Subject: SUPPORT FOR MADEWELL HOUSE

Notice: EXTERNAL EMAIL! Phishing = #1 threat to Cyber Security. Is this a phishing email? - Look again!

Hi,

I am writing this email in support of rezoning the madewell house campus to be a planned development zone! Madewell has become a second home for me and my kids. We have all been blessed by the community there and the wellness that takes place. Myself and my daughter have personally gone to their chiropractor, Dr. Patton, on multiple occasions. Additionally, as a mom of 2 young kids, it is hard to find a new workout/health routine. Madewell offers childcare so that I can take an hour or 2 to focus on myself and my health so I can be a better mom for them. Their childcare staff has been so wonderful to my kids and I always feel at peace dropping them off knowing my kids are safe and happy. Additionally, I am in the mom workout group which gives me a place to be with other moms in the same stage of life to support each other and we can even bring our kiddos in their strollers to join us! This is such a rare community to find and be blessed by!

All that being said, i urge you to support madewell and their growth! They have been such a blessing to so many and i know they will continue to impact others in our community in such a positive way! Thank you for your time and don't hesitate to reach out with other questions.

Blessings,

Jacy Urquhart

Subject: The Made Well House Rezoning

Notice: EXTERNAL EMAIL! Phishing = #1 threat to Cyber Security. Is this a phishing email? - Look again!

Good afternoon and happy Tuesday! I wanted to voice how blessed I have been to be a part of the Made Well House community. Made Well brings an abundance of hope to a broken world and community, and has touched thousands of people who have attended any counseling service, workout, or doctor visit. As a member and staff member since day one, Made Well has brought nothing but joy and one of the best communities that I have been a part of. The Bryan community has been strengthened here! I have lived here all of my life, and could not imagine these past couple of years without Made Well. The Lord has been working in this place. Thank you and we appreciate your consideration as members of this non-profit for the rezoning from residential to commercial of The Made Well House. I hope whoever receives this email has a blessed day!

Good afternoon,

I have personally been positively impacted by the services offered at The MadeWell House at 600/604 E 27th Street and hope that you will see it best to rezone these addresses to allow this ministry to continue to grow and provide the wonderful, beneficial services to so many members of our amazing community.

Thank you,

To Whom It May Concern,

My name is Jessica Wells and I wanted to personally send an email to express how incredibly grateful I am for the Made Well House. Not only have I been able to support myself physically here, but my husband and I are finding healing and restoration in our marriage through this ministry.

The Made Well House represents downtown Bryan SO beautifully and the experience I have when I walk onto this property is like nothing else. Please consider offering the re-zoning that this Ministry needs in order to continue doing what it does for our community. I know there is so much more this place can accomplish in the lives of those in our community.

Thank you for you time,

Subject: Support for Made Well House Rezoning

**Notice: EXTERNAL EMAIL! Phishing = #1 threat to Cyber Security.
Is this a phishing email? - Look again!**

Hello!

I am Veronica Hoff and I am a Bryan resident and a member of the Made Well House community. I not only receive counseling there but also am an active member of group fitness classes and a paying member of the Pure Family Medicine clinic there. I'm writing this in support of voting for rezoning the Made Well House to a planned development zone. I honestly don't know what I would do without the Made Well House and all its services. My faith is an integral part of who I am and the Made Well House approaches their holistic care from a faith standpoint, which is what I value the most. Sure, there are a variety of separate businesses in town that offer counseling or fitness or health care, but they're not all under one roof and they don't all approach it from a holistic and faith-based stand point. I am 38 and work a full time remote job while balancing marriage to a first responder and raising two toddlers. MWH has been so integral in being part of my support and walking with me in this season of life. Therapy has come in to help diagnose and support me through the diagnosis. Group fitness classes and access to the gathering house as an optional space to work from have given me a community of folks to interact with to help fight the isolation that comes from full time remote work. And, having Pure Family Medicine on campus has given me convenient access to a healthcare practitioner where I am already at often that has helped turn my my physical health around. And, they offer child care I can trust while I take part in their services. I can't find the accessible care they offer anywhere else as a mom trying to juggle it all while taking care of myself, so that I can show up as the best version of me for my family.

Thank you so much for your time in considering this appeal to vote yes for rezoning the Made Well House to a planned development zone.

Warmly,
Veronica Hoff

Subject: Support for Made Well House

Notice: EXTERNAL EMAIL! Phishing = #1 threat to Cyber Security. Is this a phishing email? - Look again!

My name is Mandy Emery and I am a resident of Bryan, Texas. I am writing to formally express my enthusiastic support for the rezoning initiative proposed by Made Well House.

Having been personally touched by the work of this non-profit, I have seen firsthand the integrity and compassion they bring to our community. Made Well House is not just an organization; it is a vital support system that addresses holistic healing to all individuals with a level of care that is rare to find.

I believe approving this rezoning is a matter of significant public interest for the Brazos Valley for several reasons:

- **Exponential Community Benefit:** The proposed expansion allows Made Well House to scale their proven model, providing long-term stability for our most vulnerable neighbors.
- **Responsible Land Use:** Their plan demonstrates a commitment to being a "good neighbor," ensuring that the physical development enhances the character of the area while filling a critical service gap.
- **Economic & Social Impact:** By fostering a healthier, more supported population, Made Well House reduces the strain on local emergency services and contributes to the overall resilience of the Brazos Valley.

Our community is stronger when we pave the way for organizations that have already proven their value. I strongly urge the committee to recommend approval for this initiative and allow Made Well House to continue their essential mission.

Thank you for your time and for your service to our community.

Sincerely,

Mandy Emery, MS, LPC.

Subject: Rezoning of Made Well House

Notice: EXTERNAL EMAIL! Phishing = #1 threat to Cyber Security. Is this a phishing email? - Look again!

Dear Bryan City Council,

My name is Bailey Cummins, and I am a relatively new resident of Bryan, having moved here last year amid very difficult personal circumstances.

Shortly after arriving, I learned about Made Well House after discovering Kasey's book at the local library. I was thrilled to find that they offered an affordable gym membership with a wide variety of classes, including pilates, strength training, yoga, and more. As a Christian, I deeply appreciate that their fitness classes thoughtfully integrate faith into the exercises in a way that is welcoming and supportive to everyone, regardless of their beliefs.

I have never been a "workout person," and I often require modifications due to my physical limitations, but every coach and instructor I have encountered at Made Well House has been kind, encouraging, and inclusive. I have never once felt out of place or unwelcome. In particular, the Mind-Body Regulation class has been integral to my mental health healing and is unlike any other fitness class I have experienced.

Beyond fitness, the Made Well community house has been an invaluable resource for me as a graduate student at Texas A&M. Having access to a peaceful, quiet place to study (at no additional cost with my membership) has made a meaningful difference in my academic studies.

Most importantly, Made Well House has given me a sense of belonging. Through this space, I have formed connections and found community. I no longer feel like an outsider, like someone who simply moved to Bryan, but like a true resident of this charming city.

I can confidently say that Made Well House has been integral to my healing journey. Therefore, I respectfully urge the City Council to vote "yes" in support of the rezoning of Made Well House.

Thank you for your time and consideration.

Sincerely,

Bailey Cummins

Just writing to say that I love MadeWell! I'm a mom to five young kids and before finding MadeWell I was dying a bit on the inside and was not taking care of myself. Finding a place where I can workout while my kids are taken care of has been a God send! The House has provided me a place to get an hour of renewal while I take advantage of their snacks and free coffee while getting some work done or reading. What a blessing this place is to me! Please help them as they grow so they can bless more people!! Thank you!

To whom it may concern,

I want to express my deepest support for The Madewell House and their ministries. As a resident of Bryan and a member of Madewell this community has been an essential key to my healing process. As a first time mom I was struggling with postpartum depression and MWH helped me heal in countless ways.

MWH offers SO many great things to their members and I want everyone to experience their community. I understand in order for their continued growth a zone of their property needs to happen. I ask that not only you take my story in consideration but also take the time to read their online reviews. Please understand this place is needed and so is the support of the city.

Thank you,
Rebecca Royall

Good evening!

I am reaching out on behalf of the Madewell house and Madewell ministries. This has truly been one of the greatest places in all of BCS that I have experienced and the perfect addition to our community. The community support, outreach, and connection this place provides has changed my life in so many ways mentally and physically and I couldn't imagine my life without it.. I have only attended for a couple months but have seen it grow exponentially just since the beginning of the year and I hope they can continue to grow and create such a safe space and blessing to our community.

Best,
Mikaela Mancuso

Hello,

I wanted to share that The Made Well House has changed my life in the 6 months that I have been a member and therapist. The existence of this wellness center has given me the opportunity of abundance that has not only deepened my faith but has helped me to courageously step out of an abusive relationship with my 4 young children. I believe that the mission of Made Well Ministry has more they can offer our community with commercial status and that is the seed of hope for creating facilities like ours in other cities. Thank you for your time and consideration.

Blessings,

To Whom It May Concern,

My name is Rebecca Smith, I've lived in BCS area since 2020 after moving for a job relocation. I grew up in Georgia and I'm not an Aggie so this town felt like FOREIGN territory moving here. One of my favorite places in BCS is Madewell House, it's been a blessing for me and so many people in my community. I've received counseling, holistic healthcare, chiropractic care and the best fitness classes that I've ever attended. Madewell House staff care deeply about seeing people live whole and healed lives through mind, body and soul and they are making a tremendous difference in our community. It's been one of the reasons I've chosen to stay in BCS after I had the option to relocate again last year! I hope Madewell House can continue to thrive, flourish and provide support to our community in the future. Thank you for reading this!

City of Bryan,

Communities thrive when people thrive. Cities flourish and grow when the people who live in them are healthy, whole and able to contribute in meaningful ways. I've seen this in my personal life, but we also see this throughout history. Communities thrive when people thrive.

I'm reaching out on behalf of Made Well House because I've seen how this organization promotes healthy living for the people of Bryan, Texas. I've seen friends who were isolated, considering moving to another city, decide to stay because of the connections they made at Made Well House. I've heard someone tell me they felt more energetic and able to contribute at work (a job that greatly benefits the city) because of what they experience at Made Well House. I've heard college students say they have done better in school since started to get connected at MWH.

I am from Alabama and strongly considered moving back home last year. It was hard to get connected in Bryan, difficult to find people my age who I could do life with. I was weighing whether staying was worth it. The question arose: do I move somewhere I could thrive?

I heard about Made Well and within two months of going saw great improvements in my physical and mental health. More than that, Bryan finally felt like home after 7 years. I've wondered what my life would have looked like if a resource like MWH had been available sooner. But I'll let that rest. I'm just grateful for how it has changed me the last 6 months.

From my seat of the bus, as a citizen of Bryan, wanting what is best for the people in my community, I think it's crucial that Made Well House receives whatever it is to stay running. They need to stay keeping people healthy and able to contribute to the community. I firmly believe this organization is a key piece of Bryan thriving, growing, and being a place people want to put down roots.

Freedom, healing, wholeness. This is what Made Well house offers. It changes people. Changed people make changes, healthy people help communities thrive.

Thank you,
Annelise Morrison

Subject: Support for Rezoning of Madewell House Ministry to Planned Development Zone

Dear Members of the Bryan Zoning Committee,

I am writing in strong support of the request to rezone Madewell House Ministry to a Planned Development Zone.

Madewell House has personally impacted my life in a profound and lasting way. During one of the darkest periods of my life, I was able to receive faith-based counseling through Madewell, which played a critical role in my healing and recovery. Over the course of several months, I transitioned from one-on-one counseling into participating in their group fitness classes, where I found not only physical health, but a sense of community, purpose, and belonging.

Madewell House offers something truly unique to the Bryan community. Their approach to holistic healing — addressing mental, emotional, physical, and spiritual well-being — creates a safe and supportive environment for people from many different backgrounds and walks of life. The community they have built is inclusive, uplifting, and deeply impactful.

I believe the planned development zoning will allow Madewell House to continue expanding their mission in a thoughtful and organized way, ultimately benefiting not just individuals like myself, but the broader Bryan community as a whole. Their presence is a positive one, and their services meet a real and growing need.

I respectfully urge the committee to approve the rezoning request and support the continued growth of this invaluable community resource.

Sincerely,
Logan Nevill

Hello! My name is Lindsey Hartt, I co-own Hartt's Barbecue, a local catering company here in Bryan, with my husband Mitch. I wanted to take a moment to reach out on behalf of Kasey Van Norman and her business The Made Well House.

As a mom and local business owner I cannot begin to express the absolute blessing The Made Well House has been to me personally, and to so many in our community. It has not only been a place of personal growth, but a space I have met so many other business owners in Bryan and built relationships that have brought business and relationships to our company and vice versa. I have been able to be a part of seeing multiple women blessed through sponsorship to the MW House and honestly feel like it's just the beginning of what this place could do for our city. It is bringing health and wellness to the people I know you love and care for in our town, and so if re-zoning allows for MW to continue to grow in it's impact, I could not ask more boldly that you do so.

Thank you for taking time to hear from those of us who have been impacted by this space!

Notice: EXTERNAL EMAIL! Phishing = #1 threat to Cyber Security. Is this a phishing email? - Look again!

I am writing to express my sincere support and gratitude for MadeWell House.

Beyond my own experience, I've seen the positive ripple effect Made Well House has throughout our community. They create opportunities, strengthen connections, and make people feel supported and valued. That kind of impact is not easy to achieve, and it speaks to the dedication and heart behind everything they do. As a non profit, everything gets given to the community.

Im incredibly thankful for Kasey Vannorman and her dedication to giving back to our community. Our community is in dire need of support for mental and physical health without limitation, and Madewell offers that to everybody. As the community faces higher need, limitation and restrictions surface when the demand outweighs the ability to expand and grow. I truly believe the organization is well positioned to grow responsibly and sustainably well within the boundaries of its neighbors and doing so will strengthen the community as a whole. Growth means more impact, access, and more lives will be changed.

Sincerely,
Kelcie Elliott

Dear City Council,

I am writing to express my full support for Made Well Ministries and for it to be allowed to continue to grow and flourish.

Over the past several months, Made Well House has become more than just a place I visit- it has become a place of healing, growth, and true community in my life. I first came to Madwell during a season when I personally needed support, encouragement, and a safe space to grow. What I found was a group of women who genuinely care for one another and walk through life together with compassion and strength.

Today, I not only attend Madwell, but I also have the honor of coaching fitness classes there. I see firsthand the impact this space has on women in our community. I have watched women grow in confidence, find healing, build healthy habits, and experience meaningful connection. For many of us, Madwell is a place where we feel seen, supported, and encouraged.

This space has truly changed my life, and I know I am not alone in that. Madwell provides something rare and valuable—a positive, uplifting environment focused on wellness, personal growth, and community. The rezoning of this property would allow this mission to continue and expand, benefiting even more women and families in our area.

I strongly believe that Madwell House is an asset to our community, and I respectfully ask that you support this rezoning request.

Thank you for your time, consideration, and service to our community.

Sincerely,
Kelsey Webb

Hi there! I am emailing to add another voice of support to the rezoning of the Madewell house campus.

MWH has absolutely touched my life in more ways than one. I am a member of the family medicine doctor there along with my children and husband, I have attended many many group workouts as a member, and have received counseling and massage therapy there. It is an incredibly unique place where people, especially moms I think, tend to feel so welcome, and so encouraged and so supported in community. It would be a shame for it to not be able to grow as much as it could!

Hi there!!

I would like to share my input on why madewell house should be rezoned. This ministry has helped not just my family but so many! My husband is a police officer in Bryan who works nights and loves his job and this city. These hard hours can be challenging as a wife and mom to 3. This place has given me a place to grow in strength, wellness and grow a community with other first responder wives that i would have never met otherwise. Having this beautiful place helps me support my husband well, so he can then in turn, support this city to the best of his ability. Thank you for your consideration and please vote YES to rezone Madewell house.

Thank you,

Kendall Lunsford

The Made Well House is such an asset to our community! Especially for mothers... it builds connection in this community and is very holistic which I feel a lot of folks are looking for in this day and age. They bring a hope we really need here. I look forward to being able to continue to visit their space.

Thank you,
Candace Campbell

Notice: EXTERNAL EMAIL! Phishing = #1 threat to Cyber Security. Is this a phishing email? - Look again!

To whom it may concern,

My name is Mary Clare, and I am writing in support of the rezoning of the Madewell House in Bryan, Texas.

I work as a fitness coach at Madewell, and it has provided me not only with a source of income, but with a strong, Christ-centered community in the Brazos Valley. Being part of Madewell has greatly improved the quality of life for my husband and I as we strive to steward our health physically, mentally, spiritually, and emotionally. It is such a joy to walk with others to do the same!

Notice: EXTERNAL EMAIL! Phishing = #1 threat to Cyber Security. Is this a phishing email? - Look again!

Hello,

My name is Kati Funderburg. I've lived in the Bryan College Station area since 2012. I attended A&M Consolidated High School, and I'm now a 28-year-old mom. My family and I currently reside in Bryan.

I wanted to reach out to share the impact Madewell has had on my life and my family. My journey with Madewell began with marriage counseling, which eventually led me to individual counseling. From there, I started working out, growing in my health, and ultimately accepting the Lord as my Savior something I truly believe would not have been possible without Madewell.

In the 14 years I've lived here, I didn't realize how much I needed something like this until I found it. Madewell has helped shape me into a better mom, wife, employee, and homemaker. The way the community comes together especially during workouts and prayer afterward is incredibly inspiring. I've built meaningful relationships there that have helped me grow in confidence and faith.

I absolutely love Madewell and all that it brings to this community. It truly feels like my home away from home, and I support anything that helps keep Madewell Ministries alive and thriving.

With gratitude,

Kati Funderburg

Subject: MADEWELL HOUSE MAKES A DIFFERENCE

Notice: EXTERNAL EMAIL! Phishing = #1 threat to Cyber Security. Is this a phishing email? - Look again!

To whom it may concern:

Madewell house is more than a meaningful organization, but an affordable community resource that has helped improve my life. The price for membership is unlike anything else in town. The fitness classes offered have helped improve my motivation for getting up and moving my body weekly (more than what I would do on my own at home). The massage therapists have helped improve my upper back pain related to bulging disks. I have recommended to multiple friends/family the therapy offered when experiencing difficult times. The gathering house itself is a welcoming space that offers a quiet place to get away for study or work or prayer. The garden, the sauna, the resources available are amazing "extras" that no other community resource offers. I only have experienced a small portion of what this place offers and feel grateful there is more available when needed. Please allow this amazing place to be rezoned and if anyone has doubts or concerns just try the FREE trial for yourself and experience what this amazing place has to offer. THANK YOU MADEWELL HOUSE!!

Subject: Letter of Support for Made Well House Rezoning

Notice: EXTERNAL EMAIL! Phishing = #1 threat to Cyber Security. Is this a phishing email? - Look again!

Dear Members,

My name is Nastassja Rubio, and I currently serve as a student counselor at Made Well House while completing the requirements for my master's degree in clinical mental health counseling. I am writing to express my strong support for the rezoning of Made Well House and to share, from both a professional and personal perspective, the vital role it plays in the Bryan College Station community.

In my role as a student counselor, I witness firsthand the meaningful and life-giving impact Made Well House has on individuals every day. I primarily work with adolescents and college-aged women and have the privilege of participating in Made Well's mission to provide holistic, accessible, and compassionate care. The services offered create a safe, supportive environment where individuals are not only seen and heard, but genuinely cared for, mind, body, and soul.

My connection to Made Well House began long before I joined as a student counselor. During my undergraduate years at Texas A&M University, I discovered Made Well through social media and was immediately struck by the breadth of services offered and the organization's commitment to affordability and community care. Even before stepping foot inside the building, I was drawn to the sense of belonging and intentionality that Made Well consistently communicated. As I began discerning my post-graduate path, my hope and prayer became to work in a setting that valued whole-person healing and served the community with integrity and compassion, values that Made Well House clearly embodies daily.

As friends and peers shared their own experiences receiving accessible mental health care, medical services, and wellness support through Made Well, my admiration only grew. When the time came to pursue an internship to fulfill my graduate program requirements, I reached out to inquire about serving as a student counselor. I was met with extraordinary kindness, openness, and support not only in being allowed to complete my clinical hours, but in being welcomed into a mission-driven community dedicated to serving others well. I want to emphasize that my belief in and support of Made Well Ministries existed long before I became affiliated with the organization in any formal capacity which speaks volumes for the way their mission is impacting more than just those receiving services.

I am also deeply honored to be directly supervised by Kasey Van Norman, the founder of Made Well House. Through weekly supervision, I have witnessed her unwavering commitment to ethical practice, excellence in care, and the intentional formation of future counselors like myself. Kasey leads with humility, discernment, and a profound sense of responsibility toward both those receiving services and those being trained under her leadership. Her heart for this community is evident not only in her vision, but in the countless unseen hours she dedicates to ensuring that Made Well operates with integrity, compassion, and sustainability. I have observed the thoughtful, prayerful, and intentional way she and her husband steward Made Well House not just as a business, but as a calling to serve individuals who are hurting, overlooked, or in need of hope. Her leadership reflects a rare balance of professional excellence and genuine care, and it has been formative to witness firsthand.

For these reasons, I respectfully ask that you recognize the critical need Made Well House fulfills within our community and support its rezoning. Its presence is not only beneficial but essential to the well-being of many individuals and families in the Bryan College Station area.

Thank you for your time, consideration, and service to our community.

Blessings,
Nastassja Rubio

Subject: Support FOR Rezoning of Made Well House

Notice: EXTERNAL EMAIL! Phishing = #1 threat to Cyber Security. Is this a phishing email? - Look again!

Good afternoon,

We would like to send this email as a representation of our support for the rezoning of the Made Well House campuses. Made Well has had a huge impact on our family and so many others in the Bryan community.

For the last year, Kylie has seen this impact every day through the childcare program at Made Well. She has seen the relief on parents' faces and joy in the children as they come into childcare, and parents get the very unique opportunity to pursue wellness while knowing their children are being cared for, all included in the cost of their service.

Though some push back against the efforts of Made Well, the committee should consider the way the area surrounding the campus has developed away from only single-family dwellings and is now a place with multiple businesses and churches.

We appreciate your attention to this matter.

Thank you,

--

William + Kylie

To whom it may concern:

I am writing this email as one of MANY people who have been so blessed by this organization. Last spring I was referred by my primary physician because I was struggling with recurrent panic attacks. My last one had landed me in the hospital. I was feeling at an all-time low and feeling bleak about the future.

From the first moment I stepped onto the MadeWell property, I could tell this place was different. I was able to start meeting with Alexya, one of the therapists at MadeWell. She was such a Godsend in a very dark and scary time. I felt seen, heard, and supported in a way I had never felt before from a therapist. After several meetings, I was able to start getting some answers to my struggles with anxiety and panic from Alexya's insights as she listened intently and so very thoughtfully.

Since Last Spring my husband and I have BOTH been blessed by MadeWell. We joined the 8 week long marriage collective led by Christian Buenaventura, another MadeWell Therapist.

After getting to know Christian well, we decided to start seeing him on a regular basis for Marriage Counseling. We have continued to be greatly challenged and encouraged on our journey to building a better marriage with the tools Christian is giving us.

Also, having access to the Gathering House to find rest and reprieve from the crazy hectic world has also proved a treasure. Here one can find beauty, light, peace, and joy.

The Lord has used MadeWell to meet such a need in mine and my family's life. This place is such a blessing to our community. I humbly ask that you would recognize my voice as just ONE whose life has been touched. This organization continues to help me and many others thrive in our journeys of healing.

Thank you for your time,

Kaylan Santos

Since last March

Subject: Rezone on Madwell House

Notice: EXTERNAL EMAIL! Phishing = #1 threat to Cyber Security. Is this a phishing email? - Look again!

Hello,

I am writing this email on behalf of Madewell House to advocate for the approval of the rezoning of this property proposed by the city planning committee. Madewell House has helped me tremendously in my healing journey. In the past I struggled to work out at traditional gyms and never felt comfortable or supported, but finding Madewell House changed that for me in a very positive way.

It has also helped many of my friends heal and grow, both physically and emotionally. The sense of community and encouragement there is something we have not been able to find anywhere else. I honestly do not know what I would do if they had to shut down. They have created an incredible space where members are able to grow together and not only grow but truly heal together as a community. It is a very special place that has had a meaningful impact on many people's lives, including my own.

Approving the rezoning would be extremely beneficial and would allow Madewell House to continue providing a safe, supportive, and empowering environment for those who depend on it.

Thank you for your time and consideration.

Notice: EXTERNAL EMAIL! Phishing = #1 threat to Cyber Security. Is this a phishing email? - Look again!

I was born and raised here in Bryan, TX and have been an active member of this community my whole life and I write this on behalf of and to testify that Made Well House has become and is exactly what this city needs. NO WHERE else will you find a TRUE community. A community founded on and growing in faith. A community where there is no facade or fakeness put on by anyone, staff or members, which is so hard and rare to find in today's age. A community where everyone can come as they are, burdened or broken, trying their best in any season of life, to find true belonging. Where real people come together from all walks of life to share moments of it together, while we all work towards different needs of growth and healing. At Made Well House you find friendship, Christ-like love from everyone, rest and peace for the weary and tired.

I've been a Made Well House member since October 2024, and I've watched it grow and expand with the goals and intentions to benefit and meet the needs of this community. It reaches to the lost and unfortunate to try and bring healing, safety, and restoration to ALL.

Since I was a little girl, one of my favorite things about Bryan, TX has been its historical homes. As we drove by I always wished that I could go inside, and now I can, EVERYDAY! Made Well House has brought original beauty, restoration, and peace to the 600 and 604 homes, and in doing so they bring the same thing to all who enter its doors. They were restored to glory with a foundation of faith and many prayers that these walls wouldn't just benefit one or a few, but that they would benefit and help ALL! That is the dream of Made Well House! To bring healing, Christ-like love, and belonging to our community and our town. To be a beacon of Light in a world that seems to flood with darkness more and more everyday.

Let Made Well House grow! Allow us help more people in our city who need a peace that passes understanding, people who need a place where their minds and bodys can rest, people who need a community and a feeling of belonging.

Thank you.
Sincerely,
Elizabeth West, CST

Subject: Made Well House Rezone

Notice: EXTERNAL EMAIL! Phishing = #1 threat to Cyber Security. Is this a phishing email? - Look again!

To whom it may concern,

My name is Ashley Knowles and I am advocating in favor of rezoning The Made Well House in downtown Bryan to a planned development zone in order to accommodate the rapid growth of the ministry.

I am a member of the Made Well House and I have seen the vision for this space come to life over the past few years and continue to grow and flourish because of it's success in ministering to so many needs in this community. Including my own personal needs.

This space fills a gap for so many in their holistic healing journey and has become a beautiful place of peace.

I, like so many others, am in a childbearing season of growing my family and in need of support when it comes to my own health, and the Made Well House has been an answer to prayer for me to make this happen in so many areas.

To know I can utilize the free and trusted, Christ-centered childcare while I receive any wellness service, including therapy, chiropractic care, massage therapy, and fitness has made healing in my postpartum journey, accessible and realistic. I cannot express enough how much gratitude I have for the Made Well House because of this. It has made all the difference for me and helped me turn survival mode into thriving mode.

Additionally, I have grown to learn that so much of staying healthy and healing is sparked by being in a communal setting of like-minded people. Made Well House has created such a special place that feels like home away from home full of people who have become familiar faces to heal alongside as we encourage one another.

Kasey and her team have done a phenomenal job of maintaining the "home" feel within the campus of Made Well, which is a huge contributor to what has drawn so many members in. It's not daunting to heal at Made Well. It's inviting, warm, and familiar - where the members bring the home to life and give it a heartbeat of purpose while maintaining the historic integrity & charm. It's the opposite of a traditionally sterile & intimidating provider's office.

The Made Well House has played an integral part in my wellness, and the lives of many others I've been privileged to meet there, and more I'm sure to meet.

This place is doing things right, and blessing many. If rezoning the campus allows Made Well House Ministries to continue to provide healing in so many real people's lives who need it and growing into the future, while at the same time honoring the campus surroundings and respecting the integrity of the home's history, then I am all in favor to advocate for this rezone to happen.

You could not pick better stewards- no better hands for this campus to fall in than Made Well Ministries.

I believe good things are in store for Made Well House, and the best ministry is still yet to be done there.

Thank you for your consideration and for taking the time to read this.

I truly believe in what this special place is doing.

Blessings,
Ashley Knowles

Subject: Support for the Rezoning of the Madewell House Property

Notice: EXTERNAL EMAIL! Phishing = #1 threat to Cyber Security. Is this a phishing email? - Look again!

To whom it may concern:

I am writing to express my strong support for the rezoning of the Madewell House property.

Madewell House Ministries has been an extraordinary gift to me personally and to our community as a whole. Through my time there, I have received chiropractic care, medical care, fitness and movement-based healing, massage therapy, and personal support from providers who truly know and care for the people they serve. The impact this has had on my life is difficult to overstate.

What makes Madewell House so unique is not only the services offered, but the setting in which they are provided. In a world where many of us experience instability and where “home” can sometimes be associated with stress or even pain, Madewell House offers something profoundly healing: care, safety, encouragement, and dignity in the context of a home.

That environment is not incidental — it is part of the healing. Being cared for in a space that feels warm, personal, and peaceful has helped reshape my understanding of what a home can represent. It has been a place of restoration rather than strain, and hope rather than pressure.

This is not something that could be replicated in a clinical or institutional setting. The physical home itself is an essential part of why Madewell House is so effective in serving people holistically.

I respectfully ask you to approve the rezoning request so that this life-giving work can continue and expand to others in our community who need the same support I was blessed to receive.

Thank you for your time and for your service to our city.

Sincerely,
Madeline Hill

Subject: 600 & 604 E 27th St (MadeWell House) Considerations

Notice: EXTERNAL EMAIL! Phishing = #1 threat to Cyber Security. Is this a phishing email? - Look again!

Writing to anonymously express my thoughts **for** the rezoning of 600 & 604 e 27th street:

I've been a fitness member for months, use the gathering house for quiet work or reading and receive care from an onsite doctor. MadeWell House is a welcoming space that attracts people striving to better themselves mentally, physically, and spiritually. The land, historic structures, and—most importantly—the community are real assets to Bryan. Many members even drive in from College Station and beyond for services or classes and spend money locally.

MadeWell House is the only place I can think of (anywhere, not just in this area) that offers accessible high-quality care and personal growth, free onsite childcare, scholarships and sliding scale for services, and a strong sense of connection. To have something like this in our community is a blessing to many and a model that others will follow.

The ministry fits well where it stands—surrounded by church ministries, offices, and residences—MadeWell House blends aspects of all three while still feeling like home for many members. Kasey and her team have revitalized the block while preserving its historic character. Limiting the property to residential use would place an unnecessary ceiling on the area's development. Bryan has tons of continued upward potential and MadeWell House is a great example of what can thrive here.

Thanks for your time and service and please vote for rezoning.

Subject: Rezone at The Made Well House

Notice: EXTERNAL EMAIL! Phishing = #1 threat to Cyber Security. Is this a phishing email? - Look again!

Hi,

My name is Margo DeGange. I reside at 709 E. 27th Street in Bryan.

I am in favor — with a big “yes” — for the rezoning of the Made Well House.

The Made Well House is a great addition to the downtown community. It is nestled across from and next to, neighborhood churches, and is situated in somewhat of a commercial area; it doesn't disturb the residential areas. The Made Well House brings such goodness to our community, offering healing, hope, and new beginnings for so many people, and it is very family focused.

The Made Well House buildings themselves are very well kept and quite attractive in the neighborhood. I am very proud to have the Made Well House in my area. I live on the same street as the Made Well House and I see it as a benefit to the Bryan area and particularly the downtown Bryan Neighborhood. I hope the Made Well House will be here for many years.

Sincerely,

Margaret DeGange

To the members of the city Council,

I'm writing this letter to express my strong support to the rezoning request associated with the Made Well House.

Made Well House serves as an important and positive resource within our community. It is a place where women, including many mothers like myself, gather and focus on physical health, spiritual growth, and meaningful connections with others in our community. Through fitness classes, bible studies, worship and fellowship, it provides a structured, uplifting environment that promotes overall well-being.

From my personal experience, Made Well House is well-run, respectful of its surroundings, and operates in a way that aligns with the values of our city. The rezoning would allow this positive space to continue serving local families and women in a way that meets the growing needs of our community.

As a busy mom of five who works shift work as an emergency room nurse this place has become my 'home away home', my safe place to decompress, which is why I respectfully urge the City Council to approve the rezoning request and support the continued presence of Made Well House.

Thank you for your time, consideration, and service to our city.
Sincerely,
Lacey Porter

Subject: Made Well House Rezoning

Notice: EXTERNAL EMAIL! Phishing = #1 threat to Cyber Security. Is this a phishing email? - Look again!

Good morning,

My name is Colbie Wood and I am a proud member of the Made Well House. I have been a member from the day the doors opened and have greatly benefited from their counseling services, fitness program, doctors on staff, chiropractic care, support groups, and so much more. What I hope to help whoever is reading this to understand is that as a young mom who was diagnosed with Stage III cancer shortly after giving birth to my first child who felt like her world was over—MWH gave me my life back. I have not only become more healthy and physically fit than I've been in years, but I have found a home. With lifelong friends, genuine care, and deep life changing programs and community. The Made Well House certainly is making an enormous impact on not only me but our entire community. We need MWH to stay where it is and be rezoned to a plan development zone so they can continue changing lives in the heart of the city we adore and call home. For me, seeing Kasey Van Norman, a 10+ year cancer survivor herself, has given me hope for my future and a reminder that my dreams are not squandered by cancer. This is something that our community desperately needs and it is in the perfect spot—surrounded by other non profits and businesses—to continue changing our community from the inside out.

I would deeply appreciate your support in keeping MWH thriving where it is so lives like mine can continue to be transformed. Thank you.

Colbie Wood

Dear City Council,

I understand there is a very important vote that will be going before you this evening. As you make your decision, I want you to consider what is best for the Bryan community as a whole. Made Well House is a place that communities only DREAM of having. However, it actually exists in Bryan, Texas. We have the privilege of having the reality of a place that is truly making our community well. When people hear of Made Well from different cities and states they deeply long for something like this to exist.

Where is another place where you can be around like-minded people that will invest in your mind, body, and soul? Where is another place where you can feel peace without fear of judgment of what the person next to you thinks? Can you name another place that tangibly cares about you and knows you by name despite having thousands of members? Can you name another place that will care and invest in your healing no matter what walk of life you come from? There is no place like this place so this must be the place.

Since joining Made Well House in summer of 2025, I have experienced tremendous healing through living in community with other Made Well members on a regular basis. There is a clear mission to open doors to those who may not be able to afford services and a system in place to do so. If you have never been to Made Well, I invite you to come and try a service. The first 3 workout classes are free! We would love to have you. Until then, I urge you to vote in favor of the rezoning that allows Made Well to grow and thrive. We are bursting at the seams in an ever-expanding mission to make the community well. Thank you for your time and consideration.

Respectfully,
Ashley Stephens

Notice: EXTERNAL EMAIL! Phishing = #1 threat to Cyber Security. Is this a phishing email? - Look again!

Hello! I am the Physician Assistant at Pure Family Medicine, which is housed on the Made Well Ministries Campus at 604 E 27th St. I would like to voice my support of rezoning our campus into a planned development zone. As a small business, this will allow us to grow and operate in a way that continues to honor the historic space we are in. Made Well Ministries has worked incredibly hard to beautify and preserve the 2 lots they currently own and use them to serve our community in an incredible way that has never been done before. Our patients/clients can workout, get a massage and a chiropractic adjustment, see a counsellor for some mental and spiritual healing, talk with a nutritionist, sit in the sauna, and see their primary care provider all in one beautiful, healing space. We ask our patients to use the 2 church parking lots in front of and behind us in order to respect our neighbor residents. Our medical practice is very small and only operates between 8:30 and 3 during the week, with approximately 8-20 patients coming in each day. We function quietly and respectfully to those around us. We would love the opportunity to expand the services we offer someday, which would likely include the need to expand our campus, and the rezoning would greatly facilitate this process. I appreciate your time in considering this matter!

Sincerely,
Jill Whitley

Hello,

My name is Natalie Cherry and I am the mother of a proud member of the Made Well House. (I hope to become a member very soon, myself!) Since moving to BCS, I have watched my daughter benefit from the many services offered! She has become very involved in the daily exercise classes, counseling, support groups and made many lasting friendships! I believe that the beauty and comfort of the house where it sits currently, contributes to the comfort and healing of each person involved there.

Getting to know Kasey Van Norman has especially been meaningful, as Kasey is a cancer survivor and my daughter is currently battling the disease. This connection has shown my daughter that dreams are not squashed by cancer.

Opening the Made Well House has been a true asset to the community and I deeply appreciate your support in keeping it in the beautiful spot that it is, so that lives can continue to be transformed.

Thank you,
Natalie Cherry

Good afternoon,

I'm frantically writing this on my phone while my baby is whacking me with a plastic frog. This is relevant, I promise. My name is Hailey Abraham and I am a mom of 2 baby boys. I have been living in Bryan College Station since 2013. I have loved the people, places, businesses and history of our twin cities. Since I became a mom, my life has been joyously full. However, I have realized that our town was missing spaces that were inclusive of moms and their beautiful, albeit loud babies... I never felt like I could relax anywhere outside of my home or take care of my body/mind/spirit for almost 3 years until I found Made Well House. Made Well House became a safe haven for me AND my boys. I know hundreds of mothers and children in our community can say the same. It's my quiet retreat for over 2 hours almost every day of the week (Monday through Thursday). I get to exercise, receive red light therapy, make friends, and be prayed for every day at Made Well House. There is truly no other place like it. This community needs Made Well House and its growth to serve other moms like me whose lives are full but feel stuck. I vote for the rezoning of Made Well House so it can flourish and ultimately for our families to flourish.

Thank you for your time.

Sincerely,

Hailey Abraham, CPA
Texas A&M University '17

Howdy!

Please consider the rezone for madewell house. I am a Bryan resident and love coming here weekly. This place has been a place of community and health to me. This place is beneficial to the greater Bryan community as well.

Thank you.
