Don't miss your local shows

We've worked tirelessly on your behalf to reach an agreement with Nexstar, which owns and/or operates several broadcast network affiliated channels in various locations such as ABC, NBC, FOX, CBS and CW affiliated stations, as well as NewsNation. However, they've refused to offer a deal that is fair for our customers. As a result, we no longer carry their channels.

Fortunately, you can **watch Nexstar content on Fubo.**
