitating existing wells, and building the related collection lines to secure our current and future water supply.

#### GROWING CAPITAL NEEDS

- The growth of our city, the need to replace infrastructure at the end of its life and maintaining a high quality of life will necessitate additional capital projects. These include projects supported by the property tax rate and others supported by utility revenues.
- New projects include expanded roads, additional City facilities and improvements, rehabilitated Parks amenities, traffic signals, and the replacement of Public Safety radios.
- Also included to address the mobility and alternative transportation methods are funds for sidewalks, multi-use paths, and bike lanes.
- Utility projects include Electric transmission line relocations and a new substation as well as the
  construction of 3 new water wells and related collection lines. Also forecasted are additional well
  rehabilitation projects.

#### PROPERTY VALUATIONS

Administered by a chief appraiser, the taxable value within the City is determined by a county agency as of January 1 of each year. Market conditions and other factors determine that valuation. For College Station, the Brazos Central Appraisal District (BCAD) provided a preliminary property valuation number in April for property within City limits. The estimated preliminary values provided by BCAD were used to prepare the FY25 Proposed Budget. Total taxable values before the freeze adjustment are approximately \$14.8 billion dollars. Estimated new value added to the tax rolls as of January 1, 2024, totaled \$289,700,394. The net taxable valuations on existing property assessed by BCAD increased by 7.14% over prior year values.

#### COMPENSATION AND BENEFITS

The City of College Station desires to be the "employer of choice" and a leader in recruiting and retaining the top talent in our region. The City Council has continued to support this vision by providing the resources for competitive compensation and addressing non-financial compensation. Strategies to address competition in the marketplace include:

- Pay scales will increase 3.0% for all employees. There is a 1.5% 3.0% step increase for public safety and step plan employees. There is a 1.0% market adjustment and .5% performance pool (only top 25%) for non-step employees.
- Adopting a new benefit provided by the Texas Legislature for personnel eligible to retire from the City.
- Added non-monetary compensation such as variable work schedules, wellness benefits, hiring incentives and more.
- Continuing to hold the cost of healthcare insurance to employees flat for the 5<sup>th</sup> consecutive year and providing an Employee Health Clinic at no cost.

The employee health benefit package includes one Preferred Provider Organization (PPO) option and one High Deductible option. Holding the cost of healthcare insurance to employees flat for the 5<sup>th</sup> consecutive year is a significant benefit as health care costs have skyrocketed since 2020.

#### **KEY SERVICE LEVEL ADJUSTMENTS**

As a growing service organization, the City's salaries, and benefits account for approximately 71% of General Fund operating expenses and 60% of total operating expenses. This budget also proposes an additional 23 Full-Time Equivalents (FTEs), and other Service Level Adjustments (SLAs). In addition the initial 12 firefighter positions for the Station #7 will be added through a budget amendment. These requests, among others, include:

- Fire 12 Firefighters (to be added in Spring FY 25 budget amendment), an improved alert system and electric vehicle blankets.
- **Police** 2 Police Officers (partially grant funded); 1 K9 Officer; 1 Support Assistant; and various software and technology licenses.
- **Public Works** 1 additional dump truck, a small pad foot roller, an additional Traffic technician, and additional traffic calming funds.
- Parks 1 Volunteer/Engagement Coordinator, various equipment and supplies, and a Wolf Pen Creek Masterplan Study.
- **Fiscal Services** 3 new positions, including a new payroll specialist, a full-time payables clerk, an additional buyer.
- Municipal Court 2 deputy court clerks, and a vehicle upgrade for the Court marshals.
- Water Services includes 3 positions in Water-Wastewater, 2 of which will help maintain the City's Wastewater treatment plants.
- **Drainage** 2 additional positions, a crew leader and an equipment operator to help assess and maintain the City's drainage infrastructure.
- Fleet Maintenance 2 additional after-hours maintenance technicians to provide additional service for City vehicles.
- Capital Projects Operations and Facilities 1 additional Facilities Asset Manager.

Additional detail regarding departments' SLAs are included in the Executive Summary, the departmental narratives in this document, and in Appendix B.

#### PROPERTY TAX RATE

Property or Ad Valorem Tax revenue accounts for approximately 36% of General Fund revenues. General Fund revenues pay governmental services, including public safety, public works, parks, and other community needs.

As a result of legislative changes from prior years, the City is limited to a 3.5% increase in the O&M tax revenue without going out for an election. The Proposed FY25 property tax rate is 51.3086 cents per \$100 of assessed valuation; the same as the rate approved with the FY24 Budget.

The increase in property valuations coupled with the tax rate will result in approximately \$3,726,000 of additional revenue to fund governmental operations. The estimated revenue raised from new property added to the tax roll this year is approximately \$1,486,000.

The proposed ad valorem tax rates per \$100 of assessed valuation is as follows:

	Current Rate	Change	Proposed Rate	
Debt Service Fund	21.1442	0.0000	21.1442	
General Fund	30.1644	0.0000	30.1644	
Total	51.3086	0.0000	51.3086	
Estimated No-New-Revenue Rate	45.5159		50.0202	
Estimated Voter Approval Rate	51.3086		52.4914	
Rates above are in cents per \$100 assessed valuation				

The no-new-revenue rate is a benchmark tax rate needed to raise the same amount of maintenance and operations property taxes on existing property as the previous year, after accounting for changes in the appraised values. The voter-approval tax rate is the tax rate that requires a city to hold an automatic election on the November uniform election date if it adopts a rate exceeding that rate. No-New-Revenue and Voter Approval rates will not be finalized until the first week in August 2024.

#### **ENTERPRISE FUNDS**

The City provides the following utilities: Electric, Water, Wastewater, Roadway Maintenance, Solid Waste, and Drainage. For FY25, the budget is proposing a 10.0% increase in water rates to address the capital needs to secure future water supplies. FY25 Electric, and Wastewater rates remain unchanged. We anticipate additional rate increases will be needed for the Water utility to fund the new wells, water collection lines and well rehabilitation projects needed to secure our current and future water supply.

The Roadway Maintenance, Solid Waste, and Drainage fees are indexed to the Consumer Price Index - All Urban Areas (CPI-U) to keep pace with inflation which rose approximately 3.5% during the last year. Therefore, an increase of 3.5% is also included for these three utilities.

#### CAPITAL PROJECTS

The Capital Improvements Project Budget totals \$174.3 million for all funds that include capital projects. These capital appropriations can span multiple fiscal years as projects progress. As a result, these appropriations may not equal projected expenses in FY25. These capital projects will help the City meet its strategic goals while providing proper transportation, park, utility, and facility infrastructure for a growing population. Specific capital projects, funding sources, and projected expenses are presented in the Capital Projects section of this document.

During the November 2022 bond election, voters approved three of the five bond propositions, funding projects totaling \$56.1 million. The FY25 Budget includes additional General Obligation bonds for these projects. We anticipate starting construction on several of these projects in FY25, including the Bachmann Senior/Little League Buildings.

The FY25 capital budget increased 29% due to the significant budgets needed for the new water well and rehabilitation projects. We anticipate additional increases in Water's capital project budget over the next few years. The capital budget also increased due to moving voter approved projects into the construction phase and initiating projects to address current operational and community needs.

#### CONCLUSION

For the coming fiscal year, the budget seeks to address ongoing operational needs and demands. At the same time, the budget lays the groundwork to address possible future funding challenges and projected needs, both from our residents and the broader community. As a City, we are contending with increased demands for services from outside organizations, increasing pressure from general population and student body growth, and increasing operational costs and higher interest rates. However, with the support of the City Council and community, we remain confident in our ability to maintain our service delivery for our residents in FY25 and the years to come.

This document, and the effort required to produce it, would not be possible without the expertise and dedication of those who have prepared it. I would like to personally thank the Finance Department as well as the Management Team throughout the organization for all the time, effort, and crucial input they provided in preparing this Budget.

In closing, I appreciate the leadership of the City Council, hard work of City staff and the continued resiliency and support of the community. While there will inevitably be challenges and opportunities that necessitate changes in FY25, I believe this budget represents the best path forward to position the City for continued success in the future.

One City, One Team

Sincerely,

Bryan C. Woods

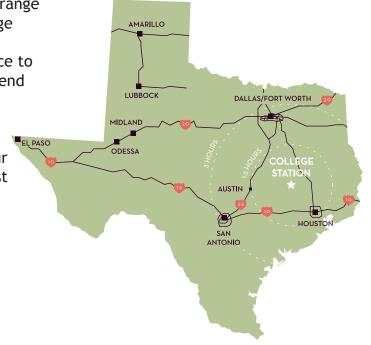

City Manager

# **COMMUNITY PROFILE**

Few cities in the country can match the wide range of appealing opportunities you'll find in College Station. Whether you are looking to start a successful career or business, want a safe place to raise a family, or desire a quiet location to spend your golden years, College Station has it all.

Ideally located in the heart of the Texas Triangle, College Station is within a three-hour drive of five of the nation's largest cities. Most importantly, College Station is the home of Texas A&M University, one of the nation's largest public institutions of higher education. The city's resilient and robust economy diversified in recent years as a high-tech research and development hub, and its unemployment rate consistently ranks among the lowest in the country.

#### GROWTH & ECONOMY

College Station's population has grown by more than 34% since 2010 to rank among the nation's fastest-growing cities. That rapid growth has created exceptional business opportunities that have spurred impressive job growth.

In early 2021, the Milken Institute ranked College Station as the best-performing small city in Texas based on jobs, wages, and high-tech growth. In 2019, Forbes rated College Station as the nation's second-best city for business and careers, while SmartAsset ranked it among the top 16 boomtowns in America.

### QUALITY OF LIFE

College Station is consistently rated among the country's best college towns, thanks to Texas A&M's 71,000+ students, who supply a healthy diversity of race, culture, and nationality that reflects the community's spirit and timeless values.

The Aggies are members of the mighty Southeastern Conference, making big-time college sports a major attraction. The school's football team regularly attracts crowds of more than 100,000 loyal fans who fill local hotels, restaurants, and stores.

In 2023, Niche.com ranked College Station among the nation's best places for public schools (No. 14), raising families (No. 25), and overall quality of life (No. 27). In addition, SmartAsset rates the community as the country's 15th-safest city.

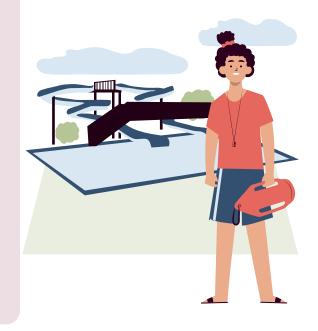

The George Bush Presidential Library and Museum is one of the region's most popular tourist attractions with more than 125,000 annual visitors. Another top attraction is the Brazos Valley Veterans Memorial that features a world-class collection of memorials for every American war.

The City of College Station maintains 58 public parks that cover nearly 1,900 acres. Many include tennis and basketball courts, swimming pools, dog parks, playgrounds, picnic pavilions, walking paths, and nature trails. The city also has a competition-quality skate park, a nature center, and a large outdoor amphitheater and festival site.

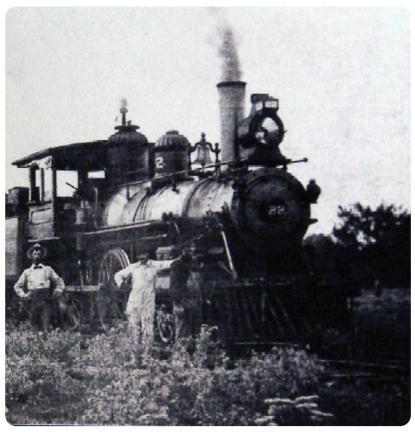

Adult and youth recreational programs include popular sports such as softball, basketball, volleyball, kickball, and tennis, along with summer swim lessons and a competitive youth swimming team.

College Station is also the only city in the country with nationally accredited departments in parks, public works, water, fire, police, and public safety communications.

#### **HISTORY**

The community's origins go back to the founding of the Agricultural and Mechanical College of Texas, which opened in 1876 as the state's first higher education institution. Because of the school's isolation, administrators provided facilities for those associated with the college, and the campus became the focal point of community development.

The area was designated as College Station, Texas, by the U.S. Postal Service in 1877. The name was derived from the train station located west of the campus.

In 1938, the community's growth influenced residents' desire to create a municipal government. They submitted a petition representing on and off-campus interests to the college's board of directors, which had no objection and suggested that a belt around the campus be included in the proposed city.

The City of College Station was incorporated by a vote of 217-39 on Oct. 19, 1938. The first city council meeting was on Feb. 25, 1939, in the Administration Building on the A&M campus.

The city council adopted a governmental structure similar to the council-manager form of government. At the time of incorporation, state law did not allow a general law city to hire a city manager. As a result, College Station employed a business manager until 1943, when the state began permitting general law cities to use the council-manager form of government.

College Station was the first general law city in Texas to employ a city manager. When College Station's population exceeded 5,000 in 1952, College Station voters approved a home rule charter for the council-manager form of government.

# **EXECUTIVE SUMMARY**

#### **MISSION STATEMENT**

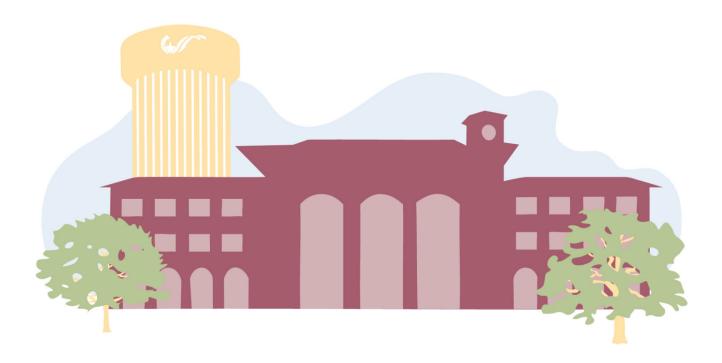

On behalf of the citizens of College Station, home of Texas A&M University, we will continue to promote and advance the community's quality of life.

As public servants, we have a responsibility to provide core services to the community while also recognizing the significant economic burden that those services place on its citizens. This Budget will address current challenges and operational demands while laying the fiscal foundation for future years. Increasing demand on City services, moderate growth in sales tax, continued inflationary pressures and significantly higher capital expenses than forecasted present a multi-year challenge. However, we are confident that we can continue to meet citizens' needs while also preparing for the future.

The fiscal year for this budget begins October 1, 2024 and ends September 30, 2025. We start with a City Council strategic planning process which is detailed at <a href="mailto:cstx.gov/CouncilStrategicPlan">cstx.gov/CouncilStrategicPlan</a>. The Budget will be submitted to Council on July 8, 2024. Additional resources designed to help citizens understand this budget can be found at <a href="mailto:cstx.gov/budget">cstx.gov/budget</a> or in the Introduction section of this document.

Electronic versions of the budget are available on our website at <a href="cstx.gov">cstx.gov</a>. Physical copies will be located at the City Secretary's office, the Meyer Senior and Community Center located at 2275 Dartmouth Street, and the Larry J. Ringer Library in College Station.

The FY25 Proposed Budget has a total net expenditure of \$540,511,673, of which \$120,931,703 is in the General Fund. The FY25 Budget has sufficient total recurring revenues equal or greater to the budgeted recurring expenses.

#### **FOCUSED ON THE FUTURE**

FY25 Proposed Budget lays the groundwork not just for the upcoming fiscal year, but for the years to follow. This document presents the immediate needs to maintain current service delivery and introduces significant changes to be considered in the future. We believe that the FY25 Proposed Budget continues the strategic planning, prudent decision making, and conservative financial management established in prior years. We also believe the FY25 Proposed Budget will meet or exceed citizen expectations for service delivery while establishing the financial plan for the next 5+ years.

#### INCREASED DEMAND ON CITY SERVICES

#### **UNIVERSITY GROWTH**

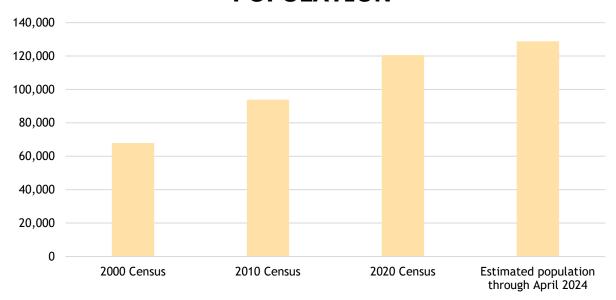

- Texas A&M had a record Fall 2023 enrollment of 71,127 at the College Station campus and anticipates exceeding that enrollment in Fall 2024. These enrollment totals already exceed the 2025 projection and are nearing the 2030 projection for Texas A&M as forecasted by the Texas Higher Education Coordinating Board.
- Texas A&M President Mark Welsh has also discussed a potential enrollment of 80,000+ students, while acknowledging the impact to the community, campus capacity issues, such a lack of classrooms, labs, and study spaces relative to the growing student body.
- On April 12, 2024, the University reported that in addition to campus capacity issues, the University committee met with the City of College Station regarding impacts of enrollment growth in the local community. The report is expected to be completed by the fall of 2024.
- However, growth on campus does not appear to be slowing. At their May 2024
  meeting, the Texas A&M University System Board of Regents approved the
  capital plan for the next five years and a \$3.05 billion operating budget for
  Texas A&M's fiscal year 2025, which included \$2.49 billion for the flagship campus in College Station.

#### **RESIDENT GROWTH**

- Population within the City limits has steadily grown over the past 20 years, up 80% from 2000 to 2020.
   Planning & Development Services (P&DS) provides monthly population estimates in non-Census years, as citizen demand directly affects City services.
- As of April 2024, the estimated City population is 128,758. P&DS projects a population growth of 2,500 residents or approximately 2.0% annually.

#### **POPULATION**

• The nature of the City is also changing as certain areas become more dense, particularly in Northgate. Since 2020, three large high-rise multi-use developments have been planned in Northgate. One is currently open, a second is finishing construction in FY24, and the third is a 19-story 900-bedroom development with numerous amenities that is under construction. Additional projects are also planned for the area.

#### STATE LEVEL IMPACTS

#### PUC Transmission Cost of Service (TCOS) Matter (Electric Utility)

• The Texas Public Utilities Commission ruled on the City's TCOS filing that the city must make a significant repayment for transmission collections in prior years. The city continues to contest the validity of this ruling but has allocated the amount for repayment, if necessary.

#### FINANCING IMPACTS

- The 88th Texas Legislature passed House Bill 4082 which changed the purposes for which a municipality may issue and use Certificates of Obligation. The bill restricts their use for only "public works" such as streets, utilities and parks.
- It excludes using them for professional or semi-professional sports facilities, stadiums, arenas, civic centers, convention centers and hotels, with some limited exceptions. Providing for future community needs and is now significantly more complex due to this legislation.
- To take advantage of lower interest rates due to COVID, the City issued debt in FY21 and FY22 to
  construct three street projects that involved Union Pacific Railroad. Construction of all three was
  delayed by both COVID and operational changes at Union Pacific.

#### **COMMUNITY LIVING DEMANDS**

#### WATER SUPPLY DEMANDS

- The water for college station is primarily provided by the Simsboro aquifer. Due to extensive pumping, throughout the aquifer, including pumping by entities outside of the Brazos Valley, aquifer levels are decreasing.
- This situation requires us to improve our existing wells and to drill three new wells to meet our current and future water needs.
- The Brazos Valley Groundwater Conservation District has recently changed rules requiring deadlines on drilling of recently permitted wells. College Station currently has three active well permits that must be drilled by September 14, 2028. Each well and the associated collection line is approximately \$23 million.
- The FY25 Budget includes a significant capital increase for the new well and collection line projects to secure a future water supply. This change in capital will require a 10.0% rate increase in FY25 (the first since 2020) and potential additional future rate increases depending on water consumption.

#### OTHER UTILITY DEMANDS

- The Electric utility must contend with higher than forecasted capital costs to either relocate utility lines in coordination with State agencies and/or fluctuations in the wholesale power market.
- Additionally, due to growth in multi-family and high-rise mixed-use development, the Solid Waste
  utility continues to face more demand. The City is currently engaged in cost of service and route
  studies related to Solid Waste services.

#### TRAFFIC DEMANDS

- The roads in our City are not all owned by the City of College Station. Texas A&M, the State of Texas, the City of Bryan, Brazos County and even Union Pacific Railroad all have roads or right of ways that the City is involved with. Coordination efforts can make the development and construction of a road a lengthy and costly endeavor.
- The Texas A&M Transportation Institute states that "mobility investments in congested areas have a high return rate. If we want a strong economy, doing nothing is not a productive option."
- Because of our growing local economy and populations and the cost of developing transportation infrastructure, the City efforts to improve traffic have become more expensive. These efforts include additional signals, new roundabouts, and expanded roads.

#### ALTERNATIVE TRANSPORTATION INFRASTRUCTURE

- From well-maintained roadways to multi-use paths, the City's infrastructure plays a pivotal role in connecting its residents and visitors to various amenities and opportunities.
- Maintaining those routes, particularly for buses, bicycles, scooters, and pedestrians is a particular issue because of rapidly changing demand patterns. Often, demand increases before infrastructure can be expanded. where and when growth occurs.

#### AFFORDABLE HOUSING

- The average home value in College Station is \$397,125 as of January 1, 2024, per the Brazos Central Appraisal District. The US Department of Housing and Urban Development calculates the Median Family Income for the College Station-Bryan TX area to be \$93,400.
- Managing the housing challenges requires comprehensive strategies at the federal, state, and local levels including creative financing alternatives, reducing regulatory barriers, and private sector innovations to build more affordable homes faster, all of which take planning and contributions from City funds.

#### INCREASED TREE CANOPY AND VEGETATION

- Heat islands form due to the combination of reduced natural landscapes and increased urban areas.
   Trees, vegetation, and water bodies tend to cool the air by providing shade, transpiring water from plant leaves, and evaporating surface water, respectively. Hard, dry surfaces in urban areas, such as roofs, sidewalks, roads, buildings, and parking lots, absorb and reflect the sun's heat more than natural landscapes.
- Cooling College Station, a five-year project led by the City of College Station, was established in 2022 to mitigate the growing risk and complications of urban heat island effects. The project was awarded \$43,302 in 2023 by Texas A&M's Forest Service and their related Community Forestry Grants program.
- College Station matched the grant amount so that 100 native trees could be planted in Bee Creek and Tarrow Parks. Even with outside grants, Cooling College Station will require additional City funding.

#### CITY-WIDE FUNDING NEEDS

#### **CITY FACILITIES**

- Since Fire Station #6 opened in 2012, the population and call volume has grown by 34% and 83%, respectively. The proposed Fire Station #7 will be strategically located to improve response times. On November 8, 2022 the citizens of College Station approved the issuance of \$18 million in bonds for a new fire station and equipment and levying a tax sufficient to pay the principal and interest on the bonds. The land has been acquired and the new station will be located at 2981 Greens Prairie Rd. The project is currently in the design and development phase. Completion of Station #7 is currently projected for September 2026.
- The Public Works department provides drainage, fleet, solid waste, street, and traffic services. Since
  the construction their current facility in 1978, the City's fleet has grown by approximately 50% and
  remains too constrained to centralize Public Works' services and equipment. Due to current service
  demands and operational needs we believe a new operations center is needed. Project costs may
  include the purchase of land, design/engineering, and construction.
- The city has other facilities located at Krenek Tap and Texas Avenue, built between 1978 and 2003. One such building is the former Police Department building, which is currently leased to the International Leadership of Texas (ILT) through FY25. ILT is using the building as its high school.
- Last year, Council approved a comprehensive facilities development plan to determine the most
  effective use of current City facilities. Preliminary study results suggest selling the land and facilities
  to a private developer and relocating staff to adequately sized facilities elsewhere. Any relocation
  of staff must consider funding, land availability, and location.

#### **PARKS**

- On August 24, 2023, City Council voted to suspend construction of the Texas Independence Ballpark at Midtown due to a soil issue, with an estimated remediation of an additional \$10-\$16 million. The use of the existing property and subsequent project scope is still under discussion. Regardless of direction, any subsequent development will require funding.
- The City still plans on constructing baseball fields for both tourism and local use. City staff pinpointed next steps for future ballfields in the city. Capital funding is required to execute the revised plan.

#### **ECONOMIC DEVELOPMENT**

- Creating and maintaining a vibrant city requires the establishment
  of spaces that attract people and foster community. These spaces
  come in various forms, including entertainment districts, mixeduse developments, business parks, and other districts. Their role in the overall financial sustainability
  of a community is pivotal.
- To successfully launch and sustain these areas, long-term planning, land acquisition, and investment
  from both private and public sectors are often necessary. While these spaces may differ in size,
  building types, and tenant mixes, the shared goal of developers and municipalities remains clear:
  revitalizing tired, neglected, or underperforming real estate to generate essential tax revenues and
  provide employment, housing, entertainment, and recreational opportunities.

#### POST OAK MALL DEVELOPMENT

 On September 1, 2022, City Council unanimously approved the purchase of the 103,000 square foot former Macy's store and adjoining parking lot at Post Oak Mall for \$7.3 million to repurpose and redevelop the property. Discussion regarding the redevelopment of POM and the larger area are ongoing and include both strategic conversations as well as specific proposals.

#### STAFFING NEEDS

#### FIRE STATION #7 STAFFING

- Fire Station #7, as approved by citizens in November 2022, will need 24 additional firefighters to become operational.
- The city has in assigned fund balance \$3.5 million to use to fund staffing for Fire Station #7 for the firefighter training period. Twelve firefighters will be added to the budget via a Budget Amendment during FY25 utilizing these funds.
- We are currently forecasting that the cost for these 12 firefighters will be incurred in FY26, with cost for the remaining 12 firefighters to be added in FY27. Completion of Fire Station #7 is currently scheduled for September 2026.
- While the City has applied for grant funding under the SAFER program, which will partially help with funding, approval and receipt of the grant is not a certainty. Additionally, the grant will only cover eligible costs for three years.
- Because College Station has maintained a low property tax rate, the increase needed to staff Station #7 will likely exceed the 3.5% cap as established by Senate Bill 2 (SB2) enacted by the 87th Texas Legislature in 2019. To fully staff Fire Station #7 and the planned additional police resources, additional revenue above the projections at the current tax rate will be required. Any potential increase would be proposed to the voters in November 2025.

#### OTHER PUBLIC SAFETY NEEDS

- The Police Department also operates on a 24/7 schedule. Population and call volume growth, combined with additional shift requirements has increased the number of officers needed.
- The City is currently receiving a COPS grant to partially fund eligible costs for 6 officers. Two of these officers are included in the FY25 Budget.
- We anticipate adding 5 additional police officers in FY26 to maintain existing service levels. This addition will cost the City approximately \$800,000 in annual recurring expenses, which is roughly 50% of the allowable annual property tax revenue increase under SB2 mentioned above.

#### COMPETITION IN THE LOCAL MARKETPLACE

- At their May 2024 meeting, The Texas A&M University System Board of Regents announced they will be able to provide a performance-based merit pool of 4.0%. Merit-based increases for faculty and staff will be reflected in salaries beginning Sept. 1, 2024.
- Pay scales will increase 3.0% for all employees. There is a 1.5% 3.0% step increase for public safety and step plan employees. There is a 1.0% market adjustment and 0.5% performance pool (only top 25%) for non-step employees.
- To compete in the local marketplace for qualified candidates, the City has chosen not to raise the employee portion of its healthcare insurance package since 2021. Keeping employee healthcare contributions flat for almost 5 years, before the impact of COVID and inflation, means our employees have more in their take-home pay.
- To remain competitive in the marketplace and attract the best talent, the City has also implemented alternative and non-monetary compensation benefits, such as variable work schedules, wellness benefits and reimbursements, and more.
- Effective May 27, 2023, the Texas Legislature amended the TMRS Act to provide participating cities with a new repeating COLA option. This new option provides an additional benefit to employees who end up qualifying for City retirement. The City opted to enact this benefit in June 2024.

#### **COMMUNITY FUNDING REQUESTS**

#### SUPPORT FOR TEXAS A&M ACTIVITIES

- Texas A&M has attracted unique summer events to Aggieland. These events include the Troubadour Festival at Aggie Park, and a Mexico-Brazil soccer match and George Strait concert at Kyle Field.
- These events have a significant positive impact both financially and culturally. However, City staff
  is also tasked with keeping visitors safe and traffic flowing. The City's cost includes Police escorts,
  security, traffic control, paramedic standby, traffic engineer and staff, barricades etc. runs north of
  \$80,000 per event.

#### SUPPORT FOR COUNTY AND JOINT ACTIVITIES WITH THE CITY OF BRYAN

- As in prior years, the Brazos County Health Department has requested funding from the City of College Station via the City's Outside Agency program. City Council has opted to fund the Health Department's request of approximately \$480,000, or about ½ a cent on the City tax rate, over and above the amount funded through County taxes.
- Prior to December 2023, the community bus transportation system, Brazos Transit District (BTD), was redesignated from a small urban system to a large urban system. As a result of this change, its federal and state funding was reduced. Due to the revenue loss and inflationary pressures, BTD is projecting a deficit for FY25.

- BTD has requested that Brazos County, the City of Bryan, and the City of College Station fund the projected \$950,000 deficit. While the specific funding allocation remains to be determined, if the City covered 1/3 of the projected deficit, that would amount to an additional 1/3 of a cent on the City tax rate.
- Costs for the Larry J. Ringer Library are shared between the City of Bryan and the City of College Station via an inter-local agreement (ILA). For FY25, the City of College Station expects an increase of approximately \$300,000 to cover current library operations, changes in salaries and benefits, and additional technology requirements.
- Of this increase, we anticipate that approximately \$175,000 relate to one-time costs (e.g., technology purchases). College Station is currently contractually obligated to pay for the increase which amounts to an additional 1/3 of a cent on the City tax rate.

#### **COMMUNITY AGENCIES**

- The City has historically provided limited operational support to community agencies that provide services that the City doesn't offer. Council members or City staff sit on the agency operational boards to ensure that funds are used as intended.
- These agencies include the Aggieland Humane Society, Brazos Valley Economic Development Corporation, the Bryan/College Station Chamber of Commerce, and the Arts Council of the Brazos Valley. The approximate cost to support these entities totals \$736,000 or ¾ of a cent on the tax rate.
- Additional funding for the Arts Council and the Veterans Memorial also comes from the Hotel Tax
   Fund and funding does not impact the property tax rate.
- This year, the City has received additional requests for funding from other organizations. Unlimited Potential aims to provide comprehensive support and resources to empower young adults aging out of foster care as they transition into independent living. They are requesting \$97,000 of new funding from the City. The Salvation Army has also requested \$500,000, paid over 5 years, to assist with growing capital needs, primarily related to the construction of a new facility.

#### **COUNCIL CONSIDERED STRATEGIC INITATIVES**

- Included in City Council's strategic plan are the following initiatives that are considered capital projects. Capital projects are funded on the portion of the tax rate that is not limited by legislation.
- Council has directed staff to consider options for a conference center or a convention center, complete the feasibility study for a recreation center and consider a masterplan for the Wolf Pen Creek Amphitheater area.
- These projects could be funded from a combination of sources including fund balance, additional property tax or sales tax revenue, or partnerships.
- The amount of tax rate increase needed for any construction would depend on the ultimate cost of the project, but roughly an increase of 1 cent would be needed for an additional \$17 million of capital costs. Operating costs for any capital project would roughly increase the tax rate an additional 1 cent for every \$1 million in costs.

#### PROPERTY TAX IMPACTS

- The property taxes paid to the city by residents are divided into two parts by the State Legislature.
- One part of the tax rate funds Operations and Maintenance (O&M) or ongoing services. In 2019, the limit on the revenue increases that can occur to fund O&M was set at 3.5% without a tax rate election.
- One cent for this portion of the tax rate covers approximately \$1 million in operating costs.
- The city is anticipating it will need additional property tax revenue to cover operating costs associated with the citizen approved Fire Station #7 and additional Polic officers above what we add annually to address our proactive policing ratio.
- The second part of the tax rate funds debt service on capital projects related to government facilities, streets, and parks. The upper limit on this side of the tax rate is \$2.50 per \$100 of assessed valuation. The city currently has a rate of 21.1442 cents per \$100 of assessed valuation.
- A one cent increase in the debt portion of the tax rate covers approximately \$17 million in capital costs.
- Operating costs for capital projects, such as a park, City building, or new amenity would need to be covered using the O&M rate discussed above.

#### **SALES TAXES**

- Property taxes paid to the city by residents are not the only revenue stream used to fund general city services like Police, Fire, Public Works and Parks. Sales taxes received generate and equal contribution to city revenue as property tax. On a nominal basis, sales tax for FY24 is the same amount as FY23.
- However, inflation has gone up approximately 22.5%, as measured by the CPI-U, since 2017. This means if we remove inflation from the nominal amount of sales tax received, the amount of sales tax received by the city has been relatively flat since 2017 and any nominal increase has been used only to offset the inflation, not additional services or staffing.
- One way to limit any future property tax increase would be to increase the amount of sales tax coming into the City. The largest area available to the City for revitalization are the 56 acres at Post Oak Mall. Any development there has the potential to increase the tax base and provide additional sales tax receipts. The city will continue to work with the development community and pursue redevelopment and revitalization of the Post Oak Mall area.

#### **UTILITY RATE INCREASES**

- As discussed earlier, due to the decreases in the aquifer that supplies water to residents, the city needs to drill three new wells with collection lines immediately. The cost of each well is approximately \$23 million each. Each well needs a collection line and additional rehabilitation and reconstruction projects for existing wells are now needed, increasing projected capital costs.
- Property and sales taxes are not used to fund operations for utilities such as water, wastewater, electric and sanitation. Both operational and capital costs must be covered by the rates that are charged for those services. Water rates have not been increased by the City Council since 2020. Council has following options to provide for this emergent need.
- For FY25, the budget is proposing a 10.0% increase (the first since 2020) in water rates to address the capital needs to secure future water supply.
- We anticipate potential additional rate increases will be needed for the Water utility to fund the new wells, water collection lines and well rehabilitation projects needed to secure our current and future water supply.

#### **GROWING CAPITAL NEEDS**

- The growth of our city along, the need to replace infrastructure at the end of its life and maintaining a high quality of life will necessitate additional capital projects. These include projects supported by the property tax rate and others supported by utility revenues.
- New projects include expanded roads, additional City facilities and improvements, rehabilitated Parks amenities, traffic signals, and the replacement of Public Safety radios.
- Also included to address the mobility and alternative transportation methods are funds for sidewalks, multi-use paths, and bike lanes.
- Utility projects include relocations and expansions as well as the construction of 3 new water wells and related collection lines. Also forecasted are additional well rehabilitation projects.

#### **NEW POSITIONS IN THE FY25 BUDGET**

Approximately 60% of total City operating expenses (excluding Purchase Power in the Electric Fund) are salaries and benefits. In the General Fund, these costs account for approximately 71% of operating expenses. \*Twelve firefighters will be added to the budget via a Budget Amendment during FY25 with costs showing up in FY26.

The FY25 Budget includes funding for 23 new positions with another 12 firefighters to be added via budget amendment:

				Increase	
Dept	One-Time Cost	Recurring Cost	Total	FTE	Vehicle
	Planned FY25 E	Budget Amendment			
Fire Station #7 Staffing*	\$277,270	\$1,241,260	\$1,518,530	12.0	•
Police	\$353,379	\$524,321	\$877,700	4.0	2
Public Works	-	75,649	75,649	1.0	ı
Parks	-	117,889	117,889	1.0	-
Capital Projects Operations	42,810	136,743	179,553	1.0	1
Fiscal Services	5,620	233,434	239,054	3.0	-

The FY25 Budget reflects the impact of positions that were reclassified, reallocated or exchanged with other departments in order to meet service requirements. The current Appendix C details the City's 1071.5 Full and Part Time positions by department and fund. These totals may change as Council may approve additional positions via Budget Amendments or when departments reorganize their divisions.

Temporary/seasonal and part-time non-benefitted (PTNB) employees are budgeted by calculating the number of hours worked compared to historical costs. Most PTNB positions are in the Parks and Recreation Department for seasonal programs. Other departments also utilize these types of positions to a lesser extent. A table detailing the specific types of these positions is included in Appendix C.

### SERVICE LEVEL ADJUSTMENTS (SLA)

In addition to the positions discussed above, departments requested additional expense adjustments to meet the needs of our growing City. Departments are required to submit Strategic Goals or operational Key Performance Indicators to justify the request. The below requests are included in the FY25 Budget. As a result, the included SLAs, detailed below, will help departments meet current service levels. Further details are included in the departmental summaries and in Appendix B.

Dept	One-Time Cost	Recurring Cost	Total	Vehicle

<sup>\*</sup>Estimated collections by fund will vary based on the final Appraisal Review Board (ARB) and the effective tax rate. These values are not available at the time of the proposed budget and therefore, slight differences may exist between this calculation and the estimated collections used in the proposed budget. The final approved budget will be updated to reflect ARB and approved tax rates.

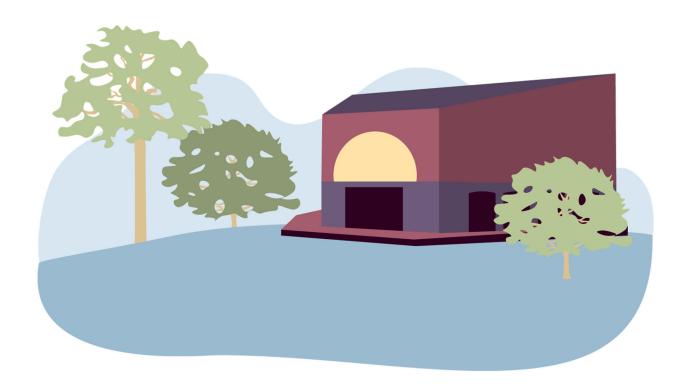

## **FINANCIAL ANALYSIS**

#### **GENERAL FUND#**

#### **CURRENT STATUS AND PROJECTIONS**

Although sales tax receipts have leveled off, one-time sale of land proceeds, higher than expected permit revenues, investment earnings, departmental vacancies, and prudent departmental expense management will result in an approximate General Fund unassigned balance of ~\$35 million to begin FY25. The Proposed FY25 Budget reflects the impacts of FY24 Budget Amendments #1 and #2 as approved by Council.

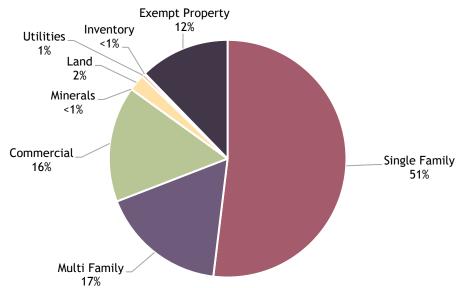

The City maintains several General Fund assigned balances to account for potential future programs. These items are primarily assigned at Council's direction and are detailed in the General Fund section of this document. These assignments may change depending on Council direction, additional data, economic circumstances, and/or forecast assumptions.

#### AD VALOREM VALUATIONS

Administered by a chief appraiser, the taxable value within the City is determined by a the Brazos Central Appraisal District (BCAD), a county agency, as of January 1 of each year. Market conditions and other factors determine that valuation. For College Station, BCAD provided a preliminary property valuation number in April for property within City limits. The estimated preliminary values provided by BCAD were used to prepare the FY25 Proposed Budget. Total taxable values before the freeze adjustment are approximately \$14.8 billion dollars. Estimated new value added to the tax rolls as of January 1, 2024 totaled \$289,700,394. The net taxable value reflects an increase of approximately 5.4% over values as of 1/1/2023. The valuations on existing property of all types assessed by BCAD increased by 5.1% over prior year values.

#### PERCENTAGE OF VALUE BY CATEGORY

## PERCENTAGE OF NEW & EXISTING VALUES BY FISCAL YEAR

■ Existing Values
■ New Values

#### PROPERTY TAX RATE

Property or Ad Valorem Tax revenue accounts for approximately 36% of General Fund revenues. General Fund revenues pay governmental services, including public safety, public works, parks, and other community needs.

As a result of legislative changes from prior years, the City is limited to a 3.5% increase in the O&M tax rate without going out for an election. The Proposed FY25 property tax rate is the same as the rate approved with the FY24 Budget.

The increase in property valuations coupled with the tax rate will result in approximately \$3,726,000 of additional revenue. The estimated revenue raised from new property added to the tax roll this year is approximately \$1,486,000.

The proposed ad valorem tax rates per \$100 of assessed valuation is as follows:

	Current Rate	Change	Proposed Rate
Debt Service Fund	21.1442	0.0000	21.1442
General Fund	30.1644	0.0000	30.1644
Total	51.3086	0.0000	51.3086
Estimated No New Revenue Rate	45.5159		50.0202
Estimated Voter Approval Rate	51.3086		52.4914
Rates above are in c	ents per \$100 asses	ssed valuation	

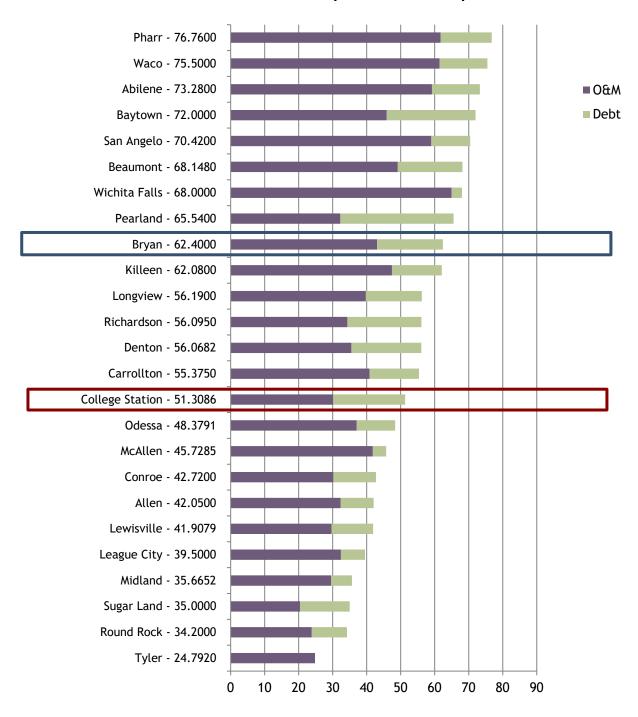

The no-new-revenue rate is a benchmark tax rate needed to raise the same amount of maintenance and operations property taxes on existing property as the previous year, after accounting for changes in the appraised values. The voter-approval tax rate is the tax rate that requires a city to hold an automatic election on the November uniform election date if it adopts a rate exceeding the voter approval rate. **Estimated No-New-Revenue and Voter Approval rates will not be finalized until the first week in August 2024.** Both rates are calculated by the County Tax Office. To fully staff Fire Station #7 and the planned additional police resources, additional revenue above the projections at the current tax rate will be required.

Additional tax rate disclosures can be found on our website at <a href="mailto:cstx.gov">cstx.gov</a>. and the Brazos County Truth in Taxation website at <a href="mailto:brazos.countytaxrates.com">brazos.countytaxrates.com</a>.

#### TAX RATE COMPARISON

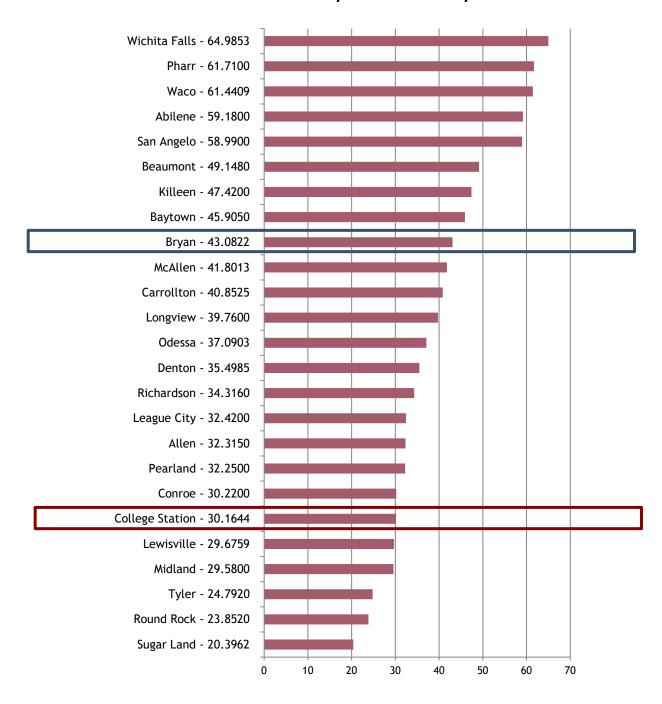

The chart below compares College Station's FY24 combined O&M and Debt tax rate to the tax rate of comparable benchmark cities, which are in Texas with populations between 75,000 and 175,000. College Station remains in the lower half of tax rates among these cities.

# FY24 AD VALOREM TAX RATE COMPARISON OF TEXAS CITIES WITH A POPULATION 75,000 TO 175,000

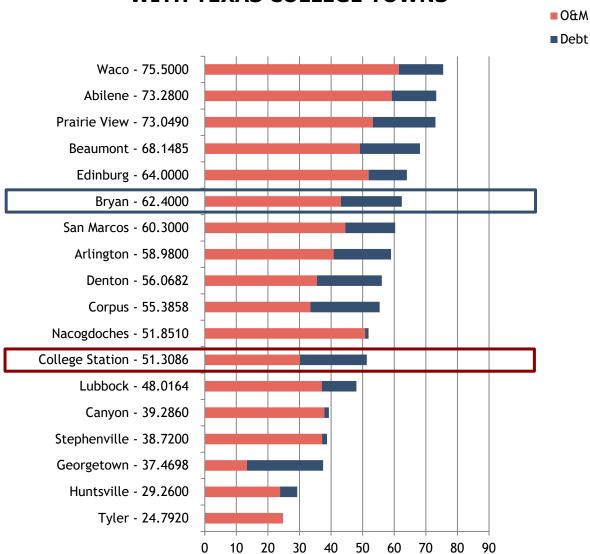

The chart below compares College Station's FY24 O&M portion of the tax rate to the O&M tax rate for the same cities. The O&M portion of the tax rate is the portion that pays for the governmental services like Police and Fire. College Station is in the lowest third of O&M tax rates among surveyed cities.

# FY24 AD VALOREM O&M TAX RATE COMPARISON OF TEXAS CITIES WITH A POPULATION 75,000 TO 175,000

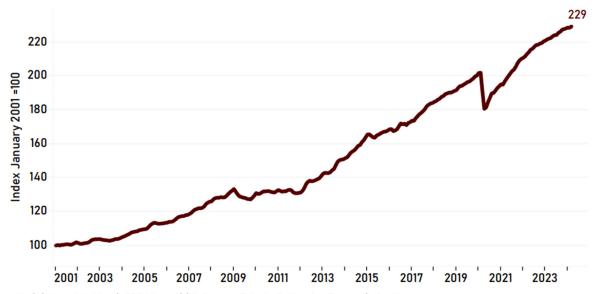

In addition to comparing cities of similar size, a comparison of cities that have a similar focus of higher education is notable as well. These cities have their own unique service challenges but share some of the same concerns when providing services to a significant student demographic. Across cities in Texas that have a large student population, College Station is below average in total ad valorem tax rates and is in the bottom half of this sample.

## COMPARISON OF AD VALOREM TAX RATES WITH TEXAS COLLEGE TOWNS

#### LOCAL ECONOMY AND WORKFORCE

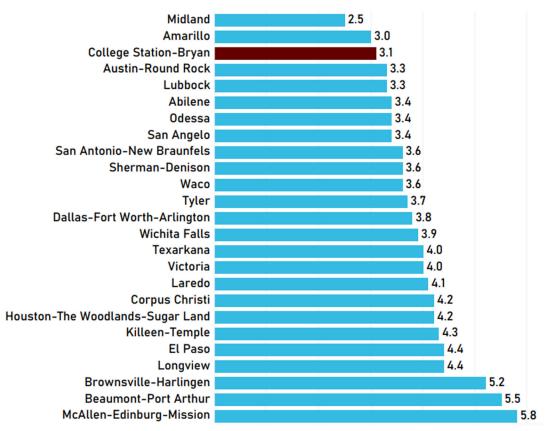

As the home to Texas A&M University, the City is privileged to have specialized data related to our economy. For example, the Texas A&M Private Enterprise Research Center developed a monthly index (College Station-Bryan Business-Cycle Index) to measure local economic performance. The most recent Index (May 2024, using March 2024 data) remained at 229, with a 0.3% increase from its February 2024 value. The Index value of 229 is similar to last fall and the data presented with the FY24 Budget. The current Index accounted for an unchanged unemployment rate and a slight increase in inflation-adjusted taxable sales, despite a quarterly wage decrease.

Last reported data point: March 2024 (monthly). Source: Private Enterprise Research Center.

The median sale price for single family residential homes in Brazos County reflected an 8% increase from the prior year.

Traditionally College Station benefits from a consistently lower unemployment rate than State or National levels. According to the Bureau of Labor Statistics, the City's unadjusted unemployment rate as of April 2024 is 2.5%, with the broader College Station-Bryan Metropolitan Statistical Area (MSA) at 3.1%. Of the broader MSA rates, only Midland and Amarillo are lower. However, this means that the labor pool of skilled and experienced employees in the area is lower and the demand for their labor is much higher. The majority of Texas MSAs reported no change in their unemployment rate through April 2024, with four MSAs reporting an increase.

Source: Bureau of Labor Statistics, Local Area Unemployment Statistics, seasonally adjusted, March 2024.

As service organization, the City's workforce makes up approximately 72% of total operating expenses excluding purchased power. Experienced workforce retention and frequent employee turnover are multi-year challenges faced by the City. Service delivery for our citizens may be impacted if we fail to attract and retain a skilled workforce. Continued labor shortages in various City departments may result in overscheduled and / or inexperienced employees and higher overtime or contract labor expenses.

Over the last 3 years, the City has operated with an average vacancy rate of ~10% compared to the historical budgeted vacancy rate of 3.0%. With future growth and population density forecasted, the City remains concerned about turnover, retention, and department vacancies. We attempt to address these factors in the FY25 Budget by reviewing employee compensation and improving benefits. Additional details are presented in the Compensation and Benefits section later in this document.

#### REVENUES

Sales tax is a significant revenue source for the General Fund, accounting for approximately 35% of General Fund revenues. Our current FY24 sales tax estimate, which includes mixed beverage receipts, is \$40.8 million. This estimate is a reduction of 0.4% when compared to FY23 receipts and is approximately \$650,000 less than what was budgeted.

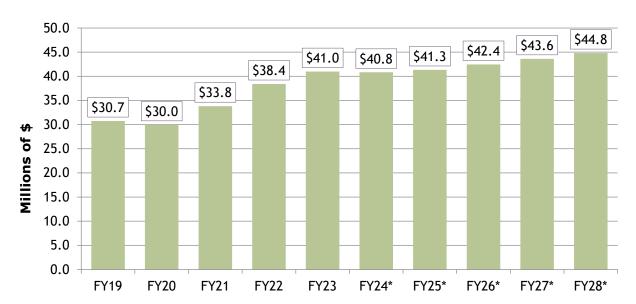

Additionally, the constant dollar analysis of sales tax receipts has revealed a decline for a second consecutive year in sales taxes. Our constant dollar analysis accounts for the impact of inflation and attempts to isolate its impact to return the actual year-over-year sales tax change adjustment. The analysis uses CPI data sourced from the Bureau of Labor Statistics. The nominal dollar sales receipts realized in FY23 were up 1.53%. However, when adjusted for inflation, realized sales receipts were down 0.85% versus FY22, while FY24 receipts are forecasted to be 1.71% less than FY23. If this trend holds, the City's inflation adjusted sales tax receipts in FY24 will be the lowest since the height of the COVID

pandemic. We believe this decline reflects a gradual economic slowdown, as consumers pull back due to high prices and the highest interest rates in 23 years.

Staff used the analysis from the constant-dollar analysis to develop a conservative FY25 sales tax budget, which assumes an increase of 2.0% over FY24 actual nominal receipts, adjusted for one-time events (such as summer events at Kyle Field). These revenues include both sales tax and mixed beverage taxes. Future years are forecasted assuming a return to the historic normalized growth of 2.7%. We used this normalized growth in the General Fund's five-year forecast presented later in this document.

The chart below presents actual and projected sales tax revenues based on the above analysis.

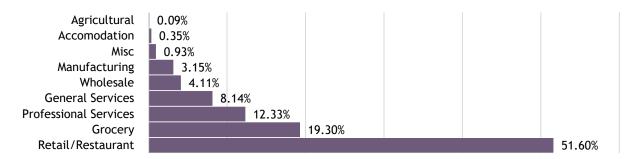

#### **SALES TAX REVENUE**

Years marked with (\*) are either estimated or projected amounts

The City also monitors the business categories that generate our sales tax. Retail and food services, which are impacted by slowing discretionary spending, make up approximately 71% of our sales tax base. Professional and general services account for an additional 21%.

#### **SALES TAX BY INDUSTRY TYPE**

#### BUILDING PERMITS AND DEVELOPMENT

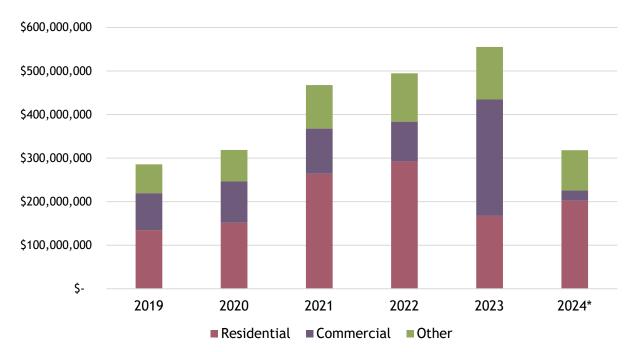

Planning & Development Services tracks issued permits and related estimated construction costs. The Residential and Commercial categories include new construction permits. The Other category includes demolitions, signs, pools, other minor structures, remodels/renovations, and reroof permits. Construction materials costs, interest rates, and consumer demand can affect the number and value of permits issued.

The estimated cost of permits issued in FY23 was \$555 million, which exceeds the previous highest value of \$494 million in FY22. From October 2023 through April 2024, permits issued totaled an estimated construction value of \$318 million. This amount may lead to new taxable assessed value in future years.

Through April 2024, 398 residential construction permits were issued, which almost matches the full year totals seen in FY21 and FY22. The cost estimate of the FY24 residential permits is \$202 million, of which single family homes accounted for \$91 million. This suggests a slow return of residential construction as the market adjusts to a new normal of high interest rates. Additionally, the FY24 data does not yet reflect activity from the summer, which traditionally has been the busiest time for new construction and development.

Based on FY24 actual permit data and revenue receipts, staff is predicting a gradual increase in permit growth when developing the FY26-FY29 forecasts. This growth in permits suggests additional full-year residents and related commercial development to support those citizens.

# CONSTRUCTION PERMIT VALUATION (FISCAL YEAR)

Source: The City of College Station, Planning and Development Services

<sup>\*</sup> Data for 2024 reflects valuations from the start of the fiscal (October 2023) year to April 2024.

#### COMPENSATION AND BENEFITS

The City of College Station operates in and recruits talent from a dynamic and competitive environment. City management seeks to emphasize our "employer of choice" status by providing competitive compensation and addressing non-financial compensation such as health insurance costs.

Strategies to address competition in the local marketplace include:

- Pay scales will increase 3.0% for all employees and there is a 1.0% market adjustment or 1.5% 2.0% step increase as earned.
- Adopting a new benefit provided by the Texas Legislature for personnel eligible to retire from the City.
- Experimenting with non-monetary compensation such as variable work schedules, wellness benefits, hiring incentives and more.
- Continuing to hold the cost of healthcare insurance to employees flat for the 5<sup>th</sup> consecutive year

The employee health benefit package includes one Preferred Provider Organization (PPO) option and one High Deductible option. Holding the cost of healthcare insurance to employees flat for the 5<sup>th</sup> consecutive year is a significant benefit as health care costs have skyrocketed since 2020.

#### NEW POSITIONS IN THE FY25 BUDGET

As described in the Executive Summary, the FY25 Budget includes funding for 23 new positions. Twelve firefighters will be added to the budget via a Budget Amendment during FY25 with costs showing up in FY26. The current Appendix C details the City's 1071.5 Full and Part Time positions by department and fund.

#### **ENTERPRISE FUNDS#**

#### WATER SUPPLY

As introduced earlier in this section, the Water utility faces significant future risk and uncertainty with respect to the City's water supply. As a result, the FY25 Budget includes construction appropriations and a 10.0% rate increase for three new water wells and related collection lines. Additional well rehabilitation projects are also included in the FY25 Budget.

The Water utility's forecast includes multiple years of potential rate increases aligned with the forecasted increase in capital costs.

#### OTHER UTILITIES

The current Electric forecast does not include any anticipated rate increases. Due to stabilizing Purchase Power costs, Electric has sufficient resources to transfer more to its Risk Mitigation Fund and to use more cash for capital (in lieu of issuing debt).

The Transmission Delivery Adjustment surcharge in the Electric Fund is proposed to be increased to match the transmission delivery cost of service charged by ERCOT. The Electric Utility uses the TDA to cover transmission charges incurred to bring power to College Station. This charge is continually reviewed and is adjusted on an annual basis.

The Wastewater forecast includes a possible rate increase, likely in FY29 or later to support additional capital projects. This forecast remains subject to change, depending on actual revenues and costs realized over the years forecasted.

#### NON-METERED UTILITY RATES

Roadway Maintenance, Solid Waste, and Drainage fees increase based on the Consumer Price Index - All Urban Areas (CPI-U) to keep pace with inflation. The FY25 Budget includes a 3.5% increase for these fees.

#### **UTILITY TRANSFERS**

The General Fund Transfer (GFT) transfer percentage from each utility will remain at the FY24 rate.

#### CAPITAL PROJECTS

#### CAPITAL FUNDING AND INTEREST RATES

The City will issue General Obligation bonds and Certificates of Obligation for select projects in Summer 2024. The General Obligation bonds are for projects approved during the November 2022 Bond Election. These projects will likely take several years to complete. In the current higher interest rate environment, staff anticipates issuing future debt conservatively to match proceeds with project expenses. As a result, the FY25 Budget includes additional General Obligation bonds and Certificates of Obligation aligned with anticipated capital expenses.

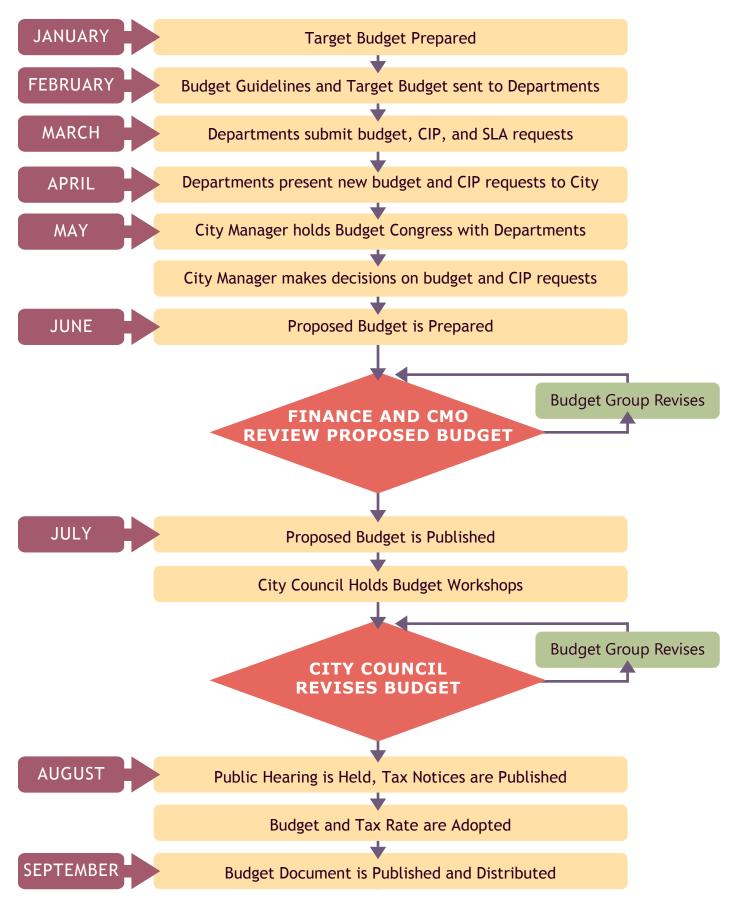

On May 1<sup>st</sup> 2024, the Federal Open Markets Committee (FOMC) voted unanimously to hold interest rates at the current 23-year high of 5.25% to 5.50%. Interest rates have remained at this level since June 2023. This decision is intended to combat the persistent inflationary environment that affects the City's and citizens' costs alike.

The impact of this federal monetary policy is an increase in the City's cost of borrowing for capital projects. These economic changes affect citizens' buying power by reducing discretionary spending, restraining sales tax revenue, limiting new home construction, and inevitably decreasing property tax revenues. However, due to prudent financial forecasting and project management, the City anticipates only issuing the minimum debt needed to continue projects currently under construction.

The City benefited from issuing debt in advance to take advantage of historically low interest rates during the COVID pandemic. The City will discuss its credit rating and any impact from interest rate changes with both rating agencies and our Financial Advisor. Despite sustained inflation, increased interest rates, and volatile economic conditions, the City expects to maintain its bond ratings due to strong financial management.

To manage interest rate risk, the City reviews its ten-year capital forecast on a monthly basis, including the timing and expense of all current capital projects. The projects approved by voters in November 2022 are continuing as planned and we expect construction to begin soon for various Parks projects, specifically the Bachmann Little/Senior League buildings. We prepared the FY25 Budget by assuming no change in our existing debt tax rate for governmental projects and projected fewer Certificates of Obligation in advance of a planned Summer 2024 issuance.

# BUDGET PROCESS

# STRATEGIC FINANCIAL PLANNING

#### MISSION STATEMENT

On behalf of the citizens of College Station, home of Texas A&M University, we will continue to promote and advance the community's quality of life.

#### **COMMUNITY VISION**

College Station, the proud home of Texas A&M University and the heart of Aggieland, will serve as an example of a vibrant, forward-thinking, knowledge-based community, that promotes the highest quality of life.

- **Distinctive Spaces:** Vibrant and distinct districts, attractive neighborhoods, revitalized gateways and corridors, and conserved natural areas, grounded in environmental stewardship and resiliency.
- **Strong Neighborhoods**: Viable and attractive neighborhoods that maintain long-term neighborhood integrity while collectively providing a wide range of housing options and other services for a diverse population.
- A Prosperous Economy: A diversified economy with a wide variety of competitive jobs and support for entrepreneurs that provides a tax base to support the City's ability to foster a high quality of life where economic prosperity is widespread.
- **Engaging Spaces:** Highly desirable parks, greenways, arts and cultural amenities that support high-quality experiences for residents and visitors.
- Integrated Mobility: An innovative, safe, and well-connected, multi-modal mobility system serving all user types that is designed to support the surrounding land uses.
- Exceptional Services: Exceptional municipal facilities and services that meet community needs, contribute to community character, exhibit environmental stewardship and resiliency, support surrounding land uses, incorporate full life-cycle costs, and are coordinated and fiscally responsible.
- Managed Growth: Fiscally responsible and carefully managed development that is aligned with growth expectations and the ability to provide safe, timely, and efficient infrastructure and services.
- Collaborative Partnerships: Well-coordinated planning at all levels and effective engagement
  with local jurisdictions, institutions, and organizations to further realize the City's vision and
  support the broad community.

College Station will remain a friendly and responsive community and be a demonstrated partner in maintaining and enhancing all that is good and celebrated in the Brazos Valley. It will forever be a place

where Texas and the world come to learn, live, and conduct business.

Further information can be found in the City's Comprehensive Plan, which was adopted by City Council in October 2021. The full document is available using the QR Code or link to the right.

#### **VALUES**

#### STRATEGIC PLAN

Using the mission statement, community vision, and values as a springboard, the College Station City Council sets the City's strategic direction by developing goals, supporting objectives, and action agendas. The City Council meets annually to discuss and revise these items. The Strategic Plan focuses organizational resources and directs the City and staff to undertake specific actions to achieve desired outcomes. This document presents a summary of the Strategic Plan in the earlier section.

#### LONG-RANGE FINANCIAL PLANNING

Each year, departments submit Strategic Plans outlining departmental goals, challenges, and future needs. Departments assess and document their anticipated future needs in support of submitted Service Level Adjustment (SLA) requests to fulfill those needs. Departments also anticipate future SLA requests to achieve long-term future goals or to address potential challenges and/or meet Key Performance Indicators. The City uses these current and future SLA requests to develop five-year financial forecasts.

#### 5-YEAR FINANCIAL FORECAST

The City uses the five-year financial forecasts to document the financial sustainability of departments' requested SLAs and the potential impact of City-wide goals and strategies. Citizens can also use them to review the City's progress towards those goals relative to expected costs or revenues. City Council, City management, staff, and citizens alike use the forecasts to strategically consider current and future needs and service delivery relative to the City's financial position. These forecasts allow for dynamic 6-18 month financial planning as well as longer-term planning for future years. The City reviews and updates these forecasts every month with current actuals and updated information that may affect future years. Select forecasts are included in the Budget document.

#### FISCAL AND BUDGETARY POLICIES

By charter, the City must adopt and approve a balanced budget no later than September 27<sup>th</sup> every year. The City reviews and adopts policies annually with the adoption of the Budget. The City includes Fiscal and Budgetary policies in Appendix F in this document. The Fiscal and Budgetary Policies serve as the framework for the City's financial management.

#### BUDGET DEVELOPMENT

The City integrates strategic planning and budget processes with the financial forecasts to ensure policies and financial controls are met. Fiscal control is at the department level in the General Fund and at the fund level for other funds. The development of the budget begins early in the calendar year and typically continues through late summer.

The City budgets salary and benefit expenses at 97% of actual costs to account for anticipated vacancies and staff turnover may occur during the fiscal year. The Finance Department works with other City Departments to develop and refine Target Budgets for the upcoming fiscal year. These Target Budgets include the aforementioned salary and benefit budgets plus fixed costs, contractual obligations, and other operational expenses. These costs generally reflect the amounts departments need to sustain the service levels from the prior year.

Departments submit any material changes in the cost of providing services for Council consideration via SLAs. Departments propose SLAs to either increase or maintain service delivery in response to population growth, economic conditions, citizen requested changes in services (e.g., a new fire station), Council directed initiatives or goals, and/or a combination of these factors. SLAs can either increase or decrease a department's budget and can result in new efficiencies or improved services.

Lead by the Director of Fiscal Services, Department Directors review each SLA and make recommendations to the City Manager on which SLAs to include for City Council consideration. This aggregation and discussion of departmental needs, submitted SLAs, and final recommendation occurs during a process nicknamed the Budget Congress. Surveys are also sent out to the public for citizen input on SLAs. Staff includes these budget recommendations in the Proposed Budget which is reviewed and discussed by City Council during Budget Workshops. Council directed changes and/or additions are included in the Budget voted on by Council after the Budget Workshops.

During the fiscal year, the City can amend the Budget based on current operational conditions, economic circumstances, or to respond to other situations. The City Manager will certify that there are available revenues for appropriations in excess of those estimated in the budget. Then City Council, by ordinance, may make supplemental appropriations for the year up to the amount of such excess in the form of a Budget Amendment. Before approval, the Council will hold a public hearing on the supplemental appropriations. Council will vote on the amendment and upon passing, the budget will be revised accordingly.

If the City Manager certifies that the estimated revenues or fund balances will be insufficient to meet the approved budget resulting in a deficit, then they will report to the Council immediately and take remedial action.

Emergency appropriations are made possible by the Council in situations affecting life, health and property of the public peace via emergency ordinance. The Fiscal and Budgetary Policy (Appendix F, Section 4.2) and the Budget Charter (Appendix E, Section 59) present the Budget Amendment process in more detail.

#### **KEY PERFORMANCE INDICATORS**

Performance measurement is essential for organizational improvement. Key Performance Indicators (KPIs) help the City identify strengths and weaknesses, areas of high performance, areas for improvement, and helps set benchmarks with historical data. City Staff use KPIs to align services with departmental and City-wide goals and to determine future requests. Departments continue to review

their KPIs to align them better with strategic plans and goals. As the City uses and updates KPIs dynamically, the data is constantly changing. While KPIs can be found throughout the book, we have also included links to a live dashboard that will provide the latest data updated throughout the fiscal year. You can also use the link to the left or find a copy of all KPIs in Appendix K.

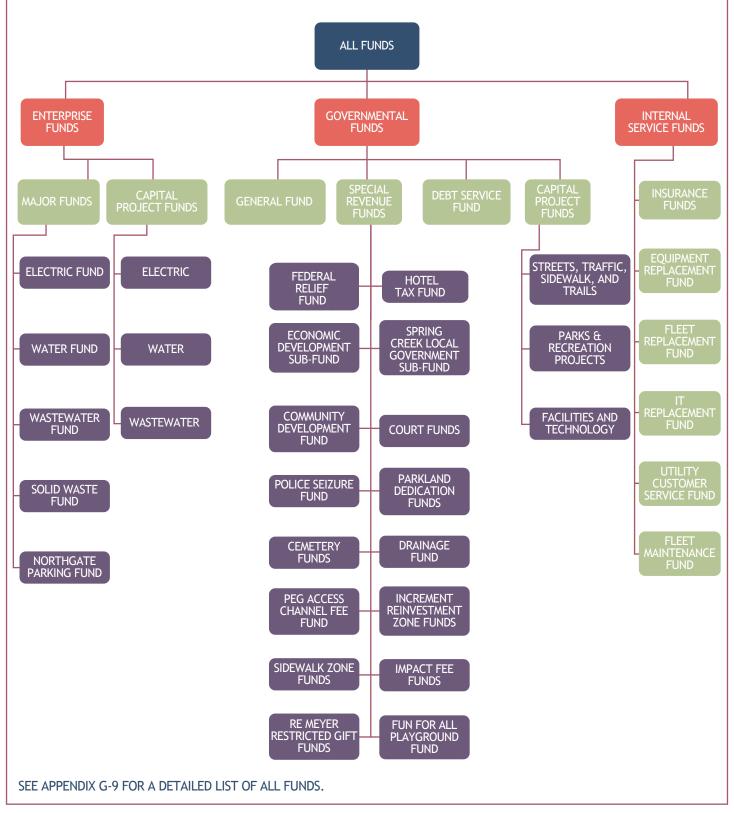

#### ANNUAL REPORT

The City's Charter requires an annual independent audit of accounts and other financial transactions conducted by the City in the most recently concluded fiscal year. Upon conclusion of this audit, staff and outside auditors shall submit this audited Annual Report to the City Council. The FY23 Annual report is available at the link to the right.

## **FUND STRUCTURE**

#### CITY OF COLLEGE STATION

# FUND STRUCTURES AND DOCUMENT ORGANIZATION

#### **FUND STRUCTURES**

The accounts of the City are organized by fund, each of which operates separately and independently of one another. The operations of each fund are accounted for with a separate set of self-balancing accounts that are comprised of assets, liabilities, fund equity, revenues, and expenditures. Major funds are any governmental fund that has revenues, expenditures, assets and/or liabilities that constitute more than 10% of the total governmental funds budget. Additionally, the fund must be 5% of the total revenues, expenditures, assets and/or liabilities for the combined governmental funds and enterprise funds budget. Any fund the government determines is of considerable importance to financial statement readers may also be designated as a major fund. A chart detailing the relationships between funds and departments is included in Appendix G.

#### BASIS OF BUDGETING AND ACCOUNTING

The City's budget is prepared consistent with Generally Accepted Accounting Principles (GAAP) using estimates of anticipated revenues as a basis for appropriating expenditures. Annual budgets are appropriated for funds included within this document. All unexpended appropriations lapse at the end of the fiscal year. Unexpended governmental funds become incorporated into the fund balance. Budget appropriated to projects are kept on a project ledger so that those funds can cross multiple years until project completion.

Both the City's budget and accounting records for general governmental operations are maintained on a modified accrual basis, with the revenues recorded when available and measurable, and expenditures recorded when the services or goods are received, and the liabilities incurred. Accounting records for the City's utilities and other proprietary activities are maintained on a full accrual basis with revenues recorded when earned and expenses recorded as goods or services are received and the liabilities incurred.

The City's government-wide financial statements and fund financial statements for proprietary funds and fiduciary funds are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

#### **GOVERNMENTAL FUNDS**

Governmental funds focus on near-term inflows and outflows of spendable resources. The budgets for the Governmental Funds are prepared using the current financial resources measurement focus and the modified accrual basis of accounting, which is the same basis used for financial statement reporting. Revenues are recognized when they are both measurable and available. The City considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenditures are recognized when the liability is incurred, with a few exceptions. Exceptions can be found in the Financial Policies Appendix F.

#### Major Governmental Funds

The **General Fund** is the City's primary operating fund. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other funds are

- accounted for in this fund. General operating expenditures, fixed charges, and capital improvement costs that are not paid through other funds are paid from the General Fund.
- The Debt Service Fund accounts for the financial resources accumulated for the payment of general government principal, interest, and related costs on long-term debt. General government debt is paid primarily from taxes levied by the City. The fund balance of the Debt Service Fund is restricted exclusively for general government debt service payments.
- The Streets Capital Projects Fund accounts for the costs of street construction and improvements and traffic signalization made with funds primarily provided by proceeds from the sale of long-term debt.
- The Facilities and Technology Capital Projects Fund accounts for the costs of municipal facility projects and improvements made with funds primarily provided by proceeds from the sale of long-term debt and cash contributions.

#### Non-Major Governmental Funds

 Economic Development, Efficiency Time Payment Fee, and the Spring Creek Local Government Corporation subfunds are considered non-major Governmental Funds. These subfunds are budgeted as distinct funds and prepared using the same accounting basis as major governmental funds.

#### Non-Major Governmental Capital Projects Funds

 Non-major governmental capital projects funds are used to account for financial resources to be used for the acquisition, construction, or repair of Parks facilities. These funds, combined with the Special Revenue Funds, are reported as Non-Major Governmental Funds for financial statement purposes.

#### SPECIAL REVENUE FUNDS

Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. All special revenue funds are considered non-major, and both the budgets and financial statements are prepared using the current financial resources measurement focus and the modified accrual basis of accounting.

#### ENTERPRISE FUNDS

Enterprise funds account for the acquisition, operation, and maintenance of government facilities and services that are self-supported by user fees. The budgets are prepared using the modified accrual basis of accounting and the current financial resources measurement focus. The budget measures the net change in working capital (current assets less current liabilities). Enterprise Fund financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting, where revenues are recorded when earned. Expenses are recorded when a liability is incurred. The City's enterprise funds are listed below.

#### Major Enterprise Funds

- The Electric Fund accounts for the activities necessary to provide electric services to the residents of the City. These activities include administration, distribution system operations and maintenance, transmission system operations and maintenance, capital improvements, financing, and related debt service. Billing and collection services are accounted for separately as an internal service fund. The related Electric Risk Mitigation Fund hedges against unexpected, extraordinary utility risks and resulting expenses.
- The Water Fund accounts for the activities necessary to provide water services to the residents of the City. These activities include administrative services, water production and distribution system operations and maintenance, capital improvements, financing, and related debt service. Billing and collection services are accounted for as an internal service

- fund. The related **Water Risk Mitigation Fund** hedges against unexpected, extraordinary utility risks and resulting expenses.
- The Wastewater Fund accounts for the activities necessary to provide sewer collection and treatment services to the residents of the City. These activities include administrative services, wastewater system operations and maintenance, capital improvements, financing, and related debt service. Billing and collection services are accounted for as an internal service fund. The related Wastewater Risk Mitigation Fund hedges against unexpected, extraordinary utility risks and resulting expenses.

#### Non-Major Enterprise Funds

o The City's Solid Waste Fund and Northgate Parking Fund are non-major enterprise funds.

#### INTERNAL SERVICE FUNDS

Internal service funds account for services provided to other departments within the City. The funds are considered non-major and the budgets are prepared using the current financial resources measurement focus and the modified accrual basis of accounting. Internal service funds include insurance, replacement, and Utility Customer Service funds.

#### BUDGET DOCUMENT ORGANIZATION

This document includes the following sections:

#### Introduction

 Includes the Tax Cover Sheet, Government Finance Officers Association award, Budget infographic, Council Members, Community Profile, Council Strategic Plan summary, City Organization Chart, and Transmittal Letter.

#### • Executive Summary

- o The Executive Summary summarizes the budget and identifies changes from the prior year.
- Net Budget Expenditure Comparison is a two-year comparison of total approved budgeted expenditures by fund, net of interfund transfers in/out. This analysis compares the original approved budgets of the fiscal years in question. The comparison includes both departmental operating and fund-level non-operating expenses (e.g., transfers, debt service payments, etc.)
- All Funds Operations Expenditure Summary presents only operating costs by fund. These costs include prior year actuals, current year revised budget and year-end estimate, the base budget, Service Level Adjustments, and the total budget. The summary also presents the percentage change from the current year revised budget to the next year budget. This report contains expenditures by classification and shows the personnel count by fund.

#### Operating Funds Sections

- o An overview of various services provided and resources available organized by fund type (Governmental, Enterprise, Special Revenue, and Internal Service Funds).
- Fund operating summary which includes:
  - Actual prior year revenues and expenses (operational and non-departmental)
  - The current year revised budget
  - The current year revenue and expenditure year-end estimates
  - The future year Base Budget
  - Proposed future year Service Level Adjustments
  - The future year Budget
  - Percentage year-over-year change in the Budget (current year to future year)
- Departmental detail for each operating fund which includes:

- A departmental overview
- A departmental fund summary which includes:
  - Financial details of each department division
  - Summary of expenditures by functional classification type (e.g., salaries, supplies, maintenance, purchased services, etc.)
  - Summary of full-time equivalent personnel within the department
- A departmental organization chart
- A departmental strategic plan which includes:
  - The mission statement and primary services of that department
  - Top departmental goals for the coming year stating the goal, issues, plan of action, and the Council Strategic Initiative addressed by the goal
- Specific departmental key performance indicators

#### Capital Projects Section

- Capital Improvement Projects summaries include:
  - A narrative description of the ongoing projects
  - · A five-year summary of the plan including:
    - Budget appropriations from inception with current and future year appropriations listed separately
    - Projected expenditures from inception with current and future years presented separately by year
    - Estimated additional future years O&M costs anticipated for each major capital project

#### Appendices

- Budget Ordinance
- Service Level Adjustments
- Personnel
- Revenue History and Budget Estimates
- Budget Provision Stated in Charter
- Fiscal and Budgetary Policy Statements
- Statistical Data
- Debt Service Schedules
- General Fund Transfers and Other (Sources) Uses
- Outside Agency Funding
- Recreation Program Revenues and Fee Recovery
- Tax Certification
- History of City Supported Community Activities
- Glossary

## **GENERAL FUND**

The General Fund is the chief operating fund and primary governmental fund of the City of College Station that includes Police, Fire, Public Works, Parks and Recreation, Planning and Development, Information Technology, Fiscal Services, Capital Projects Operations, and General Government.

The General Fund receives significant review from City staff, City Council, and the citizens. The General Fund is viewed as the "backbone" of the City since it provides most of the services for the community. The FY25 budget provides citizens with a transparent spending plan that represents City Council's priorities and reflects available revenue.

The Fiscal and Budgetary Policy in Appendix F provides the financial management framework of the City. Prudent decision-making has positioned the City well to respond to the opportunities and challenges associated with our community.

#### REVENUES

Revenue projections are based on historical trends and consider economic variables that impact the City's revenue stream. Appendix D provides historical data on all General Fund revenue categories. Major revenue influences are explained below.

**Property (Ad Valorem) Taxes** - levied based on appraised value of property as determined by the Brazos Central Appraisal District. Major factors affecting property tax revenues include population, development, property valuations, and tax rate. Anticipated revenues are based on the O&M tax rate per \$100 valuation.

**Sales Tax** - includes sales tax and mixed beverage taxes. Revenue estimates are based on data analysis of historical revenues and expected future sales, employment, and economic factors. Population, sale types and cycles, the economy and consumer price index affect sales tax revenue.

Other Taxes - includes franchise taxes for phone, cable, and natural gas.

Charges for Services - includes miscellaneous charges and fees from various departments within the General Fund, including Police, Fire, and Parks and Recreation. Major influences are rates of usage, population, and activity levels. The FY25 budget increase is due to growth in development fees.

**Licenses and Permits** - consists primarily of Planning and Development permits. Factors affecting these revenues include population, development, construction, and rate of charges. The FY25 budget increases are due to growth in the number and valuation of new development permits.

**Fines, Forfeits, and Penalties** - includes ticket and court fines from Municipal Court generated from citations.

Intergovernmental Revenues - reimbursements from Easterwood Airport, Texas A&M University, and College Station Independent School District for traffic control and various agreements are included as Intergovernmental Revenue. Reimbursements from the City of Bryan, Texas A&M University, and Brazos County for a portion of the Joint Emergency Operations Center's Staff Assistant position are also reflected here as revenue. State and federal grants are also included in this type of revenue.

**Investment Earnings** - conservative estimate based on average fund balance and the interest rate on the pooled cash account.

**Utility Transfers** - the intent of these transfers is to provide a fair and reasonable return and benefit to the City and its citizens for their ownership risk related to the City's various utility operations.

**Miscellaneous Revenues** - includes items such as sale of scrap metal, and other miscellaneous non-operating revenue.

#### **EXPENDITURES**

The principal service provided by the City is to protect residents' lives and property. Public safety (Police and Fire departments) represents nearly half of operating expenditures in the General Fund.

FY25 operating expenditures are increasing primarily due to the budgeted pay plan to address compensation issues and additions to budget or service level adjustments (SLA).

A total of 749 positions, including 12 new positions, are proposed in the FY25 General Fund budget. A full listing of positions can be found in Appendix C. Twelve firefighters will be added to the budget via a Budget Amendment during FY25 with costs showing up in FY26.

Departmental summaries are provided for each function of the General Fund that detail expenditures by classification and presents the SLAs. The departmental percentage change from FY24 revised budget to FY25 proposed budget is due primarily to prior year (FY24) one-time SLAs.

- Non-departmental expenditures include:
- Interfund transfers includes both transfers into and out of the General Fund to other funds.
- General and Administrative transfers reflect the recovery of the costs associated with the administrative services provided by departments within the General Fund to other funds.
- Public Agency funding funding for other community agencies.
- Consulting Services tax collections and data analytics assistance.
- Capital Outlay/Project Transfers cash for capital purchases.

See Appendix I for a details of General Fund non-departmental expenditures.

Contingency funds will be used to cover unforeseen events that are not specifically accounted for in the departmental budgets.

Projected ending fund balance will meet reserve requirements in accordance with the City's Fiscal and Budgetary policy.

## CITY OF COLLEGE STATION GENERAL FUND SUMMARY

## **POLICE DEPARTMENT**

#### CITY OF COLLEGE STATION

## POLICE DEPARTMENT

Comprised of 10 Divisions, the Police Department provide services to keep the community protected and safe: Administration, Uniform Patrol, Criminal Investigation, Recruiting & Training, Support Services, Communications, Special Operations, Information Services, Community Enhancement, and Technology.

Police identified several areas that are vital to the continued success of the department:

- Effective recruitment and retention of qualified personal.
- Balancing organizational growth to the needs of the evergrowing City.
- Maintaining existing service levels.

The budget for FY25 includes the following service level adjustments:

Service Level Adjustments	One-Time	Recurring	Total	Strategic Plan	<u>KPI</u>
2 Officer and 1 Vehicle	\$168,466	\$263,134	\$431,600	Goal 1	KPI 2
K9 Sergeant	181,118	189,082	370,200	Goal 1	KPI 2
Support Services Police Assistant	3,795	72,105	75,900	Goal 3	KPI 2
Inventory Control Software	9,300	4,800	14,100	Goal 4	
Dispatch AQUA Licenses	5,500	5,500	11,000	Goal 4	KPI 2
PLS Dispatch PRO	-	3,400	3,400	Goal 4	
Police Department SLAs Total	\$368,179	\$538,021	\$906,200		

KPIs are available at the link in the SLA table or in Appendix K.

- Funding for 2 Additional Officers and 1 vehicle. This SLA is in connection with the COPS Grant that was awarded in FY23 which will pay 75%, 50%, and 25% of salary expenses for 3 consecutive years beginning in 2024. These 2 Officers complete the grants funding parameters.
- The K9 Sergeant will provide the current K9 Unit with a designated supervisor as well as an additional dog and all necessary associated equipment and training.
- The Support Services Police Assistant will assist the department with distributing, maintaining, and replenishing officer equipment. This addition will improve officer efficiency by freeing up more time for providing services to our citizens.
- The Inventory Control Software will add automated control to our inventory management for supplies and equipment.
- The Police Department dispatchers use AQUA software to provide quality assurance review for emergency medical calls. Two additional licenses will improve personnel efficiency and compliance with completing call reviews.
- PLS Dispatch Pro software provides online continuing education training for required certifications to Dispatchers.

### Police Department

#### STRATEGIC PLAN

Mission Statement
To protect and serve with excellence.

#### Top Departmental Goals

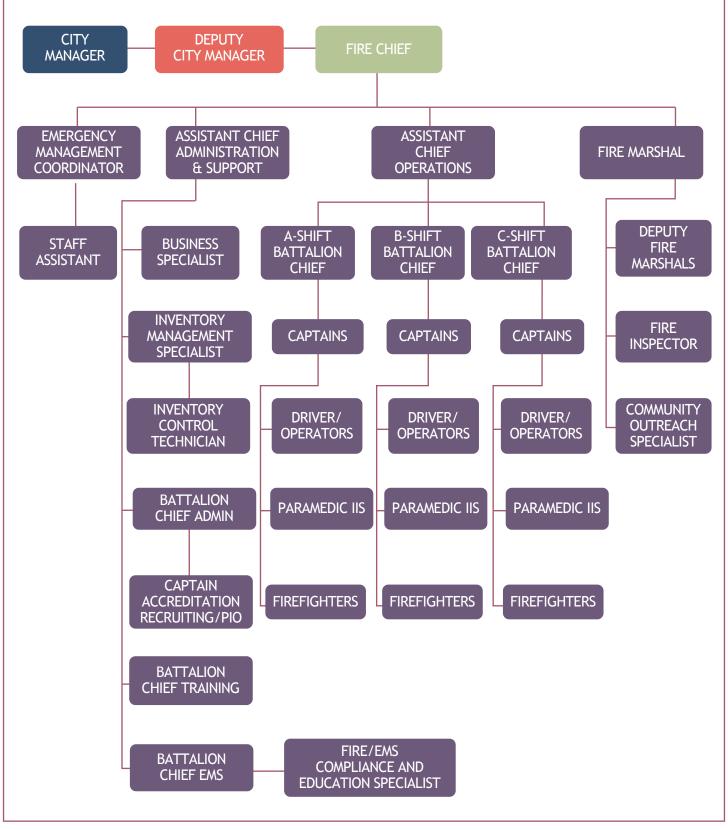

1) Goal: Reduce Crime

- Issue: Reducing crime is one of the primary goals of the department. As the city continues to grow, so does the demand for law enforcement services. Additionally, the expectations related to the quantity and variety of evidence have led to more time and resource intensive cases. To reduce crime, law enforcement employs a variety of strategies that are both reactive and proactive in nature. While it is important to respond and investigate crimes having already occurred, officers need to make sure that criminals do not have unfettered opportunities to commit crimes. Increasing sworn staffing, balanced with efficient support staff and equipment helps ensure the department can address crime in a multiprong manner.
- Plan of Action: Commit to our long-term plan of increasing sworn and professional civilian staffing
  resources to recommended levels; annually re-evaluate department needs using the same quantitative
  methodology used to create the initial report for sworn staffing.
- Strategic Initiative: Core Services and Infrastructure, and Neighborhood Integrity
- 2) Goal: Reduce the Fear of Crime
  - Issue: Reducing the fear of crime is correlated with reducing crime, and the same factors can impact both variables. While crime reduction is our priority, reduction of the fear of crime is also important to our citizens and visitors. There are instances when despite all of law enforcement's efforts, crime will still occur. In those instances, it's important for the community to have confidence that officers can solve the case and bring the perpetrators to justice. This confidence is instilled in the community through positive interactions where officers showcase their professionalism, training, and care for the community.
  - Plan of Action: Continue to hire the best and brightest applicants that have a committed heart for service
    and community. Train and equip those employees with appropriate tactics and equipment. To keep our
    highly qualified employees we will focus on retention strategies that include workplace cultural
    development and appropriate compensation adjustments. Provide employees with sufficient time to
    engage the community so that they can educate police practices and ways to avoid becoming a victim.
  - Strategic Initiative: Core Services and Infrastructure, and Neighborhood Integrity
- 3) Goal: Build and Maintain Effective Partnerships
  - Issue: Police work stands upon a foundation of public trust, in which the police are the public, and the
    public are the police. Engagement with community stakeholders is paramount. Additionally, working and
    partnering with subject matter experts and other criminal justice professionals help to improve
    efficiencies and ensure best solutions are brought forth to keep our community safe.
  - Plan of Action: We will continue to utilize a variety of opportunities to engage our community. To best achieve this goal, our department will focus its efforts on building partnerships by utilizing all staff in the organization. We will continue the pursuit of necessary staffing to enable the proactive time necessary to best facilitate the success in achieving this goal.
  - Strategic Initiative: Core Services and Infrastructure, and Neighborhood Integrity
- 4) Goal: Improve the Overall Quality of Life in the Community

- Issue: The citizens of College Station expect high-quality service from their police department. The service level we provide is part of what builds partnerships necessary for our success and these relationships help us reduce crime and the fear of crime. However, as growth and demands of the City continue to increase, additional resources are required to maintain our expected level of service.
- Plan of Action: We will continue to identify efficiencies in order to respond to the increasing demands of the City. We will utilize technology to increase efficiency, as well as identify tasks that can be performed in the most cost-effective manner.
- Strategic Initiative: Core Services and Infrastructure, and Neighborhood Integrity

### FIRE DEPARTMENT

#### CITY OF COLLEGE STATION

## FIRE DEPARTMENT

The Fire Department is a full-spectrum, life-safety department committed to protecting the City of College Station through risk reduction, public education, fire prevention, and emergency services since 1970. The department is proud to be Internationally Accredited and part of an ISO Class 1 community.

Fire Department encompasses: 174 employees consisting of 155 firefighters and paramedics and 19 staff positions, with emergency response vehicles that include ladder trucks, ambulances, and engines, responding from six stations throughout the City. Cross-staffed specialized rescue vehicles include Hazmat, Wildland, and Water Rescue. The department also provides a medical bike team used for special events and to support Northgate Operations.

The basic services provided by the Fire Department include:

- Fire response.
- Emergency medical response
- Community risk reduction, fire prevention services, commercial fire and life safety inspections and fire prevention training at local schools and various functions
- Hazardous material response
- Arson investigation
- · Emergency management

The city has in assigned fund balance \$3.5 million to use to fund staffing for Fire Station #7 for the firefighter training period. Twelve firefighters will be added to the budget via a Budget Amendment during FY25 utilizing these funds. We are currently forecasting that the cost for these 12 firefighters will be incurred in FY26, with cost for the remaining 12 firefighters to be added in FY27. Completion of Fire Station #7 is currently scheduled for September 2026.

Twelve firefighters will be added to the budget via a Budget Amendment during FY25 with costs showing up in FY26.

The FY25 budget includes the following service level adjustments:

Service Level Adjustments	One-Time	Recurring	Total	Strategic Plan	<u>KPI</u>
HAAS Alert - Increase Responder Safety	\$1,550	\$8,064	\$9,614	Goal 1	KPI 2
Electric Vehicle Fire Blankets	24,000	-	24,000	Goal 1	KPI 2
Fire Department SLAs Total	\$25,550	\$8,064	\$33,614		

KPIs are available at the link in the SLA table or in Appendix K.

- The HAAS Alert system will provide firefighters with updated communications software that
  increases the safety of first responders. HAAS Alert is a hardware and software solution that uses
  real time data from emergency vehicles to provide alerts to civilian drivers and other responding
  emergency vehicles, gives drivers more time to avoid potential collisions than conventional lights
  and sirens.
- Electric Vehicle fires have become one of the most formidable threats that our firefighters face. EV batteries, mostly comprised of lithium, tend to ignite into raging hot fires when involved in accidents. The electric vehicle blankets would allow our firefighters to suffocate these fires, instead of using regular suppression that has little effect.

The supplies expenditure percentage change from FY24 revised budget to FY25 proposed budget is due to FY24 grant awarded expenditures.

FY25 proposed budget for fire is 1.61% lower due to the prior year's one-time capital purchases of two new ambulances that are expected to go into service in FY24.

### Fire Department

#### STRATEGIC PLAN

#### **Mission Statement**

CSFD continually reduces risk in our community through fire and health safety education, fire prevention and investigation, emergency management, and special event operations. We increase operational readiness through training, quality improvement, and data-driven decision making. We respond to and effectively mitigate calls for medical service, fire suppression, and specialized rescue. We collaborate with our community partners to achieve this mission.

We demonstrate Excellence Through Service.

#### **Top Departmental Goals**

#### 1) Goal: Firefighter Safety

Issues: Staffing for critical fireground tasks; firefighter health and wellness; training and development; and high-speed roadway safety.

- Action Plan:
  - Staffing for critical fireground tasks Evaluate response plan of second ambulance on dispatched structure fires.
  - Firefighter health and wellness Support mental, emotional, behavioral, and spiritual health through peer counseling and chaplaincy.
  - Training and development Expand Active Attack Integrated Response training to regional public safety agencies.
  - High-speed roadway safety Invest in a public notification/collision avoidance system for roadway incidents.
- City Council Strategic Initiative: Core Services and Infrastructure

#### 2) Goal: Customer Service

- Issues: Deployment; service delivery training; professional development; and community engagement.
- Action Plan:
  - Deployment Implement a moderate risk haz-mat response model with critical tasking, effective response force, and response measures.
  - Service-delivery training Train and maintain the number of Firefighter/Paramedics needed to meet daily staffing requirements.
  - Service-delivery training Conduct high-rise and high-risk structure fire training modules.
  - Professional development Rotate battalion chiefs through operations and administration for professional development.
  - Community engagement Seek and analyze community stakeholder input.
- City Council Strategic Initiative: Core Services and Infrastructure

#### 3) Goal: Fiscal Responsibility

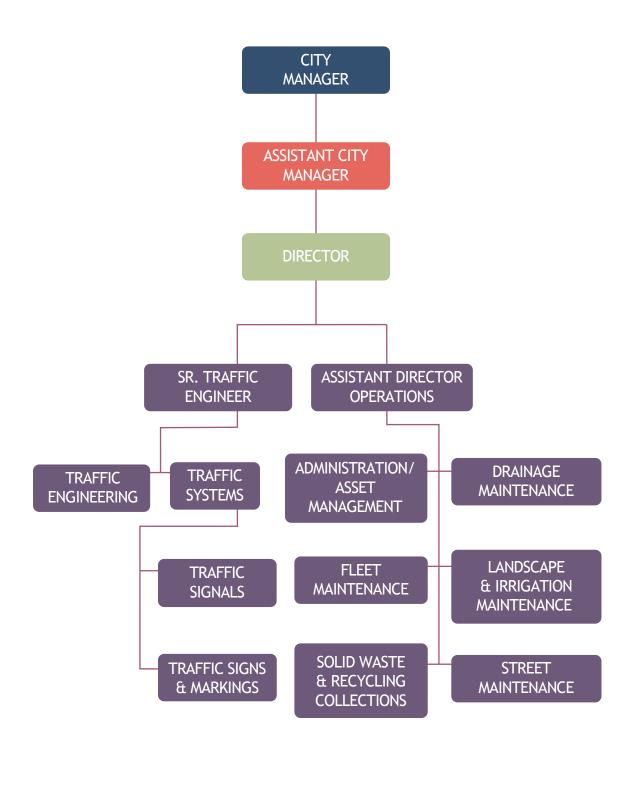

• Issues: Operate within the Annual Approved Budget; evaluate contracts and agreements, fire stations; increase retention of department members.

#### Action Plan:

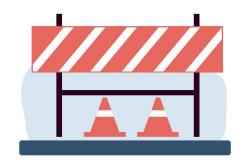

- Operate within budget Develop, monitor, and track spending plans.
- Evaluate contracts and agreements Promote a financial partnership with TAMU for emergency services.
- Fire Stations Hire Station 7 staffing in phases.
- Increase retention of department members Evaluate and consider implementation of alternative work schedules.
- City Council Strategic Initiative: Core Services and Infrastructure

## **PUBLIC WORKS**

### CITY OF COLLEGE STATION

## PUBLIC WORKS DEPARTMENT

The Public Works Department consists of the following divisions:

- Administration
- Drainage Maintenance
- Fleet Maintenance
- Landscape & Irrigation Maintenance
- Solid Waste & Recycling Collections
- Street Maintenance
- Traffic Engineering
- Traffic Signals
- Traffic Signs & Markings

The department consists of 124 full-time employees with 43 currently funded in the General Fund. Public Works is also funded by

the Solid Waste Fund, Fleet Maintenance Fund, Drainage Utility Fund, and Roadway Maintenance Fund. The department has held the prestigious American Public Works Association (APWA) accreditation since 2012.

- Administration division is responsible for: the organization and strategic planning of the department, the Public Works call center, and asset management/GIS.
- Traffic Engineering is responsible for traffic calming, plans review, quiet zones, and TAMU game day & special events.
- Streets Maintenance manages 356 centerline miles of streets, cleans 5,334 linear miles of streets and 2.4 million sq ft of City-owned parking lots.
- Traffic Signs and Markings inspects and maintains over 160 miles of longline markings and 15,000 roadway signs.

- Landscape and Irrigation Maintenance are responsible for mowings, tree maintenance and replants, along with smart irrigation meters.
- Traffic Signals division are responsible for school zone timings, signal cabinet maintenance, and signal head replacements.

FY25 budget includes the following service level adjustments:

Service Level Adjustments	One-Time	Recurring	Total	Strategic Plan	<u>KPI</u>
Traffic Signs & Markings Technician	\$-	\$75,649	\$75,649		
Thermoplastic Pavement Markings	\$75,000	-	\$75,000	Goal 3	
Streets - 16 Yard Dump Truck	\$163,800	\$36,800	\$200,600	Goal 2	
Streets - Small Pad Foot Roller	\$200,000	\$31,500	\$231,500		
Traffic Calming	-	\$212,000	\$212,000	Goal 3	
Public Works Dept SLAs Total	\$438,800	\$355,949	\$794,749		

KPIs are available at the link in the SLA table or in Appendix K.

- The additional Traffic Signs and Marking Technician will assist with signs and markings which are critical elements of roadway safety, traffic flow management, compliance with regulations and standards, and play a crucial role in ensuring accessibility for all road users.
- Thermoplastic pavement markings refer to the bright colored paint (mainly yellow, white, and red) that mark pavement and pedestrian walkways. Additional funding will add new markings and maintain existing ones.
- The construction and maintenance of city streets requires the mobility of heavy materials. The larger 16-yard dump truck will improve the mobility of required materials.
- An additional smaller pad foot roller to improve overall quality of streets by compacting soil and gravel for higher quality and smoother roads.
- Funding for designing and implementing traffic calming strategies in collaboration with neighborhoods for improved street safety.

### Public Works Department

#### STRATEGIC PLAN

#### **Mission Statement**

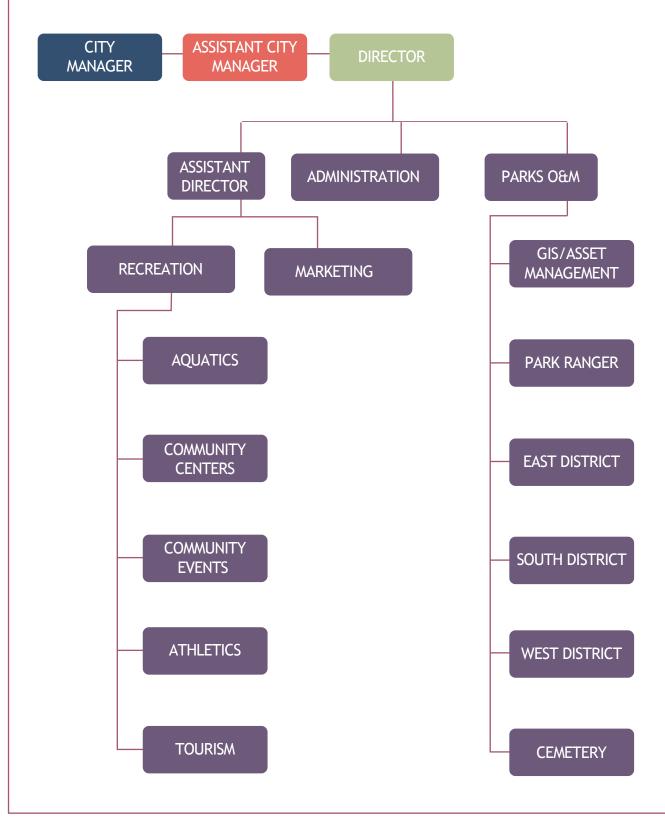

The Public Works Department will enhance the quality of life in College Station through effective and efficient management of infrastructure and excellence in customer service.

#### Top Departmental Goals

- 1) Goal: Safely conduct maintenance operations in city right of ways
  - Issue: Improve safety and efficiency in all Public Works divisions
  - Plan of Action: Acquire equipment that is designed for safer operations.
  - Strategic Initiative: Core Services and Infrastructure
- 2) Goal: Maintain effective, trained employees and equipment to sustain current service levels
  - Issue: Citywide growth
  - Plan of Action: Increase staffing and purchase additional equipment.
  - Strategic Initiative: Core Services and Infrastructure
- 3) Goal: Maintain and improve traffic mobility
  - Issue: Citywide traffic growth and congestion
  - Plan of Action: Increase street pavement conditions, signs, markings, and signals.
  - Strategic Initiative: Core Services and Infrastructure
- 4) Goal: Take a proactive approach to citywide drainage infrastructure management
  - Issue: While the department has an adequate inventory, the conditions of large areas of infrastructure are unknown at this time.
  - Plan of Action: Conduct a citywide assessment of drainage infrastructure.
  - Strategic Initiative: Core Services and Infrastructure

## PARKS AND RECREATION

### CITY OF COLLEGE STATION

## PARKS AND RECREATION DEPARTMENT

The Parks and Recreation Department (PARD) is responsible for maintenance and improvement of nearly 1,900 acres of parks and facilities throughout the city. This includes 35.5 miles of walking trails, 44 exercise stations, 58 play units, 28 swing structures, 3 dog parks, 1 skate park, 10 ponds, 2 pools, 2 splash pads, 3 community/recreation centers, a nature center and 2 municipal cemeteries. A listing of all City parks and the amenities offered at each park is included in the Appendix G-8.

Administration Division is the primary point of contact for customers, provides administrative support to the department, marketing and website administration, and Projects and Assets which coordinates the design and administration of capital improvement projects in the Parks General CIP Fund and Parkland Dedication Funds.

Parks Operations and Cemetery Divisions are responsible for maintenance and operations of the City park facilities, athletic facilities, selected streetscape areas, the City Cemetery, and the Memorial Cemetery. This division also provides support for special events, programs, and other city activities.

**Recreation Division** is responsible for the City's Special Events, Community, Recreation, and Aquatics Programs. Each program has a fully costed budget, which includes revenue, and direct costs Appendix L contains an overview of Recreation Program Revenues and Fee Recovery.

Athletics and Tourism Division oversees all the City's Sports programs, each of which has a fully costed budget, including revenue, direct costs, and field costs. This division is also tasked with attracting and hosting tourism events as well as assisting with tourism activities related to Economic Development. Successful tourism events include annual 7 7 the tournaments. Amateur Athletic Federation's (TAAF) Games of Texas, and numerous softball events.

The budget for FY25 includes the following service level adjustments:

Service Level Adjustments	One-Time	Recurring	Total	Strategic Plan	<u>KPI</u>
Wolf Pen Master Plan / Feasibility Study	\$ 120,000	\$ -	\$ 120,000	Goal 1	KPI 2
Turf Fertilizer Sprayer/Spreader	25,000	6,500	31,500	Goal 1 & 3	KPI 1
Turf Aerator Replacements (x2)	30,000	6,500	36,500	Goal 1 & 3	KPI 1
Park Ranger O & M Funds	-	10,000	10,000	Goal 3	KPI 1
Compact Utility Loader	70,000	17,500	87,500	Goal 1 & 3	KPI 1
Volunteer and Community Engagement Coordinator	2,810	115,079	117,889	Goal 2	KPI 2
Concrete Planer	15,000	5,500	20,500	Goal 1	KPI 1
Parks Department SLAs Total	\$ 262,810	\$ 161,079	\$ 423,889		

KPIs are available at the link in the SLA table or in Appendix K.

- The original Wolf Pen Creek Master Plan was adopted in 1988 and later updated in 2008. The
  amphitheater was constructed in 1993 and the festival area underwent construction in 2013. The site
  offers a wide array of entertainment options with the ability to host outdoor concerts, plays and
  festivals. Improving this area has been discussed by City Council but further study is needed. This is
  to fund a feasibility study to identify if and how this revitalization could occur.
- This SLA is for a Sprayer/Spreader, this equipment will be utilized to apply liquid and granular chemical to small, confined spaces such as infields at ball parks and around grave sites in the cemeteries that our larger equipment has difficulty managing. This diverse unit will allow the application of fertilizer, herbicides, and ant bait to name a few.
- Parks is needing to replace two "Aera-Vators" purchased in FY11 & FY12. This equipment is an attachment used to aerify athletic field turf, breaking up compaction allowing turf to recover faster. One will replace the unit at VPAC, the other at Southwood.
- The requested SLA is to support the Park Ranger positions with O&M funds including uniforms, professional development/training, and supplies.
- The cemetery groundcrew uses a versatile compact utility loader with a multitude of attachments to
  complete a variety of tasks. The crew has found that this equipment can be utilized in a more
  efficient and safer way in and around headstones to maintain and level graves. This compact machine
  allows staff to get into smaller areas that our larger equipment does not. This request is for an
  additional Compact Utility Loader that will assist in finishing cemetery groundwork faster and neater.
- Volunteers are an invaluable asset to park and recreation organizations. College Station has an abundance of philanthropic organizations wiling to contribute and give back in a meaningful way. This addition of a Volunteer and Community Engagement Coordinator will enhance our ability to provide beautiful and clean parks, while engaging dedicated members of the community. The Parks Department has an existing process for group service projects but does not have a dedicated position to manage the program. The addition of this position would not only grow the existing program but would establish an Adopt-a-Park, Adopt-a-Trail and Adopt-a-Creek programs. This position would also offset operating costs by reducing the amount of litter collection by our Park Operation crews.
- A concrete planer will be utilized to remove uneven concrete sidewalks that have heaved and become a trip hazard within City parks.

### Parks and Recreation Department

#### STRATEGIC PLAN

#### **Mission Statement**

To provide a diversity of facilities and leisure services which are geographically and demographically accessible to our citizens.

#### Top Departmental Goals

- 1) Goal: Continue to support, promote, and operate entertainment and sporting destinations through cumulative attractions.
  - Plan of Action:
    - Coordinate and synergize efforts with Economic Development and Tourism to promote sporting and entertainment offerings and venues.
  - Strategic Initiative: Provide Core Services and Infrastructure; Financial Sustainability.
- 2) Goal: Identify and secure alternative funds to support all aspects of parks and recreation.
  - Plan of Action:
    - Explore funding sources such as parkland dedication, foundations, and public-private partnerships to acquire, develop and/or improve parks and greenspace.
    - Seek grant opportunities that align with the department's unmet needs.
    - Cultivate corporate partnerships and sponsorship that enhance community programs and events.
  - Strategic Initiative: Provide Core Services and Infrastructure; Neighborhood Integrity; Financial Sustainability.
- 3) Goal: Create a sense of community through premier parks, innovative and inclusive recreation opportunities with focus on the well-being of College Station youth, families and seniors.
  - Plan of Action:
    - Create a process to gather input to inform park experience and program evaluation through an evaluation process with enhanced data collection and established metrics.
    - Address aging infrastructure and deferred maintenance throughout the parks system utilizing City Works asset management plan.
    - Update the 2010 2020 Parks and Recreation Master Plan to guide our path as a world-class park and recreation organization for the next ten years.
  - Strategic Initiative: Provide Core Services and Infrastructure; Neighborhood Integrity; Financial Sustainability.
- 4) Goal: Strengthen collaborative efforts to enhance natural resource management.
  - Plan of Action:
    - Prioritize proactive conservation of natural resources, endangered species, pollinators, and wildlife habitats through designations such as Bird City Texas and the Mayor's Monarch Pledge.
    - Enhance opportunities that focus on community awareness through collaboration with community-based partners such as Texas A & M University, AgriLife Extension, Brazos Audubon Society, Texas A & M Forest Service, etc.
  - Strategic Initiative: Provide Core Services and Infrastructure; Neighborhood Integrity

# PLANNING AND DEVELOPMENT SERVICES

The Planning and Development Services Department provides oversight for comprehensive planning of the city, and the review and inspection of the built environment within the City of College Station. Planning and Development Services consists of the following functional areas: Administration; Bicycle, Pedestrian, and Greenways; Building; Development Coordination; Engineering; GIS; Land Development Review; Planning; and Transportation.

The Planning and Development Services Department works with citizens and other City departments to ensure that development is consistent with policies and plans established by the City Council.

SEE WHAT THE PLANNING & DEVELOPMENT IS DOING!

Service Level Adjustments	One-Time	Recurring	Total	Strategic Plan	<u>KPI</u>
Comprehensive Plan and BPG Master Plan Updates	\$51,000	\$3,000	\$54,000	Goal 4	KPI 6
Preliminary Engineering Report	60,000	-	60,000	Goal 4	KPI 6
Survey Control Monument Update	75,000	-	75,000	Goal 2	-
Residential Tree Planting Program	43,125	-	43,125	-	-
PDS Department SLAs Total	\$229,125	\$3,000	\$232,125		

KPIs are available at the link in the SLA table or in Appendix K.

For FY25 Planning and Development Services has requested SLAs for the following:

- The City's Comprehensive Plan is scheduled to be updated every five years. The cities BPG (Bicycle, Pedestrian, and Greenways) Master Plan needs review to accommodate pedestrians and maintain greenways.
- The Preliminary Engineering Report would be performed to assess the improvements that can be made to support the BPG Master Plan.

- The department is requesting funding to update the survey control monuments. Survey control monuments act as benchmarks that aid in delineating property elevations. This is particularly important for large high-rise buildings that require flat land.
- The Residential Tree Planting Program, first initiated in 2022, would require additional funding to complete the project.

### Planning and Development Services

#### STRATEGIC PLAN

#### **Mission Statement:**

The Planning & Development Services Department strives to promote the health, safety, and welfare of College Station so that it remains a safe and prosperous community with an emphasis on creating and sustaining places of lasting value that enrich people's lives.

We will achieve our mission through: sound management; professional land use, thoroughfare, and alternative transportation planning; sensible engineering practices that guide infrastructure design and construction; responsible floodplain management; project facilitation, including thorough and responsive reviews and construction inspections; and assistance in special places, such as neighborhoods, districts, corridors, and the natural environment, to aid in maintaining their strength, vitality, and integrity.

#### Top Departmental Goals

- 1) Goal: Development, progression, and retention of a strong, knowledgeable, versatile, and empowered team of highly competent and professional staff
  - Issue:
    - Difficulty retaining qualified staff
    - Difficulty recruiting qualified candidates
    - Positions require highly specified skill sets, certifications, and/or licenses
    - Positions require high levels of interaction with the public and various boards and commissions, which
      creates added complexity and requires additional skill sets
    - Large learning curve for new staff (1-2 years across department)
    - Need for institutional knowledge within divisions and across departments
    - Possible compensation discrepancies for some positions
    - Lack of flexibility in remote work opportunities and alternative schedules
  - Plan of Action:
    - Expand training programs within the department
    - Support outside training and education opportunities that benefit the City
    - Support the pursuit of licenses and certifications that benefit the City
    - Support leadership positions in professional organizations
    - Develop opportunities for supervisory/management experience for purposes of professional growth, employee retention, and succession planning
    - Encourage and promote team identity and engagement
    - Proactively submit compensation study requests for select positions
    - Explore options for staffing continuity in divisions with routine position vacancies
    - Continue department internship and Texas A&M work study program participation
    - Identify options to increase work flexibility while still meeting objectives
  - Strategic Initiative: Good Governance
- 2) Goal: Provide exceptional customer service to both external and internal clients

#### Issue:

- Coordination of projects is complex and customer needs, development proposals, and projects vary greatly
- Delays in the development process create negative impacts for customers, which can damage the City's reputation
- Increases in the amount or complexity of development and special projects places additional demands on staff
- Public may be uninformed about developments, regulations, plans, or projects that may have an impact on their neighborhoods
- Inconsistent customer service skills or practices throughout the department
- Positions with specialized knowledge or duties lack redundancy
- Increased demand on vehicle resources negatively impacts staff response and availability

#### Plan of Action:

- Create a system that allows customers to easily identify regulations, projects, or developments on or near their property
- Create additional or enhance current notification and engagement opportunities regarding developments and projects
- Identify amendments to the Unified Development Ordinance and other regulations that will improve the development process, but still achieve the needed objectives
- Update the department's website to ensure needed information is found easily and communicated effectively
- Create an FAQ on the department's website to help customers find answers quickly to common questions
- Ensure proper staffing and resource levels to meet review, inspection, and project timeline expectations
- Foster communication and relationships through focused input and engagement opportunities
- Proactively manage development review proposals and projects through increased communication
- Enhance online plan submittal and permitting software to improve processes
- Create customer service training opportunities for new and existing staff
- Identify and track additional Key Performance Indicators (KPIs) that relate to customer service
- Digitize paper records for quicker retrieval
- Ensure division SOPs are current and staff is cross trained to fill gaps in service
- Review cost of services to ensure adequate resources to deliver needed level of services
- Strategic Initiative: Good Governance, Financial Sustainability, Core Services & Infrastructure, Diverse & Growing Economy, Neighborhood Integrity
- 3) Goal: Impactful implementation of the Comprehensive Plan, small area/neighborhood plans, and master plans

#### Issue:

- Implementation actions identified within the various plans are difficult to link back to goals across
  plans, difficult to track (multiple departments), and lack consistent reporting tools
- Small area/neighborhood plans are action plans with limited lifespans

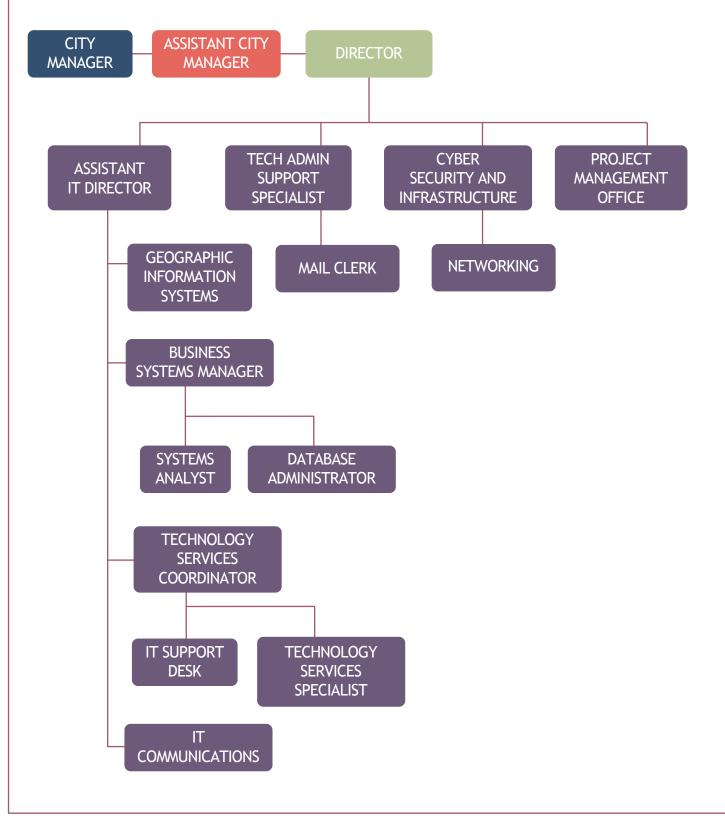

• Limited funding and staff resources to implement the full scope of the action items contained in the adopted plans and to perform the recommended further planning and analysis efforts

#### Plan of Action:

- Initiate and complete the 5-year Comprehensive Plan evaluation process
- Initiate and complete the update of the Bicycle, Pedestrian, and Greenways Master Plan
- Create Unified Development Ordinance amendments to allow development consistent with the policies of the Comprehensive Plan
- Request capital funds for specific neighborhood/small area/redevelopment plan projects that will
  coincide with other City investments to increase the economies of scale and positive impacts of
  public spending
- Seek additional funding resources for implementation of identified plan projects and programs including applying for grant funding and leveraging other internal and external funding sources
- Evaluate the feasibility of projects identified in adopted plans by performing preliminary engineering reports or other study and analysis efforts as needed
- Expand utilization of the Achievelt action plan tracking system
- Strategic Initiative: Good Governance, Financial Sustainability, Core Services & Infrastructure, Neighborhood Integrity, Diverse & Growing Economy, Improving Mobility, Sustainable City
- 4) Goal: Successful implementation, management, and collaboration of special projects and initiatives
  - Issue:
    - Several programs and initiatives require support from external partners
    - Increased program requirements and reporting
    - Data and practices relating to flood studies, engineering standards, and surveying references have become outdated
    - Difficulty tracking projects and initiatives across both internal and external partners
  - Plan of Action:
    - Serve as the City's liaison to partner organizations to remain engaged in collaborative programming
    - Identify and establish clear expectations with external partners relating to joint programs and initiatives
    - Ensure that programs and initiatives are included in the PDS Plan of Work
    - Complete a flood hazard assessment to determine additional needs relating to flood prevention activities
    - Update the city's geodetic control monuments
    - Update the Bryan/College Station Unified Design Guidelines
    - Continue implementation of the Achievelt project management system that clearly identifies the status of projects
  - Strategic Initiative: Good Governance, Financial Sustainability, Core Services & Infrastructure, Neighborhood Integrity, Diverse & Growing Economy, Improving Mobility, Sustainable City

## **INFORMATION TECHNOLOGY**

#### CITY OF COLLEGE STATION

## INFORMATION TECHNOLOGY DEPARTMENT

The Information Technology (IT) Department manages the organizations infrastructure and ensures optimal operation through duties not limited to voice and network, cybersecurity, email and communication platforms.

Nine incorporated divisions insure reliable goverance of the technological systems including:

- Administration
- IT Projects
- Cyber Security
- Geographic Information Services (GIS)
- Mail
- Technology Services
- Business Services
- Network Services
- Communication Services

The FY25 budget includes the following Service Level Adjustments:

Service Level Adjustments	One-Time	Recurring	Total	Strategic Plan	<u>KPI</u>
Fiber Reel Trailer Replacement	\$13,400	\$ -	\$13,400	Goal 2	KPI 2
Outside Training/Travel and Uniform Increase	-	24,400	24,400	Goal 3	KPI 3
IT Department SLAs Total	\$13,400	\$24,400	\$37,800		

KPIs are available at the link in the SLA table or in Appendix K.

- Replacement of the Fiber Trailer provides a cheaper option to performing various safety and operational repairs required for the current trailer. Note: Utility and Cargo trailers are not considered eligible for participation under the Fleet Replacement Fund program.
- The department seeks additional funding for Outside Training related to continuing education, training, and job-specific certifications as well as related accompanying miscellaneous travel expenses. Increase funding for City branded apparel and work-related safety shoes.

## CITY OF COLLEGE STATION INFORMATION TECHNOLOGY OPERATIONS EXPENDITURE SUMMARY

### Information Technology Department

#### STRATEGIC PLAN

#### **Mission Statement**

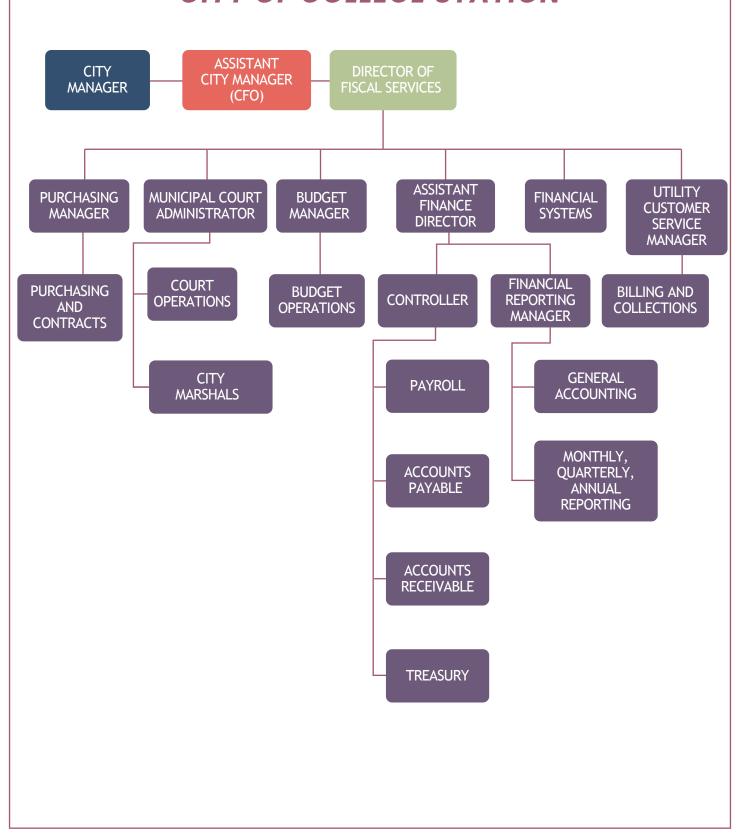

The City of College Station's Information Technology Department's mission is to provide effective and innovative technology solutions that support the City of College Station's mission and services. We strive to deliver lasting results through service management, project delivery, cyber security, data analytics, innovation, and technology enablement.

#### **Top Departmental Goals**

- 1) Goal: Protect and Enhance City's Cyber Security State
  - Issue: Cyber Security has become a core business value across the City. Since the launch of the Cyber Security Program in FY19, several gaps have been identified. These gaps should be addressed as soon as possible.
  - Plan of Action: Continue to build on the Cyber Security Training, Tools, and processes
  - Strategic Initiative: Core Services & Infrastructure, Financial Sustainability, Sustainable City, and Good Governance
- 2) Goal: Technology Anytime Anywhere for City Employees
  - Issue: With the technology becoming more and more user friendly and accessible, City's processes and technology roadmap needs transformation to support the employee requests for ease in accessibility while keeping City assets safe
  - Plan of Action: Migration to SharePoint from CityNet environment, Desktop to Laptop swap in the IT Replacement cycle, new applications, and any hardware work together to promote a secure mobile workforce.
- 3) Strategic Initiative: Good Governance, Core Services and Infrastructure, and Sustainable City
  - Goal: Strategic Partnership and Service Delivery
  - Issue: There are several roadblocks in the IT Department's path to providing Service Delivery efficiently. One of these factors is a lack of resources to address the increasing demand of IT support City wide.
  - Plan of Action: Meeting project delivery timeline and staying on budget, business requirements, cyber security
  - Strategic Initiative: Good Governance, Core Service and Infrastructure
- 4) Goal: Innovate and Enhance City Processes
  - Issue: City's internal processes can be made more efficient by going digital. This is expected to save time and money for the City. Including near real time data in City's decision-making process will support City wide saving, make City Operations transparent and support inter department collaboration
  - Plan of Action: Be transparent with project delivery and status by providing a real-time dashboard.
  - Strategic Initiative: Sustainable City, Good Governance, and Financial Sustainability

## FISCAL SERVICES

#### CITY OF COLLEGE STATION

## FISCAL SERVICES DEPARTMENT

Fiscal Services provides financial administration and support in accordance with ordinances enacted by City Council, state and federal laws, and industry standards established through the

Governmental Accounting Standards Board (GASB). The department is responsible for all transaction processing, recording, and cash receipts within the City. In addition, it provides strategic advice related to business risks and operations to the City Manager's Office.

Fiscal Services performs the following functions:

- Treasury handles cash and debt management for the City while ensuring all funds are prudently invested.
- Accounting Operations ensures transactions are properly executed and processed prior to payment, pays all city obligations accurately and timely.
- Payroll pays all employee related city obligations in accordance with applicable timelines, rules and legal requirements.
- **Purchasing** executes legal vendor contracts, purchase orders, and other purchases in accordance with Local Government Code 252.
- **Financial Reporting** prepares and distributes financial statements, coordinates the annual audit, and prepares the mandated annual report.
- **Budget** prepares the annual budget and monitors actual performance against budgeted values throughout the year.
- Municipal Court processes all city citations, collects fines and fees, and administers cases filed for enforcement of Class C misdemeanors.
- Utility Customer Service (UCS) bills and collects all utility charges for Electricity, Water, Wastewater, Drainage, Roadway Maintenance, and Solid Waste including related connection and disconnection fees. UCS is budgeted separately and located in the Internal Service Funds Section of this document.

For over 30 years, the Government Finance Officers Association (GFOA) has recognized Budget and Financial Reporting for both the Budget Document and Annual Report with the Distinguished Budget Presentation Award and the Excellence in Financial Reporting Certificate, respectively.

Fiscal Services FY25 budget includes the following service level adjustments:

Service Level Adjustments	One-Time	Recurring	Total	Strategic Plan	<u>KPI</u>
Conversion of PTNB AP Clerk to FT	\$ -	\$52,700	\$52,700	Goal 1	KPI 1
Payroll Specialist	2,810	79,290	82,100	Goal 1	
Buyer	2,810	101,444	104,254	Goal 1	
Fiscal Services SLAs Total	\$5,620	\$233,434	\$239,054	•	

KPIs are available at the link in the SLA table or in Appendix K.

- Finance seeks a full-time position in Accounts Payable in response to the City's continuing growth and associated workload.
- An additional Payroll Specialist will provide additional internal controls pertaining to duty segregation and oversight.
- The Buyer will improve efficiency and ensure continued accuracy of transactions in response to growing workload associated with bidding and contracting processes.

Municipal Courts FY25 budget includes the following service level adjustments:

Service Level Adjustments	One-Time	Recurring	Total	Strategic Plan	<u>KPI</u>
2 Deputy Court Clerk	\$5,620	\$133,980	\$139,600	Goal 3	
Marshal Replacement Vehicle	35,000	9,300	44,300		
Municipal Courts SLAs Total	\$40,620	\$143,280	\$183,900		

KPIs are available at the link in the SLA table or in Appendix K.

- The two Deputy Court Clerks will address the increased workload related to Minor in Possession violations, City Ordinance violations and other enforcements that have escalated substantially in recent years.
- Upgrade the Marshal vehicle to match the model and capabilities utilized by the Police Department.

### Fiscal Services Department

#### STRATEGIC PLAN

#### **Mission Statement**

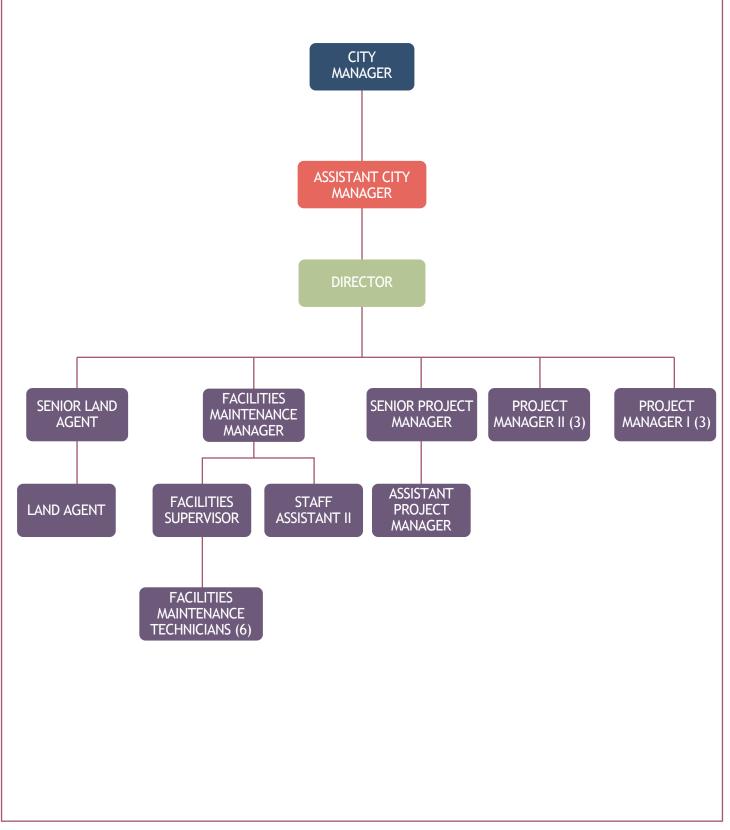

The Fiscal Services Department provides effective and efficient financial management services to internal and external customers. We promote and support fiscal responsibility through education and training; asset protection; accurate record keeping and reporting; quality purchasing practices; and sound cash management through short- and long-range budget, financial, and strategic planning.

#### Top Departmental Goals

- 1) Goal: Finance will continue to focus on training existing staff and meeting processing deadlines that impact all areas of City operations.
  - Issue: Accounting Operations and Payroll staff is new and additional complex transactions are arising as the City staff continues to grow requiring additional time administratively to validate vendors and process payroll.
  - Plan of Action: Finance has requested two additional FTEs (1 Payroll Specialist and 1 reclassification of an AP Clerk) to cover the increased workload. Finance will continue to use temporary help to maintain a qualified pipeline in its primary processing system (MUNIS).
  - Strategic Initiative: Good Governance, Financially Sustainable City, Core Services, and Infrastructure
- 2) Goal: Utility Customer Service will continue implementing billing system training and workflow efficiencies.
  - Issue: UCS completed a major system implementation in FY24. The complexity of the system requires additional training and processing time as the system is learned.
  - Plan of Action: UCS will continue to use temporary help as it assesses the workload either generated or eliminated with the new system.
  - Strategic Initiative: Good Governance, Financially Sustainable City, Core Services, and Infrastructure
- 3) Goal: Municipal Court will focus on filling maintaining existing service levels given the increase in ordinance enforcement.
  - Issue: The change of the "No More Than Four" ordinance from Criminal to Civil will require the clerks in Court an increased workload with additional hearings and payment compliance activities. Enforcement of building violations, trash cans, MIPs and Parking have all increased before the new ordinance becomes effective.
  - Plan of Action: Municipal Court has requested three additional FTEs (2 Court Clerks and 1 Payment Tech) to cover the increased workload.
  - Strategic Initiative: Good Governance, Financially Sustainable City, Core Services and Infrastructure

## **CAPITAL PROJECTS**

### CITY OF COLLEGE STATION

# CAPITAL PROJECTS OPERATIONS

The Capital Projects Operations department consists of Project Managers, Land Agents, and Facilities Maintenance personnel.

The department provides effective management of City infrastructure projects by overseeing the planning, design, land acquisition, procurement, and construction along with maintaining all City owned buildings.

FY25 budget includes the followings SLA that meet the department's strategic goals to maintain all facilities and track all City assets:

Serv	ice Level Adjustments	One-Time	Recurring	Total	Strategic Plan	<u>KPI</u>
	Facilities Asset Manager	\$42,810	\$136,743	\$179,553	Goal 5	
	CIP Department SLAs Total	\$42,810	\$136,743	\$179,553		

KPIs are available at the link in the SLA table or in Appendix K.

In FY23 the Facility Maintenance Division completed the 10year asset corrective plan developed by Faithful & Gould. In FY24 Facility Maintenance began the development of its own asset plan with help from Public Works asset management division. As the city continues to grow, we will continue asset planning for the future, a Facilities Asset manager is needed to help oversee the planning and completion of future projects so that all of the city's assets are maintained and working properly.

FY25 proposed budget is 17.57% lower to a change in the funding mechanism for facilities maintenance corrective projects. See Capital Projects Facilities and IT Projects section of document for additional information.

## Capital Project and Facility Maintenance Operations

#### STRATEGIC PLAN

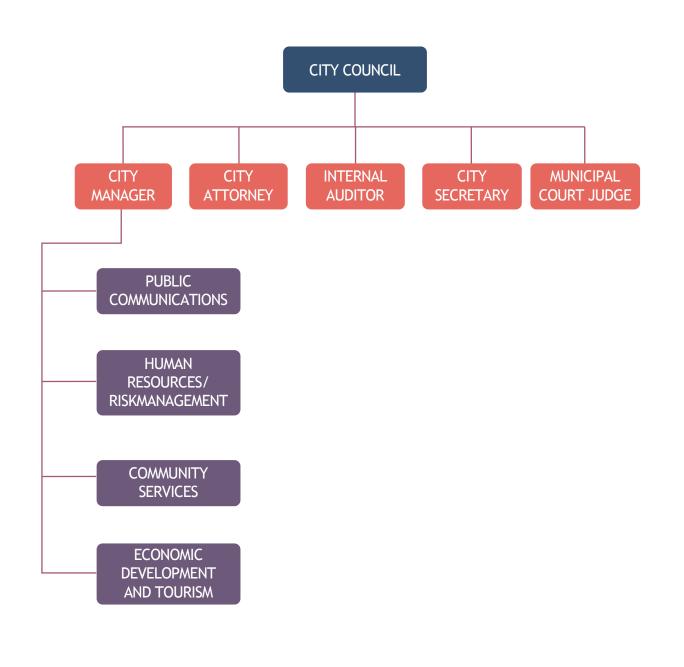

#### Mission Statement

Capital Projects provides effective management of City infrastructure projects by overseeing the planning, design, land acquisition, procurement, and construction. We strive to deliver projects within budget and on schedule and to preserve and maintain all facilities in a manner that provides a safe and secure environment for the facilities' functions.

- 1) Goal: Provide effective and efficient management of capital improvement projects
  - Issue: Maintaining highly trained staff personnel
  - Plan of Action: Continue engineering and project management training and continue career progression development
  - Strategic Initiative: Good Governance
- 2) Goal: Keep public informed of current and future capital improvement projects
  - Issue: Maintain current information on city's website and other media outlets
  - Plan of Action: Continue to work keep CIP map layer updated and continue to work with Public Communications to produce updates
  - Strategic Initiative: Core Services and Infrastructure, Improving Mobility
- 3) Goal: Deliver capital improvement projects on time and within budget
  - Issue: Managing projects by setting realistic timelines, negotiating reasonable consultant fees, and identifying ways to reduce construction costs
  - Plan of Action: Continue to track progress of projects by schedule milestones, change orders, and budget changes throughout the life of the project
  - Strategic Initiative: Good Governance, Core Services and Infrastructure, Financial Sustainability, Sustainable City
- 4) Goal: Maintain all facilities owned by the City of College Station
  - Issues: Provide repairs to city owned facilities in a timely manner
  - Plan of Action: Make sure Facility Maintenance division is staffed and prepared to make proper repairs to the facilities
  - Strategic Initiative: Core Services and Infrastructure, Sustainable City
- 5) Goal: Maintain and track all Facility assets for the City of College Station
  - Issues: Tracking and maintaining building operation
  - Plan of Action: Track all city buildings and make sure all assets are repaired or replaced to a superior operating condition
  - Strategic Initiative: Core Services and Infrastructure, Financial Sustainability, Sustainable City, and Good Governance

## **GENERAL GOVERNMENT**

#### CITY OF COLLEGE STATION

## GENERAL GOVERNMENT DEPARTMENT

The General Government Department includes administrative functions of the City.

#### MAYOR AND COUNCIL

The **Mayor and Council** Division accounts for expenditures related to Council functions such as education and travel. The city council also establishes policies regarding zoning, parks, master greenway plan and development of annual strategic issues.

#### CITY SECRETARY

The **City Secretary's Office** provides citizens with public information and implements requests for city records, prepares official minutes for city council meetings, conducts city elections, coordinates boards and commissions appointments, provides staff support to the mayor and council, and manages the council and city secretary budgets.

#### INTERNAL AUDITOR

The **Internal Auditor** conducts independent financial and performance audits of departments, offices, boards, activities, and agencies of the city to independently determine whether City resources and public funds are utilized efficiently, effectively, economically.

#### **CITY MANAGER OFFICE**

The City Manager's Office is responsible for the day-to-day operations of the city, offers recommendations to City Council, and provides short- and long-term direction for the organization. This office also includes the Neighborhood Services Division that maintains collaborative partnerships among neighborhoods, partner jurisdictions, community

organizations, and the city. Associations can develop regular communication with staff regarding area development and city services.

#### ECONOMIC DEVELOPMENT AND TOURISM

The **Economic Development and Tourism Division** provides guidance for retail planning and developing incentive programs to encourage prospective businesses to locate in the City of College Station. Tourism focuses on selling and marketing events the College Station. They are funded by the Gotel Occupancy Tax Fund. In the summer of 2024, College Station and Texas A&M University will be hosting USA Track and Field's Junior Olympic Track and Field Championships. A one-time FY24 SLA will cover the costs of this event out the General Fund. Most of the event expenses will be covered by a state-grant, which will not be received until early 2025.

#### **CITY ATTORNEY**

The City Attorney's Office provides municipal legal services and support to the City Council and City staff, including legal advice, real estate, contract drafting, open records, municipal court prosecution and litigation.

#### PUBLIC COMMUNICATIONS

The **Public Communications Division** markets the City's services in ways that appeal to the needs of citizens and keeps them informed, involved, and up to date on the work of the City government.

#### **COMMUNITY SERVICES**

The Community Services Division is responsible for Community Services Administration, Community Development, Code Enforcement, and Northgate District Management. Community Services seek to deliver high-quality programs, services, and facilities to enrich the lives of College Station residents. Northgate District Management operates a surface parking lot and parking garage in the Northgate area of town. Operations in Northgate are funded by its own enterprise fund.

#### **HUMAN RESOURCES**

The **Human Resources Division** consists of Human Resources and Risk Management. The Human Resources Division is responsible for the strategy and implementation of all HR-related functions including recruiting, hiring, training & development, employee engagement, overseeing compensation and benefits programs, and providing support for employee relations, safety, and related policy interpretations. Risk Management seeks to limit City exposure to physical and financial losses through programs that include managing property casualty claims and worker safety programs.

#### LARRY J. RINGER LIBRARY

In 1986, the Cities of Bryan and College Station signed an inter-local agreement (ILA) for Bryan to operate a branch library in College Station. This branch first opened in 1987, and the present location opened in 1998. The College Station Public Library was renamed Larry J. Ringer Library in 2004 in honor of former College Station Mayor Larry J. Ringer, who was very active in establishing the library branch. After years of growth, a newly expanded and renovated Ringer Library facility opened in 2019. As of 2023, the library ILA is managed by the City Manager's Office, previously it was in the Parks and Recreation Department. In FY23, the Ringer Library went over budget due to extenuating one-time costs. This has increased the FY25 payment to the City of Bryan. Bryan Library and Fiscal Services staff estimate that these one-time events will not occur in FY24 and that the FY26 payment will not be as high as FY25. This is reflected in the Five-Year General Fund forecast.

The budget for FY25 includes the following service level adjustments:

Service Level Adjustments	One-Time	Recurring	Total	Strategic Plan	<u>KPI</u>
City Attorney-Summer Law Clerk	\$ -	\$10,775	\$10,775	Goal 2 & 3	KPI 2
City Secretary- Community Sponsorships	25,000	-	25,000	Goal 2	KPI 3
City Manager-History Book	15,000	-	15,000	Goal 4	-
Human Resources- CDL Program Truck	225,000	35,100	260,100	Goal 1 & 2	KPI 2
Economic Development/Tourism- Event Space Supplies	10,000	-	10,000	Goal 4	-
Economic Development/Tourism- Hometown Tailgates	40,000	-	40,000	Goal 3	KPI 3 & 4
Economic Development/Tourism-	10,000	-	10,000	Goal 4	-
Lobby Merchandise					
Economic Development/Tourism- Master Plan	150,000	-	150,000	Goal 1	-
Public Communications- New City Website	60,000	3,500	63,500	Goal 1, 2, & 3	KPI 2
Public Communications- Citizen Survey	25,000	-	25,000	Goal 1	-
General Government SLAs Total	\$560,000	\$49,375	\$609,375		

KPIs are available at the link in the SLA table or in Appendix K.

- An additional paid law clerk for the summers will increase the productivity of the City Attorney's Office. Moreover, adding this paid position will keep the department competitive and attract qualified law professionals.
- City Secretary's Office will increase the annual budget for community sponsorships. Sponsoring community activities and organizations demonstrates goodwill toward citizens as well as provides marketing for the city at public events.
- The City Manager's Office aims to create a history book of the City of College Station.
- The CDL Program Truck, initiated by Human Resources, will allow the city to finance its own CDL vehicle to utilize in the training program for city employees.
- Event Space Supplies will be used by Economic Development to acquire necessary supplies for hosting functions and events in the 1207 Visitor Center.
- Economic Development is seeking one-time funding for Texas A&M Football tailgates.
- Lobby Merchandise will be used by Economic Development to increase merchandise inventory and improve the aesthetic appeal of the 1207 Visitor Center.
- Economic Development is requesting and update to the city's economic development master plan given economic events in recent years.
- Public Communications is requesting to implement a new city website. This will allow the department to improve the overall functionality and interface of the city's website.
- A citizen survey will be performed by Public Communications to gauge the overall sentiment and priorities of the citizens in College Station.

The City of Bryan funds the salary and benefits for Library employees through an Interlocal Agreement. Those employees are not included in the City of College Station's personnel totals and are not presented above.

### City Secretary's Office

#### STRATEGIC PLAN

#### **Mission Statement**

Our mission is to support, facilitate, and strengthen the City of College Station legislative process; maintain the integrity of the election process; provide lawful access to vital records; and to exceed customer expectations through increased interaction, expanded services, technological improvements, and continuous learning.

- 1) Goal: Update the OnBoard system and implement a Committee 101 course to educate the public about Boards, Committees, and Commissions.
  - Issue: People are not fully aware of the commitment involved in serving on a committee.
  - Plan of Action: Create a (Committee 101) powerpoint presentation to give to citizens in order to better inform them, in collaboration with the liaisons of the citizen boards, committees, and commissions. On our public webpage (OnBoard) provide additional information and improve the language while standardizing the information provided across meeting bodies.
  - Strategic Initiative: Good Governance
- 2) Goal: Complete the remaining 7 out of 34 department's retention schedules, along with inventorying /converting/destruction of city records in storage/office for retention.
  - Issue: Some departmental records consist of duplicates, with continue training and evaluation
    this will be corrected. Compliance with Record Scheduling Requirements of Local Government
    Records Act helps to ensure consistent retention and application of records management
    practices.
  - Plan of Action: Reduce the percentage record duplication, along with departmental coordination to convert records to .tiff or .pdf files, or complete retention process.
  - Strategic Initiative: Good Governance
- 3) Goal: Track and record our continuous growth in the issuance of vital documents.
  - Issue: Due to a number of variables, including the fact that all labor and delivery units are based in College Station and an increase in deaths that occur within our city limits, vital record requests increased by 69.97% from FY21 2,675 to FY23 3,823.
  - Plan of Action: Throughout the year, keep an eye on growth, the rise in in-person and online requests, and the usage of security papers to give a clear picture of inventory, budget status, and buying cycle optimization. (Continually looking for methods to streamline procedures.)
  - Strategic Initiative: Core Services and Good Governance
- 4) Goal: Using the current business procedures as a guide, provide user training for the GovQA Open Records Request (ORR) Management system to the entire organization.
  - Issue: Workflow procedures have changed since the GovQA ORR system was implemented in response to user input and system updates. In addition to recent additions to the organizations and changes in positions.
  - Plan of Action: Provide education and training based on the procedures used in our present workflow.
  - Strategic Initiative: Good Governance

#### **Internal Auditor**

#### STRATEGIC PLAN

#### **Mission Statement**

Provide an independent, objective audit and attestation activity designed to add value and improve city operations.

- 1) Goal: Develop and complete the FY24 Annual Audit Plan
  - Issue: An audit plan is prepared each year to serve as a guide to allocate scarce audit resources to areas that will most benefit the City.
  - Plan of Action: In developing the Annual Audit Plan, the City Internal Auditor identifies potential audit topics based on the following factors: (1) assessing financial and performance risks, (2) reviewing the financial auditors' results, and (3) determining the feasibility of audit topics and the availability of resources.
  - Strategic Initiative: Good Governance
- 2) Goal: Conduct audit follow-up
  - Issue: The efficacy of the audit process depends on the extent to which audit recommendations
    are implemented. The actions taken by management to implement recommendations and
    mitigate the risk identified in audit reports are presented in an annual report provided to the
    City Council.
  - Plan of Action: Conduct audit follow-up review for all outstanding audit recommendations.
  - Strategic Initiative: Good Governance
- 3) Goal: Update policies and procedures to ensure compliance with 2023 GAS revisions
  - Issue: Government Auditing Standards (GAS), promulgated by the U.S. Government Accountability Office (GAO), establishes professional standards for conducting audits in government. The proposed 2023 revisions are scheduled to be adopted towards then end of fiscal year 2023.
  - Plan of Action: Examine all the 2023 GAS revisions. Review and update the Internal Audit Office's policies and procedures to ensure compliance with the updated standards.
  - Strategic Initiative: Good Governance
- 4) Goal: Develop automated audit testing procedures for key financial controls
  - Issue: As the City's staff, populations, and expenditures grow, the City's risk exposure also increases. Leveraging big data and automating audit tests in common risk areas will provide better audit coverage at lower resources cost. Therefore, the need for future staffing increases will be alleviated.
  - Plan of Action: Implement a continuous auditing and agile auditing program. This will be facilitated through the purchase of a specialized audit analytics software.
  - Strategic Initiative: Good Governance, Financial Sustainable City

### City Manager's Office

#### STRATEGIC PLAN

#### **Mission Statement**

The City Manager's Office is responsible for implementing City Council policy, managing relations with City Council members, executive leadership of City Departments, and the overall administration of all City activities.

- 1) Goal: Direct and promote organizational culture and leadership.
  - Issue: Maintain a qualified and motivated professional staff.
  - Plan of Action: Review City's vision, mission, and core values; Promote leadership development among staff, create a more diverse and inclusive workplace.
  - Strategic Initiative: Good Governance.
- 2) Goal: Promote community and economic development through strategic partnerships.
  - Issue: Continue to develop a diverse and growing economy.
  - Plan of Action: Adjust to a dynamic environment and growth of the city; Meet regularly with local and regional partners including Texas A&M University; Leverage local, state, and federal resources.
  - Strategic Initiative: Sustainable City, Diverse and Growing Economy, Financial Sustainability.
- 3) Goal: Lead the FY25 Budget and Capital Improvement Program (CIP) Schedule and Budget.
  - Issue: Addressing core services and infrastructure.
  - Plan of Action: Provide support to ensure timely delivery of capital improvements. Review funding options for operating/capital projects.
  - Strategic Initiative: Core Services and Infrastructure, Improving Mobility.
- 4) Goal: Enhance relations with City Council and citizens.
  - Issue: Promote and deliver effective communication among City staff, elected officials, and the general public.
  - Plan of Action: Provide recommendations and implement policy supported by City Council; Encourage citizen engagement.
  - Strategic Initiative: Good Governance.
- 5) Goal: Strategically utilize available fund balances to meet City strategic projects.
  - Issue: The City has accumulated fund balances.
  - Plan of Action: Continue to provide superior services to residents; evaluate City assets, investments, and activities and determine the most effective way of utilizing fund balances and debt to meet the City's needs and decrease annual operating expenses.
  - Strategic Initiative: Good Governance, Core Services and Infrastructure, Financial Sustainability, Sustainable City.

### **Economic Development and Tourism**

#### STRATEGIC PLAN

#### **Mission Statement**

The Economic Development & Tourism department will lead efforts to promote a diversified economy generating quality, stable, full-time jobs; bolstering the sales and property tax base; and increasing Hotel Occupancy Tax in College Station.

- 1) Goal: Execute a comprehensive and proactive economic development program for new primary job growth.
  - Issue: Local economy is traditionally influenced by primary jobs in the education, government and service industries.
  - Plan of Action: Improve diversity of primary employment opportunities by recruiting a diverse range of industries through the provision of public and privately-owned shovel-ready sites.
  - Strategic Initiative: Diverse & Growing Economy
- 2) Goal: Support retail development and redevelopment opportunities.
  - Issue: Increase sales tax revenues through new retail development and stimulate additional investment in established commercial corridors.
  - Plan of Action: Support new development to serve growth areas while strategically facilitating reinvestment in underperforming, underutilized, or evolving commercial sites.
  - Strategic Initiative: Diverse & Growing Economy
- 3) Goal: Support and stimulate local tourism through sports tournaments, conventions, and event attractions.
  - Issue: There is a local need to draw more corporate meetings, conferences, sports tournaments, and other tourism events to College Station.
  - Plan of Action: Leverage existing venues and local partners to recruit tourism-related events that drive visitation.
  - Strategic Initiative: Diverse & Growing Economy
- 4) Goal: Sustain and enhance a high quality of life.
  - Issue: Sustaining a high quality of life requires both intentionality and strategic planning to ensure the best experience for both residents and the visitors brought into the destination.
  - Plan of Action: Seek high quality amenities, enhanced mobility options, and signature entertainment and event spaces that enhance both visitors' and residents' experiences.
  - Strategic Initiative: Diverse & Growing Economy

### City Attorney's Office

#### STRATEGIC PLAN

#### **Mission Statement**

With the highest integrity, the City Attorney's Office provides quality municipal legal counsel and services to the City, the City Council, appointed officials, and employees, while assisting the City with accomplishing its goals and serving the community effectively.

- 1) Goal: Meet increasing City departments' and public officials' demands for legal advice and services.
  - Issue: Increased requests for legal advice and services from City departments and public officials.
  - Plan of Action: Continue to evaluate and adjust legal resources provided to City departments and public officials.
  - Strategic Initiative: Good governance
- 2) Goal: Manage workload efficiently.
  - Issue: Increased legal advice and legal services in all areas resulting in a need to move to a
    paperless law practice.
  - Plan of Action: Scanning remaining paper files in storage to eliminate the need for storage.
  - Strategic Initiative: (a) Good governance (b) Financially sustainable City
- 3) Goal: Continue to develop and train capable attorneys and paralegals.
  - Issue: Increased volume and complexity of City business and municipal law.
  - Plan of Action: Continue individualized training plan for attorneys and paralegals.
  - Strategic Initiative: Good governance

#### **Public Communications**

#### STRATEGIC PLAN

#### **Mission Statement**

The Public Communications Office strives to present information truthfully, transparently, and authentically, encouraging engagement and building trust. Our vision is best summarized by: We care. We listen. We respond.

- 1) Goal: Elevate the City of College Station's image and reputation.
  - Issue: Citizens struggle to understand the city's budget and are unaware of capital project progress/success.
  - Plan of Action: Deliberate and transparent storytelling on owned, earned, and paid communication channels to convey efficient use of taxpayer dollars.
  - Strategic Initiative(s): Good Governance, Financial Sustainability, Core Services & Infrastructure
- 2) Goal: Expose a variety of audiences to essential city messaging.
  - Issue: Market College Station as a city of choice for retail, commercial, and manufacturing investment to diversify our economy and increase our tax base. Promote additional tourism opportunities.
  - Plan of Action: Collaborate with Economic Development/Tourism and Parks and Recreation to create multimedia marketing collaterals, success stories, and other tools to help build a competitive edge.
  - Strategic Initiative(s): Good Governance, Diverse & Growing Economy, Core Services & Infrastructure
- 3) Goal: Create opportunities for improved customer service and engagement.
  - Issue: The city's website requires a complete redesign to provide the positive user experience
    citizens and elected leaders expect. In addition, a city-wide citizen satisfaction survey should be
    scheduled since the last one was conducted in 2019. The new website and the survey will be
    submitted as SLAs.
  - Plan of Action: If the SLAs are approved, we will solicit bids from established municipal website
    and citizen survey vendors. The website coordinator will focus on proper site architecture, page
    layout, metadata, file types, design, content, and accessibility to support city departments and
    serve public needs. A citizen survey could be scheduled in the late spring of 2025 before most
    college students leave for the summer.
  - Strategic Initiative(s): Good Governance

### Community Services

#### STRATEGIC PLAN

#### Mission Statement

The mission of the Community Services Department is to facilitate partnerships and leverage public and private resources that promote and preserve a community with strong and safe neighborhoods; decent and affordable housing; reliable infrastructure; cost-effective public services; and attractive community amenities that enhance the tax-base and improve the quality of life for all citizens of College Station.

- 1) Goal: Manage the City's CDBG & HOME grant programs to maximize impact to the community.
  - Issue: To create programs and develop partnerships that serve the low-to-moderate income population and neighborhoods in College Station.
  - Plan of Action: Assess the needs, develop the Consolidated Plan, Annual Action Plan, and Budget to address the most pressing needs comprehensively & strategically develop partnerships that can address the areas that cannot be addressed with grant funding.
  - Strategic Initiative: Core Services & Infrastructure; Neighborhood Integrity; Diverse & Growing Economy
- 2) Goal: Increase safe and affordable housing opportunities.
  - Issue: To create more affordable housing units and continue programs to assist residents.
  - Plan of Action: Create assistance programs to address housing needs and support for-profit and non-profit developers who will create new affordable housing opportunities.
  - Strategic Initiative: Core Services & Infrastructure; Neighborhood Integrity; Diverse & Growing Economy
- 3) Goal: Proactively enforce ordinances, build relationships with residents and community partners, and respond to reports and concerns.
  - Issue: To promote and preserve a community with strong and safe neighborhoods.
  - Plan of Action: Each Code Enforcement Officer will pro-actively patrol their assigned area for possible code violations and respond re-actively to citizen concerns that are received.
  - Strategic Initiative: Neighborhood Integrity
- 4) Goal: Manage the Northgate District, including maintenance of parking and non-parking assets, providing efficient parking operations, promoting safety, monitoring aesthetics, strengthening relationships with area stakeholders, and responsible oversight of the Northgate Parking Fund.
  - Issue: To maintain a clean and safe environment for people to live, work, and play.
  - Plan of Action: Train and expect staff to educate people and enforce ordinances to encourage a
    safe and clean environment; ensure fiscal responsibility; continue open lines of communication
    with stakeholders; and maintain the City's investments in the Northgate District consistently and
    effectively.
  - Strategic Initiative: Good Governance; Financial Sustainability; Core Services and Infrastructure; Neighborhood Integrity; Diverse & Growing Economy; and Improving Mobility

### Human Resources/Risk Management

#### STRATEGIC PLAN

#### **Mission Statement**

It is the mission of the Human Resources/Risk Management Department to be a strategic partner in developing, implementing, and supporting programs and processes that add value to the City of College Station and its employees; to be an employer of choice; to ensure the effective recruitment, retention, productivity, and engagement of City employees; and to support the health, safety and welfare of employees, residents, visitors, and customers.

- 1) Goal: Be an Employer of Choice: Recruiting & Retention
  - Issue: The talent market is experiencing volatility as an impact of many circumstances. The City must remain competitive in our recruiting, retention and compensation practices and policies (i.e. total rewards).
  - Plan of Action: Pursue innovative solutions for the recruitment process, including virtual contact, identifying high potential prospects from other fields, and focusing on retaining current City employees. Seek out market and best-in-practice data to remain competitive. Develop and enhance relationships and networks in the local area to attract talent and build stronger pipelines through experiences such as internships and job shadowing. Provide in-house training opportunities, such as CDL driver training, to promote alternative hiring options while also enhancing job site exposure and culture immersion. Build robust succession plans and enhance career progression opportunities. Seek information and data from sources such as exiting employees, local market, and other data points.
  - Strategic Initiative: Core Services & Infrastructure
- 2) Goal: Be an Employer of Choice: Workplace Culture & Engagement
  - Issue: Evolving demographics of the City's workforce and this metropolitan area bring unique challenges to engaging and retaining employees and to building and sustaining a strong workplace identity and culture.
  - Plan of Action: Engage new employees early in the hiring process through OnBoard; increase engagement through additional systems (i.e. PreBoard), and development opportunities (i.e. LinkedIn learning). Promote a culture that values mental health, wellbeing and fosters diversity, equity and inclusion through education and support opportunities. Connect and engage employees as the City continues to evaluate and enhance competitive compensation and benefits. Build a strong culture by researching and applying best practice data.
  - Strategic Initiative: Core Services & Infrastructure
- 3) Goal: Be an Employer of Choice: Employee Centric Experiences
  - Issue: The lack of a robust HRIS system results in difficult-to-access data dispersed among multiple systems and stored in various formats. This makes it challenging to provide a clear and accurate picture of the City's workforce data and trends. Limited funding and resources to purchase and implement a more robust system prevents us from developing an adequate solution than spans beyond the footprint of the City's network.
  - Plan of Action: Focus on building best-in-practice data support for ease of use with the City's
    workforce systems. Partner with IT to develop and deploy system enhancements with a focus on
    increased integration and efficiency of HR processes and system data access. Implement best-inpractice learning management, HRIS and performance management systems. Make employee
    information available to employees, managers, and leaders in real time using technology that
    connects them to the organization in new and meaningful ways.

- Strategic Initiative: Core Services & Infrastructure
- 4) Goal: Be an Employer of Choice: Safe & Secure Workplace & Community
  - Issue: A hardened insurance market and increases in service complexity and high-risk activities such as public safety, public utilities, recreation, and cyber security, demand a focus on data analysis and reporting. The City must address training and communication needs to reduce risks and claims while increasing prevention strategies and awareness. This will be key to supporting a safer and more secure work environment and community.
  - Plan of Action: Introduce Enterprise Risk Management best practice programming. Partner with departments to increase security and safety awareness through programs including Smith Driving School, violent intruder training; city-wide AED/CPR/Tourniquet access; and incident review boards. Through robust claims administration, focus on strategic risk prevention and best-in-practice industry controls to ensure the City addresses risk as a priority.
  - Strategic Initiative: Core Services & Infrastructure

### **DEBT SERVICE FUND**

The Debt Service Fund pays debt obligations for General Government capital projects, encompassing facilities and technology, parks facilities, and transportation infrastructure. For a detailed list of currently funded projects, see the Capital Projects section of this document. The City's basic debt management policies are explained in the Financial Policy Statements included in Appendix F. The City continuously reviews its debt management policies to address citizens' concerns and needs. The City only issues debt to meet capital needs.

Texas state law sets the maximum ad valorem tax rate, including all obligations of the City, for a home rule city such as College Station at \$2.50 per \$100 valuation. The Proposed FY25 tax rate to finance general government services, including debt service, is 51.3086 cents per \$100 of valuation. The debt service portion of the Proposed FY25 tax rate is 21.1442 cents per \$100 of valuation. These rates remain unchanged from FY24.

The Debt Service Fund is forecasted over 10 years by balancing debt issuances with capital expenses. Fund balance fluctuates as debt is issued and expended for capital projects. The City maintains a reserve policy of at least 10% of annual appropriated expenditures in the Debt Service Fund at the end of every fiscal year. The Fund complies with the existing and proposed policies. The most recent debt issued by the City of College Station earned the below ratings from Moody's and Standard & Poor's (S&P):

Bond Type	Standard & Poor's	Moody's	Outlook
General Obligation	AA+	Aa1	Stable
Certificates of Obligation	AA+	Aa1	Stable

The ratings are standard ratings of Moody's and S&P. The highest rating available on S&P is AAA and the lowest "investment grade" debt issue is BBB. In contrast, Moody's highest rating is Aaa and the lowest "investment grade" is Bbb.

Property tax revenues for the debt portion of the tax rate are projected to increase 3.94% to \$29,697,361. This change is due to increases in property valuation and added property to the tax rolls. Budgeted FY25 investment earnings will be higher than FY24 due to current interest rates.

The fund also receives a Cemetery transfer, which services debt issued by the City for the design and construction of a cemetery fence and building. This transfer offsets a portion of the debt obligation payment described below.

FY24 debt obligation payments will increase 6.81% due to additional debt issued in FY24. The debt issued in FY24 includes General Obligation bonds for voter approved projects and some Certificates of Obligation for new and existing projects.

# CITY OF COLLEGE STATION DEBT SERVICE FUND SUMMARY

## OUTSTANDING TAX DEBT VS TAXABLE ASSESSED VALUATION

<sup>\*</sup> Projected

# ECONOMIC DEVELOPMENT SUBFUND

Economic Development programs are designed to attract industry and investment, create jobs and otherwise grow the economy. The Economic Development Subfund accounts for the payments under Council approved agreements. It is a subsidiary fund of the General Fund.

Revenue is an annual transfer-in from the General Fund. Due to timing on the current Fujifilm Diosynth Biotechnologies incentive agreement payment and the new tax incentive agreement starting in FY26, there will be no payment made in FY25 to them. The reserve balance in the Subfund will cover the FY25 payments without a need of a transfer. The expenditure budget is entirely comprised of economic development incentives to various business prospects. These agreements are more commonly known as 380 agreements. This assistance is aimed at providing prospective businesses with start-up resources and provides existing businesses the opportunity to expand operations.

Economic Develop	Economic Development Incentives													
Organization	FY24 Year End Estimate	FY25 Budget												
Fujifilm Diosynth Biotechnologies	\$262,452	\$ -												
College Station Science Park LLC	77,915	81,810												
BioCorridor Agreement with City of Bryan	200,277	218,190												
Total Incentives	\$540,644	\$300,000												

- City Council approved an incentive agreement with <u>Fujifilm Diosynth Biotechnologies</u> in June 2014 with annual payments based on Brazos Central Appraisal District certified taxable values. This current agreement's payments will finish in FY24 and a new agreement with Fujifilm will start in FY26.
- College Station Science Park LLC has an incentive agreement approved in FY15 that will pay annual cash incentives equal to the incremental taxable value for each year through 2027.
- The City also pays the City of Bryan 50% of eligible property tax revenue in the <u>BioCorridor</u> annually as part of the partnership to support development in the area. In prior years, the City made annual payments to Viasat, Strategic Behavior Health and Costco.

The City expects that the General Fund transfer to this subfund will cover the total budgeted incentive payments and any related miscellaneous expenses. Any new agreements are brought to Council for approval.

# OTHER GOVERNMENTAL SUBFUNDS

Other Governmental subfunds include the Efficiency Time Payment Fee and Spring Creek Local Government Subfunds. These funds collect revenue from specific sources and have specific expense types and/or amounts. These funds are detailed below.

#### EFFICIENCY TIME PAYMENT FEE SUBFUND

The Efficiency Time Payment Fee Fund improves the efficiency of the administration of justice in College Station. Ten percent of the total fee collected is retained from defendants who are more than thirty days delinquent in paying for a misdemeanor offense, which amounts to \$2.50. Budgeted expenses include the printing and distribution of collection notices as well as a software interface subscription with the Texas Department of Transportation.

FY25 revenue is projected to increase due to historical trends. The FY25 operating budget is planned to remain stable compared to FY24.

#### SPRING CREEK LOCAL GOVERNMENT SUBFUND

Spring Creek is a City-owned commercial development of about 485 acres along the east side of State Highway 6 South, north of W.D. Fitch Parkway, and south of Lick Creek in an area designated as "Midtown" in College Station. The site includes 250 acres for commercial development and 235 acres of preserved greenway.

The City established the Spring Creek Local Governmental Fund in February 2018 to record revenue and expenditures related to the Spring Creek Corporate Campus development. Development activities include revising the Development Plan. surveying. preliminary platting, identifying infrastructure needs, and generating marketing, branding, and signage. The City currently has lots available for private development. No activity is budgeted in FY24 and in FY23 the balance of this subfund was transferred back to the General Fund and has been reduced to zero. The subfund will be inactive until development activities are planned.

## **ELECTRIC UTILITY**

#### CITY OF COLLEGE STATION

## **ELECTRIC FUND**

The Electric Fund is an Enterprise Fund that accounts for electric utility revenue and expenses. The Utility constructs new facilities to extend electric service to new consumers, maintains system infrastructure, and responds to emergency outages and storm incidents. Electric maintains high standards of reliability to meet citizens' electric consumption while meeting or exceeding all applicable local, state, and federal compliance requirements. The Utility recovers the full cost of service by charging consumption on a per kilowatt-hour (kWh) basis.

#### The Electric system includes:

- 93.00 FTEs serving 46,530 City meters and 6,288 street/rental lights.
- Approximately 20 miles of transmission lines.
- Approximately 326 miles of underground and 205 miles of overhead distribution lines.
- Eight substations, with a ninth in preliminary construction.
- Approximate annual energy sales of 948,370 megawatt-hour (MWh).

The Texas Public Utilities Commission ruled on the City's TCOS filing that the city overcharged transmission for prior years in the amount of \*\$26.3 million dollars over 15 years, plus over \$15.4 million in interest at an interest rate of 6.71%

\*Total Refund Amount as of February 14, 2024. Interest continues to accrue at nearly \$150,000 per month thereafter. The City intends to continue to appeal these issues.

Electric revenues are budgeted by analyzing totals from prior fiscal years and adjusting for seasonality, weather, community conditions, collectability, and broader macroeconomic factors (e.g. the power generation and transmission market). Revenue budgeting methodology includes identifying and adjusting for one-time events or conditions (e.g., a historically hot and dry year, Winter Storm Uri), averaging historical revenues by

month, and assuming relatively mild but consistent growth in consumption and total customers.

Electric realized unexpected revenues in FY23 due to an extreme summer drought that was worse than the one in FY22. These revenues were used to fund capital projects and contribute more to the Risk Mitigation Fund. The FY24 revenue year-end estimate reflects a return to normal weather patterns and higher than expected investment earnings due to current interest rates.

The City is not proposing any FY25 metered rate increases. The Transmission Delivery Adjustment (TDA) surcharge will be adjusted to match the expected FY25 cost of service. The TDA covers transmission and congestion charges incurred to bring power to College Station. These expenses are included in the Operations Expenditure Summary's Purchase Power/Transmission row. The City reviews and updates the TDA annually.

FY25 budgeted operating revenue combines FY24 averaged actuals, adjusted for customer demand and weather patterns, and a mild growth factor. Budgeted FY25 residential and commercial revenues are higher due to anticipated growth resulting from population, increased density, and additional demand in

off-peak months (due to increased use of electrical heating appliances). Budgeted investment earnings were adjusted to match current year actuals. Other revenue budgets were adjusted to align with actuals realized in FY23-FY24.

The City reexamined historical KPIs and aligned them with the City's strategic plan. The FY25 Budget includes the following SLAs:

Service Level Adjustments	One- Time	Recurring	Total	Strategic Plan	<u>KPI</u>
Engineering Superintendent	\$52,810	\$209,973	\$262,783	Goal 2	N/A
Electric Fund SLAs Total	\$52,810	\$209,973	\$262,783		

KPIs are available at the link in the SLA table or in Appendix K.

• The SLA will create a licensed Professional Engineer (PE) position in the Electric department, responsible for the planning and design of the overhead and underground distribution system. This position is needed as Texas requires any public works project to be sealed by a licensed PE. The SLA directly relates to the department's Strategic Goal 2.

The FY24 year-end expense estimate reflects lower than expected Purchase Power costs while other operational costs remain high The FY25 operating budget decreased due to revised Purchase Power costs, which reflect more stable and predictable pricing. The FY25 General Fund Transfer remains relatively flat and is not set to the maximum allowed by the Fiscal and Budgetary Policy Statement.

Transfers to Electric increased due to scheduled replacement purchases and additional Supervisory Control and Data Acquisition (SCADA) costs incurred on behalf of the Water and Wastewater utilities. Electric will receive a larger transfer from both Water and Wastewater to offset a portion of the SCADA costs incurred.

The Utility Customer Service transfer increased due to the expected operating needs and available resources in that fund. Debt service increased because the current capital expenses are funded primarily via debt. G&A Transfers increased due to an updated allocation model for IT, Finance, HR, and other shared services across all departments.

FY25 continues the Electric Risk Mitigation Fund transfer. This Fund established a reserve for unexpected, extraordinary utility risks and resulting expenses. Staff evaluates fund balance annually to appropriately adjust future budgeted transfers. Additional operating revenues will be transferred to the Risk Mitigation Fund in the future.

Beginning in FY25, we anticipate funding a greater portion of future capital projects with operating revenues. This increase in cash for capital is due to available resources and projected utility costs (primarily utility relocations in coordination with TxDOT and the construction of a new substation).

The FY25 ending working capital will decrease due to the budgeted cash for capital and Risk Mitigation Fund transfer. The Utility has sufficient recurring revenues to cover regular recurring operating and non-operating expenses. The projected FY25 working capital meets the 18% reserve requirement as outlined in the Fiscal and Budgetary Policy Statement.

### **ELECTRIC FUND DEBT TO EQUITY**

### Electric Department

#### STRATEGIC PLAN

#### **Mission Statement**

Provide high quality, customer-owned electric service to our customers in College Station through exceptional reliability, outstanding customer service, controlling costs and rates, anticipating future needs, and improving the quality of life through dependable service.

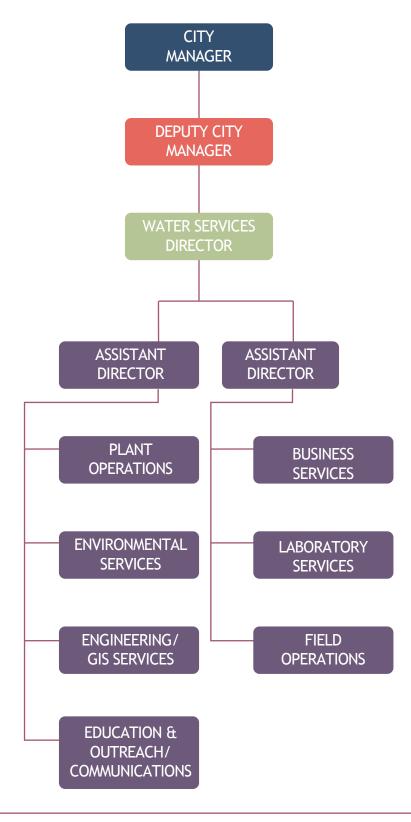

#### **Top Departmental Goals**

- 1) Goal: Continue multi-year deployment of a Distribution Automation (DA) system with fiber communication to allow better control of system devices through SCADA and to provide remote switching to reduce customer outage time during emergency events.
  - Issue: Implement Electric DA.
  - Plan of Action:
    - Continue the installation of motor operators.
    - Design and begin installation of a fiber communication system.
    - Develop operating guidelines for DA.
  - Strategic Initiative: Core Services and Infrastructure, Financially Sustainable City.
- 2) Goal: Compliance with state and federal regulatory authorities.
  - Issue: Unfunded Mandates from Regulatory Agencies.
  - Plan of Action:
    - Stay current on regulatory requirements to minimize current budget impacts and to provide for future funding in order to meet evolving compliance standards.
    - Maintain and develop subject matter experts (SMEs) for auditable occurrences.
    - Maintain an asset tracking system for compliance related equipment.
  - Strategic Initiative: Financially Sustainable City.
- 3) Goal: Plan and Prepare for future costs and revenues.
  - Issue 1: Manage Power Supply Costs, Contracts, and Electric Rates.
    - Plan of Action:
      - ♦ Manage Congestion Revenue Rights (CRR) costs.
      - ♦ Monitor the gas market for future gas hedges.
      - Develop plan for power needs when current contracts expire in 2027.
      - ♦ Work towards legal resolution of TCOS Rate Case Filing.
    - Strategic Initiative: Core Services and Infrastructure, Diverse Growing Economy.
  - Issue 2: Provide service to extensive new development growth in the service territory and the redevelopment of the Northgate area. Address growing requirements to serve 5G communications and fiber technology. Continue to provide improved service to existing customers through advanced communications and reliability.
    - Plan of Action:
      - ♦ Maintain accurate data to track growth and identify facility loading concerns.

- ♦ Work to design and install CSNW Substation and feeders.
- ♦ Redistribute load on existing feeders to maintain healthy feeder profiles.
- ♦ Enhance outage text notification system.
- Strategic Initiative: Core Services and Infrastructure, Diverse Growing Economy.
- 4) Goal: Develop and maintain a trained and knowledgeable electric utility workforce.
  - Issue 1: Employee Retention and Succession Planning.
    - Plan of Action:
      - ♦ Emphasize "hiring for attitude" in the recruitment process.
      - Preserve a culture of accountability and pride in work.
      - Promote an environment of healthy work behaviors that reward exceptional performance and encourage learning.
      - ♦ Focus on recruiting, developing, and retaining a quality work force.
      - Encourage longevity, career growth, and progression within the organization by mentoring new recruits, encouraging personal development, and recognizing leadership qualities in strategic-minded employees.
      - ♦ Identify functional areas where we are "one employee deep" and develop succession plan.
      - ♦ Train future SMEs to maintain knowledge source, for auditable topics, through potential turnover.
    - Strategic Initiative: Core Services and Infrastructure.
  - Issue 2: Competitive Compensation.
    - Plan of Action:
      - Work with HR to identify market movements in the electric industry including local competitors who recruit CSU personnel.
      - ♦ Continue to share public power salary benchmarking publications and surveys.
    - Strategic Initiative: Core Services and Infrastructure.
- 5) Goal: Create a culture of safety by planning, designing, constructing, and maintaining the electric system to ensure employee and public safety.
  - Issue: Safety of Personnel / Safe Work Practices.
  - Plan of Action:
    - Utilize, train, and enforce the safety standards in the CSU adopted APPA Safety Manual and National Electrical Safety Code (NESC).
    - Involve employees in presenting training on the APPA Safety Manual and NESC.
    - Continue to evolve the "Safety Stand-Down Day" to involve more employee participation and ownership. Develop list of priority topics that must be iterated on a yearly basis.
    - Continue to develop and update specifications book and CSU Service Guide to provide standardized installation of infrastructure.
  - Strategic Initiative: Core Services and Infrastructure.

### **WATER SERVICES**

#### CITY OF COLLEGE STATION

### **WATER FUND**

The Water Fund is an Enterprise Fund that accounts for water utility revenue and expenses. The Utility maintains high standards of reliability to meet citizens' water needs, while striving to meet or exceed all applicable local, state, and federal standards. The Utility recovers the full cost of production, transmission, and distribution by charging consumption on a per unit basis.

College Station primarily relies on water from the Simsboro Sand Formation of the Carrizo-Wilcox aquifer, overseen by the Brazos Valley Groundwater Conservation District for Robertson and Brazos Counties. Increased water withdrawal, due to droughts and Brazos Valley growth, has lowered the aquifer's water level in the City's wellfield. The potential transfer of water from the Brazos Valley to areas beyond the district's

borders could worsen this situation, potentially requiring existing City well redrilling. Presently, the City operates eight Simsboro wells and plans to drill three more to meet current and future water needs. However, the escalating decline in aquifer levels threatens the City's capacity to adequately supply water during peak pumping seasons. The FY25 Budget includes capital projects aimed at addressing these challenges by drilling new wells and modifying existing ones to increase production capacity. Furthermore, College Station continues to collaborate with external stakeholders to secure the City's water supply.

#### The Water system includes:

- 10 wells capable of producing approximately 29.5 million gallons per day (MGD)
- 45 employees serving 45,240 connections
- 2 ground and 3 elevated storage tanks with a total capacity of 16 million gallons
- 490 miles of water line
- Average consumption of 15.66 MGD
- Approximate daily consumption of 133 gallons per capita

Water revenues are budgeted by analyzing monthly totals from prior years and adjusting for seasonality, weather, community conditions, collectability, and broader macroeconomic factors (e.g., customer consumption, conservation). Revenue budgeting methodology identifies and accounts for one-time events or conditions (e.g., a historically hot and dry year, rate changes), averaging historical revenues by month, and assuming relatively mild but constant growth in consumption and total customers.

FY25 budgeted operating revenues combine FY23 actuals and FY24 year-end estimates with a mild growth factor. This calculation methodology occasionally results in noticeable percentage changes between budgets. For FY25, the budget is proposing \$123 million in capital and a 10.0% increase in water rates to address the capital needs to secure future water supplies. Budgeted investment earnings were adjusted to reflect current year actuals. All other revenue budgets are consistent with FY24 We anticipate additional rate increases will be needed for the Water utility to fund the new wells, water collection lines and well rehabilitation projects needed to secure our current and future water supply.

The FY25 budget includes the following SLAs:

Service Level Adjustments	One-Time	Recurring	Total	Strategic Plan	<u>KPI</u>
Water Master Plan Update	\$400,000	\$ -	\$400,000	Goal 1	All
Regulatory Compliance Manager	4,810	135,621	140,431	Goals 1, 2	KPIs 2, 4
Water Meter Testing Bench	200,000	-	200,000	Goals 1, 4	KPIs 1, 3
Irrigation System Controller Rebates	-	10,000	10,000	Goals 4, 5	KPIs 2, 4
Water Fund SLAs Total	\$604,810	\$145,621	\$750,431	:	=

KPIs are available at the link in the SLA table or in Appendix K.

- The Master Plan Update will reevaluate growth patterns, usage projections, and current and future demands for the Water utility to develop a revised capital plan.
- The Regulatory Compliance Manager will ensure the utility meets all environmental standards while also creating new proactive programs to address new regulations.
- The Meter Testing Bench will optimize meter testing and data recording related to equipment replacement and troubleshooting.
- The Irrigation Rebate SLA will encourage more efficient irrigation practices and monitoring, leading to reduced consumption and improved sustainability.

The FY25 operating budget increased due to the requested SLAs, higher utility and chemical expenses and additional software licensing costs for SCADA equipment. The Direct Capital budget also increased due to the requested SLAs and planned SCADA hardware purchases.

The Impact Fee transfer, which offsets a portion of eligible projects' debt service, increased due to revenues received in FY23. The Utility Customer Service transfer increased due to the expected operating needs and available resources in that fund. G&A transfers increased due to an updated allocation model, which accounts for IT, Finance, HR, and other shared services. The G&A transfer also increased because some Electric Supervisory Control and Data Acquisition (SCADA) costs were allocated to the Water utility. This occurred because the SCADA team was consolidated within Electric in FY24 and still assists Water with their system. The General Fund Transfer changed in proportion to budgeted operating revenues. Debt service increased due to additional debt issued in FY24.

The Risk Mitigation Fund was established as a reserve for unexpected and extraordinary risks. These risks include future water supply constraints and capital costs related to drilling new wells. Staff evaluates available fund balance and adjusts budgeted transfers in response to anticipated risks. A Water Risk Mitigation Fund transfer is not budgeted for FY25. The amount that would have been transferred will instead be used for cash for capital.

Capital funding uses utility revenues to pay for capital projects in lieu of issuing debt. This transfer increased significantly to cover planned capital costs and to reduce future debt issuances.

The FY25 ending working capital will decrease due to the budgeted capital project transfer. The Utility has sufficient recurring revenues to support recurring operating and non-operating expenses in FY25. The projected FY25 working capital meets the 18% reserve requirement as outlined in the Fiscal and Budgetary Policy Statement.

## CITY OF COLLEGE STATION WATER FUND SUMMARY

	FY23	FY24 Revised	Year-End	Base	FY25 Proposed	FY25 Proposed	% Change Budget

<sup>\*</sup> The FY25 Budget includes 1-time expenses/transfers.

Forecast developed in 2024 - future years are subject to change based on the facts and circumstances at the time of analysis.

The forecast includes additional future rate increases to support anticipated debt service for capital projects.

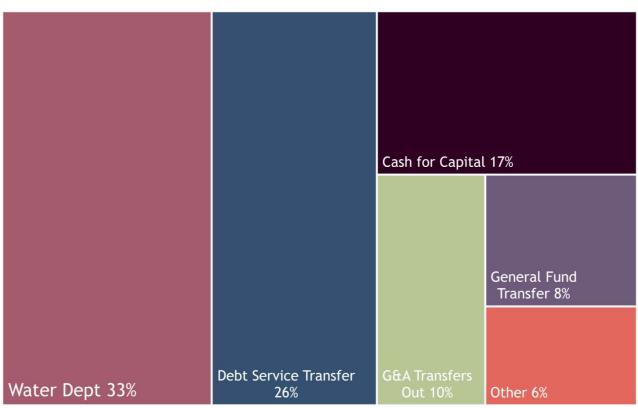

The forecast includes future 1-time capital transfers which reduce the Ending Working Capital.

The Fund has sufficient recurring revenues to cover forecasted recurring expenses.

#### WATER FUND DEBT TO EQUITY

### WASTEWATER FUND

The Wastewater Fund is an Enterprise Fund that accounts for sanitary sewer utility revenue and expenses. The Utility strives to meet or exceed all applicable local, state, and federal standards

while providing core infrastructure services to citizens. The Utility recovers the full cost of service by charging fees. Due to community growth, commercial development, and regulatory requirements, the City undertook several capital projects to increase and improve system capacity. These projects include centrifuge upgrades to Carter Creek Wastewater Treatment Plant (CCWWTP), the Lick Creek Wastewater Treatment Plant (LCWWTP) capacity expansion, and various trunk line expansions. Future projects include the Northeast Sewer Trunkline, the Carter Creek Lift Station and Force Main, and various phased CCWWTP Improvements.

The Wastewater system includes:

- 43 employees serving 48,773 connections and 397 linear miles of sanitary sewer
- 3 total treatment plants with a combined permitted capacity of approximately 14.5 MGD
- 1 treatment plant being converted to a lift station

Wastewater revenues are budgeted by analyzing monthly totals from prior fiscal years and adjusting for

seasonality, weather, community conditions, collectability, and broader macroeconomic factors (e.g., customer growth). Revenue budgeting methodology identifies and adjusts for one-time events or conditions (e.g., rate changes), averaging historical revenues by month, and assuming relatively mild but constant growth in usage and total customers.

FY25 budgeted revenues incorporate FY23 actuals and FY24 year-end estimates with a mild growth factor. This calculation methodology may result in percentage changes between budgets. No rate increases are proposed for FY25. Budgeted investment earnings were adjusted to reflect current year actuals. All other revenue budgets are consistent with FY24.

The FY25 budget includes the following SLAs:

Service Level Adjustments	One-Time	Recurring	Total	Strategic Plan	<u>KPI</u>
Wastewater Master Plan Update	\$350,000	\$ -	\$350,000	Goal 2	KPIs 1, 2, 3
2 Plant Maintenance Operators	\$80,000	\$169,034	\$249,034	Goals 1, 2, 4	KPIs 1, 2, 3
Wastewater SLAs Total	\$430,000	\$169,034	\$599,034		

KPIs are available at the link in the SLA table or in Appendix K.

- The Master Plan Update will evaluate growth and usage projections to develop new capital projects.
- The 2 Plant Maintenance Operators SLA ensures critical treatment plants, including the recently expanded LCWWTP, will be maintained.

The FY25 operating budget increased due to higher utility and chemical expenses and additional software licensing costs for SCADA equipment. The Direct Capital budget increased from planned SCADA hardware purchases.

The Impact Fee transfer, which offsets a portion of eligible projects' debt service, increased due to revenues received in FY23. The Utility Customer Service transfer increased due to the expected operating needs and available resources in that fund. G&A transfers increased due to an updated allocation model, which accounts for IT, Finance, HR, and other shared services across all departments. The G&A transfer also increased because some Electric Supervisory Control and Data Acquisition (SCADA) costs were allocated to Wastewater. This occurred because the SCADA team was consolidated within Electric in FY24 and still assists Wastewater with their system. The General Fund Transfer changed in proportion to budgeted operating revenues. Replacement transfers and expenses increased due to scheduled vehicle replacement purchases.

The Risk Mitigation Fund was established as a reserve for unexpected and extraordinary risks. Staff evaluates available fund balance and adjusts budgeted transfers in response to anticipated risks. The Wastewater Risk Mitigation Fund transfer will continue due to available fund balance.

Capital funding uses utility revenue to pay for capital projects in lieu of issuing debt. This transfer increased significantly to cover planned capital costs and to reduce future debt issuances.

The FY25 ending working capital will decrease due to the budgeted cash for capital transfer. The Utility has sufficient recurring revenue to cover regular recurring operating and non-operating expenses. Additionally, projected FY25 working capital meets the 18% reserve requirement as outlined in the Fiscal and Budgetary Policy Statement.

Measurement Focus Increase (Decrease	)					
Ending Working Capital	\$16,478,630	\$11,487,582	\$7,912,954	\$6,448,173	\$5,847,267	\$5,401,430

<sup>\*</sup> The FY25 Budget change includes 1-time expenses/transfers.

Forecast developed in 2024 - future years are subject to change based on the facts and circumstances at the time of analysis.

Forecast includes a future projected rate increase due to increased capital costs and debt service.

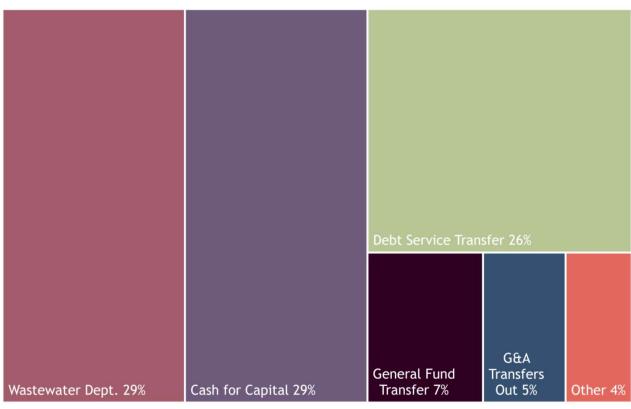

The forecast includes additional 1-time capital transfers which reduce the Ending Working Capital.

The Fund has sufficient recurring revenues to cover forecasted recurring expenses.

### **WASTEWATER FUND DEBT TO EQUITY**

### Water Services Department

#### STRATEGIC PLAN

#### **Mission Statement**

The Water Services Department protects the public health and safety of our customers and workers in providing high quality potable drinking water, and the sanitary collection and proper treatment of wastewater at a reasonable cost to our customers within the regulatory framework of the Environmental Protections Agency (EPA), Texas Commission on Environmental Quality (TCEQ) and the Brazos Valley Groundwater Conservation District (BVGCD).

#### **Vision Statement**

We are committed to responsibly managing existing assets and investing wisely in sustainable expansion of infrastructure and treatment facilities to ensure continued delivery of water and wastewater services for future generations.

#### **Top Departmental Goals**

- 1) Goal: Keep Water production and distribution capacities ahead of demand
  - Issue: Water supply and infrastructure must meet current and future demands
  - Plan of Action:
    - Meet or exceed all regulatory permits, standards, and requirements
    - Complete full update of Water CIP annually to meet future needs and rehabilitate distribution systems where warranted
    - Update extended period simulation water system model as growth occurs
    - Monitor BVGCD Rules to protect Historic Usage
    - Purchase Water Rights for future wells
  - Strategic Initiative: Core Services and Infrastructure
- 2) Goal: Keep Wastewater collection and treatment capacities ahead of demand
  - Issues: Wastewater collection and treatment must meet current and future demands
  - Plan of Action:
    - Meet or exceed all regulatory permits, standards, and requirements
    - Complete full update of Wastewater CIP annually to meet future needs
    - Reduce Inflow and Infiltration by implementing and increasing smoke testing and corrective rehabilitations
    - Rehabilitate and increase capacity of the collection system to eliminate predictable Sanitary Sewer Overflows
    - Execute CC Diversion Lift Station installation to balance treatment loading
  - Strategic Initiative: Core Services and Infrastructure
- 3) Goal: Attract and retain an engaged and highly professional staff
  - Issues: Provide workforce proper compensation and incentives
  - Plan of Action:
    - Retain experienced staff and expand cross training efforts
    - Promote personal development of employees

- Adapt department structure to changing conditions
- Develop succession plans for key positions
- Strategic Initiative: Core Services and Infrastructure
- 4) Goal: Maintain efficient operations and excellent customer service
  - Issues: Satisfy both objectives of this goal though occasionally conflicting
  - Plan of Action:
    - Successfully accomplish all Performance Indicators
    - Maintain APWA Accreditation standards
    - Continuously improve asset management programs
    - Continuously improve departmental management systems and systems to transfer institutional knowledge
  - Strategic Initiative: Core Services and Infrastructure
- 5) Goal: Enhance effective water conservation strategies
  - Issues: Responsibly manage existing water supply with Water Conservation and Re-Use
  - Plan of Action:
    - Maintain Water Conservation Program
    - Take actions to promote accountability related to water use
  - Strategic Initiative: Sustainable City

### **SOLID WASTE FUND**

The Solid Waste Fund is a City Enterprise fund that accounts for the collection and disposal of residential and commercial refuse in the City.

#### Solid Waste Fund includes:

- 46 FTEs and 1 new position proposed for FY25.
- Residential services include weekly collection of garbage, bulky and brush items, and bi-weekly recycling.
- Multi-Family services provide bi-weekly household garbage collection.
- Commercial operations provide commercial dumpster, cart and roll-off container collection, and disposal services between one and six times per week.

FY25 revenue includes a CPI-U adjustment of 3.5% along with a modest growth assumption in residential collections due to an increase in customers. Budgeted revenue includes a payment from

BVSWMA Inc. for the scheduled debt service payment on the Twin Oaks landfill. This revenue is offset by the debt service expenditure for the actual payment.

City is currently conducting a rate and feasibility study for solid waste collections management including all residential, multi-family, and commercial services. This study will provide

an understanding of the adequacy of current rates, as well as insight on how to adjust rates in the future to maintain the financial integrity of the solid waste system. Upon completion the results will be presented to Council with operational and rate recommendations.

The City continues to examine KPIs that are historically collected and is working to assure they are more succinctly focused on priorities of the City's strategic plan. Solid Waste tracks internal data beyond currently published as KPIs in order to monitor safety and sustain current service levels.

The budget for FY25 includes the following service level adjustments:

Service Level Adjustments	One-Time	Recurring	Total	Strategic Plan	<u>KPI</u>
Residential Automated Vehicle and Additional FTE	\$492,543	\$251,289	\$743,832	Goal 2	-
Bulk and Brush Grapple Vehicle	349,425	104,391	453,816	Goal 2	-
Solid Waste SLAs Total	\$841,968	\$355,680	\$1,197,648	•	

KPIs are available at the link in the SLA table or in Appendix K.

- Residential automated vehicle and additional FTE SLA seeks funding for an additional Solid Waste Equipment Operator and additional Solid Waste Automated Cab vehicle. These additions will diminish workload strain and increase overall productivity.
- Bulk and Brush Grapple Vehicle will increase the efficiency of scheduled bulk collections. Currently, the collections fleet has no spare vehicles should any unexpected events occur.

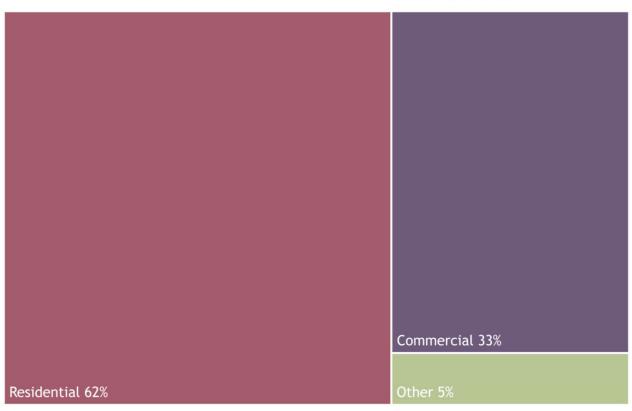

FY25 expenditures will increase primarily due to the proposed SLAs. FY25 working capital is projected to meet the 18% requirement as outlined in the Fiscal and Budgetary Policy Statement.

# NORTHGATE PARKING FUND

The Northgate Parking Fund accounts for revenues and expenditures from the city owned Northgate parking facilities and district management efforts. The revenue sources are Patricia Street Promenade Surface Lot, College Main Parking

Garage, metered street parking, and parking enforcement fines imposed in the Northgate area.

The prior year's rate adjustments and the return of patronage to this area, has restored the fund to a healthy balance.

The budget for FY25 includes the following service level adjustments:

Service Level Adjustments	One-Time	Recurring	Total	Strategic Plan	<u>KPI</u>
University Drive Pedestrian Safety Study	\$ 250,000	\$ -	\$ 250,000	Goal 4	-
Implementation of Bike Lanes on Nagle	12,654	-	12,654	Goal 4	-
Additional Cameras (University, Surface lot)	60,000	7,000	67,000	Goal 4	KPI 2
Tree Well & Grate Repair in Northgate	35,500	-	35,500	Goal 4	-
Northgate SLAs Total	\$358,154	\$7,000	\$365,154		

KPIs are available at the link in the SLA table or in Appendix K with Community Services.

- A pedestrian safety study will have an engineering/design firm review existing conditions and develop a design to improve pedestrian safety along University Drive while meeting Texas Department of Transportation requirements for vehicular safety.
- Bicycle and e-scooter activity in Northgate has increased with dense development occurring throughout the district. This SLA will implement the planned Nagle bike lanes requested by city-wide by the Bicycle, Pedestrian, and Greenways Board.
- Additional cameras will assist Code Enforcement Officers and CSPD Northgate officers, increasing safety for officers and patrons.
- SLA to replace damaged grates, clean out all grates and replace dead trees that have been damaged by normal wear, accident, weather, or vandalism.

FY25 projected working capital will meet the 18% working capital requirement as outlined in the Fiscal and Budgetary policy.

### **HOTEL TAX FUND**

The Hotel Occupancy Tax Fund (HOT), a consumption tax authorized under state statute, is used to record Hotel/Motel tax revenues. This tax allows the City to collect up to its current tax rate of 7% on rental income of hotels, motels and short-term rentals within the city limits. In accordance with Chapter 351 of the Tax Code, expenditures from this fund must directly enhance and promote tourism and the hotel industry in the City.

#### **REVENUES**

Hotel/Motel taxes across Texas and the United States have been increasing the past few years in a good recovery from 2020-2021 when travel had declined drastically. The hotel economy has seen a 15% increase over April 2019 rates nationally (as of April 2024), which reflects in the City of College Station's increase in tax collection in FY23 and FY24. This is due to increased travel but also a high increase in hotel prices due to inflation. Industry leaders expect that this year and recent future year revenue growth should follow the standard CPI inflation rates.

The City and surrounding entities have been at work getting large events in the typically slower summer season. Planned events include an international soccer game and large country concert hosted at Kyle Field in 2024 to be reflected in FY24 revenue estimates. FY25 will also see special events from USA Track and Field and Games of Texas.

#### OPERATIONAL EXPENSES

Funds Derived from the Hotel Tax Fund can only be spent if the following two-part test is met:

- I. Every expenditure must directly enhance and promote tourism and the convention and hotel industry.
- II. Every expenditure must clearly fit into one of nine statutorily defined categories:
  - 1. Funding the establishment, improvement, or maintenance of a convention or visitor information center.
  - 2. Paying for the administrative costs for facilitating convention registration.
  - 3. Paying for tourism related advertising, and promotion of the city or its vicinity.
  - 4. Funding programs that enhance the arts.
  - 5. Funding historical restoration or preservation projects.
  - 6. Sporting events where the majority of participants are tourists in cities located in a county with a population of 290,000 or less.
  - 7. Enhancing and upgrading existing sport facilities or fields for certain municipalities.
  - 8. Funding transportation systems for tourists.
  - 9. Signage directing the public to sights and attractions frequently visited by hotel guest in the municipality.

FY25 Proposed Budget Total Expenditures and Transfers*	\$ 7,662,823
1. Visitor Center	190,413
2. Admin Costs for Convention Registration	1,792,615
3. Advertising	1,972,136
4. Arts Enhancement	590,953
5. Historical Restoration	-
6. Sporting Events	3,116,706
7. Upgrading Sports Facilities	-
8. Tourist Transportation	-
9. Signage for public direction to sights and attractions	-

<sup>\*</sup>Some funding may be applicable to multiple categories

Parks Programs and Events: The FY25 budget for Parks Programs and Events includes expenditures related to athletic events such as national & regional athletic tournaments. The budget includes salaries and benefits for employees dedicated to tourism, hosting supplies, field maintenance supplies and staff time to prepare the facilities for each event. The Parks department will again be hosting the Games of Texas in Summer 2025 and Summer 2026. The budget is reflected as a one-time SLA in FY25.

**Public Communications:** Public Communications staff develops brochures, promotional videos, and other marketing and advertising materials with the primary focus of creating high-quality collaterals to bring tourism dollars to College Station. Expenditures are budgeted for staff time associated with these duties.

**Tourism Division:** The Tourism Division is focused on supporting the hospitality industry through increased overnight stays and leisure travel and a return to meetings, conventions, and reunions. It includes specialized areas such as conventions, leisure, and sports tourism. Tourism personnel combine sports sales experience with the City's tournament facilitation team, renowned facilities, and marketing expertise. Some employees

that cover both the General Fund's Economic Development division and will charge their time into the HOT funded Tourism Division when applicable.

**Outside Agency Funding** - Several outside agencies are supported each fiscal year to provide services for the citizens of College Station. The amount of funding received by each agency depends on Council direction and the availability of funds. See Appendix J for additional details regarding Outside Agency Funding.

**TAMU Preferred Access Payment:** The agreement with Texas A&M University for the use of A&M facilities provides that a maximum of \$1.225M be contributed each year between Brazos County and the City. A payment of \$135,700 is budgeted for FY25 and is included in the public agency line of the fund summary.

### SERVICE LEVEL ADJUSTMENTS

KPIs are available at the link in the SLA table or in Appendix K.

Additions to the FY25 budget for the Tourism Division and Parks Department:

- An additional Events and Servicing Coordinator position is to work with the entire Tourism Division to support convention sports clients and creating new programming for tourism events.
- A one-time increase to the available funds for HOT Grants for tourism events in College Station.
- A recurring expense to allocate towards digital marketing and targeted advertising efforts.
- Print new visitor guides to give to people at events and those who come to the visitor center along with digital scrolling information to be presented at the visitor center and online.
- The Texas Amateur Athletic Federation Games of Texas is made up of over 150 municipal parks and recreation departments and various other local and state organizations that offer athletic competition. TAAF conducts the athletic programs for teams and individuals once they advance from local competition. TAAF has 17 regions holding sports competition with the top finishers qualifying to advance to the sport's state championship at the Games of Texas. This event is expected to provide an economic impact greater than \$8 million per year to the College Station community. College Station will host in 2026 as well with similar one-time funding.

# COMMUNITY DEVELOPMENT FUND

The Community Development Fund is used to account for grants received from the U. S. Department of Housing and Urban Development (HUD), for Community Development Block Grant (CDBG) and HOME Investment Partnership (HOME) funds.

- CDBG and HOME funds must meet national objectives to:
  - Benefit low and moderate income persons;
  - o Aid in the elimination of slum and blighting influences, and/or
  - Meet a particular urgent need.
- CDBG funds may be used to meet local needs through a wide range of community development activities, while HOME funds may only be used for affordable housing activities.
- The FY25 budget was developed using input received in a series of public hearings, program committee meetings, and citizen input.
- Historically, the City has utilized CDBG and HOME funds for a variety of programs and activities
  including: Affordable housing programs (home buyer assistance, security deposit assistance,
  rehabilitation, leveraged development for new construction, and minor repairs); Funding of direct
  services to low-income families; Economic development; Acquisition; Demolition; Park, street,
  infrastructure, and public facility improvements in low-income areas of the City.
- The CDBG Public Service Agency (PSA) Funding Review Committee utilizes a volunteer citizen review committee to evaluate and make funding recommendations to the College Station City Council for local PSA's.

The American Rescue Plan of 2021 provided additional HOME Investment Partnership Program funds in the amount of \$1,740,263 and support programs to address homelessness and supportive services across several years. The City of College Station's HOME ARP Allocation Plan was approved by HUD and a Request for Proposal (RFP) was issued to determine programs for funding. Twin City Mission was selected, and the L.E.A.D. Program was established. L.E.A.D continues to assist those who are homeless or at risk of homelessness through intensive case management, benefits navigation, and direct client assistance.

The FY25 (PY24) Annual Action Plan includes a balanced community development program geared toward increasing affordable housing opportunities, supporting essential health and human services. Projects will improve public facilities through available federal grant funds, while participating in community-wide initiatives that support a variety of needs to provide our residents with healthcare, education, decent, safe, and affordable housing, and financial stability.

No SLAs were requested for the Community Development Fund. KPIs are available at this link or in Appendix K.

Under the Texas General Land Office's Regional Mitigation Program, the Brazos Valley Council of Governments developed a Method of Distribution that awarded the City of College Station a \$500,000 allocation of CDBG Hazard Mitigation Funding. These funds are to be used to address hazards and vulnerabilities in efforts to reduce risks related to hurricanes, tropical storms, flooding, winds, and other hazards to the

principal benefit of low- and moderate-income citizens.

In FY25, alongside the City's Public Works and Planning & Development Departments, Community Development will be leveraging CDBG-MIT funding to install two generators at community centers in eligible low-to-moderate income areas in College Station for the purpose of creating emergency warming centers. Additionally, the collaboration will see the installation of an Early Warning Flood Hazard System and the commencement of a citywide Flood Hazard Assessment. Utilizing the City's standard CDBG allocation, Community Development will also be constructing a bus shelter at a transit stop in front of City Hall to increase low-to-moderate income citizens' access to the necessary services it provides. This is in line with the goal to maximize impact to the community using CDBG funds in the Community Services Strategic Plan.

Funding will be utilized to acquire and rehabilitate conservable and substandard properties for

conveyance to non-profit housing partners for use as affordable rental units or for sale to income-eligible homebuyers at affordable prices. Long-term affordability will be ensured with deed restrictions so that the investment of grant funds will result in affordable housing units for renters or homeowners in the future. Staff will continue providing programs that assist eligible residents with security deposit assistance to allow households to secure rental units, address needed home repairs through the Minor Repair program, assist homebuyers with Down Payment Assistance loans, and support opportunities that will lead to increased affordable housing.

Community Services staff with help from Planning & Development Services has been engaged in the creation of a Housing Action Plan that will be considered by the Planning & Zoning Commission and the City Council in Summer 2024. A Housing Action Plan Steering Committee has been working with staff since November 2023 to make recommendations for a plan that accomplishes Comprehensive Plan Action Items 2.3, 3.4, 3.6, and 3.9. The plan will look at ways to increase the supply and types of housing as well as create affordable housing options for current and future residents.

The FY25 budget has increased significantly due to more federal funding opportunities available for projects.

# FEDERAL RELIEF FUND

College Station was allocated \$29,478,326 from the American Rescue Plan Act (ARPA). These

funds must be matched with eligible expenditures that meet US Treasury Department requirements. Qualifying expenses are outlined in numerous federal documents. The City must expend these funds on specific government services and eligible capital expenses. To recognize some of the ARPA funds, the City selected payroll expenses for employees who mitigated or responded to the COVID-19 public health emergency.

ARPA revenues are only recognized when eligible expenses are transferred from various City funds. Qualifying expenses for ARPA must be encumbered prior to December 2024 and eligible expenses must be incurred by December 2026. Staff expects to meet the deadlines for all remaining ARPA funds.

As eligible expenses are incurred, the remaining available ARPA funds will be recognized. The City anticipates some additional investment revenues which will be transferred out of the Federal Relief Fund. We expect to recognize the remaining ARPA funds by the end of FY24, at which point the fund will be closed.

The table below presents the expected qualified uses of the ARPA funds:

Qualified Use	Amount	Year
		Recognized
Revenue Replacement	\$16,140,725	FY22
Premium Pay	603,213	FY22
Rehiring of Government Staff (from January 1st, 2022 through December 31st, 2024)	3,834,388	FY22-FY24
Water and Wastewater Capital Projects	8,900,000	FY24-FY26
Total	\$29,478,326

# DRAINAGE UTILITY FUND

The Drainage Utility Fund is a Special Revenue Fund that administrates all aspects of the City's Storm Water Program.

Drainage Engineering assists with the drainage development permit that must be obtained prior to the start of most construction activity. This permit process exists to ensure

approved development will not increase the danger of flooding and will limit the migration of dust, mud, or silt from construction sites.

Drainage Engineering and Drainage Maintenance Divisions are funded by residential charges, based on a set fee per residential unit and commercial charges, calculated based on building square footage.

Revenue includes a CPI-U adjustment of 3.5% for FY25.

The budget for FY25 includes the following SLAs:

Service Level Adjustments	One-Time	Recurring	Total	Strategic Plan	<u>KPI</u>
Drainage Infrastructure Condition Assessment Crew Leader and Equipment Operator	\$89,500	\$172,974	\$262,474	Goal 4	-
Boom Mower	350,000	96,500	446,500	Goal 4	-
Drainage Maintenace Increase	-	75,000	75,000	Goal 4	-
Flood Study and LOMR	175,000	-	175,000	Goal 4	-
Flood Hazard Assessment	100,000	-	100,000	Goal 4	-
Drainage Fund SLAs Total	\$714,500	\$344,474	\$1,058,974		

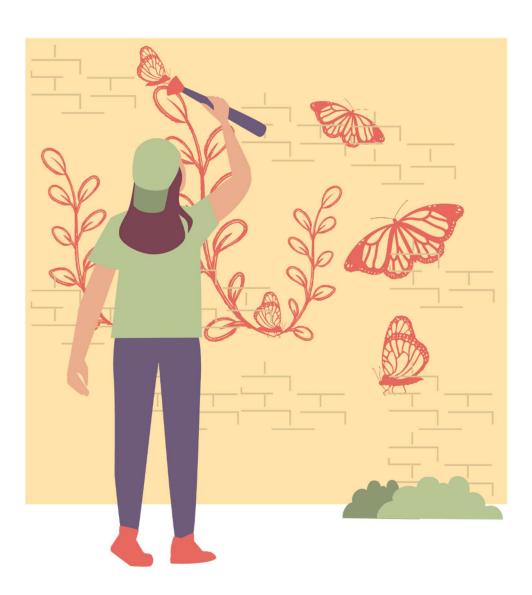

KPIs are available at the link in the SLA table or in Appendix K.

- Drainage Infrastructure Condition Assessment Crew Leader and Equipment Operator to assess citywide drainage infrastructure.
- The purchase of an additional Drainage Operations Boom Mower will support the Municipal Separate Storm Sewer System (MS4) compliance efforts. With an additional boom mower, maintenance crews can cover larger areas in less time.
- Drainage Maintenace increase supports Public Works compliance for the Municipal Separate Storm Sewer System (MS4) regulations in place requiring proper management of stormwater runoff and drainage systems.
- Flood Study and Letter of Map Revision (LOMR) will perform a comprehensive hydrologic and hydraulic study of one of our primary channels to help determine flood risks due to various storm events and submit to FEMA for floodplain mapping.

• Flood Hazard Assessment: Half of the cost of this project was funded in FY24 by an SLA. This SLA is to fund the remaining cost and accounts for a cost increase. This project is a critical strategic step in assessing current floodplain hazards and assisting in determining scale of any necessary mapping/remapping efforts.

FY25 operating expenditures will increase due to proposed SLAs discussed above. Transfers In for replacements increased due to scheduled replacements, see Fleet Replacement section for the FY25 scheduled replacements.

Ending fund balance is projected to increase due to the timing of completion of capital projects.

# SYSTEM-WIDE IMPACT FEE FUNDS

The City of College Station established the System-Wide Water, Wastewater, and Roadway Service Areas A through D Impact Fee Funds in FY17. College Station collects revenue generated from various impact fees to fund existing and future CIP projects that will serve new development. We also present impact fee eligible projects in their respective CIP Fund Summaries.

### SYSTEM-WIDE WATER AND WASTEWATER IMPACT FEES

Water and Wastewater Impact Fees are determined by water meter size. Budgeted FY25 revenues total \$497,000 and \$2,129,000 for Water and Wastewater, respectively. These fees offset a portion of eligible projects' debt service payments. The Water Impact Fee revenue budget incorporates the recent increase in permit numbers while accounting for lower impact fees paid to-date (relative to the FY24 Budget).

Budgeted FY25 Water and Wastewater transfers to service eligible debt are \$600,000 and \$2,500,000, respectively. These transfers are higher due to available fund balance and support the following projects' debt service:

#### Water:

- Well #9
- Well #9 Collection Line
- State Highway 6 Water Line (Phases I, II, III, and III-A)

#### Wastewater:

- LCWWTP Expansion
- Lick Creek Parallel Trunk Line
- Carter's Creek Diversion Lift Station
- Northeast Sewer Trunk Line (Phases II and III)

### SYSTEM-WIDE ROADWAY IMPACT FEES

The City collects Roadway Fees in four service areas to help fund street capital projects. Fees collected are used to offset projects' construction costs. Budgeted FY25 revenues total \$931,400. See individual fund summaries for specific revenues and year-end estimates. There is a budgeted FY25 transfer of \$1,200,000 from Zone B to offset the projected construction costs of ST2006 Jones Butler Road Extension and Roundabout. The transfer will only occur if/when significant construction costs are expected.

## TIRZ FUNDS

A Tax Increment Reinvestment Zone (TIRZ) is a political subdivision of a municipality or county in Texas created to implement tax increment financing. TIRZ are special zones created to attract new investment to an area. TIRZ help finance the cost of redevelopment and encourage development of an area. Taxes attributable to new improvements (tax increments) are reserved in a fund to finance public improvements within zone boundaries.

### EAST MEDICAL DISTRICT TIRZ #19

In October of 2012, the City Council approved an amendment of our Comprehensive Plan to include the College Station Medical District Master Plan. To realize the vision and economic development opportunities included in the Master Plan, the city must overcome significant barriers to development. These barriers include, but are not limited to, a lack of basic infrastructure (potable water, fire flow, sanitary sewer, etc.) and a lack of transportation capacity (vehicular, pedestrian, etc.) to meet development and mobility needs present in the area.

The Master Plan identified a series of financial and management tools necessary to overcome these barriers and to maximize the development potential of the area. A key tool identified in the Master Plan is the use of a TIRZ. Established in December 2012, the East Medical District TIRZ #19 encompasses the area east of the State Highway 6/Rock Prairie Road Bridge and includes most of the undeveloped properties within the district. Development projects in this area include Rock Prairie Road (East), Barron Road, Lakeway Drive, potable water, fire flow water supply, greenway trails, sanitary sewer service, and other public works.

These proceeds are used to fund the required improvement projects, either through reimbursement to private developers, repayment of issued debt, "pay as you go" basis, or a combination of these and others. College Station is the only participant in this TIRZ currently. In FY25, the city anticipates collecting \$912,760 of ad valorem tax in the East Medical District TIRZ #19.

There are no projected FY25 expenditures.

### DARTMOUTH SYNTHETIC TIRZ

In August of 2017, College Station entered a synthetic increment TIRZ agreement with Brazos County to develop a key infill area that would extend Dartmouth from Harvey Mitchell Parkway to Texas Avenue. Collected funds are re-invested into core infrastructure such as streets, storm sewer, water, sanitary sewer, and electrical (including traffic signals at the future Dartmouth intersections with Harvey Mitchell and Texas Avenue). Fractured ownership and infrastructure costs have precluded private development in this area.

These proceeds will fund the required improvement projects, either through reimbursement to private developers, repayment of issued debt, "pay as you go" basis, or a combination of these and others.

The City has partnered with Brazos County in this synthetic TIRZ for a term of fifteen years. The agreement with Brazos County is to contribute 100% of their O&M incremental value up to one-half of the total costs of the project or \$2.5 million, whichever is less. The city contributes 100% of its total tax rate incremental value. In FY25, the city anticipates contributing \$180,179 of ad valorem tax in the Dartmouth Synthetic TIRZ.

There are no projected FY25 expenditures.

# COURT FEE AND POLICE SEIZURE FUNDS

Court funds include a variety of revenue sources and expenses across multiple funds. These funds generally include restricted revenues collected via court fees. Specific uses and sources are detailed below. This section also includes the Police Seizure Fund.

### **COURT TECHNOLOGY FEE FUND**

The City can use Court Technology Fee Fund revenues to purchase or maintain technological enhancements for a municipal court. Defendants convicted of a misdemeanor offense in the Municipal Court shall pay a technology fee of \$4.00. The FY25 revenue budget increased from projected increases in investment earning while the operating budget decreased because the FY24 budget includes a one-time SLA for an upgrade to court software.

### COURT SECURITY FEE FUND

Defendants convicted of a misdemeanor offense in the Municipal Court shall pay a building Security Fee of \$4.90. Proceeds may only be used for security personnel, services, and items related to buildings that house municipal court operations.

This fund supports 50% of the salary and benefits of one FTE. The remaining 50% of the FTE's salary and benefits are funded through the General Fund. Continued historical increases with operating costs have resulted in a reduced fund balance. The Fund will continue to be monitored and corrective measures implemented as needed.

### TRUANCY PREVENTION FEE FUND

The City can use Truancy Prevention Fee Fund revenues for truancy prevention and intervention services. Defendants convicted of a misdemeanor offense in the Municipal Court shall pay a truancy prevention fee of \$5.00. Proceeds may only be used to finance the salary, benefits, training, travel expenses, office supplies, and other necessary expenses relating to the position of juvenile case manager. Money may not be used to supplement the income of an employee whose primary role is not juvenile case manager.

The FY25 Revenue budget increased from expected increased investment earnings due to projected fund balance and higher interest rates. Operating budget remained unchanged from FY24.

### POLICE SEIZURE FUND

The Police Seizure Fund accounts for forfeited property received by the Police Department during criminal investigations. The City can use the funds for equipment and other one-time purchases to assist in police activities. Revenues fluctuate from year to year because of the value and frequency of seizures. The City monitors and adjusts expenditures throughout the year based on revenue received and expected fund balance. The FY25 operating budget increased in anticipation of utilizing available funds for strategic purchases. Police are currently researching eligible equipment for purchase consideration.

## **CEMETERY FUNDS**

Cemetery Funds include the Memorial Cemetery, Memorial Cemetery Maintenance Fund, and Texas Avenue Cemetery Fund. These funds collect revenue from specific sources. Additionally, these funds also have restricted expense types and/or balances.

### MEMORIAL CEMETERY FUND

Two-thirds of Memorial Cemetery and Aggie Field of Honor lot sales and other miscellaneous revenue are deposited in this Fund, with the remaining one-third collected in the Memorial Cemetery Maintenance Fund. The City can use these proceeds for operational and capital expenses within the Cemetery.

There is outstanding debt issued for the Cemetery's initial construction, perimeter fencing, and the new shop which will keep supplies and equipment on-site (versus trailering those same supplies from other locations around the City). Specific project expenses are presented in the Parks and Recreation CIP Fund Summary. The City deferring this debt payment transfer in FY24 but will resume in FY25.

### MEMORIAL CEMETERY MAINTENANCE FUND

The City created the Memorial Cemetery Maintenance Fund in 2008 to provide "a reliable future funding through an endowment that receives gifts that will provide a corpus that may be used to produce income and such income may be used for future care, maintenance, operations, and improvements of the cemetery."

The City records one-third of Memorial Cemetery and Aggie Field of Honor lot sales and other miscellaneous revenue in this Fund. This fund was referred to as the "Memorial Cemetery Endowment Fund" in prior years.

### TEXAS AVENUE CEMETERY FUND

The Texas Avenue Cemetery Fund was established in 1996 to provide "a reliable future funding through an endowment that receives gifts that will provide a corpus that may be used to produce income and such income may be used for future care,

maintenance, operations, and improvements of the Cemetery." This Fund accounts for College Station

Cemetery lot sales and other miscellaneous revenues. As of FY24, there are no more plots available for sale. Due to a lack of inventory, expected revenue for FY24 and beyond is zero unless previously purchased plots are sold back to the city.

### DEBT SERVICE FUND PRINCIPAL AND INTEREST

\*Amounts reflect only one-half of the debt service as paid from the Memorial Cemetery Fund from FY20 through FY29. The remainder is projected to be supported by the Debt Service Fund. Debt service will be evaluated annually and will be adjusted based on available resources in the Memorial Cemetery and Debt Service Funds.

# OTHER SPECIAL REVENUE FUNDS

Other Special Revenue Funds include the Public, Educational, and Governmental (PEG) Access Channel Fee, R.E. Meyer Estate Restricted Gift, Fun for All Playground, and Roadway Maintenance Funds. These funds collect revenue from specific sources and have specific expense types and/or amounts. These funds are detailed below.

### PEG ACCESS CHANNEL FEE FUND

PEG Access Channel fees collected by the City equal 1% of gross monthly cable revenues. The City uses this revenue to develop and broadcast educational and governmental programming on Optimum Channel 19 to serve the needs and interests College Station citizens and the surrounding community. Programming includes City Council information, Planning & Zoning meetings, development projects, special events, job opportunities, and other pertinent notices. Expenditures in this fund support Channel 19 programming needs.

### R.E. MEYER ESTATE RESTRICTED GIFT FUND

The City established the R.E. Meyer Estate Restricted Gift Fund in FY14. Robert Earl "Bob" Meyer loved and supported the many senior programs offered by the City. As a result, he generously bequeathed a portion of his estate to the College Station Parks and Recreation Department, with the gift restricted for senior citizen programming. The Meyer Estate has been fully paid out and the City does not expect any additional revenues for this fund. The Parks Department plans on spending the remaining funds on programing for seniors. This fund will be closed when it has been depleted.

### FUN FOR ALL PLAYGROUND FUND

The Fun for All Playground Fund was established in FY18 to record the financial activity associated with the construction of an all-inclusive playground located at Central Park. The Fun for All Playground Committee that fundraises for this park transferred current contributions to the City in FY23 with the request that the Parks Department implement additional improvements, such as sunshades and benches, to improve the experience of the area that has been installed across FY23 and FY24. More projects will be installed as future funding allows.

#### ROADWAY MAINTENANCE FEE FUND

The Roadway Maintenance Fee Fund was established to administer financial activity related to the Roadway Maintenance Fee. These funds will help fix potholes and properly maintain streets throughout College Station. Preventive maintenance also reduces the need for costly road reconstruction. The City conducts a pavement management assessment to prioritize roadway maintenance projects to be funded with this fee. Revenues are generated from a Roadway Maintenance fee assessed to City of College Station transportation system users. FY25 revenue includes a CPI-U adjustment of 3.5%.

Operating expenditure budget is projected to increase 4.92% primarily due to an increase in planned preventive maintenance work. Fund balance is projected to increase in FY25 due to increased revenue due to customer growth and the CPI-U adjustment.

# CAPITAL IMPROVEMENT PROJECTS

### **OVERVIEW**

The CIP Budget includes Governmental, Utility, and Special Revenue projects. When projects involve the design or construction of multiple assets (e.g., streets and utilities), they are coordinated between the relevant departments.

Governmental CIP encompasses Streets, Parks, Facilities, and IT projects. These projects improve or add infrastructure (e.g., rehabilitated or expanded streets, railroad crossings, traffic signals, and fiber optic lines), amenities and attractions (e.g., parks and trails), and/or community facilities (e.g., senior centers, libraries, and City Hall) in existing or developing neighborhoods. These projects help lower operating costs (e.g., roadway maintenance) and improve community conditions (e.g., more efficient traffic flows). Additionally, projects expand amenities, leading to more events and visitors.

The IT CIP plan has prior years funds available in their revolver project and will be moving forward in FY25 with employee ID badge and door access replacement, Microsoft Teams room upgrades and traffic network switch replacements.

Enterprise CIP primarily encompasses Electric, Water, and Wastewater projects (e.g., rehabilitated or expanded utility lines) that improve or add infrastructure and service to existing or developing neighborhoods. These projects lower operating costs (e.g., maintenance and repairs) and improve community conditions (e.g., increased service areas/capacity and greater reliability). Additionally, some

projects fulfill regulatory requirements, leading to reduced penalties and fines. Some projects, like Advanced Metering Infrastructure, result in more accurate and efficient utility management. Northgate is also included in Enterprise CIP.

SEE WHAT CAPITAL PROJECTS OPERATIONS IS DOING!

Special Revenue CIP includes Hotel Tax, Cemetery, Fun for All, Park Land Dedication, Sidewalk, and Drainage projects. In

general, Special Revenue projects add or improve community amenities (e.g., parks, trails, and sidewalks) and infrastructure (e.g., culverts) in existing and developing neighborhoods. These projects lower City operating costs (e.g., maintenance) and improve community conditions. Additionally, some projects expand amenities at local parks leading to more events and visitors.

Every fiscal year, the City forecasts future debt issuances aligned with estimated project costs. Depending on the type of project, the forecasted debt is either supported by the property tax rate or utility rates. These forecasts, including funding source, timing, scope, and project expenses are subject to change. Some Governmental projects were identified from the 2015 Citizen Advisory Committee (2015 CAC) that ranked citizens' capital concerns and interests at that time. Due to permitting and coordination challenges with other entities like TxDOT and Union Pacific Railroad, some of the 2015 CAC projects are still on-going.

In FY22, the City established a new Citizen Advisory Committee (2022 CAC) to determine future Governmental projects for a General Obligation bond election. The 2022 CAC consisted of community

representatives who identified and prioritized new unfunded capital projects in collaboration with City staff. During the November 2022 election, citizens voted to approve three of the five bond propositions, with a total estimated cost of \$56.1 million. These projects are in design, with some expected to begin construction in FY25-FY26.

The City typically identifies unfunded capital needs in Winter/Spring. Departments with capital needs draft a prioritized unfunded capital list for consideration, with tentative project names, scopes, and estimated costs. The departments then coordinate with Finance to determine possible funding mechanisms. Departments use existing studies, internal metrics (e.g., time/costs spent on repair or rehabilitation), and/or regulatory requirements to prioritize their unfunded requests. Departments and Finance then present the unfunded requests to the City Manager's Office for review and direction. Departments also consider public input when prioritizing their unfunded list (e.g., citizen concerns about a specific road section, recurring water main issues etc.). In coordination with the City Manager's Office, Finance submits selected unfunded projects, their budget appropriations, and funding to City Council as part of the Budget process.

#### **FY25 CONSIDERATIONS**

The FY25 Proposed Budget also includes construction appropriations for several road expansion projects. The City also expects to incur significant construction costs for the Rock Prairie Road expansion while finishing design on the other Rock Prairie Road expansion project approved by voters in November 2022. Additional expansion projects underway also include the Jones Butler Roundabout and Expansion.

We are also including construction budgets for utility projects that will accommodate the next 5+ years of community growth. The Electric utility expects to continue relocation work in coordination with the Texas Department of Transportation's anticipated State Highway 6 expansion project. The design and construction of an additional substation is also planned. Public Works and Capital Projects Operations continue to coordinate with Union Pacific Railroad on multiple railroad crossing projects. Finally, additional City fiber installations, traffic signals, and a radio system replacement are planned.

The largest capital appropriation in this year's Budget are the construction appropriations for three new water wells and the associated collection lines. Although the projects are included in this Budget, the construction costs are projected for FY26-FY27. When complete, the City expects that these new water wells, at a cost of \$23 million each, will secure additional water supply for the broader community that will last beyond the forecasts presented in this document. As a result, the City is strategically planning not just for current consumption patterns, but also securing future resources supplies that will benefit residents years from now. Additional well rehabilitation and reconstruction projects are also planned for future fiscal years. However, due to high interest rates and materials costs, these projects may require multiple rate increases as the project progress.

#### CAPITAL BUDGETING

Staff prepares a 5-year CIP Budget and a 10-year debt service projection, which Council reviews as part of the budget process. The CIP Budget presents all authorized anticipated capital expenses and includes project type, services provided, and funding source. As part of the CIP Budget process, staff also analyzes potential recurring operational costs, determines the appropriate ratio of debt and cash funding, and considers potential utility rate impacts for relevant projects.

The City initiates both major and minor capital projects. Minor projects cost between \$5,000 and \$50,000, while major projects cost more than \$50,000. Both project types provide a fixed asset or equipment with a useful life of three or more years.

The CIP Budget reflects significant non-routine (i.e., not O&M related) expenses for capital projects, which have substantial activity related to land acquisition, design and engineering, and/or construction.

As a result, these projects represent most of the CIP Budget appropriations. The CIP Budget also includes projects from prior fiscal years. Previously approved appropriations roll forward each fiscal year, while additional appropriations may be needed as projects progress. As a result, current year appropriations may not equal projects' total expenditures.

Capital budget appropriations are life-to-date, meaning they are available to spend over multiple years. As project costs are incurred, the available appropriation for future expenses will decrease. For example, a project with a \$5 million budget, will incur a total of \$5 million over multiple years until the project is complete. This does not imply spending \$5 million annually as most projects will not expend their entire budget in a single fiscal year. The City conservatively funds the projects by issuing only the debt needed to cover the forecasted costs every fiscal year.

Certain projects may only have appropriations to cover engineering/design and land acquisition costs. Once design is complete, likely construction costs will be reviewed and potentially revised. Subsequently, these projects will receive additional appropriations to cover upcoming construction contracts.

The CIP Budget Book presents project workbooks with specific details and timing. Projects with projected costs in future fiscal years not covered by the FY25 Budget (e.g., FY26 and beyond) are subject to change, depending on current economic conditions, City goals, and other factors. Changes may include project scope, timing, and/or expenses. Future projects shown on the schedule may not have current year budget appropriations as no immediate costs are expected.

A full discussion of the capital projects, funding mechanisms and planned capital activity can be found in the following pages. Staff also produces a Capital Project Budget Supplement to the approved budget document that contains a complete list of approved and appropriated projects along with project-specific details and scope. The Supplement is available at <a href="mailto:cstx.gov/budget">cstx.gov/budget</a>.

### **GOVERNMENTAL CIP**

Governmental projects are funded by the debt portion of the property tax rate.

### **STREETS PROJECTS**

Street capital appropriations total \$30,078,294 with FY25 funding of \$26,381,930. Funding sources include forecasted General Obligation Bonds, Certificates of Obligation, impact fee transfers, and investment earnings.

### **PARKS PROJECTS**

Parks capital appropriations total \$14,030,297, with FY25 funding of \$7,411,750. Funding sources include General Obligation Bonds, investment earnings, and Field Redevelopment Revenue.

### **FACILITIES & IT PROJECTS**

Facilities & IT capital appropriations total \$16,953,895 with projected funding of \$15,716,500. Funding sources include forecasted General Obligation Bonds, Certificates of Obligation, and investment earnings,

### **ENTERPRISE CIP**

Enterprise projects are funded by the utility rates charged to utility customers. The City either uses the utility revenue collected to pay for project costs directly and/or uses it to service debt.

### **ELECTRIC PROJECTS**

Electric capital appropriations total \$31,995,349, with funding of \$25,328,600. Funding sources include Certificates of Obligation, a transfer from operations, and investment earnings. Project categories with significant activity or appropriations include:

- General Plant: encompasses a work management system, mapping enhancements, plant tools, operational enhancements, and engineering for a College Station Utilities Office/Lab Building.
- Overhead System Improvements: covers distribution automation enhancements, State Highway 6 (SH 6) distribution relocations, additional feeder out of Switch Substation, Wellborn & George Bush relocations, and annual pole replacement.
- **Underground System Improvements:** includes construction of various feeder bores/exits, transformer rehabilitation, and Holleman underground improvements.
- **New Services and System Extensions:** consists of new services for various customer classes including apartments, commercial, subdivisions, and their service meters and transformers.
- Thoroughfare Street Lighting: covers replacements and upgrades to existing streetlights.
- **Substations and Transmission:** encompasses CSNW Substation construction, transmission line relocation for the SH 6 widening, transformer relocation, and SCADA system enhancements.

The largest changes to the Electric capital budget include SH 6 relocation costs, the construction of CSNW substation, SCADA enhancements/improvements, and various underground improvements. Electric must also contend with significant increases in capital materials costs, limited equipment availability, and rising labor costs. Electric reassesses their capital plan annually to determine if projects deferred due to Winter Storm Uri can be included in upcoming Budgets.

### WATER PROJECTS

Water capital appropriations total \$66,101,007, with projected funding of \$20,805,750. Funding sources include Certificates of Obligation, a transfer from operations, and investment earnings.

Due to the expected construction cost of the new water wells, collection line, and well rehabilitation projects, the City is proposing a 10.0% increase in water rates. We anticipate issuing Certificates of Obligation to pay for the projects. We anticipate additional rate increases will be needed for the Water utility to fund the new wells, water collection lines and well rehabilitation projects needed to secure our current and future water supply.

### **WASTEWATER PROJECTS**

Wastewater capital appropriations total \$12,742,800, with projected funding of \$22,749,750. Funding sources include Certificates of Obligation, a transfer from operations, and investment earnings.

### NORTHGATE PARKING GARAGE PROJECTS

Northgate capital appropriations total \$100,000 for minor projects funded by parking fees.

### **SPECIAL REVENUE CIP**

### **HOTEL TAX FUND PROJECTS**

For Hotel Tax Fund capital budgets and expenditures, please see the Hotel Tax Fund Summary and related text. The Hotel Tax Fund does not have any FY25 capital appropriations or projected expenses.

### **CEMETERY FUND PROJECTS**

For Cemetery capital budgets and expenditures, please see the Cemetery Fund Summaries and accompanying text. Debt for the Memorial Cemetery Shop is serviced via a transfer to the Debt Service Fund. There are no FY25 Cemetery capital appropriations.

### **FUN FOR ALL FUND PROJECTS**

Please see the Fun for All Fund Summary and related text for budgeted capital expenses. There are no FY25 Fun for All capital appropriations.

### PARK LAND DEDICATION PROJECTS

The City collects Park Land contributions in dedicated Zones and retains these funds until projects are identified. Contributions accumulate until projects are identified and built. The City anticipates FY24 contributions of \$861,000. If significantly more contributions are realized, staff will identify possible projects and submit them for consideration via Budget Amendment. There are no FY25 capital appropriations in any Park Land Zone. Existing capital appropriations approved in prior fiscal years carry forward until the project is complete.

### SIDEWALK ZONE PROJECTS

In accordance with the City's Sidewalk ordinance, these projects are funded with fees paid by developers in lieu of constructing required sidewalks and/or multi-use paths. Sidewalk fees are restricted to the same Zone they were received in. Additionally, collected revenue can only be used for sidewalk and non-vehicular multi-use path construction, reconstruction, and/or land acquisition.

There are no FY25 capital appropriations in any Sidewalk Zone. Existing capital appropriations approved in prior fiscal years carry forward until projects are complete. Although Sidewalk Zone contributions remain highly variable, the City anticipates receiving some contributions in FY25, based on FY24 activity and local development. As additional contributions are received, staff identifies possible projects and submits them for consideration via Budget Amendment. Unspent contributions remain in the Zone they were received and are available for future use.

### DRAINAGE UTILITY PROJECTS

Drainage projects are funded by residential and commercial drainage revenue. FY25 drainage capital appropriations total \$2,350,000 for the following projects:

- Minor Drainage Improvements for unscheduled/emergency projects
- The John Milliff Road and Redmond Drive culvert replacement and creek bank stabilization
- Drainage improvements in the Southwood neighborhood

### CIP O&M COSTS

Due to the nature of capital projects, additional on-going Operations and Maintenance (O&M) expenses may be incurred in various funds (e.g., Governmental projects affect the General Fund). As part of their 5-year Strategic Plan, departments include the O&M impact of current and future projects. The City covers these additional costs via (i) existing departmental budgets; (ii) increases to the base budget; (iii) or Budget Amendments. If additional personnel for new capital projects are required (e.g., staff for a new park or utility plant), departments will submit a relevant SLA for review and possible approval.

Estimated O&M expenses for projects near completion are summarized later in this section. The City anticipates limited future funding for these O&M expenses. As a result, departments continuously evaluate current operations before budget increases are requested. The City may also recommend delaying projects when recurring O&M expenses cannot be supported.

### Governmental Funds Capital Improvement Projects Estimated Operations and Maintenance Costs\*

Facility and Technology Projects									
Fire Station #7**		-	1,548,000		3,100,000	3,202,000		3,304,000	Staffing, utilities, supplies, and maintenance
Fleet Fuel System Replacement	5,00	)	5,500		6,000	6,500		7,000	Licensing and support
Former Macy's Building	150,00	0	155,000		160,000	165,000		170,000	Utilities and maintenance
Facilities and Technology Projects Totals	\$ 155,00	0 \$	1,708,500	\$	3,266,000	\$ 3,373,500	\$	3,481,000	
Total Estimated O&M Costs	\$ 172,50	0 \$	1,742,000	\$	3,325,200	\$ 3,435,900	\$	3,546,600	

<sup>\*</sup>The Operations and Maintenance (O&M) estimates reflected above are anticipated project costs. In some situations, a project's O&M cost is minimal and can be absorbed by the City department that benefits the most from the project. In other situations, the O&M cost is more significant and funding for these additional expenses will either be included in the base budget or added via Budget Amendment. By approving capital projects, the City inherently approves the related additional O&M costs needed to run and maintain the new infrastructure. Additional revenue maybe needed to support these costs. As projects become more defined, the O&M estimates may be revised.

<sup>\*\*</sup> Primary recurring operational costs are those related to staffing (e.g., salaries and benefits).

As projects become more defined, the O&M estimates may be revised.

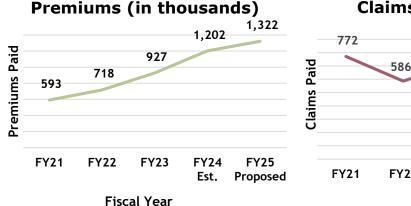

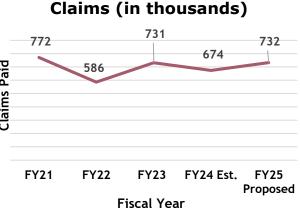

# PROPERTY & CASUALTY INSURANCE FUND

The Property and Casualty Fund ensures that the City can adequately cover potential property and liability losses.

Premiums charged to departments are based on their five-year average claims' history and the number of budgeted FTEs. Premiums are budgeted to increase 10% in FY25 to offset projected increase in claims and insurance premiums for City's fleet and buildings. The City's Risk personnel pursue subrogation claims to recover accident costs from at-fault parties for damages to City property.

Five-year claim history shows a steady increase in claims paid primarily due to damages of City vehicles and facilities. The FY25 budget has a 12% growth assumption for claims paid.

The growth of the City's fleet and the insured value of City facilities have caused premiums paid for insurance coverage to increase 98% since FY21. FY24 premiums paid were 30% more than the FY23 premiums. The FY25 budget is projecting an

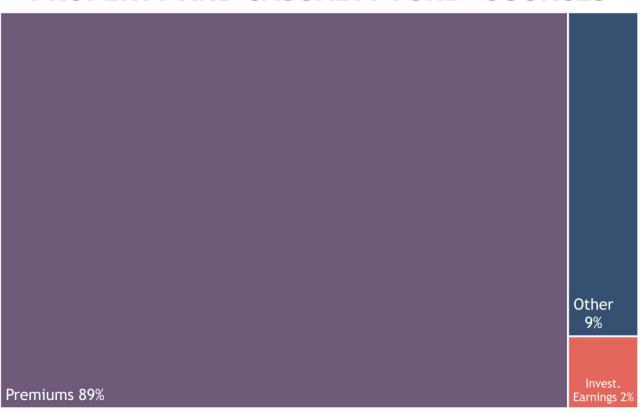

additional 10% increase.

No SLAs were requested for FY25. Working capital is projected to decrease in FY25 but will maintain the minimum reserve balance for this fund.

### **PROPERTY AND CASUALTY FUND- SOURCES**

### **PROPERTY AND CASUALTY FUND-USES**

## EMPLOYEE BENEFITS FUND

The City has been self-funded for employee benefits since 2004. The Employee Benefits Fund is used for:

- Collection of both employer and employee paid contributions.
- Payment of claims and premiums for the City's Health benefits including Medical, Dental, Prescription, and Stop-Loss coverage.
- Funding for the City's Retirement Obligations.
- Employee Health Clinic funding.

FY25 will mark the fifth consecutive year the employee paid portion of health insurance premium will not increase. Funding for the City's Retirement Obligations is calculated at the department level on a

budgeted FTE basis. The amounts collected from the departments and a processing fee are sent to TMRS on the employee's behalf.

Net claims (claims paid minus medical and pharmacy credits received) are projected to increase 8% above the FY24 year-end estimate. These claims growth projections were cited by the City's third-party benefits consultant.

The Employee Health Clinic provides acute and preventive primary care, occupational medicine, workers'

#### **NET CLAIMS (IN THOUSANDS)** 12,500 11,946 12,000 11,568 11,479 11,500 Paid 11,000 11,067 10,500 10,417 10,000 9,500 FY21 FY22 FY23 FY24 est FY25 proposed Fiscal Year

compensation care, and wellness services. Services are available to City health plan-enrolled employees, dependents, and retirees to encourage wellness and pro-active medical intervention and treatment. The City's Employee Clinic is moving to Baylor Scott & White effective July 1, 2024.

Service Level Adjustments	One-Time	Recurring	Total	Strategic Plan	
Wellness Activity Room	\$50,000	\$-	\$50,000	Goal 1, 2	
SLA Total	\$50,000	<b>\$</b> -	\$50,000		

SLA proposed for funding a wellness activity room to complement the room that exists in City Hall.
 This funding request is in alignment with the City's desire to improve employee health behaviors, create a culture of wellness, and provide the critically necessary support for mental and emotional wellbeing.

FY25 expenditures and transfers increased primarily due to increased stop-loss premiums. Stop-loss insurance protects employers like the City who self-fund their employees' health benefit plans from unexpected medical costs. The premium increase is due to rising number and cost of catastrophic claims in prior years.

Working capital is projected to meet the planned reserve balance.

### **EMPLOYEE BENEFITS FUND- SOURCES**

### **EMPLOYEE BENEFITS FUND- USES**

## OTHER INSURANCE FUNDS

These funds collect revenue from City departments and have restricted expense types and/or amounts for workers compensation and unemployment.

### WORKERS COMPENSATION INSURANCE FUND

The purpose of the Workers Compensation Fund is to provide benefits to injured workers. It ensures workers who are injured at work have access to medical care and receive compensation to cover a portion of their lost wages while they are out of work.

FY25 revenues are departmental charges(premiums) of expected cost per FTE. In previous years the City used the Texas Department of Insurance (TDI) annual ratings to determine cost per position. TDI ratings have been discontinued and City now uses rates indexed off the Texas Advisory Loss Costs provided by the benefits consultant.

FY25 expenditures increased primarily due to increased excess workers compensation premiums based on payroll increases. No SLAs were requested for FY25.

Working capital is projected to meet the planned reserve balance.

### UNEMPLOYMENT INSURANCE FUND

The Unemployment Internal Service Fund provides for self-insurance of unemployment claims.

FY25 revenues reflect a department premium of \$60 (annually) per FTE.

FY25 expenditure budget has a nominal decrease due to prior years claims paid. No SLAs were requested for FY25.

Working capital is projected to meet the planned reserve balance.

### **UNEMPLOYMENT FUND- SOURCES**

## REPLACEMENT FUNDS

Maintaining reliable vehicles and equipment in proper working order is essential in providing timely and professional public services. A growing concern for the City's long-term financial

forecasting is the volume and pace of assets added in response to continued population growth and citizen demand. Increased inventory requires additional maintenance and eventual replacement of these assets. The Replacement Funds are internal service funds used to collect and retain funds for replacement purchases of eligible vehicles and equipment. Replacement Funds receive contributions from departments and operational funds that maintain and control the assets.

### FLEET REPLACEMENT FUND

The Fleet Replacement Fund covers a large array of vehicles and service equipment. Replacements are scheduled based on asset age, hours/miles used, and relevant repair history. An asset's useful life will vary due to level and frequency of use, and category type. Fleet Services will not automatically replace an asset upon reaching its scheduled replacement age. Vehicles may be replaced sooner due to extreme wear, or the replacement may be prolonged when deemed appropriate.

Fleet Services identifies all vehicles and equipment meeting the replacement criteria and prepares a vehicle inventory report. The Fleet Service Division Manager submits a list of vehicles and equipment considered for replacement to Fiscal Services for budgetary projections. The FY25 replacement list is included in the budget document for reference purposes.

FY25 replacement contributions are:

Interdepartmental Charges	FY23 Actual	FY24 Revised Budget	FY24 Year End Estimate	FY25 Approved Budget
Drainage Fund	\$300,180	\$334,685	\$334,685	\$427,600
Electric Fund	762,528	808,799	808,799	816,225
Fleet Maintenance Fund	23,736	24,443	24,443	24,400
General Fund	4,051,500	4,342,235	4,342,235	4,471,000
Northgate Parking Fund	8,916	17,853	17,853	17,900
Solid Waste Fund	1,841,700	2,059,152	2,059,152	2,214,950
Hotel Tax Fund	-	-	-	9,000
Wastewater Fund	386,928	398,535	398,535	430,300
Water Fund	273,984	282,198	282,198	282,200
Interdept Charges Total	\$7,649,472	\$8,267,900	\$8,267,900	\$8,693,575

### INFORMATION TECHNOLOGY (IT) REPLACEMENT FUND

The City covers technology related replacements via the IT Replacement Fund. Fiscal Services and IT jointly maintain the IT replacement schedule, updating it annually with projected replacement costs, estimated service life, and additional items eligible for replacement. Based on this annual analysis, departments throughout the city are charged for a portion of IT's replacement purchases. These contributions are retained in the IT Replacement Fund until (i) departments have made sufficient contributions; and (ii) IT purchases the replacement items. Replacement contributions are charged across all City departments because the infrastructure and operating systems benefit the City as a whole. The replacement schedule determines the contribution charged to each department.

Items included in the IT Replacement Fund are:

- Uninterruptable Power Source (UPS)
- Mobile Data Terminals (MDT)
- Servers
- Virtual Servers
- Storage Hardware
- Firewalls

- Laptops & Monitors
- iPad/Tablets
- Future Software Replacements
- Parks Security Cameras

FY25 budgeted transfers from the IT Replacement Fund to the General Fund for anticipated replacements include (values rounded for display purposes):

- \$220,000 MDT Ticket Writers.
- \$17,000 Traffic Systems UPS Batteries and Controllers
- \$42,000 City UPS Batteries and Controllers
- \$410,000 Laptops & Monitors
- \$439,000 Servers and Storage

### **EQUIPMENT REPLACEMENT FUND**

Non-Fleet and non-IT related replacement items are allocated to the Equipment Replacement Fund. Every fiscal year, Fiscal Services will adjust a department's replacement contributions based on projected replacement costs, expected service life, and current economic conditions of the selected assets. Operating departments are charged a prorated portion of the estimated replacement cost in anticipation that the item will be fully funded upon its end of useful life. Funds are retained until (i) the department has made sufficient contributions; and (ii) the department makes the replacement purchase.

Items in the Equipment Replacement Fund include:

#### Fire Department:

- Extrication Tools
- Thermal Imaging Cameras
- Self-Contained Breathing Apparatus (SCBA)
- Ballistic Vests

#### Police Department:

- Heavy Armor Plates
- K-9 Associated Equipment
- Bomb Squad Suits

Contributions are transferred from the Equipment Replacement Fund to the General Fund as scheduled replacement purchases occur. There are no replacements expected for FY25.

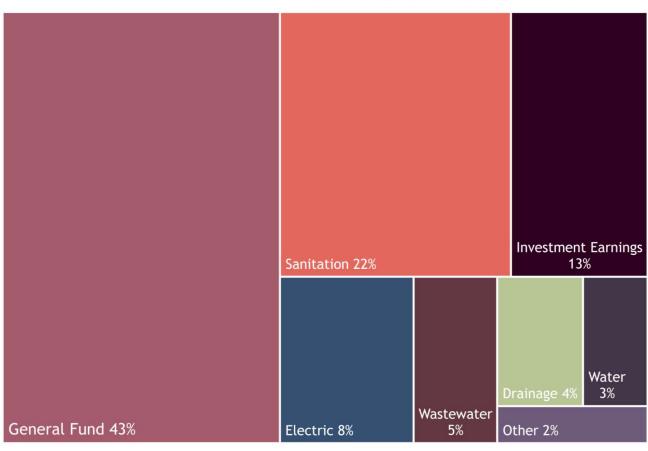

## CITY OF COLLEGE STATION FLEET REPLACEMENT FUND SUMMARY

# FLEET MAINTENANCE FUND

The Fleet Maintenance Fund is an Internal Service Fund that provides fleet management and services for the City's vehicles and motorized equipment and is supported by charges paid by the applicable City departments.

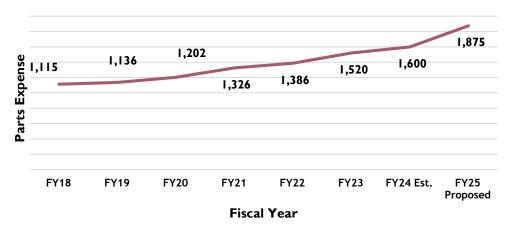

Fleet personnel facilitate the acquistion, disposal, maintenance, repair, fuel consumption needs (maintains two fuel stations) and historical data collection for all the City's 700+ vehicles and motorized equipment.

Estimates for annual funding levels have been calculated using several techniques that forecast fleet maintenance costs. Each department with assigned vehicles is charged an annual maintenance fee to cover inspections, maintenance, and repairs.

Revenues are transfers from departmental budgets to the Fleet Maintenance Fund. Fleet charges to the departments are projected to increase 8% due to escalating prices for parts and labor.

Expenditures are primarily parts and personnel (mechanics and other support staff). Parts expenditures have increased 68% from FY18 to proposed FY25 due to the increase in vehicles and motorized equipment.

### PARTS EXPENSE (IN THOUSANDS)

The budget for FY25 includes the following SLAs:

Service Level Adjustments	One-Time	Recurring	Total	Strategic Plan	<u>KPI</u>
After hours preventative maintenance program (2 technicians)	\$5,900	\$171,428	\$177,328	Goal 2	-
PTNB Warehouse Assistant position to Full-Time	-	47,764	47,764	Goal 2	-
Fleet Maintenance SLAs Total	\$5,900	\$219,192	\$225,092	•	

SLA request for two after hours preventative maintenance technicians. Technicians will offer greater flexibility and responsiveness and extend the productive use of vehicles and equipment. Conducting maintenance, repairs, and inspections outside of peak operating hours will minimize disruptions to daily operations. By scheduling these tasks during off-peak times, such as evenings, fleet downtime will be reduced, ensuring that vehicles remain in optimal condition and ready for use during regular business hours.

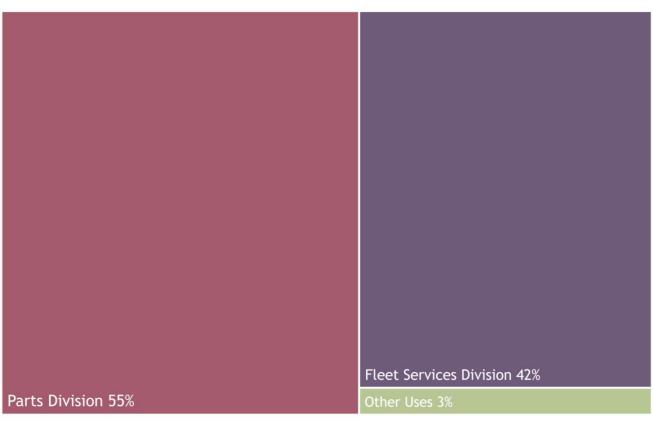

• SLA request to adjust the current part time non benefitted (PTNB) to a full-time position. Tasks such as inventory management, parts ordering, and equipment maintenance can be completed more quickly, reducing downtime for vehicles and equipment, and improving overall fleet performance.

Working capital is projected to increase in FY25 due to the additional fleet charges related to the City's fleet growth.

## UTILITY CUSTOMER SERVICE FUND

The Utility Customer Service (UCS) Fund is an Internal Service Fund that accumulates utility billing and collection revenues and expenses. The UCS Department provides the following services for the Electric, Water, Wastewater, Solid Waste, Drainage, and Roadway Maintenance Funds:

- · Utility billing and collection
- Service connection and disconnection
- Customer account creation
- General customer service

The UCS division is a customer facing operation that communicates with utility customers concerning factors affecting their utility billing. This includes usage, energy conservation tips, rebate programs and organizing free energy and irrigation audits with the utility departments.

UCS revenue consists primarily of transfers from the utility funds to cover expenses UCS incurs on their behalf.

Strategic Plan goals for UCS are included with Fiscal Services in the General Fund section. The KPI associated with UCS is also included in the Fiscal Services' section.

Transfers from the utility funds increased for FY25 inflationary pressures. Staff reviews the transfer annually and adjusts it to align with projected expenses. Investment earnings are expected to increase due to projected fund balance and higher interest rates.

The FY25 operating budget decreased due to one-time FY24 SLA's. The primary costs in this fund are

salary and benefits, credit card processing fees, and the water meter reading service contract. The non-operating budget increased due to Contingency in anticipation of additional inflationary increases.

The ending working capital is expected to decrease as existing UCS resources, which were transferred in prior fiscal years, are utilized.

Each fiscal year, in conjunction with the adoption of the budget, the City reviews its service fees and adjusts them as necessary. The fee ordinance can be found on the City website. Click or scan the code below to see the most recent fee ordinance

## APPENDIX E BUDGET CHARTER

### ARTICLE V THE BUDGET

City Charter, 14<sup>th</sup> Edition Amended November 2<sup>nd</sup>, 2021

#### Fiscal Year

Section 45. The fiscal year of the City of College Station shall be determined by ordinance of the Council. Such fiscal year shall also constitute the budget and accounting year.

#### Preparation and Submission of Budget

Section 46. The City Manager, between thirty (30) and ninety (90) days prior to the beginning of each fiscal year, shall submit to the City Council a proposed budget which shall provide a complete financial plan for the fiscal year.

#### **Proposed Expenditures Compared With Other Years**

Section 47. The City Manager shall, in the preparation of the budget, place in parallel columns opposite the various items of expenditures the actual amount of such items of expenditures for the last completed fiscal year, the estimated for the current fiscal year, and the proposed amount for the ensuing fiscal year.

#### **Budget a Public Record**

Section 48. The budget and all supporting schedules shall be filed with the City Secretary when submitted to the City Council and shall be a public record for inspection by anyone. The City Manager shall cause copies to be made for distribution to all interested persons.

#### Notice of Public Hearing on Budget

Section 49. At the meeting at which the budget is submitted, the City Council shall fix the time and place of a public hearing on the budget and shall cause to be published a notice of the hearing setting forth the time and place thereof at least five (5) days before the date of the hearing.

#### Public Hearing on Budget

Section 50. At the time and place set for a public hearing on the budget, or at any time and place to which such public hearing shall from time to time be adjourned, the City Council shall hold a public hearing on the budget submitted, and all interested persons shall be given an opportunity to be heard for or against any item or the amount of any item therein contained.

#### Proceedings on Budget after Public Hearing Amending or Supplementing Budget

City Charter as amended Nov 6, 2018 Page 13 Section 51. After the conclusion of such public hearing, the City Council may insert new items or may increase or decrease the items of the budget, except items in proposed expenditures fixed by law. Before inserting any additional item or increasing any item of appropriation which will increase the total budget by three (3%) percent or more, it must cause to be published a notice setting forth the nature of the proposed increases and fixing a place and time, not less than five (5) days after publication, at which the City Council will hold a public hearing thereon.

## APPENDIX E BUDGET CHARTER

#### **Proceedings on Adoption of Budget**

Section 52. After such further hearing, the City Council may insert the additional item or items, and make the increase or increases, to the amount in each case indicated by the published notice, or to a lesser amount; but where it shall increase the total proposed expenditures, it shall also provide for an increase in the total anticipated revenue to at least equal such total proposed expenditures.

#### Vote Required for Adoption

Section 53. The budget shall be adopted by the favorable vote of a majority of the members of the entire City Council.

#### Date of Final Adoption; Failure to Adopt

Section 54. The budget shall be finally adopted not later than the twenty-seventh day of the last month of the fiscal year. Should the City Council take no final action on or prior to such day, the budget as submitted by the City Manager shall be deemed to have been finally adopted.

#### Effective Date of Budget; Certification; Copies Made Available

Section 55. Upon final adoption, the budget shall be filed with the City Secretary and such other officials as may be designated by state law. The final budget shall be printed, or otherwise reproduced, and a reasonable number of copies shall be made available for the use of all offices, departments and agencies, and for the use of interested persons and civic organizations.

#### **Budget Establishes Appropriations**

Section 56. From the effective date of the budget, the several amounts stated therein as proposed expenditures shall be and become appropriated to the several objects and purposes therein named.

#### Budget Establishes Amount to be Raised by Property Tax

Section 57. From the effective date of the budget, the amount stated therein as the amount to be raised by property tax shall constitute a determination of the amount of the levy for the purposes of the City in the corresponding tax year.

#### **Contingent Appropriation**

Section 58. Provision shall be made in the annual budget and in the appropriation ordinance for a contingent appropriation in an amount not more than three (3) percent of the total budget expenditure, to be used in case of unforeseen items of expenditures. Such contingent appropriation shall be under the control of, and distributed by, the City Manager, after approval by the City Council. Expenditures from this appropriation shall be made only in case of established emergencies and a detailed account of such expenditures shall be recorded and reported. The City Charter as amended Nov 6, 2018 Page 14 proceeds of the contingent appropriation shall be disbursed only by transfer to other departmental appropriation, the spending of which shall be charged to the departments or activities for which the appropriations are made.

#### Estimated Expenditures Shall Not Exceed Estimated Resources

Section 59. The total estimated expenditures of the general fund and debt fund shall not exceed the total estimated resources of each fund. The City Council may by ordinance amend the budget during a fiscal year if one of the following conditions exists:

## APPENDIX E BUDGET CHARTER

- 1. If during the fiscal year the City Manager certifies that there are available for appropriation revenues in excess of those estimated in the budget, the City Council, by ordinance, may make supplemental appropriations for the year up to the amount of such excess. Before approval, the Council shall hold a public hearing on the proposed budget amendment. A notice of the time and place of a public hearing on the supplemental appropriation shall be published in the official newspaper of the City of College Station. The notice shall be placed in the newspaper at least five (5) business days before the date of the hearing.
- 2. To meet a public emergency affecting life, health and property of the public peace, the City Council may make emergency appropriations. Such appropriations may be made by emergency ordinance. To the extent that there are no available unappropriated revenues or a sufficient fund balance to meet such appropriations, the Council may by such emergency ordinance authorize the issuance of emergency notes, which may be renewed from time to time, but the emergency notes and renewals of any such notes made during a fiscal year shall be paid not later than the last day of the fiscal year next succeeding that in which the emergency appropriation was made.
- 3. If at any time during the fiscal year it appears probable to the City Manager that the revenues or fund balances available will be insufficient to meet the amounts appropriated, the City Manager shall report to the City Council without delay, indicating the estimated amount of the deficit, any remedial action taken and recommendations as to any other steps to be taken. The Council shall then take such further action as it deems necessary to prevent or reduce any deficit and for that purpose it may by ordinance reduce one or more appropriations.

#### Lapse of Appropriation

Section 60. All appropriations shall lapse at the end of the fiscal year to the extent that they shall not have been expended or lawfully encumbered.

# Appendix F FISCAL AND BUDGETARY

### POLICY STATEMENTS – UPDATED SUMMER 2024

### **CHANGES UNDER CONSIDERATION ARE TRACKED**

#### 1. STATEMENT OF PURPOSE

The broader intent of the following Fiscal and Budgetary Policy Statements is to enable the City to achieve a long-term stable and positive financial condition. The watchwords of the City's financial management include integrity, prudent stewardship, planning, accountability, and full disclosure.

The more specific purpose is to provide guidelines regarding the City's day-to-day financial affairs and in developing recommendations to the City Manager and City Council.

The scope of these policies generally spans, among other issues, accounting, purchasing, auditing, financial reporting, internal controls, operating and capital budgeting, revenue management, cash and investment management, expenditure control, asset management, debt management, and planning concepts, in order to:

- A. Present fairly and with full disclosure the financial position and results of the financial operations of the City in conformity with generally accepted accounting principles (GAAP), and
- B. Determine and demonstrate compliance with finance related legal and contractual issues in accordance with provisions of the Texas Local Government Code and other pertinent legal documents and mandates.

The City Council will annually review and approve the Fiscal and Budgetary Policy Statements as part of the budget process. More detailed policy guidelines in the following policy manuals maintained by the Finance Department:

- 1. ACCOUNTING OPERATIONS POLICY
- 2. PURCHASING POLICY
- 3. EMERGENCY OPERATIONS POLICY FISCAL SERVICES
- 4. FIXED ASSET POLICY
- 5. MISCELLANEOUS FISCAL SERVICES POLICY
- 6. UTILITY CUSTOMER SERVICE POLICY
- 7. INVESTMENT POLICY & STRATEGY
- 8. CONTINUING DISCLOSURE

#### 2. OPERATING BUDGET

#### 2.1. PREPARATION.

Budgeting is an essential element of the financial planning, control, and evaluation process of municipal government. The "operating budget" is the City's annual financial operating plan. The budget includes all the operating departments of the City, the debt service fund, all capital projects funds, and the internal service funds of the City. The budgets for the General Funds and Special Revenue Funds are prepared in the Finance Department on the modified accrual basis of accounting. Under this basis, revenues are recognized when they become measurable and available to finance expenditures of the current period. Expenditures are recognized when the related fund liability is incurred with the exception of unmatured interest on long term debt which is recognized

when due and certain compensated absences and claims and judgments such as accrued vacation leave which are recognized when the obligations are expected to be liquidated with expendable resources.

The budgets for the Enterprise and Internal Service Funds are similarly prepared on the modified accrual basis of accounting where cash transactions are included in the budget presentation in lieu of non-cash transactions such as depreciation. The focus is on the net change in working capital (current assets less current liabilities).

All funds are forecasted for five years out as to plan for future budget years. Five-year forecasts for major funds such as the general fund and the debt service fund are published in the budget document.

The budget is prepared with the cooperation of all City Departments and is submitted to the City Manager who makes any necessary changes before presentation to City Council. The budget shall be presented to the City Council no later than six weeks prior to fiscal year end and shall be enacted by the City Council on or before the twenty-seventh day of the last month of the preceding fiscal year.

The budget process will be coordinated so as to identify major policy issues for City Council. The budget process will be a part of an overall strategic planning process for the City.

#### 2.2. BALANCED BUDGET.

The operating budget will be balanced with current revenues, exclusive of beginning resources, greater than or equal to current expenditures/expenses. Excess balances shall be used as capital funds or other non-recurring expenditures.

#### 2.3. DEVELOPMENT OF AN APPROVED BUDGET.

- a. The budget shall include four basic segments for review and evaluation: (1) personnel costs, (2) base budget for operations and maintenance costs, (3) service level adjustments for increases or decreases to existing service levels, and (4) revenues.
- b. The budget review process shall include Council participation in the development of each of the four segments of the approved budget and a public hearing to allow for citizen participation in the budget preparation.
- c. The budget process shall span sufficient time to address policy and fiscal issues by the Council.
- d. A copy of the approved budget shall be filed with the City Secretary when it is submitted to the City Council in accordance with the provisions of the City Charter.

#### 2.4. ADOPTION.

Upon the presentation of a proposed budget document to the Council, the Council shall call and publicize a budget public hearing. The Council will subsequently adopt by ordinance such budget as it may have been amended as the City's Annual Budget, effective for the fiscal year beginning October 1.

#### 2.5. BUDGET AWARD.

The operating budget will be submitted annually to the Government Finance Officers Association (GFOA) for evaluation and consideration for the Award for Distinguished Budget Presentation.

#### 2.6. BUDGET REPORTING.

Periodic financial reports will be prepared to monitor and control the budget. Summary financial reports will be presented to the City Manager and City Council quarterly as soon as possible, preferably within thirty (30) working days after the end of each quarter. Such reports will be in a format appropriate to enable the City Council to understand the overall budget to actual status for various funds. See Section 16.2 in the Account Operations Policy for further details.

#### 2.7. CONTROL.

Operating expense control is addressed in Section 4 of these Policies.

#### 2.8. CONTINGENT APPROPRIATION.

Pursuant to Section 58 of the Charter of the City of College Station, the City will establish an adequate contingent appropriation in each of the operating funds. The expenditure for this appropriation shall be made only in cases of emergency, and a detailed account shall be recorded and reported. The proceeds shall be disbursed only by transfer to departmental appropriation. The transfer of this budget appropriation within the same fund or department with a net zero impact to the Budget shall be under the control of the Director of Fiscal Services and the City Manager and may be distributed by them. Any transfer between funds and/or departments must be expressly approved by the City Council.

All transfers from the contingent appropriation will be evaluated using the following criteria:

- 1. Is the request of such an emergency nature that it must be made immediately?
- 2. Why was the item not budgeted in the normal budget process?
- 3. Why can't the transfer be made within the division or department?

#### 3. REVENUE MANAGEMENT.

#### 3.1. OPTIMUM CHARACTERISTICS.

- SIMPLICITY. The City, where possible and without sacrificing accuracy, will strive to keep the
  revenue system simple in order to reduce compliance costs for the taxpayer or service recipient.
  A corresponding decrease in the City's cost of collection and a reduction in avoidance to pay will
  thus result. The City will avoid nuisance taxes or charges as revenue sources.
- CERTAINTY. The City will understand its revenue sources and enact consistent collection policies to provide assurances that the revenue base will materialize according to budgets and plans.
- EQUITY. The City shall make every effort to maintain equity in its revenue system; i.e., the City shall seek to minimize or eliminate all forms of subsidization between entities, funds, services, utilities, and customer classes.
- 4. REVENUE ADEQUACY. The City shall require that there be a balance in the revenue system; i.e., the revenue base will have the characteristic of fairness and neutrality as it applies to cost of service, willingness to pay, and ability to pay.

- 5. ADMINISTRATION. The benefits of a revenue source will exceed the cost of levying and collecting that revenue. The cost of collection will be reviewed for cost effectiveness as a part of the indirect cost and cost of service analysis. Where appropriate, the City will use the administrative processes of State or Federal collection agencies in order to reduce administrative costs.
- 6. DIVERSIFICATION AND STABILITY. A diversified revenue system with a stable source of income shall be maintained. This approach will help avoid instabilities in particular revenue sources due to factors such as fluctuations in the economy and variations in the weather. Stability is achieved by a balance between elastic and inelastic revenue sources.

#### 3.2. OTHER CONSIDERATIONS.

- COST/BENEFIT OF INCENTIVES FOR ECONOMIC DEVELOPMENT. The City will use due caution in the analysis of any tax or fee incentives that are used to encourage development. Ideally, a cost/benefit (fiscal impact) analysis will be performed as part of such evaluation.
- NON-RECURRING REVENUES. One-time or non-recurring revenues will not be used to finance ongoing operations. Non-recurring revenues should be used only for one-time expenditures such as long-lived capital needs. They will not be used for budget balancing purposes.
- 3. PROPERTY TAX REVENUES. All real and business personal property located within the City shall be valued at 100% of the fair market value for any given year based on the current appraisal supplied to the City by the Brazos County Appraisal District.
- 4. A ninety-six and one half percent (96.5%) collection rate shall serve each year as a minimum goal for tax collections. The City Manager may, for budget and forecasting purposes, use up to the tax rate in effect for the current year's budget. The City Manager may justify a tax rate that is different from the current tax rate. The justification will be based on City Council directions, needs arising from debt service, or other conditions as may arise from time to time.

#### 3.3. INVESTMENT INCOME.

Earnings from investment (both interest and capital gains) of available monies, whether pooled or not, will be distributed to the funds in accordance with the equity balance of the fund from which monies were provided to be invested.

#### 3.4. USER-BASED FEES AND SERVICE CHARGES.

For services associated with a user fee or charge, the direct and indirect costs of that service will be offset by a fee where possible. There will be a review of fees and charges no less than once every three years to ensure that fees provide adequate coverage of costs of services. User charges may be classified as "full cost recovery," "partial cost recovery I," "partial cost recovery II" and "minimal cost recovery," based upon City Council policy.

- 1. Full fee support (80-100%) will be obtained from enterprise operations such as utilities, solid waste service, landfill, cemetery, and licenses and permits.
- 2. Partial fee support I (50-80%) will be generated by charges for emergency medical services, miscellaneous licenses and fines, and all adults' sports programs.
- 3. Partial fee support II (20%-50%) will be generated by charges for youth programs and activities.
- 4. Minimum fee support (0-20%) will be obtained from other parks, recreational and cultural programs and activities.

#### 3.5. PARKS AND RECREATION COST RECOVERY CONTINUUM FOR SERVICES

The Cost Recovery Continuum is applied to all programs and services provided by the Parks and Recreation Department. Its spectrum ranges from Community Wide Beneficiaries (those services which benefit a relatively large proportion of residents) to Individual Users (those services where the benefits accrue primarily to users rather than a large proportion of residents). When the benefits are accrued primarily by individuals, rather than a large segment of the community, general funds should not exclusively subsidize those activities.

User prices are determined by establishing the aggregate cost associated with each service or program, then identifying the proportion of benefits that accrue to individual users rather than to the whole community. This identified proportion becomes the target amount to be recovered from fees. Services and programs are categorized according to what percentage of cost recovery is to be transferred to the individual users from low to high subsidy recovery. —These prices must are be-reconciled by a market analysis of price points, resulting in potential annual increments of increase.

These categories are reviewed <u>every 3-5 yearsregularly</u> by City Management. The actual cost recovery is recorded each fiscal year as staff considers necessary adjustments and establishes performance benchmarks. <u>Detailed program information can be found with the Parks and Recreation Department.</u>

- Maximum Cost Recovery 81% to 100% (i.e. Enterprise Operations, Permits and Rentals)
- High-Cost Recovery 61% to 80% (i.e. Intermediate Programs)
- Medium Cost Recovery 41% to 60% (i.e. Introductory Programs and Camps & Youth Sports)
- Low-Cost Recovery 21% to 40% (i.e. Senior Programs, Education, Enrichment & Inclusion Programs,
   Drop-in Access)
- Minimum Cost Recovery 0% to 20% (i.e. Community Services, Community Events, and Open Access)
- Minimum Cost Recovery 0% to 25% (i.e. Playgrounds, Parks, Greenways and Trails)
- Low-Cost Recovery 26% to 50% (i.e. Youth Based Programs and Services)
- Medium Cost Recovery 51% to 75% (i.e. Adult based Programs and Services)
- High Cost Recovery 76% to 100% (Enterprise Operations, cemetery, License/Permits)

Financial barriers will be addressed thru-though scholarships, work programs and financial assistance.

#### 3.6. ENTERPRISE FUND RATES.

The City will review and adopt utility rates as needed to generate revenues required to fully cover operating expenses, meet the legal restrictions of all applicable bond covenants, and provide for an adequate level of working capital.

#### 3.7. GENERAL AND ADMINISTRATIVE (G&A) CHARGES.

G&A costs will be charged to all funds for services of general overhead, such as administration, finance, customer billing, personnel, technology, engineering, legal counsel, and other costs as appropriate. The charges will be determined through an indirect cost allocation study following accepted practices and procedures.

#### 3.8. UNMETERED CITY OF COLLEGE STATION STREET LIGHT COSTS.

The electric power cost related to the unmetered City of College Station streetlights will be incurred in the Electric Fund as part of the overall purchased power cost. The General Fund will reimburse the Electric Fund for the estimated cost of this service. The reimbursement amount will be estimated on an annual basis and will be based on the number of applicable streetlights, estimated power consumption and estimated maintenance costs.

#### 3.9. UTILITY GENERAL FUND TRANSFERS.

The intent of these transfers is to provide a fair and reasonable return and benefit to the City and its citizens for their ownership risk related to the City's various utility operations.

- 1. Electric General Fund Transfer The transfer from the Electric Fund to the City's General Fund will not exceed 9.0% of total budgeted operating revenues.
- 2. Water, Wastewater, and Solid Waste General Fund Transfers The transfers from the Water, Wastewater, and Solid Waste Funds to the City's General Fund will not exceed 10.0% of total budgeted operating revenues.

#### 3.10. INTERGOVERNMENTAL REVENUES.

The City will not be reliant on intergovernmental revenues (grants). Any potential grants will be examined for matching and continuation of program requirements. These revenue sources should be used only for projects and programs where operating and maintenance costs that have been included in the financial forecast and their ultimate effect on operations and revenue requirements are anticipated.

#### 3.11. REVENUE MONITORING.

Revenues as they are received will be regularly compared to budgeted revenues and variances will be investigated.

#### 4. EXPENDITURE CONTROL

#### 4.1. APPROPRIATIONS.

The point of budgetary control is at the department level in the General Fund and at the fund level in all other funds. When budget adjustments among Departments and/or funds are necessary, they must be approved by the City Council and must meet other requirements as outlined in the City Charter, with the following exceptions:

- 1. Inter-fund transfers involving an internal replacement fund; in the case of funds being moved to or from any of the replacement funds (IT, Equipment, or Fleet).
- Corrections or de-minimis amounts as outlined in the Transfer Policy maintained in the MISCELLANEOUS FISCAL SERVICES POLICY, including accounting entries that are contained within a fund and have no impact on the net approved annual budget.
- 3. Budget appropriation amendments at lower levels of control shall be made in accordance with the applicable administrative procedures.
- 4. As the Water and Wastewater Funds are operationally one fund, transfers between these two funds are considered administrative in nature as long as they are net budget neutral.

#### 4.2. AMENDMENTS TO THE BUDGET.

In accordance with the City Charter, the budget may be amended after the following conditions are met:

- 1. The City Manager certifies that there are available revenues in excess of those estimated in the Budget.
- 2. The City Council holds a public hearing on the supplemental appropriation.
- 3. The City Council approves the supplemental appropriation.

#### 4.3. CENTRAL CONTROL.

Modifications within the operating categories (salaries, supplies, maintenance, services, capital etc.) are detailed in the Transfer Policy maintained in the MISCELLANEOUS FISCAL SERVICES POLICY

#### 4.4. PURCHASING.

The City shall make expenditures to promote the best interests of the citizens of College Station. The City shall encourage free and unrestricted competition on bids and purchases, ensuring the taxpayers the best possible return on and use of their tax dollars. It shall be the policy of the City to fully comply with and make purchases or expenditures pursuant to the City's Purchasing Manual which includes policies, rules, regulations, procedures, state and federal law.

The Purchasing division of Finance Department is the central authority for all purchasing activity \$3,000 and greater. The City Manager or his designee, in consultation with appropriate City Departments, may determine the procurement method for goods and services that provides the best value to the City. The purchase of goods or services by the City at a total cost of less than \$3,000 may be approved by the applicable department in accordance with the central procurement card policy or the department's internal control procedures.

#### 4.5. PROMPT PAYMENT.

All invoices approved for payment by the proper City authorities shall be paid within thirty (30) calendar days of receipt of goods or services or invoice date, whichever is later, in accordance with the provisions of Chapter 2251 of the Local Government Code.

The PURCHASING POLICY maintained by the Finance Department shall establish and maintain proper procedures which will enable the City to take advantage of all purchase discounts, when possible, except in the instance where payments can be reasonably and legally delayed in order to maximize the City's investable cash.

#### 5. RISK MANAGEMENT.

The City will aggressively pursue every opportunity to provide for the public's and City employees' safety and to manage its risks. The goal shall be to minimize the risk of loss of resources through liability claims with an emphasis on safety programs. All reasonable options will be investigated to finance risks. Such options may include risk transfer, insurance, and risk retention. Where risk is retained, reserves will be established based upon actuarial determinations and not be used for purposes other than for financing losses.

#### 6. REPORTING.

Summary reports will be prepared showing actual expenditures as compared to the original and revised budgets and prior year expenditures.

#### 7. CAPITAL BUDGET AND PROGRAM

#### 7.1. PREPARATION.

The City's capital budget will include all capital projects funds and all capital resources. The budget will be prepared annually on a project basis. The capital budget will be prepared by the Finance Department with the involvement of responsible departments.

#### 7.2. CONTROL.

All capital project expenditures must be appropriated in the capital budget. The Chief Financial Officer must certify the availability of resources before any capital project contract is presented to the City Council for approval.

#### 7.3. PROGRAM PLANNING.

The capital budget will be taken from the capital improvements project plan for future years. The planning time frame for the capital improvements project plan should normally be five years, with a minimum of at least three

years. Future replacement and maintenance for capital items should also be projected for the next five years after the project is placed into service

#### 7.4. FINANCING PROGRAMS.

Where applicable, assessments, impact fees, pro-rata charges, or other fees should be used to fund capital projects which have a primary benefit to specific, identifiable property owners.

Alternative financing sources will be explored before debt is issued. When debt is issued, it will be used to acquire major assets with expected lives which equal or exceed the average life of the debt issue.

#### 7.5. REPORTING.

Periodic financial reports will be prepared to enable the Department Directors to manage their capital budgets and to enable the Finance Department to monitor and control the capital budget as authorized by the City Manager.

#### 8. CAPITAL MAINTENANCE & REPLACEMENT

To address that deferred maintenance and not anticipating replacement costs increases future capital requirements, the City policy is the following.

#### 8.1. STREETS CAPITAL MAINTENANCE AND REPLACEMENT.

It is the policy of the City to annually provide significant funding for the Streets Division within the Public Works Department to use for a residential street maintenance program.

#### 8.2. BUILDING CAPITAL MAINTENANCE AND REPLACEMENT

It is the policy of the City to annually provide significant funding for major maintenance on its buildings such as roof air conditioning, flooring, and other replacements.

### 8.3. PARKING LOTS AND INTERNAL ROADWAYS.

It is the policy of the City to annually provide significant funding to pay for major maintenance of parking lots and internal roadways.

### 9. REPLACEMENT FUNDS.

The City has a major investment in its Information Technology, fleet of vehicles, and other equipment. The City will anticipateanticipates replacing existing equipment, as necessary, and will establish chargescharges departments that operate or own the asset a recurring replacement cost that are assigned to departments to account for the cost of that replacement. The replacement funds may be used to provide funding for new replacement equipment assets. The departmental charges are intended to providing a charge to departments that recovers the initial investment and lost opportunity costs while maintaining the ability of the City and maintains the ability of the fund to provide for replace replacement of all coveredeligible equipment assets.

#### 9.1. INFORMATION TECHNOLOGY REPLACEMENT (IT).

The City will maintain a replacement schedule for IT equipment and will charge departments replacement costs in accordance with the IT Replacement section in the MISCELLANEOUS FISCAL SERVICES POLICY.

#### 9.2. FLEET REPLACEMENT.

The City will maintain a replacement schedule for Fleet vehicles and related equipment and will charge departments replacement costs in accordance with the Fleet and Ghost Fleet Replacement section in the

MISCELLANEOUS FISCAL SERVICES POLICY. Fleet replacements are reviewed on an on-going basis to assess any additional replacements that may be required due to current operations and/or vehicle status.

#### 9.3. EQUIPMENT REPLACEMENT.

The City will maintain a replacement schedule for other equipment and will charge departments replacement costs in accordance with the Equipment Replacement section in the MISCELLANEOUS FISCAL SERVICES POLICY.

#### 10. ACCOUNTING, AUDITING, AND FINANCIAL REPORTING

#### 10.1. ACCOUNTING

The general ledger is the collection of all asset, liability, net assets, revenue and expense accounts. It is used to accumulate all financial transactions and is supported by subsidiary ledgers that provide details for certain accounts. The general ledger is the foundation for the accumulation of data and production of reports. The Director of Fiscal Service under the direction of the City's Chief Financial Officer is responsible for establishing the structure for the City's Chart of Accounts and maintaining the General Ledger and necessary Subsidiary Ledgers for the accumulation of data and the production of accounting reports. Maintenance of both the General Ledger system and Chart of Accounts includes ensuring that procedures are in place to properly record financial transactions and report the City's financial position.

#### 10.2. AUDITING.

#### QUALIFICATIONS OF THE AUDITOR.

In conformance with the City's Charter and according to the provisions of Texas Local Government Code, Title 4, Chapter 103, the City will be audited annually by outside independent accountants ("auditor"). The auditor must be a CPA firm of regional reputation and must demonstrate that it has the breadth and depth of staff to conduct the City's audit in accordance with generally accepted auditing standards (GAAS) and contractual requirements. The auditor must be registered as a partnership or corporation of certified public accountants, holding a license under Chapter 901 Texas Occupations Code, capable of demonstrating that it has sufficient staff which will enable it to conduct the City's audit in accordance with generally accepted auditing standards as required by the City Charter and applicable state and federal laws. The auditor's report on the City's financial statements will be completed and filed with the City Secretary within 120 days of the City's fiscal year end, and the auditor will jointly review the management letter with the City Council within 30 days of its receipt by the staff.

In conjunction with their review, the Chief Financial Officer or his designee shall respond in writing
to the City Manager and City Council regarding the auditor's Management Letter, addressing the
issues contained therein. The Council shall schedule its formal acceptance of the auditor's report
upon the resolution of any issues resulting from the joint review.

#### 3. RESPONSIBILITY OF AUDITOR TO CITY COUNCIL.

The auditor is retained by and is accountable directly to the City Council and will have access to direct communication with the City Council if the City Staff is unresponsive to auditor recommendations or if the auditor considers such communication necessary to fulfill its legal and professional responsibilities.

#### SELECTION OF AUDITOR.

The City will not require a periodic rotation of outside auditors, but will circulate requests for proposal for audit services at least every five years. Authorization for the City's annual audit shall occur no less than 30 days prior to the end of the fiscal year.

#### 5. CITY INTERNAL AUDITOR.

Pursuant to Article III, Section 30 of the City Charter, the City may appoint an officer of the City to be the City Internal Auditor. The internal auditor will assist management in preventing, detecting, and deterring fraud by monitoring the design and proper functioning of internal control policies and procedures. The internal auditor may conduct performance audits, special investigations, and special studies under the direction of the City Council or Audit Committee.

#### 11.FINANCIAL REPORTING.

#### 11.1. EXTERNAL REPORTING

The City shall prepare a written Annual Comprehensive Financial Report (ACFR) that shall be presented to the Council within 120 calendar days of the City's fiscal year end. Accuracy and timeliness of the ACFR are the responsibility of City staff. The ACFR shall be prepared in accordance with GAAP and shall be presented annually to the Government Finance Officer's Association (GFOA) for evaluation and consideration for the Certificate of Achievement for Excellence in Financial Reporting. If City staffing limitations preclude such timely reporting, the Chief Financial Officer will inform the City Council of the delay and the reasons, therefore.

#### 11.2. INTERNAL REPORTING.

The Finance Department will prepare internal financial reports, sufficient to plan, monitor, and control the City's financial affairs. Internal financial reporting objectives are addressed throughout these policies.

#### 12. ASSET MANAGEMENT

#### 12.1. INVESTMENTS.

The Chief Financial Officer or the designee shall promptly invest all City funds with the depository bank in accordance with the provisions of the current Bank Depository Agreement or in any negotiable instrument authorized by the City Council under the provisions of the Public Funds Investment Act of 1987 as amended, and in accordance with the City Council's approved Investment Policies.

An investment report will be provided to the City Council quarterly. This report shall provide both summary and detailed information on the City's investment portfolio.

#### 12.2. CASH MANAGEMENT.

The City's cash flow will be managed to maximize the cash available to invest. Such cash management will entail the centralization of cash collections, where feasible, including utility bills, building and related permits and licenses, fines, fees, and other collection offices as appropriate.

Periodic review of cash flow position will be performed to determine performance of cash management and conformance to investment policies. The underlying theme will be that idle cash will be invested with the intent to 1) safeguard assets, 2) maintain liquidity, and 3) maximize return. Where legally permitted, pooling of investments will be done.

#### 13. FIXED ASSETS AND INVENTORY.

These assets will be reasonably safeguarded, and properly accounted for, and prudently insured.

A fixed asset of the City shall be defined as a purchased or otherwise acquired piece of equipment, vehicle, furniture, fixture, capital improvement, addition to existing capital investments, land, buildings or accessioned Library materials which has an original cost or value of at least \$5,000 and a useful life of more than three years. All expenditures related to specific capital projects are exceptions to the rule. Assets owned by the electric utility will be capitalized in accordance with Federal Energy Regulatory Commission (FERC) guidelines. Furthermore, assets owned by either the water or wastewater utilities will be capitalized in accordance with the National Association of Regulatory Utility Commissioners (NARUC) guidelines.

The City's fixed assets shall be reasonably safeguarded, <u>and</u> properly accounted for, and sufficiently insured. Responsibility for the safeguarding of the City's fixed assets lies with the department director in whose department the fixed asset is assigned. Fixed Asset accounting will be maintained in accordance with the *FIXED ASSET POLICY* by the Finance Department.

### 14. COMPUTER SYSTEM/DATA SECURITY.

The City shall provide security of its computer/network system and data files through physical and logical security systems that will include, but not limited to, double back-to-back firewalls and a two-tier spam/virus protection system. The physical location of computer/network systems shall be in locations inaccessible to unauthorized personnel.

#### **15.DEBT MANAGEMENT**

#### 15.1. DEBT ISSUANCE.

The City will issue debt for the purpose of acquiring or constructing capital assets for the general benefit of its citizens, and to allow it to fulfill its various missions as a city. Debt may be issued for the purposes of purchasing land or rights-of-way and/or improvements to land, for construction projects, capital equipment and to provide for the general good of the community.

#### 15.2. GENERAL OBLIGATION BONDS (GO's).

GO's may be used to fund capital assets of the general government and are not to be used to fund operating needs of the City. The term of a bond issue will not exceed the useful life of the asset(s) funded by the bond issue and will generally be limited to no more than twenty (20) years. General obligation bonds must be authorized by a vote of the citizens of the City of College Station.

#### 15.3. REVENUE BONDS (RB's).

RB'S may be issued to provide for the capital needs of any activities where the capital requirements are necessary for continuation or expansion of a service which produces a revenue and for which the asset may reasonably be expected to provide for a revenue stream to fund the debt service requirements. The term of the obligation should not exceed the useful life of the asset(s) to be funded by the bond issue and will generally be limited to no more than twenty (20) years.

#### 15.4. CERTIFICATES OF OBLIGATION,

CO's may be used to fund capital assets determined by City Council. The term of the obligation may not exceed the useful life of the asset(s) to be funded by the proceeds of the debt issue and will generally be limited to no more than twenty (20) years when the asset is of a nature that its anticipated useful life exceeds 20 years.

#### 15.5. SHORT TERM OBLIGATIONS

Lines of Credit, taxable bonds and other financial instruments that are short term in nature may be used to fund any lawful purpose of the municipality as well as to provide bridge financing for capital projects. The City may issue interfund loans rather than outside debt instruments to meet short-term cash flow needs. Interfund loans will be permitted if an analysis of the affected fund indicates funds in excess of the fund balance requirement are available and the use of the funds will not impact that fund's current operations. All interfund loans will bear interest based upon prevailing rates and have terms consistent with other similar obligations.

#### 15.6. METHOD OF ISSUANCE.

The City will use a competitive bidding process in the sale of bonds unless the nature of the issue warrants a negotiated bid. In situations where a competitive bidding process is not elected, the City will publicly present the reasons why, and the City will participate with the financial advisor in the selection of the underwriter or direct purchaser.

#### 15.7. BIDDING PARAMETERS.

The notice of sale will be carefully constructed so as to ensure the best possible bid for the City, in light of the existing market conditions and other prevailing factors.

#### 15.8. ANALYSIS OF FINANCING ALTERNATIVES

The Finance Department will explore alternatives to the issuance of debt for capital acquisitions and construction projects. These alternatives will include, but not be limited to, 1) grants in aid, 2) use of reserves, 3) use of current revenues, 4) contributions from developers and others, 5) leases, and 6) impact fees.

#### 15.9. DISCLOSURE.

Full disclosure of operating costs along with capital costs will be made to the bond rating agencies and other users of financial information. The Finance Department, with the assistance of financial advisors and bond counsel, will prepare the necessary materials for presentation to the rating agencies, will aid in the production of Preliminary Official Statements, and will take responsibility for the accuracy of all financial information released in accordance with the INVESTMENT POLICY & STRATEGY and CONTINUING DISCLOSURE POLICY maintained by the Finance Department.

#### 15.10. FEDERAL REQUIREMENTS.

The City will maintain procedures to comply with arbitrage rebate and other Federal requirements.

#### 15.11. DEBT STRUCTURING.

The City will issue bonds for 20 years or less, not to exceed the life of the asset acquired.

The structure should approximate level annual debt service unless operational matters dictate otherwise or if market conditions indicate potential savings could result from modifying the level payment stream. Consideration of market factors, such as the tax-exempt qualification, minimum tax alternative, and so forth will be given during the structuring of long-term debt instruments.

### 16. FINANCIAL CONDITIONS, RESERVES, AND STABILITY RATIOS

#### 16.1. OPERATIONAL COVERAGE. (NO OPERATING DEFICITS).

The City will maintain an operational coverage of 1.00, such that current operating revenues will at least equal or

exceed current operating expenditures.

Deferrals, short-term loans, or one-time sources will be avoided as budget balancing techniques. Reserves will be used only for emergencies or non-recurring expenditures, except when balances can be reduced because their levels exceed guideline minimums as stated in Section 17.

## 17. OPERATING RESERVES/FUND BALANCES

#### 17.1. GENERAL FUND

The unobligated fund balance in the General Fund should be at least 20% of the annual budgeted General Fund expenses. This percentage is the equivalent of approximately 65 days expenditures. An additional amount of up to 3.0% should be maintained for extraordinary items or contingencies. Cash and investments alone should be equivalent to 30 days of operating expenditures.

#### 17.2. ENTERPRISE FUNDS

The working capital (current assets less current liabilities) in the enterprise funds should be maintained at 18% of total operating expenses or the equivalent of approximately 65 days. Cash and Investments alone should be equivalent to 30 days of operations.

For certain Enterprise Funds, the City established Risk Mitigation Funds to reduce the financial impact of significant future events. These Risk Mitigation Funds are intended to reduce the impact on the customer base. Service type and operational and capital expenses will affect the amount maintained in each Risk Mitigation Fund. Expenses considered by the City include both historical and projected amounts.

#### 17.3. HOTEL TAX FUND

The Hotel Tax Fund balance should be at least 18% of the annual budgeted expenditures. Adequate reserves are essential due to the nature of this revenue source and the reliance organizations have on this revenue source to maintain ongoing operations.

#### 17.4. INTERNAL SERVICE FUNDS

The Internal Service Funds will attain and retain fund balance/working capital balances appropriate for the fund.

#### 17.5. FLEET MAINTENANCE AND UTILITY CUSTOMER SERVICE

Some funds such as Fleet Maintenance and Utility Customer Service need only a minimal working capital balance in order to meet the needs of the fund, therefore no stated minimum fund balance is required.

#### 17.6. INSURANCE FUNDS

Insurance funds where risk is retained by the City in a self-insurance mode, a reserve will be established based upon an actuarial determination. Such reserve will be used for no other purposes than for financing losses under the insurance program.

#### 17.7. REPLACEMENT FUNDS

The Replacement Funds will have a working capital balance that will provide resources to replace covered equipment when it is necessary to be replaced. The funds will be replenished based on anticipated life of equipment and adjusted based on changes in the costs the covered equipment estimated replacement costs.

#### 17.8. LIABILITIES AND RECEIVABLES.

Procedures will be followed to maximize discounts and reduce penalties offered by creditors. Current liabilities will be paid within 30 days of the invoice date or on receipt of the goods or services, whichever is later. Accounts Receivable procedures will target collection for a maximum of 30 days from service, with any receivables aging past 90 days to go to a collection agency. The Chief Financial Officer, or designee, is authorized to write-off uncollectible accounts that are delinquent for more than 365 days, if the proper delinquency procedures have been followed.

#### 18. CAPITAL PROJECT AND DEBT SERVICE FUNDS.

#### 18.1. CAPITAL PROJECTS FUNDS

Monies in the capital projects funds will be used within 36 months of receipt. Balances will be used to generate interest income to offset increases in construction costs or other associated costs. Capital project funds are intended to be expended.

#### 18.2. DEBT SERVICE FUND

Revenues in the General Debt Service Fund are stable, based on property tax revenues and transfers from other funds. Remaining balances are maintained to meet contingencies and to make certain that the next year's debt service payments are met in a timely manner. The fund maintains a reserve balance calculated as 10% of budgeted expenses.

#### 19. INTERNAL CONTROLS

#### 19.1. WRITTEN PROCEDURES.

Wherever possible, written procedures will be established and maintained by the Finance Department for all functions involving purchasing, cash handling and/or accounting throughout the City. These procedures will embrace the general concepts of fiscal responsibility set forth in this policy statement.

#### 19.2. DEPARTMENT DIRECTORS' RESPONSIBILITIES.

Department Directors are the City Manager Designee for their department. The Finance Director also serves as the Chief Financial Officer's designee. Each department Director is responsible for ensuring that good internal controls are followed throughout his or her Department, that all Fiscal Services Department directives or internal controls are implemented, and that all independent auditor internal control recommendations are addressed. Departments will develop and periodically update written internal control procedures.

#### 19.3. INTERNAL REVIEWS/AUDITS.

The Finance Department will complete a review/audit of any department or procedure as directed by the Chief Financial Officer. Audits of petty cash and cash receipts will be randomly scheduled and conducted on an annual basis.

<sup>\*</sup>In many cases, the City Funds above are associated with multiple Departments. The relationships notated above are intended to reflect the Department(s) that is/are **primarily** responsible for the majority of the activity within the Fund.

<sup>\*</sup>Due to changes to State ordinance, the Juvenile Case Manager Fee Fund closed during FY22 and its revenues and budget has been replaced with the Truancy Prevention Fee Fund.

<sup>\*\*</sup> Included with the Major Enterprise Funds are each utilities' respective Risk Mitigation Fund.

# DEBT SERVICE SCHEDULE OF REQUIREMENTS G.O.B. SERIES 2013 PRINCIPAL - \$9,020,000\* TRUE INTEREST COST (TIC): 3.387%

Streets Capital Projects - \$6,525,000 and Parks Capital Projects - \$2,725,000

\*Due to the premium and discount received on this debt issue, the City only had to issue \$9,020,000 in bonds.

Total debt proceeds received were \$9,250,000. A premium of \$230,000 was paid to the City.

# APPENDIX I GENERAL FUND TRANSFERS AND OTHER (SOURCES) USES

The General Fund has multiple types of Transfers and Other Sources Uses as presented in the General Fund Summary. This appendix details each item within those categories.

#### Transfers In

Transfers In from other City funds are primarily for planned replacements and/or debt issued for replacements. In general, these transfers reimburse operating expenses incurred by the General Fund that the City can fund from a different revenue source. FY25 transfers include a Northgate Fund transfer for prior years debt service paid by General Fund.

#### General & Administrative (G&A) Transfers In

The City recovers the cost of services provided by General Fund departments to other funds via these transfers. These services include IT, Finance, Legal, and Human Resources. The City allocates these costs based on an annual cost allocation study prepared by an outside consulting firm.

#### Transfers Out

Transfers Out to other City funds are primarily for repayment of Street Light expenses, and other administrative items. There is a planned transfer to the IT Replacement Fund to set aside funds for a future ERP system replacement.

#### Capital Transfers Out

These are transfers to various capital project funds. In general, these transfers include cash contributions for specific projects.

#### **Public Agency Funding**

The City contributes funding to various agencies that provide services to the citizens of College Station. The amounts depend on agencies' annual requests, Council direction, and fund availability. The City presents the specific amounts and agencies in Appendix J.

#### **Consulting Services**

Fees paid to consulting firms to represent various Council interests for the benefit of citizens.

#### Capital Outlay

Costs related to purchase of replacement items, including computer hardware/software, vehicles, and equipment. The City offsets replacement expenses by corresponding Transfers In, resulting in a net zero impact.

#### Other/Contingency

Other miscellaneous costs not detailed above generally related to inventory and accounting adjustments. This category includes replacement laptops for multiple departments that do not meet the City's capitalization threshold. Contingency funding cover potential events not specifically accounted for in the departmental budgets.

# APPENDIX J OUTSIDE AGENCY FUNDING

The City funds a number of outside agencies each fiscal year that provide services for the citizens of College Station. The amount of funding received by each agency depends on Council direction and the availability of funds. Agencies are funded by the General Fund, Community Development Fund, Hotel Tax Fund, and Solid Waste Fund.

City Council approved a resolution adopting a new Outside Agency Funding Policy in February 2007. This policy established four categories of Outside Agencies: Contract Partners, Department Budget Agencies, non-CDBG eligible Agencies, and CDBG eligible Agencies. Federal regulations allow for the City's annual Community Development Block Grant to be allocated to fund local public services. The City continues to support the allocation of the maximum allowable funds.

Contract Partners have been identified based on their economic impact and the community services provided to the City. The Contract Partner agencies are Brazos Valley Economic Development Corporation (BVEDC) and Arts Council of the Brazos Valley (ACBV). Department Budget Agencies are agencies whose work directly supports the goals of a City Department.

#### FY25 proposed funding is:

#### POLICE DEPARTMENT- Key Performance Indicators

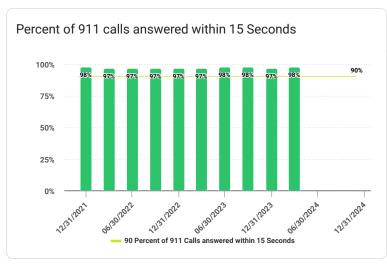

#### Why it Matters: Criminal Investigation Case Clearance Rate

The Criminal Investigation Division is comprised of Detective and Police Assistants who are assigned a variety of cases. The cases are investigated and at the conclusion of the investigation, one of the following terms are utilized to classify how the case was closed: Inactive, Exceptionally Cleared, Cleared by Arrest, and Unfounded. Each term has different attributes to help explain why or how the case was closed in the manner it was. Of those terms, Inactive cases are never considered "cleared" and act against the clearance rate for the division. Our goal is to achieve a case clearance rate of sixty-five percent of assigned cases, although a wide variety of variables such as spikes in reported crimes, major investigations, or staffing attrition negatively impact our ability to consistently achieve the goal. Due to the carry over factor of criminal cases, these metrics are an aggregate average for the last four quarters.

#### Why it Matters: Officer Response Times to Priority One Calls

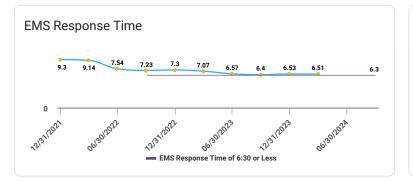

The police patrol staff are assigned to sectors within the city and are responsible for patrolling these sectors proactively between calls for service. Priority one calls, such as in progress theft, assault and burglaries as well as 911 emergencies are dispatched to officers closest to the call. The response time goal is to respond and arrive within 6 minutes thirty seconds to each of these calls. The response times are impacted by current demands at the time of the call, traffic congestion during the response, and staffing limitations.

# Why it Matters: Percent of 911 Calls Answered Within 15 Seconds

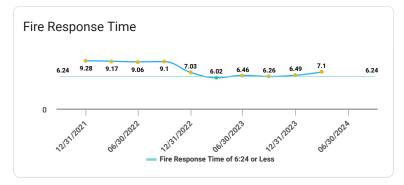

The police communications center is the primary public safety answering point for all emergency calls in the city of College Station and non-emergency calls that come into the police and fire department. On average, the communications center answers approximately 21,362 telephone calls per month. Of these calls, approximately 3,972 are received through the 911 emergency line. The communications center maintains a goal of answering 90% of these emergency calls within 15 seconds. This standard has been updated from 10 seconds to 15 seconds to reflect the National Emergency Number Association's 9-1-1 Call Processing Standard, which was revised in April 2020. Use of this update standardizes the method of call handling across jurisdictional boundaries and aligns with the metrics used by the National Fire Protection Association. Factors that can impact call wait times are demands at the time of the call and staffing limitations in the communications center.

#### FIRE DEPARTMENT - Key Performance Indicators

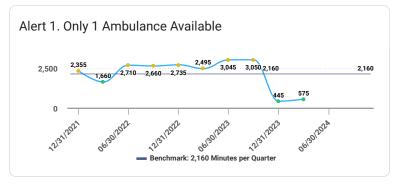

#### Why it Matters: EMS Response Time

Total response time is a measure of time elapsed between the 9-1-1 call getting answered at the Emergency Communications Center, and the fire department arriving at the scene. Total response time is a calculation of 1) call processing time, 2) turnout time, and 3) travel time. This KPI measures the fire department's total response time to moderate risk EMS and moderate risk fire calls. Times are reported at the 90th percentile. Benchmarks reflect national standards.

#### Why it Matters: Fire Response Time

Total response time is a measure of time elapsed between the 9-1-1 call getting answered at the Emergency Communications Center, and the fire department arriving at the scene. Total response time is a calculation of 1) call processing time, 2) turnout time, and 3) travel time. This KPI measures the fire department's total response time to moderate risk EMS and moderate risk fire calls. Times are reported at the 90th percentile. Benchmarks reflect national standards.

#### Why it Matters: Alert 1 Only One Ambulance Available

Ambulance Unavailability is a measure of the amount of time the fire department has one (Alert 1) or zero (Alert Zero) ambulances available for the next emergency call. The benchmark for Alert 1 is 2,160 minutes, or 36 hours per quarter (12 hours per month). In FY22Qtr1 the department began staffing a 5th ambulance during peak times and adjusted its EMS automatic aid agreement with the City of Bryan.

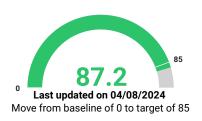

#### Why it Matters: Alert 0 No Ambulances Available

Ambulance Unavailability is a measure of the amount of time the fire department has one (Alert 1) or zero (Alert Zero) ambulances available for the next emergency call. The benchmark for Alert Zero is 540 minutes, or 9 hours per quarter (3 hours per month). In FY22Qtr1 the department began staffing a 5th ambulance during peak times and adjusted its EMS automatic aid agreement with the City of Bryan.

#### PUBLIC WORKS DEPARTMENT - Key Performance Indicators

Roadway Pavement Condition Index - Residential

Why it Matters: Roadway Pavement Condition Index - Residential

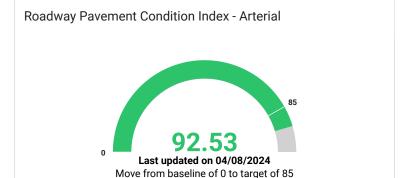

The pavement condition index (PCI) is a numerical index between 0 and 100, which is used to indicate the general condition of a roadway pavement. This measure is a network average PCI for residential, collector, and arterial roadways owned and maintained by the City of College Station. The reported measure includes pavement degradation over time, maintenance work, and roadway capital project completions.

Roadway Pavement Condition Index - Collector

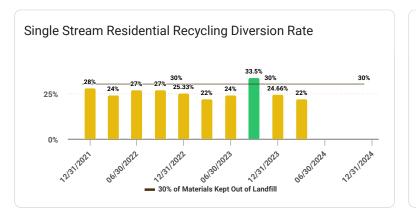

Why it Matters: Roadway Pavement Condition Index - Collector

The pavement condition index (PCI) is a numerical index between 0 and 100, which is used to indicate the general condition of a roadway pavement. This measure is a network average PCI for residential, collector, and arterial roadways owned and maintained by the City of College Station. The reported measure includes pavement degradation over time, maintenance work, and roadway capital project completions

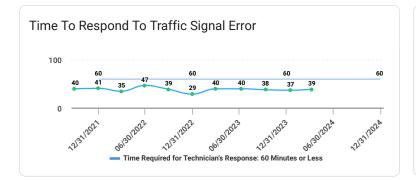

Why it Matters: Roadway Pavement Condition Index - Arterial

The pavement condition index (PCI) is a numerical index between 0 and 100, which is used to indicate the general condition of a roadway pavement. This measure is a network average PCI for residential, collector, and arterial roadways owned and maintained by the City of College Station. The reported measure includes pavement degradation over time, maintenance work, and roadway capital project completions.

Why it Matters: Single Stream Residential Recycling Diversion Rate

Single stream residential recycling is in place to divert recyclable materials from being landfilled. To calculate the diversion rate percentage, the total amount of municipal solid waste (provided by the Brazos Valley Solid Waste Management Agency, Inc.) and the total recycled material (provided by Brazos Valley Recycling, Inc.) are used. The diversion rate is the percentage of materials kept out of the landfill.

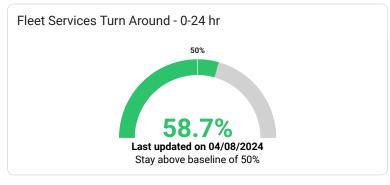

Why it Matters: Time to Respond to a Traffic Signal Error

Traffic signals may experience errors due to weather events or equipment failure. It is imperative to return these traffic signals back to normal operation as quickly as possible. Traffic signals are monitored and traffic signal technicians are available 24/7 to address these errors. This measure is the time required for a technician to respond to a traffic signal issue.

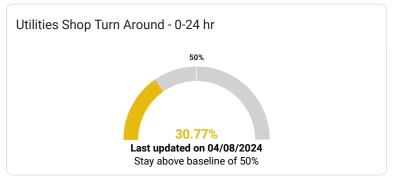

#### Why it Matters: Number of Stolen Traffic Signs

The City of College Station maintains approximately 15,000 signs in the city limits. As new development occurs, the sign inventory is increased. Quarterly total of all missing or stolen traffic signs. This includes guide, warning, and regulatory signs

#### Why it Matters: Fleet Services Turn Around - 24-48 hours

Fleet maintenance is responsible for preventive maintenance and corrective repairs on 700+ vehicles and ancillary equipment. This graph represents the percentage of work orders completed within 24 hours. The goal is to have 50% or more of all work orders completed within 24 hours.

#### Why it Matters: Utility Shop Turn Around

This graph represents the quarterly average shop turn around for the Utilities shop. The goal is to have 50% or more of all work orders completed within 24 hours.

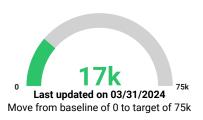

#### PARKS AND RECREATION DEPARTMENT - Key Perfromance Indicators

Why it Matters: Support and Operate Sporting Destinations

Many events hosted at parks facilities bring out of town consumers into our community generating revenue for local hotels, restaurants, retailers, and others. Coordinating and synergizing efforts with Economic Development, Parks & Recreation will support and operate sporting venues. Measuring the direct economic impact, utilizing the Tourism Event Evaluation form, aids in future planning for College Station facilities.

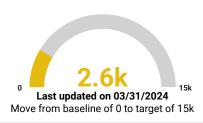

Attendance at Community-Based Events

Why it Matters: Attendance at Community Based Events

The City of College Station hosts and sponsors a variety of special events for the community. Tracking total attendance at events held within City of College Station facilities will aid data-based decisions regarding usage and capacity.

Participation in Programs and Leagues

Why it Matters: Participation in Programs and Leagues

Participation in most City of College Station memberships, programs & leagues requires registration by the team or individual. This registration is tracked through Rectrac, a comprehensive recreation management system. This metric will present total individual registrants.

#### PLANNING AND DEVELOPMENT SERVICES DEPARTMENT - Key Performance Indicators

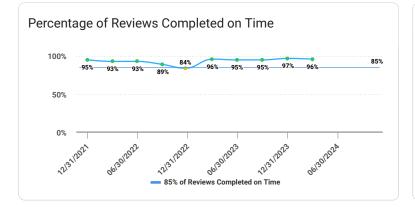

# Number of Community Engagement and/or Educational Activities

Last updated on 03/31/2024

Move from baseline of 0 to target of 15

# Why it Matters: Number of Community Engagement and/or Educational Activities

Planning & Development Services (PDS) is responsible for planning for integrated and thoughtful land use and transportation patterns, alternative modes of transportation, and natural corridors. PDS engages the community to discover desired direction and long range vision of the community through various public outreach and educational efforts, including community meetings, workshops, focus groups, surveys, blog posts, podcasts, targeted newsletters, presentations, and public hearings. PDS reports annual progress on long range initiatives to various boards and commissions. PDS manages the Planning & Zoning Commission, Zoning Board of Adjustments, Bicycle, Pedestrian & Greenways Advisory Board, Design Review Board, BioCorridor Board, Construction Board of Adjustments, and Comprehensive Plan Evaluation Committee. PDS is also responsible for education related to State mandated environmental programs, Census outreach, and presentation of demographic data. The goal is 15 community engagement activities per quarter.

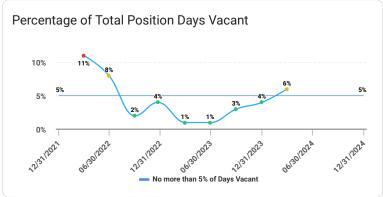

#### Why it Matters: Percentage of Reviews Completed on Time

Planning & Development Services (PDS) facilitates the growth and development of College Station through professional project management, including quality and timely review of the built environment. Responsiveness from City staff is key in the continued economic development of the City because it insures the design and installation of well-planned, efficient, and economical public infrastructure and that buildings and sites are safe and accessible for the public. On-time is defined as providing review within two weeks for land development applications, two weeks for commercial building plans, and three days for one and two-family residential building plans. The goal is 85% of reviews will be completed on time.

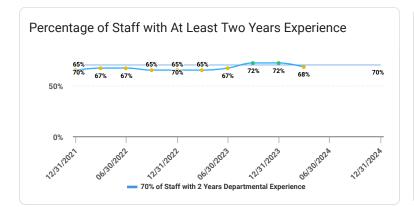

#### Why it Matters: Percentage of Inspections Completed on Time

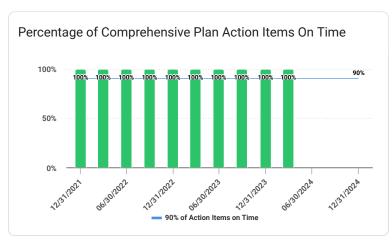

This measure illustrates the effectiveness of retail business engagement with target prospects. For this KPI, a "target prospect" includes: 1) retail entertainment, 2) destination/specialty retailer, or 3) a restaurant not presently in Brazos County. "Engagement" is defined as a touchpoint with a commercial broker, The Retail Coach (or applicable City consultant), and/or target business prospect. Any contact during the quarter would be equal to one record.

#### Why it Matters: Percentage of Total Position Days Vacant

Planning & Development Services (PDS) handles a steady stream of requests from its customers, both external and internal. Having a sufficiently staffed department, with knowledgeable staff, is key to providing a high level of customer service. In order to do this, positions within the department cannot remain vacant for extended periods of time as this leads to increased workloads for existing staff and increased response times to customers. The goal is that no more than 5% of total position days will be vacant.

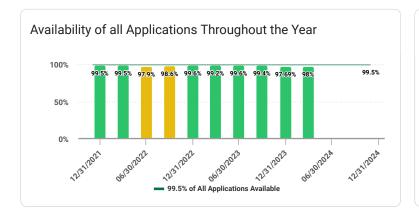

## Why it Matters: Percentage of Staff with at least Two Years Experience

To provide exceptional customer service, staff within the Planning & Development Services (PDS) Department need to be sufficiently trained, which requires significant experience of working within the department. With a large learning curve of two years for each position within the department, new employees require significant resources to train and monitor. Those with a longer tenure have more experience and typically work more independently, provide faster and more comprehensive customer service, have earned the higher skill sets, certifications, or licenses desired or needed by the City, have cultivated collaborative working relationships within and outside of the organization, and have greater institutional knowledge. Tenure also affords more consistent application of regulations, timelier service delivery, and the opportunity for enhanced services. The goal is to have at least 70% of staff who have at least two years experience with the department.

## Why it Matters: Percentage of Comprehensive Plan Action Items On Time

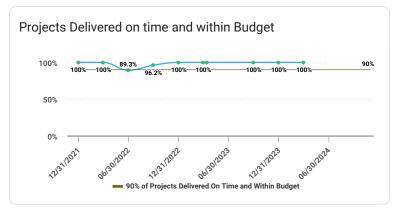

The Planning & Development Services (PDS) Department is the lead department to ensure the implementation of the City's Comprehensive Plan. The Comprehensive Plan serves as the City's guiding document for the planning and development of the city. Implementing the plan is critical to achieving the stated goals and objectives. Actions within the plan often require significant planning, programming, and resources. In order to ensure the plan is implemented accordingly, the completion of actions within the plan need to be on time. The PDS Department strives to implement its Comprehensive Plan action items on time, where PDS is the "City – Responsible Party". The goal is 90% of action items will be on time.

#### INFORMATION TECHNOLOGY DEPARTMENT - Key Perfromance Indicators

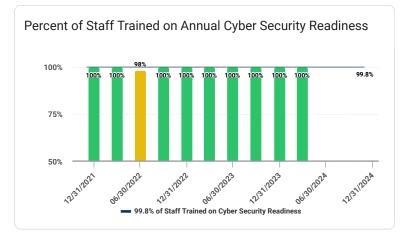

Why it Matters: Availability of all Applications Throughout the Year

Application availability, also known as System Uptime, is a time during which a server is operational and software applications are available for use. This time is measured in percentage of the day computer systems are available for use, but does allow for a predefined maintenance window.

Why it Matters: Projects Delivered on Time and Within Budget

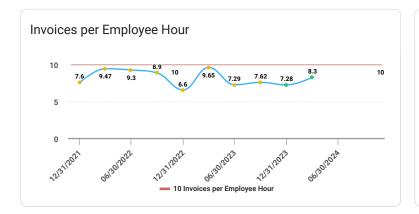

In order to maximize project success, the Information Technology Department maintains a Project Management Division. The goal is to provide business level function aimed at providing city-wide support on technology projects.

Why it Matters: Percent of Staff Trained on Annual Cyber Security Readiness

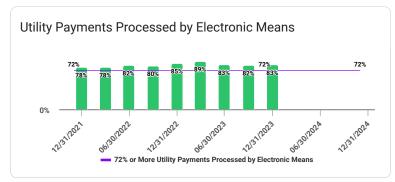

Cyber Security training is not only mandated by Texas law it has become part of the of a modern Information Technology Department. The need to gauge the security awareness proficiency of city users is necessary in order to measure the overall security culture posture.

#### FISCAL SERVICES - Key Performance Indicators

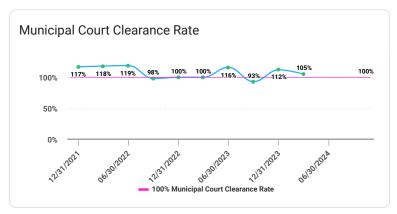

#### Why it Matters: Invoices per Employee Hour

Invoices are processed via purchase order or direct entry per city policy. The number of invoices processed per employee hour is a common metric for productivity. A good standard for processing invoices manually (i.e. no purchase order population) is 5 manual invoices per employee hour. Continuous improvement in processing along with electronic receipt of customer invoices will realize our standard of 10 invoices process per employee hour.

# Why it Matters: Utility Payments Processed by Electronic Means

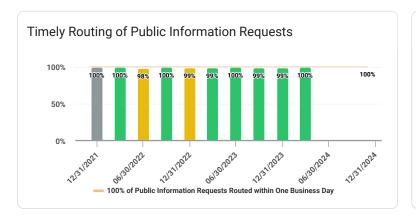

Utility Payments are processed both electronically and manually. Electronic payments are a more efficient way for our customers to submit payment because they do not require human intervention and they reduce the amount of time UCS staff spends on processing payments. Continuing to offer customers as many electronic ways as possible to pay will help increase the number of electronic transactions. We are working on introducing additional forms of electronic payments to help increase our number of transactions.

#### Why it Matters: Municipal Court Clearance Rate

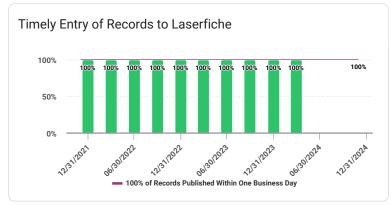

The clearance rate is the number of outgoing cases as a percentage of the number of incoming cases. Clearance rate measures whether the court is keeping up with caseload. If cases are not disposed in a timely manner a backlog of cases will grow. Knowledge of clearance rates by case type can help a court pinpoint emerging problems and indicate where improvements may be made. Courts aspire to be clear of at least as many cases as have been filed/reopened/reactivated in any given period.

#### CITY SECRETARY'S OFFICE - Key Performance Indicators

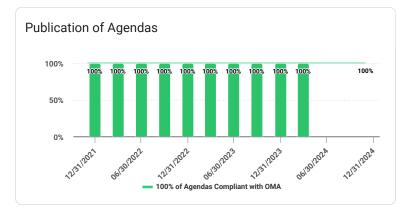

#### Why it Matters: Timely Routing of Public Information Requests

A public information request must be in writing to the governmental body the requestor believes maintains the documents. Once received the governmental body has 10 regular business days to respond to a request, starting the business day after it is received. Gathering information and reviewing it for release is time consuming and can put the City at risk of non-compliance with state law or releasing sensitive information. It is the goal of our office to route each request no later than the business day after it is received to allow staff a reasonable amount of time to organize a response.

#### Why it Matters: Timely Entry of Records to Laserfiche

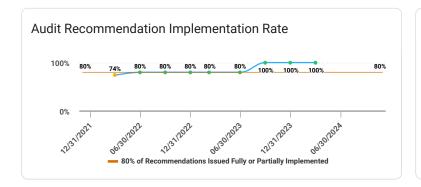

The City Secretary's Office is a final repository for many of the City's official records. Both staff and citizens depend on these records to conduct internal and external business. By publishing these in a timely manner the CSO is ensuring that information is available to keep our citizens informed and business moving forward. Our goal is to publish documents within one business day of when they arrive at the CSO completed. Records Include: Contracts, Change Orders, Amendments, Renewals, Proclamations, Ordinances, Resolutions, Minutes, Birth Certificates, Death Certificates.

#### Why it Matters: Publication of Agendas

The Texas Open Meetings Act (OMA) was enacted to ensure that Texas government is transparent, open and accountable to all Texans. As a local government we are required to post agendas for public meetings at least 72 hours before they begin. Agendas are created by several City departments and routed to the CSO to review for compliance with aspects of the OMA before posting. Our goal is to publish agendas that are in compliance with OMA and without any fatal flaws to agendas or agenda items.

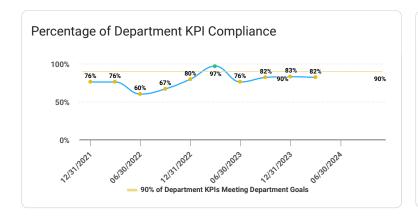

#### INTERNAL AUDITOR'S OFFICE - Key Performance Indicators

#### Why it Matters: Audit Recommendation Implementation Rate

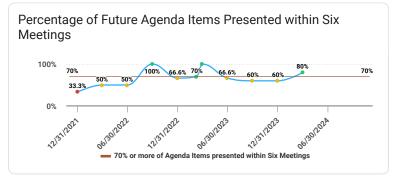

After sufficient time has passed to allow for audit recommendations to be implemented, the Internal Audit Office requires departments provide an update on recommendation progress to ensure management actions have been effectively implemented or that management has accepted the risk of not taking action. The audit recommendation implementation rate is the percentage of recommendations issued in the previous fiscal year which have been fully or partially implemented in the following fiscal year.

#### CITY MANAGER'S OFFICE - Key Performance Indicators

#### Why it Matters: Percentage of Department KPI Compliance

The City Manager's Office is responsible for the overall provision of services, events, and activities carried out by the City of College Station. To that end, this indicator assesses the ability of each City department to achieve its stated performance indicators. This holistic review will illustrate general compliance per quarter as well as annually and allow the CMO to target specific measures as needed.

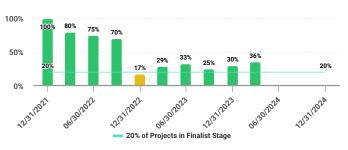

# Why it Matters: Percentage of Future Agenda Items Presented within Six Meetings

At each City Council meeting, there is an opportunity for Council Members to request future agenda items for consideration. With consensus from the body, the item is placed on a "Future Agenda Items" list that is managed by CMO in coordination with other City departments. It is essential that these items are presented in a timely fashion to Council in order to take appropriate future action, if desired. For the purposes of this measure, "timely" is considered within 6 meetings from the initial request.

#### ECONOMIC DEVELOPMENT AND TOURISM - Key Performance Indicators

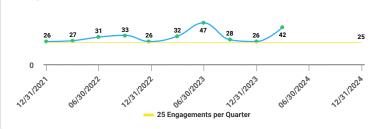

# Why it Matters: Percentage of Targeted Industry Prospects in Final Stage of Consideration

This measure determines appropriate targeting of industry prospects in College Station, particularly those for Midtown Business Park or the College Station Business Center. The list of projects would include any active projects the City pursues, as well as those by BVEDC on the City's behalf. For this KPI, the "Final Stage of Consideration" means the City is one of no more than three final project sites being considered by a prospect. The goal assumes that for every five projects staff submit for, one of those will make the finalist stage. It is anticipated that, due to focused targeting, manufacturing requirements, and potential utility demands, a limited pool of qualifying projects will be available for this KPI.

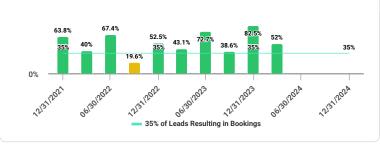

# Number of Retail Recruitment Engagements for Target Prospects

# Why it Matters: Number of Retail Recruitment Engagements for Target Prospects

This measure illustrates the effectiveness of retail business engagement with target prospects. For this KPI, a "target prospect" includes: 1) retail entertainment, 2) destination/specialty retailer, or 3) a restaurant not presently in Brazos County. "Engagement" is defined as a touchpoint with a commercial broker, The Retail Coach (or applicable City consultant), and/or target business prospect. Any contact during the quarter would be equal to one record.

#### Percentage of Leads that Result in Bookings

#### Why it Matters: Percentage of Leads Resulting in Bookings

This measure includes both meetings/conventions and sports events. A "lead" is defined as any group or organization being pursued by Visit/Compete staff and verified through the record in our customer relationship management (CRM) software. Some seasonality is assumed, as bookings more often occur in the early part of the calendar year. Potential threats impacting the overall percentage include times in which hotels are booked (peak times, such as home football games, graduation, or other large university events), other cities/CVBs, and field status (sports events).

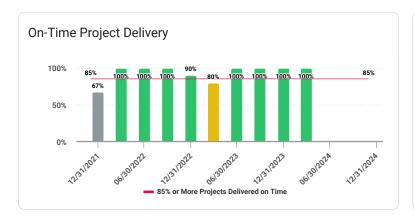

#### Ratio of Weekday Event Bookings to Weekend Event Bookings

#### Why it Matters: Ratio of Weekday Event Bookings to Weekend Event Bookings

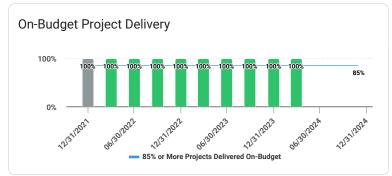

Data shows that the weekend market is more saturated in College Station due to university events and other tourism-related activities. Therefore, the most practical approach to raise hotel occupancy levels and their average daily rates (ADR) is through focused attention on weekday business. This measure assesses how effective Visit/Compete staff are in bringing in weekday business. The goal assumes an appropriate ratio as 60% of events occurring over the weekend, and 40% of events occurring during the week. For this KPI, any business conducted on Saturday or Sunday is considered "weekend". Any other combination, excluding Saturday or Sunday, is considered "weekday".

#### CAPITAL PROJECT OPERATIONS - Key Performance Indicators

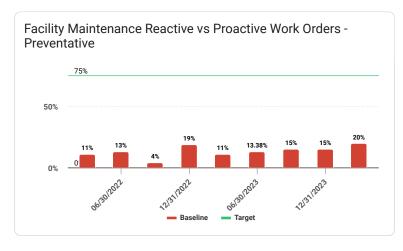

#### Why it Matters: On-Time Project Delivery

The Capital Improvements Project department's goal of projects that are completed in a timely manner is to best serve citizens.

#### Why it Matters: On-Budget Project Delivery

Capital Project's goal is to ensure that money allocated to each project is spent within the limits of each project budget.

# Why it Matters: Facility Maintenance Reactive vs Proactive Work Orders - Preventive

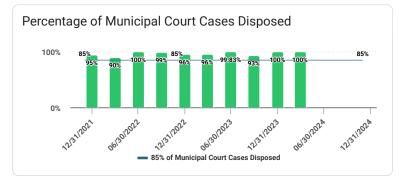

Quarterly percentage of reactive corrective repairs versus proactive preventative maintenance. Facility Maintenance is responsible for the maintenance and repair of over 2.0M total and over 1.0M conditioned square footage in city facilities. This includes corrective maintenance repairs and routine preventative maintenance.

#### CITY ATTORNEY'S OFFICE - Key Performance Indicators

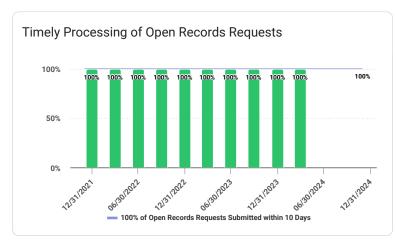

# Why it Matters: Percentage of Easement/Right-of-Way Dedications Timely Completed

The City must own the property rights to maintain the infrastructure needed to provide various services to the community, including water and sewer services, roadway and bike transportation and electric utility services. Because these services are so important to the overall safety and well-being of the general public, the Department strives to prepare conveyance documents within ten days of request of proper submittals by the developers.

#### Why it Matters: Percentage of Municipal Court Cases Disposed

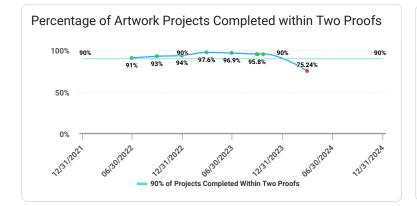

All Class C misdemeanors (i.e. traffic violations and other fine only offenses) and City ordinance violations are filed in municipal court. It is important to expeditiously resolve these cases in order to prevent a backlog of docketed cases and to provide timely determination of the case for both the City and the accused. The City prosecutor must dispose of his cases i) by trial, ii) without a trial by plea agreement (an agreement between the City and the accused person to resolve the charge without going through a trial), or iii) by dismissing the case (usually for charges where there is insufficient evidence to proceed to trial).

#### Why it Matters: Timely Processing of Open Records Requests

The Legal Department processes all open records requests for the City. Last fiscal year, the Department processed approximately 1,200 such requests reviewing millions of documents. Failure to respond within the statutory 10 day deadline directly negatively impacts City operations, including possible divulging of personal or sensitive information. In turn this negatively impacts the integrity of our utility systems, protocols for police and fire departments, ongoing investigations, etc. For this reason, the Department must meet the statutory deadline 100% of the time. In order to withhold information, oftentimes a brief is required to be submitted to the Texas Attorney General. The graph shows the percentage of briefs submitted to the Attorney General within the 10 day deadline.

#### PUBLIC COMMUNICATIONS - Key Performance Indicators

Why it Matters: Percentage of Artwork Completed Within Two Proofs

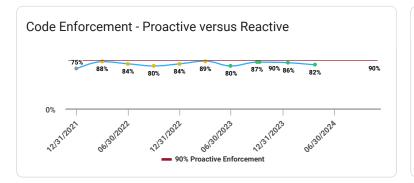

As a key support department, Public Communications annually completes hundreds of projects for internal clients — the majority of which involve graphic design. One key metric that gauges project efficiency — how clearly a request is made so the designer's initial work is accurate — is the percentage of design jobs meeting the client's satisfaction after just one proof. An excessive number of proofs could indicate a breakdown has occurred in the request/completion process, which effects the efficiency of both PubCom and the requesting department.

Why it Matters: Number of Informational Blog Posts Published

Blog posts produced or facilitated by Public Communications serve as the cornerstone of the city's communication strategy. This content is linked to our website and promoted through a variety of communication channels, including social media platforms and the neighborhood e-newsletter. While more doesn't always equal better, the voices we use and the honesty we express build trust with our citizens and customers.

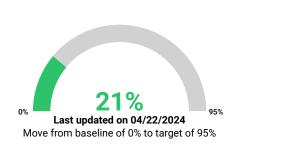

#### COMMUNITY SERVICES - Key Performance Indicators

Why it Matters: Code enforcement - Proactive versus Reactive

Each Code officer's workday is split between proactive and reactive enforcement. Reactive enforcement is time spent responding directly to citizen concerns and performing related tasks. Proactive Enforcement is the practice of identifying Code violations by patrolling the City, engaging the public and addressing violations before they become reported issues. It is generally recommended that 90% of a Code Officers time be proactive enforcement with the remaining 10% reactive.

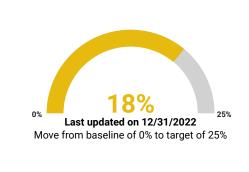

Percent of Federal Grant Funds Expended on Eligible Activities by Deadline

Why it Matters: Percent of Grant Funds Expended on Eligible Activities by Deadline

The City receives Community Development Block Grant and HOME Investment Partnership Program federal funds to help low and moderate income residents with housing, social services, and related economic development needs. These funds need to be obligated within a certain time frame in order to not lose them and be required to return them to HUD. The City engages with the public and works with a host of area agencies and stakeholders to creatively identify community needs and discover the best ways to allocate these funds. Success is measured by progressively expending these funds thru the FY and obligating 95% by the end of year deadlines.

Percent of Northgate District Staff Activity spent on Northgate Non-Parking Operations (NNO)

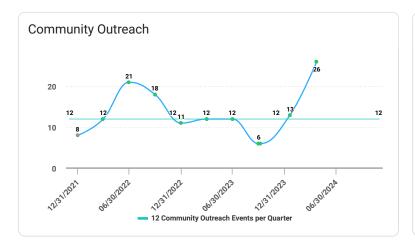

Why it Matters: Northgate District Staff Activity

Northgate District strives to address code/safety/health concerns in the Northgate District and the City. By monitoring NG Staff Activity, it assures that we are efficiently leveraging NG Staff to achieve this goal. These activities are divided into 3 categories. 1) Northgate Operations Parking (NOP): Activities related to the City's Parking Assets - CM Garage, Street Meters, and Surface Lot and related parking enforcement efforts in the Northgate District. 2) City Parking Operations (CPO): Activities related to Parking/Code Enforcement efforts in areas of the City outside of the Northgate District. 3) Northgate Non-Parking Operations (NNO): Activities within the Northgate District not directly related to City parking assets or parking enforcement. Ideally 25% of Northgate staff time will be spent on Northgate Non-parking operations, 25% on City parking operations, and 50% on Northgate operations parking.

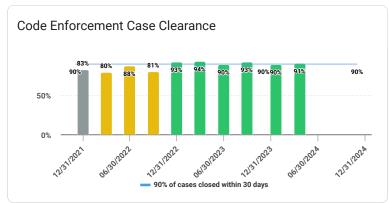

#### Why it Matters:

Community Development utilizes federal funds to increase safe and affordable housing for low- to- moderate income homebuyers and renters, including special needs populations. The City has established partnerships with non-profit housing providers such as Habitat for Humanity and Elder Aid, who work to provide housing units that do not create financial burdens to eligible households. The City will expend 30% of the annual federal grant allocation on the development of affordable housing units by the end of each fiscal year.

#### Why it Matters: Community Outreach

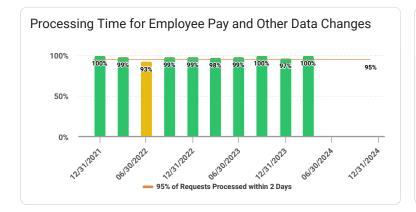

Community Development provides opportunities for public input, education, and outreach throughout the year. Activities include from public meeting, Homebuyer Education Classes, and to outreach events, such as fair housing, financial education, or health. It is the goal of Community Development to host or participate in twelve (12) events per year. Events mark the efforts of Community Development to foster equal opportunity by providing an avenue through which the public learns about their rights, Community Development programs, and how to address other needs to improve their quality of life.

#### Why it Matters

Code Enforcement Officers are responsible protecting the health and safety of citizens by ensuring compliance with heath, safety, nuisance, traffic, and zoning ordinances. Officer acts both proactively and reactively to ensure the safety and integrity of their assigned neighborhoods. In order to ensure that officers are diligently working through non-compliance cases, it is the goal of Code Enforcement to maintain high clearance rates and reduce the percentage of cases that remain open for a prolonged period of time. Code Enforcement defines a high clearance rate as 90% of cases are closed within 30 days.

#### HUMAN RESOURCES DEPARTMENT - Key Performance Indicators

Why it Matters: Processing Time for Employee Pay and Other Data Changes

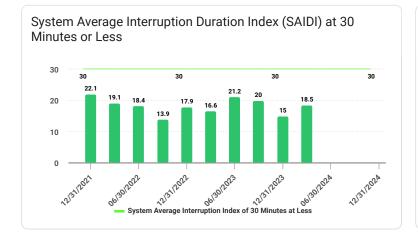

Accurate employee data is an essential component to promoting a successful organization. Our ability to reduce risk within our payroll system, ensure accuracy of payroll and employee data, and recognize employee's personal achievements, through promotion, transfer, etc. is paramount. The Human Resources team is committed to processing 95% of personnel action requests within two business days of receipt.

Why it Matters: Time for Recruiting Strategy Establishment

Within 2 business days of receiving position approval, HR will contact Hiring Department to set recruiting strategy, to include posting, interview and hiring timeline goals. The Human Resources team is committed to establishing 90% of all recruiting strategies within two business days of receipt and 100% within three business days.

#### **ELECTRIC DEPARTMENT - Key Performance Indicators**

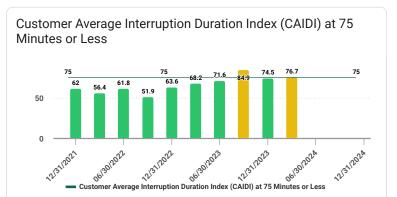

# Why it Matters: System Average Interruption Duration Index (SAIDI) at 30 Minutes or Less

System Average Interruption Duration Index – This is defined as the average interruption duration for customers served during a specified time period. This index enables the utility to report how many minutes customers would have been out of service if all customers were out at one time. It is determined by summing the customer-minutes off for each interruption during a specified time period and dividing the sum by the average number of customers served during that period. The unit is minutes.

Major events and scheduled outages have been removed.

This KPI is calculated on a rolling 12 month average.

SAIDI=\( \times \) Customer Interruption" Durations/Total Number of Customer Served

# Why it Matters: Customer Average Interruption Duration Index (CAIDI) at 75 Minutes or Less

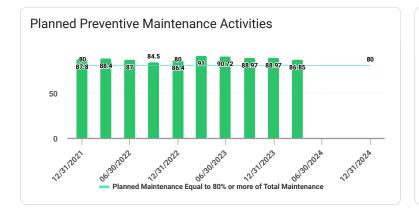

Customer Average Interruption Duration Index – This is defined as the average length of an interruption, weighted by the number of customers affected, for customers interrupted during a specific time period. It is calculated by summing the customer minutes off during each interruption in the time period and dividing this sum by the number of customers experiencing one or more sustained interruptions during the time period. The resulting unit is minutes. The index enables utilities to report the average duration of a customer outage for those customers affected.

Major events and scheduled outages have been removed.

This KPI is calculated on a rolling 12 month average.

CAIDI=∑Customer Interruption Durations/Total Number of Customer Interruptions

#### WATER SERVICES DEPARTMENT - Key Performance Indicators

Why it Matters: Planned Preventive Maintenance Activities as a Percentage of Total Maintenance

Asset Management is a critical factor in responsible management of water and wastewater systems. Our asset management policy was designated as a "model policy" by the APWA during the most recent accreditation process and requires continuous improvement of our asset management program, processes and systems. Programs and procedures are continuously being created and modified to achieve the objectives of the policy in the most fiscally responsible manner. Planned preventive maintenance activities minimize unplanned reactive repair activities. A Key Performance Indicator (KPI) of asset management systems is the amount of planned preventative maintenance activities as a percentage of total maintenance and repair activities.

#### Notices of Violations (NOV) Received From the TCEQ

Last updated 03/31/2024

# Why it Matters: Notices of Violation (NOV) Received from TCEQ

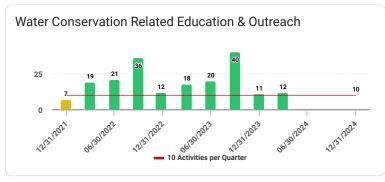

Notice of violations are issued by the Texas Commission on Environmental Quality (TCEQ) when they observe one or more violations of operating permits or TCEQ regulations. They included a prescribed time period to return to compliance and provide documentation that all violations have been corrected.

#### Why it Matters: High Priority Work Orders Completed within a Two Week Period

High priority work orders data originates from Water Service's work management system, Cityworks. Work orders qualify as High Priority (Level 1) for emergency repairs that result in customer service or process outages, safety issues, or W/WW compliance concerns. WSD's goal is to complete all high priority work orders within a two week period.

To obtain the percentage of High Priority Work Orders for the quarter, high priority work orders extending past two weeks from start to finish for the quarter are searched for and then divided by the total number of work orders generated during the quarter. The quotient is then subtracted from 100 and the difference is then multiplied by 100.

## Why it Matters: Water Conservation Related Education and Outreach

Education and outreach provides heightened community awareness by promoting and expanding existing water/wastewater education programs, including water conservation. Numerous outreach programs/products are provided on a regular basis to targeted stakeholders through the media, mailers, and newsletters. Additionally, numerous channels and interactions (two-way) with stakeholders through offered tours, irrigation check-ups, speaking engagements, and actively managed booths/kiosks. This KPI includes total stakeholder education and outreach activities related to water conservation.

# RECREATION PROGRAM REVENUES AND FEE RECOVERY DIRECT AND INDIRECT COSTS OF RECREATIONAL PROGRAMS

#### PARKS AND RECREATION SERVICE CATEGORIES

The College Station Parks and Recreation Department provides many services to the community. The following service categories represent the department's service menu and include service category definitions as well as example services.

**Open Access:** Parks, trails, park amenities and facilities to which the public has access and are not under the supervision or oversight of staff or volunteers. Activity is self-directed. [Examples: parks, playgrounds, skate parks, trails, dog park, disc golf, splash pads]

**Community Events:** Events and designed experiences open to anyone in the community regardless of age, ability/skill, or family composition. Tickets or preregistration is not typically required. [Examples: Movies in the Park, Christmas in the Park, Starlight Music Series, Fall Fest, Keeping the Dream Alive MLK Ceremony, Easter Egg-Stravaganza, Nature Center Star Party]

**Drop-in Access:** Activities to which the public has limited access and are under the supervision or oversight of staff. A reservation or registration is not typical but may be required. Activity is self-directed. [Daily admission to Lincoln Recreation Center, Adamson Lagoon Pool, Cindy Hallaran Pool]

**Community Services:** Classes, camps and programs designed to connect youth by providing resources to enhance quality of life to those in need. [LRC Afterschool Programs, LRC Full Day Camp]

**Education, Enrichment and Inclusion:** Classes, clinics, workshops, and other staff led and/or instructed activities designed to develop and/or enhance life skills, provide life-long-learning, and promote socialization for all populations. [Junior Master Naturalist, school field trips, Whales Tales water safety, swim lessons, Challenger Bowling Program, Exploring History Luncheon]

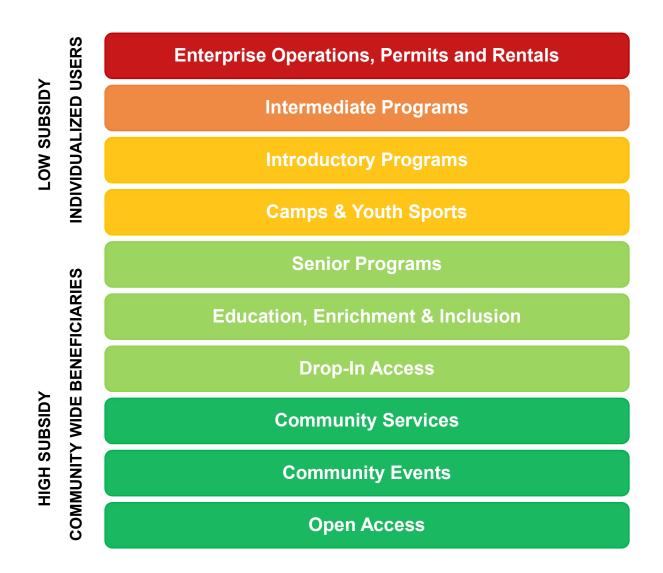

**Senior Programs:** Classes and programs designed for seniors to promote socialization through membership. [Examples: Senior membership programs, water fitness membership]

Camps and Youth Sports: Specialty themed camps and youth sport leagues designed to develop and promote socialization through physical activity aiming to express or improve physical fitness and mental well-being. [Specialty camps, youth basketball and football, facility use agreements with tier one youth sport partners: College Station Little League, College Station Soccer Club, Brazos Valley Softball, etc.]

**Introductory Programs:** Classes, clinics, workshops and other staff led and/or instructed activities in which the primary intent is to introduce a new skill and/or activity. [Junior Beginner Tennis, Hunter Education, Fundamental Field Hockey, Beginner Karate, Introduction to Rugby, Fly Fishing, Birding 101]

**Intermediate Programs:** Classes, clinics, workshops and other staff led and/or instructed activities in which the primary intent is to enhance a skill and/or activity. [Adult Sport Leagues, Junior Intermediate Tennis, Round Robin Tennis League, High Performance Tennis Academy, Tsunami Swim Team, Master Swim, facility use agreements with tier two youth sport partners: Challenge, Calvary, Twelve, etc.]

**Enterprise Operations, Permits and Rentals:** Services that are commercial in nature and whose operations align most with those offered by the private sector. Exclusive use of public spaces and facilities by an individual or group. [Cemetery Operations, RV Permits, Boot Camp, Food, Vendors, Facility Rentals, Pavilion Rentals, Field Rentals]

**Maximum:** 81% - 100%

High: 61% – 80%

Medium: 41% – 60% Low: 21% – 40%

Low: 21% – 40%

**Minimum**: 0% – 20%

#### **OVERVIEW**

The Parks and Recreation Department is responsible for offering quality recreation and athletic programs for the citizens of College Station. As staff established a benchmark for costing out each program, the following page has been simplified and broken down for a quick glance of cost recovery per program and cost per participant.

Parks indirect cost data from the Full Cost Study done by MGT Consulting group was extrapolated and used to develop a full cost model for the City's recreation programs in FY23. At the close of FY23, staff utilized the same model applying actual data, revenue, direct cost, and participant count are based on actuals.

Over the last year, staff refined the Parks and Recreation Department's categories of service and evaluated the cost-of-service calculations to refine the Department's cost recovery goals. This model shows the current cost recovery, the proposed cost recovery and displays where some programs should be under consideration to be adjusted.

Although fee adjustments are possible, the goal is not to simply generate new revenues through audited fees but develop and implement a sustainable system into the future by using fees in the most appropriate ways. Cost recovery must be done carefully, with information and insight, so that College Station can recover appropriate costs without compromising essential services.

It should be noted that this is a working document that has not been fully realized as the Parks and Recreation Department and Fiscal Services Department identify the best way to track expenses, so they are fully accounted for each recreation program for continued analysis.

#### RECREATIONAL TERMS FOR RECOVERY

- **Annual Revenue** based on the application of current, approved program fees, this amount is the FY23 Revenue actuals.
- Direct Costs those variables that are directly determined by the offering of the designated program;
   supplies and facility operations are included here.
- Indirect Costs costs that are not directly expensed by the program. These include city internal administration such as finance, human resources, public communications, etc.
- **Proposed Recovery Scale** rates of recovery proposed by the Parks Department to assign an appropriate revenue recovery for each type of activity.
- Number of Participants number of anticipated registrations based on overview of past data for that program; a participant is defined as one unit (person) within that program; this definition does not account for actual visits, games, or sessions within a program. Some numbers are the number of visitors that don't define if someone is a repeat patron such as community centers and pools.
- Cost per Participant program costs divided by number of participants.
- Number of Interactions this represents the number of times a participant interacts in the program. Interactions include, games, practices, sessions, and uses of facilities, such as pools. Staff and resources are highly influenced by the volume each program is generating.
- **Cost per Interaction** This number gives a better representation of the weight that a program can put on staff by indicating the cost of having a participant interact with Parks staff and operations.

Service Name	FY23 Actual Revenue	FY23 Actual Direct Costs	Indirect Costs	FY23 Actual Full Cost		Proposed Recovery Rate Scale	Actual Cost Recovery Rate

# HISTORY OF CITY SUPPORTED COMMUNITY ACTIVITIES

#### CITY SUPPORTED COMMUNITY ACTIVITIES

The city recognizes, as a community engaged with its citizenry, it is sometimes necessary to participate in community events which support local organizations, events, and projects which are key to providing the sense of place valued in College Station. To this end the City Council adopted an Event, Program, and Activity Sponsorship Policy. This policy describes the City's position regarding sponsorships and provides a definition of community sponsorships, which demonstrate goodwill towards organizations benefiting the community; and marketing sponsorships, which promote the City at public events.

Below is a listing of City supported events, programs, and activities in which the City participated in the past fiscal year (FY 2024). These include funding for events supporting local organizations.

	Organization	Public Purpose	Total
FY24			
	Junction 505 - Harvest Moon	Community Sponsorship	\$ 1,029
	Chamber of Commerce - Junior Leadership Brazos Alumni Association	Community Sponsorship	\$ 500
	BV Museum of Natural History - Tribute Dinner	Community Sponsorship	\$ 2,500
	Junior League - Charity Ball	Community Sponsorship	\$ 1,500
	Health for All Dancing	Community Sponsorship	\$ 500
	Bryan Lions Club 100th Anniversary Dinner	Community Sponsorship	\$ 500

#### A

Account: A separate financial reporting unit for budgeting, management, or accounting purposes.

**Accrual Basis of Accounting:** A method of accounting in which revenues are recorded when measurable and earned, and expenses are recognized when a good or service is used.

**Activity Center**: The lowest level at which costs for operations are maintained.

Ad Valorem Tax: A tax based on the value of property.

Amortization: The repayment of a loan by installment.

**Appropriation**: A legal authorization granted by the Council to make or incur expenditures/expenses for specific purposes.

**Assessed Property Valuation:** A value established by the Brazos Central Appraisal District which assigns market value of real or personal property.

**Audit:** An examination, usually by an official or private accounting firm retained by the council, which reports on the accuracy of the annual financial report prepared by the accounting department.

#### B

**Balanced Budget:** A balanced budget indicates that there is no budget shortage or budget surplus present during a specific time period.

**Base Budget:** A budget process in which departments are provided with a maximum level for their annual budget requests. The budget office requires separate justification for proposed spending levels that exceed the target which are submitted as Service Level Adjustments (SLAs).

**Bond:** A promise to repay borrowed money on a particular date, often ten or twenty years into the future, generally to obtain long-term financing for capital projects.

**Budget:** A plan, approved by the Council, of financial operation embodying an estimate of proposed expenditures/expenses for the fiscal year and the proposed means of funding these expenditure estimates.

**Budget Amendment:** A revision of the adopted budget that, when approved by the council, changes the original budget appropriation.

**Budgetary Control**: The control or management of a government or enterprise in accordance with an approved budget to keep expenditures within the limitations of available appropriations and available revenues.

#### C

Capital Budget: A spending plan for improvements to or acquisition of land, facilities, and infrastructure.

**Capital Improvement Program (CIP):** A multi-year program of projects that addresses repair and replacement of existing infrastructure, as well as development of new facilities to accommodate future growth.

Capital/Major Project Expenditure/Expense: An expenditure/expense that results in the acquisition or addition of a fixed asset or the improvement to an existing fixed asset. Major capital expenditures are more than \$50,000 and provide a fixed asset or equipment that has a useful life of three years or more. Minor capital expenditures are more than \$5,000 and less than \$50,000 and provide a fixed asset or equipment that has a useful life of three years or more.

Capital Outlay: A disbursement of money which results in the acquisition or addition to fixed assets.

**Capital Projects Funds**: Funds used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays including the acquisition or construction of capital facilities and other capital assets.

Cash Basis: Method of accounting and budgeting that recognizes revenues when received and expenditures when paid.

**Certificates of Obligation (CO):** Long-term debt that is authorized by the City Council and does not require prior voter approval.

**Certified Property Values:** The appraised property values established by BCAD after they have been certified by the Chief Appraiser. These values are released to each taxing unit on or before July 25.

Chart of Accounts: A chart detailing the system of general ledger accounts.

**Community Housing Development Organizations (CHDO):** A certified, private nonprofit, community-based service organization whose primary purpose is to provide and develop decent, affordable housing for the community it serves and receives HOME program funds.

Comprehensive Annual Financial Report: The published results of the City's annual audit.

Competitive Procurement: Before the City may enter a contract that requires an expenditure of more than \$50,000 from one or more municipal funds, the City must comply with Local Government Code Chapter 252. Typically, this involves competitive bidding or competitive proposals that are advertised, posted online, and publicly opened. The City Council must approve all contracts/expenditures greater than \$50,000.

Contingency: A budgeted appropriation within a fund for unanticipated expenditure requirements.

**Contract Obligation Bonds:** Long-term debt that places the assets purchased or constructed as a part of the security for the issue.

**COVID-19:** Corona Virus Disease-2019, a respiratory illness that caused a global pandemic, resulting in prolonged sheltering-in-place. This caused a decrease in city revenue overall that has required extensive mitigation.

**Current Expense**: An obligation as a result of an incurred expenditure/expense due for payment within a twelve (12) month period.

**Current Revenue:** The revenues or resources of a City convertible to cash within a twelve (12) month period.

#### D

**Debt Service:** The annual amount of money necessary to pay the interest and principal (or sinking fund contribution) on outstanding debt.

**Deficit:** The excess of expenditures over revenues during an accounting period.

**Delinquent Taxes:** Real or personal property taxes that remain unpaid on or after February 1<sup>st</sup> of each year (for the prior year calendar year), and which are subject to penalties and interest charges.

**Depreciation**: A reduction in the book value of an asset with the passage in time; or, expensing an asset gradually across its useful life rather than expensing the entire cost of an asset in the period in which it was acquired.

#### E

**Economic Resources Measurement Focus:** This measure accounts for the assets related to the inflow, outflow and balance of goods and services that affect the City's net assets.

**Encumbrance:** Obligation to expend appropriated monies because of a processed purchase order or a contract for purchases legally entered on behalf of the City.

**Enterprise Funds:** Funds that are used to represent the economic results of activities that are maintained similar to those of private business, where revenues are recorded when earned and expenses are recorded as resources are used.

Equity: See Fund Balance.

**Expenditure/Expense:** Decrease in net financial resources for the purpose of acquiring goods or services. The General Fund recognizes expenditures and the Proprietary Funds recognize expenses.

#### F

**Fiscal Year:** A twelve-month reporting period, for the City of College Station, the fiscal year is from October 1st through the following September 30th.

**Fixed Assets**: Asset of a long-term nature which is intended to continue to be held or used, such as land, building, and improvements other than buildings, machinery, and equipment.

**Full-Time Equivalent:** A position that is equivalent to a full-time 40-hour work week. This is the method by which full-time, part-time, and temporary/seasonal employees are accounted for.

**Fund:** An independent fiscal and accounting entity with a self-balancing set of accounts recording cash and/or other resources together with all related liabilities, obligations, reserves, and equities which are segregated for the purpose of carrying on specific activities or attaining certain objectives.

**Fund Balance (Equity):** The excess of fund assets over liabilities. Accumulated balances are the result of continual excess of revenues over expenditures/expenses. A negative fund balance is a deficit balance.

#### G

General and Administrative Costs (G&A): Costs associated with the administration of City services.

**General Fund:** The City fund used to account for all financial resources and expenditures of the City except those required to be accounted for in another fund.

**General Fund Transfer (GFT):** Payment from City-owned utilities to provide a fair and reasonable return and benefit to the City and its citizens for their ownership risk related to the City's various utility operations. Fee is consistent with the franchise rates charged to investor-owned utilities that operate within the City.

**General Ledger:** The collection of accounts reflecting the financial position and results of operations for the City.

**Generally Accepted Accounting Principles (GAAP):** Uniform minimum standards of and guidelines to financial accounting and reporting as set forth by the Governmental Accounting Standards Board (GASB).

**General Obligation (GO) Bonds:** Bonds for whose payment the full faith and credit of the City has been pledged.

**Governmental Accounting Standards Board (GASB):** The authoritative accounting and financial reporting standard-setting body of government agencies.

**Governmental Funds:** Funds that are maintained on a modified accrual basis with an emphasis on when cash is expended or obligated and revenues are recorded when measurable and available.

**Grant:** A payment of money from one governmental unit to another or from a governmental unit to a not-for-profit agency for a specific program or purpose.

#### I

**Infrastructure:** The basic physical and organizational structures and facilities (such as roads, bridges, power lines, water systems, etc.) that serve and support a municipality.

Interfund Transfer: The transfer of money from one fund to another in a governmental unit.

**Intergovernmental Revenue:** Grants, entitlements, and cost reimbursements received from another governmental unit (federal, state, or local).

**Internal Service Funds:** Generally accounted for like enterprise funds. These funds are used to account for enterprise types of activities for the benefit of city departments such as fleet maintenance, self-insurance, and print/mail.

**Investments:** Securities held to produce income, generally in the form of interest.

#### L

Long-Term Debt: Obligation of the City with a remaining maturity term of more than one (1) year.

#### M

**Major Funds:** Any governmental fund that has revenues, expenditures, assets and/or liabilities that constitute more than 10% of the revenues, expenditures, assets, or liabilities of the total governmental funds budget. Additionally, the fund must be 5% of the total revenues, expenditures, assets and/or liabilities for the combined governmental funds *and* enterprise funds budget. Any fund the government feels is of considerable importance to financial statement readers may also be designated as a major fund.

**Measurement Focus Adjustment:** The standard that determines: (1) the assets and liabilities that are included on the balance sheet for the governmental unit; and (2) if the operating statement shows "financial flow" or "capital maintenance" information relating to revenues and expenditures.

**Modified Accrual Basis of Accounting:** The basis of accounting in which revenues are recognized when they become measurable and available to finance expenditures of the current period. Expenditures are recognized when the goods or services are received.

#### N

**Net Taxable Value:** Total assessed value of all property within the city that is subject to taxation less the value of any properties subject to exemption.

**No-New-Revenue Rate:** A benchmark tax rate needed to raise the same amount of maintenance and operations property taxes on existing property as the previous year after accounting for changes in the appraised values.

**Non-Recurring Revenues:** Resources recognized by the City that are unique and occur only one time or without pattern.

### O

Official Budget: The budget as adopted by Council.

**Operating Budget:** A plan, approved by the Council, of financial operations embodying an estimate of proposed expenditures/expenses for the fiscal year and the proposed means of financing them.

**Ordinance**: A statute or regulation enacted by a city government.

**Outside Agency:** Non-profit service organizations partially or entirely funded with contributions from the City of College Station.

#### P

**Performance Measure:** Tool to determine the levels of service are being provided by the organization.

Proprietary Funds: See Enterprise Funds.

**Public Hearing:** An open meeting regarding proposed operating or capital budget allocations, which provides the citizens with an opportunity to voice their views on the merits of the proposals.

#### R

Rate of Return (ROR): The net gain or loss of investment over the fiscal year.

**Reserves**: An account used to designate a portion of the fund balance (equity) as legally segregated for a specific future use.

**Restricted Fund:** A fund in which the revenues collected are legislatively designated for a specific use or purpose.

**Revenues (Resources):** An increase in assets due to the performance of a service or the sale of goods. In the General Fund, revenues are recognized when earned, measurable, and reasonably assured to be received within 60 days.

#### S

**Service Level Adjustment (SLA):** Request for additional resources requiring a decision by management and council and justified on the basis of adding to or reducing services and/or performance improvements.

**Special Revenue Fund:** A fund used to account for revenues legally earmarked for a specific purpose used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specific purposes other than debt service or capital projects.

#### T

**Tax Levy:** The total amount of taxes imposed by the City on taxable property, as determined by the Brazos County Appraisal District, within the City's corporate limits.

**Transfers:** A legally authorized funding transfer between funds in which one fund is responsible for the initial receipt and the other fund is responsible for the actual disbursement.

**Tax Increment Financing (TIF):** Financing procedure utilized by local governments for redevelopment and improvement projects on existing structures.

**Tax Increment Financing Reinvestment Zone (TIRZ):** Taxes attributable to new improvements (tax increments) are set-aside in a fund to finance public improvements within the boundaries of the zone.

#### U

**Undesignated Fund Balance:** The portion of the fund balance that is unencumbered from any obligation of the City.

User-Based Fee/Charge: A monetary fee or charge placed upon the user of services of the City.

**Utility Funds**: The funds used to account for the operations of the City's electric, water, sanitary sewer, and solid waste disposal activities.

**Utility Revenue Bond:** Debt issued by the City and approved by the Council for which payment is secured by pledged utility revenue.

#### $\mathbf{V}$

**Voter Approval Rate:** The highest rate the City can adopt before the City is required to hold an automatic election if it adopts a tax rate that exceeds this rate. The Voter Approval Rate was previously known as the Rollback Rate.

#### W

Working Capital: The difference between current assets and current liabilities.
