

Petition to Set Stock Law Election for Brazos County (Cattle)

Petition summary and background	At common law in Texas, all domestic animals were allowed to roam free across the countryside, unless an election was held to require that they be fenced in. To protect themselves and their property, land owners were required to fence their property to keep livestock out. Texas state law allows voters to petition commissioners' court to order an election to determine whether cattle should be allowed to run at large within the county. A county-wide election adopting the stock law will clearly establish that none of these livestock animals should be permitted to run at large anywhere in the county.
Action petitioned for	We, the undersigned, freeholders and qualified voters of Brazos County, Texas respectfully petition your Honorable Commissioner's Court to order an election to be held in Brazos County for the purposes of determining if cattle should be permitted to run at large in Brazos county.
