

Our Company

About Messer Americas

Messer is the largest privately held industrial gas business in the world and a leading industrial and medical gas company in North America, South America, Asia and Europe. We're a technology and applications leader with the industry knowledge and applications expertise to meet customer needs across industrial, food, medical, chemical and electronics industries. We offer over 125 years of proven experience in the safe and reliable production and delivery of industrial, medical and specialty gases. We're the talented people you know and trust.

Formed in 2019, we draw on a rich heritage of industrial gases expertise to meet customer needs. As a part of Messer Group, we are the world's largest privately owned industrial gases business. We know the industries we serve inside and out – and we know our customers depend on us for more than just safe and reliable supply.

Today our deep understanding of industry trends and customer requirements allows us to collaborate intensely with customers to identify and develop long-term solutions that deliver competitive advantage. Our in-depth knowledge of customers' manufacturing processes enables us to provide turn-key innovations with minimal plant downtime, and our technology development capabilities are unrivaled.

Our Mission

To become the premier supplier of choice for industrial, medical and specialty gas solutions, admired for our safety culture, customer focus, performance, and innovation.
