Brenham, TX – *Philip Suarez, a combat veteran, impassioned Conservative, and proud Texan, is announcing his campaign for Congress in Texas' 10th District during the 2026 GOP primary.*

Philip Suarez, a U.S. Army veteran and paratrooper with the **82nd Airborne Division**, served honorably when deployed to Afghanistan, earning the **Combat Infantryman's Badge**, and the **Army Commendation Medal**. After an injury ended his military career, Phil built a successful real estate business, earned his degree, and dedicated himself to serving his community and his church—all while raising four young children with **America First** principles.

“The people of Texas don’t deserve a Republican that calls them “**neanderthals**” — Texans deserve a **fighter**. Someone who remembers why they were sent to Washington D.C. and will stand for the interests of Texas families, not against them.”

“For **more than 2 decades**, my elitist opponent has failed Texans. He has personally lobbied for hundreds of billions of taxpayer dollars to Ukraine while kicking the can down the road in the face of our own border invasion. He voted for **federal regulation** of local schools, **warrantless spying** on Americans, and **amnesty** for illegal immigrants,” Suarez said.

“Texans are fed up with the **entrenched RINO warmonger** who put foreign nations ahead of Texas families. That’s why my campaign is focused on delivering real solutions that put Texans first. I’m running for Congress to **fight for Texans**—to secure our border, stop reckless spending, and **protect our freedoms**. Enough is enough.”

The campaign’s platform will push an America First agenda with three key priorities:

- **America First Accountability:** Fully commit to **DOGE** recommendations, eliminate wasteful spending, and hold Congress accountable to Texans—not lobbyists and bureaucrats.
- **Veterans Healthcare Reform:** Ensure veterans receive world-class **healthcare without delays**, bureaucracy, or VA roadblocks.
- **Energy Independence:** Prioritize domestic energy production, support nuclear energy innovation, and **protect Texas oil and gas jobs**.

The campaign stands for **America First** principles, not the status quo. Texans have a choice: establishment Republicans and their empty promises—or reaffirming their commitment to **liberty, security, and prosperity**.”

“The facts are on my side, and momentum is building. Now it’s time to send Washington a message they can’t ignore.”
